Revision Highlights

Revision: Rev 37, 25 May 2026	
Section Number	Description of Change
0.3.4.1 Definitions	Definitions updated
0.3.4.2 Abbreviations	Abbreviations updated
2.1.1 Check-in Experience	Check-in Experience updated
2.3.11 UK iAPP Response Codes	UK iAPP codes added
2.4.6.1 Seat blocking – Inventory Impact	Additional requirements for blocking/unblocking seats
2.4.7 Check-In Process Flow	Valid contact details to be added
2.4.13.1 Airport Process- Guest Acceptance	Special characters update
2.4.15.1 EY to EY operated	Collection of excess baggage applicable
2.4.17.6 Riding Engineer	“P” type seat block for Riding Engineer in Business
2.4.21.2 QwikSilver	QwikSilver voucher service process
2.5.4.5 Etihad Staff holding Etihad Guest Card	Staff travel tickets ineligibility for Etihad Guest loyalty benefits
2.6.3 Regrade Process	Regrade Process added
2.6.4 Processing of Staff Travellers with Confirmed Reservation	Confirmed and standby staff tickets linking
2.6.7 Standby Staff Acceptance	Standby Staff Acceptance at check in counter
2.6.7.1 Standby Transfer Baggage	Allocation of baggage type loading
2.6.8 Staff Travel Priority Code	Staff Travel Priority Codes updated
2.7.1.1 Exit Row Seating Eligibility	Requirement for ABP at Self-Help Emergency Exit
2.7.2 Car Seats in the Cabin	Special Needs Car Seats and Approved Car Seats for Cabin Use labels

Revision: Rev 37, 25 May 2026	
Section Number	Description of Change
2.7.3 Special Needs Restraint Devices	Types of Special Needs Restraint Devices updated
2.7.7 Economy Neighbour Free Seats	Guest eligibility updated
2.7.9 Crew Rest Seats	Crew Rest Seats for flights to/from CLT
2.8.4.1 Operational Upgrade - The Residence	Process update for operational upgrade
2.12.6 Reporting	Email address updates
3.2 CONDITIONS OF CARRIAGE	Conditions of Carriage Link updated
3.4.6.1 Prepaid Excess Baggage	Prepaid Excess Baggage conditions and values updated
3.5.1 Security of Stationery	Priority, Group, Residence Transfer Baggage, Electric Mobility Aid (EMA) and Unaccompanied Minor (UM) Tag images updated
3.7.2 Carriage of Human Remains and Animal (Pet) Remains	Carriage of Human Remains and Animal (Pet) Remains process updated
3.8.4 Pets (Cats & Dogs) in the Cabin	Pets (Cats & Dogs) in the Cabin acceptance updated
3.8.4.2 Reservation	Pets in Cabin reservation and email addresses updated
3.8.4.6 Acceptance at the Airport	Acceptance at the Airport Acceptance Check List updated
3.8.9.1 Seat Segregation Requirements	Seat Segregation Requirements updated
3.8.9.2 Prohibited routes	Falcon Prohibited routes acceptance updated
4.1.2.3 Guest Contact Information	Guest Contact Information process updated
4.1.2.4 Disruption Communications	Disruption Communications updates
4.1.9 iCoupon - Electronic Meal Vouchers	iCoupon - Electronic Meal Vouchers process added

Revision: Rev 37, 25 May 2026

Section Number	Description of Change
4.2 FLIGHT DELAYS, DENIED BOARDING, DOWNGRADES & UPGRADES	Flight Delays, Denied Boarding, Downgrades & Upgrades and UAE Welfare Programme (PWP) process and conditions updated
4.8 UNSERVICEABLE SEATS	Unserviceable Seats updates
5.1.1 Boarding Experience	Boarding Experience process updated
5.6 CABIN BAGGAGE CHECKS AT BOARDING GATE	Cabin Baggage Checks at Boarding Gate updated
5.17.1 Retrieving lost items after physical boarding in Abu Dhabi	Retrieving lost items after physical boarding in Abu Dhabi process updated
6.1.5.1 Complaints Resolution Official (CRO)	Complaints Resolution Official (CRO) process updated
6.1.12.2 Carriage and Usage Rules for CPAP and BIPAP	Carriage and Usage Rules for CPAP and BIPAP seat power adaptors requirements and aircrafts with power battery requirements added
6.2.1 Infants	Infants' acceptance requirements
6.4.6 Person in the custody of law enforcement personnel (PLE) (GOM 10.2.4.6)	Person in the custody of law enforcement personnel (PLE) process added
7.1 OVERVIEW	Baggage Overview updates
7.1.1 Types of Mishandled Baggage	Types of Mishandled Baggage and process updated
7.4.3 Secondary Tracing Period, Tasks and Responsibilities	Secondary Tracing Period, Tasks and Responsibilities revised
7.6 FAULT STATION	Fault Station process updated
7.6.2 Courtesy AHL	Courtesy AHL process updated
7.7 BAGGAGE DISRUPTION	Baggage Disruption process updated
7.7.4 Rush Bags	Rush Bags from Network Airports process revised
7.11 MISHANDLED CREW BAGGAGE	Mishandled Crew Baggage process revised

Revision: Rev 37, 25 May 2026

Section Number	Description of Change
7.14 EMAIL ADDRESSES AND CONTACT INFORMATION	Email Addresses and Contact Information updated
7.15 GUEST LETTERS	Guest Letters process updated
7.16 ON HAND (OHD) PROCESS	On Hand (OHD) Baggage process updated
7.17 WORLD TRACER ELEMENTS	World Tracer Elements process updated
7.18.3 Transport/Delivery Invoices	Transport/Delivery Invoices process updates
8.6.1 Eligibility	Lounge Eligibility revised
8.11.1 Lounge Boarding Pass Indicators	Lounge Boarding Pass Indicators table added
8.12 LOUNGE CLOSURE AT NETWORK AIRPORTS	Lounge Closure at Network Airports process updated
9.4 REINSTATING MISCONNECTED / INCORRECTLY OFFLOADED GUESTS	Reinstating Misconnecting Misconnected / Incorrectly Offloaded Guests process updated
9.9.1.7 USCBP Immigration Area	USCBP Secondary Processing Area (SPA) – Boarding Pass Reprint process updated
9.9.2.2 US Regulatory Message	US Regulatory Message process revised
9.19 GUEST SERVICE CENTRE	Guest Service Centre responsibilities updated
9.20 HOME CHECK-IN SERVICE	Home Check-In Service availability revised
9.25.1 Eligibility	First Meet & Assist (AUH) reporting and contact information updated
9.26 PRM AND PWD BOARDING, ARRIVAL AND TRANSIT HANDLING	PRM and PWD Boarding, Arrival and Transit Handling process updated
9.27 HUB DIGITAL NAME BOARD	HUB Digital Name Board name boards usage guide added
9.28.1 Group Boarding Layout	Boarding Management. Crew boarding pass checks, gate readiness and boarding requirements, and Diamond Lounge boarding and disembarkation process added

0.1 INTRODUCTION

The Etihad Airways Guest Services Manual (GSM) is written in compliance with applicable regulations issued by the General Civil Aviation Authority (GCAA) and the terms and conditions contained in the Etihad Airways' Air Operators Certificate (AOC) and associated Operations Specifications (Ops. Specs). It also takes into consideration other industry standards and best practices.

The GSM is produced by Etihad Airways Ground Operations department. It contains and reflects Etihad Airways' latest technical data, limitations, the most accurate operational policies, instructions, information and procedures required to maintain compliance with the applicable rules, laws, regulations and compliance with internal standards whilst ensuring a safe, secure and efficient operation.

In conjunction with the Ground Operations Manual (GOM), the GSM defines all operational policies, procedures, instructions and guidance necessary for Etihad Airways and ground handling service provider personnel to perform their duty as needed for a safe, secure and compliant operation.

All employees involved in the preparation, planning, handling or conduct of passenger handling operations, including Etihad Airways and ground handling service provider personnel shall be thoroughly conversant with the latest contents of the GSM, shall comply with laws, regulations and procedures contained herein, and shall comply with the regulations of those States in which operations are conducted.

This manual is the property of Etihad Airways.

0.1.1 Jurisdiction of the GSM

The Guest Services Manual (GSM) and appendices is the **binding instruction** for passenger handling for Etihad Airways.

Any reference to ETIHAD or EY shall be read as applicable to Etihad Airways.

0.1.2 Guest Services Manual Structure

The Guest Services Manual comprises the following chapters:

- 0 Introduction
- 1 Guest Experience Guidelines
- 2 Guest Acceptance
- 3 Baggage Acceptance
- 4 Disruption Management
- 5 Boarding Management
- 6 Special Categories of Passengers (SCPS)
- 7 Baggage Services

8 Lounges

9 AUH Hub Local Operating Procedures

0.1.3 Guest Services Bulletins (GSBs)

GSBs are issued to publish the following:

- a. temporary operational and/or administrative information, and/or
- b. amendments to safety or security-related information, and/or
- c. procedural instructions that require immediate publication prior to a standard Amendment

GSBs are issued between GSM revisions and shall be treated as current policy. If any content of a GSB conflicts with the GSM in any way, the applicable content in the GSB shall be followed.

Where any content of a GSB affects or conflicts with information published in the GOM, an equivalent Ground Operations Bulletin (GOB) shall also be issued.

GSBs are numbered according to the year of issuance. Within each year, they are numbered according to the sequence of issuance, e.g. GSB 21-001.

GSBs typically expire within 90 days (depending on the circumstances), after which the contents are either migrated to the GSM or are deleted.

0.1.4 Ground Operations Messages (GOMES)

GOMES are sent via e-mail to applicable audiences to communicate non-operational and non-critical matters.

0.1.5 Other Communications

Other types of communication may be issued by Ground Operations for information and guidance purposes, and to reinforce existing policies, procedures and initiatives.

0.2 RESERVED FOR FUTURE USE

0.3 THE GUEST SERVICES MANUAL (GSM)

0.3.1 Scope of the Guest Services Manual (GSM)

This GSM, revisions and temporary revisions shall act as the primary means of communication that enables and ensures an effective exchange of information that is relevant to the conduct of passenger handling. Together they ensure that an exchange of information occurs throughout the ground operations management system and amongst operational personnel.

Nothing contained in this manual shall preclude personnel from acting in their own best judgement in cases of emergency or during any irregularity for which no provisions have been made.

This GSM applies to all genders. It is written with the intention of being gender neutral regardless of gender specific language. References in the text are made to the masculine gender only as a matter of simplification.

The following terms shall have the meaning as outlined below:

Shall	Means that the application of a rule or procedure or provision is mandatory.
Should	Means that the application of a procedure or provision is recommended.
May	Means that the application of a procedure or provision is optional.

0.3.2 (Reserved for future use)

0.3.3 Document Hierarchy

The OM-A is the master operational document for all flights operated by Etihad Airways. If discrepancy exists between the OM-A and any other operational document, the policies, procedures and regulations contained within the OM-A override all other procedures and regulations in conflict apart from those documented in Temporary Revisions (TR) issued to the OM-A.

The GSM forms part of the Operations Manual (OM) and is the primary operational document for passenger handling operations for Etihad Airways. If any discrepancy exists between the GSM and any other Ground Operations documentation, the policies, procedures and regulations contained within this manual override all other procedures and regulations in conflict, apart from those documented in OM-A, GOM and/or TRs issued to the OM-A, GOM and this manual.

0.3.4 Definitions and Abbreviations

0.3.4.1 Definitions

Accompanied Hold Baggage

Baggage which is accepted for carriage in the hold of an aircraft on and which is checked in by the passenger who is on board.

Accompanying Person

An adult who is travelling with a minor. This person will not necessarily be the parent or legal guardian of the minor.

It is to be noted that this definition might need to be applied in light of any obligation resulting from the application of national regulations on border checks.

Act of Unlawful Interference

These are acts or attempted acts such as to jeopardize the safety of civil aviation, including but not limited to:

- unlawful seizure of aircraft
- destruction of an aircraft in service
- hostage-taking on board aircraft or on aerodromes
- forcible intrusion on board an aircraft, at an airport or on the premises of an aeronautical facility
- introduction on board an aircraft or at an airport of a weapon or hazardous device or material intended for criminal purposes

- use of an aircraft in service for the purpose of causing death, serious bodily injury, or serious damage to property or the environment
- communication of false information such as to jeopardize the safety of an aircraft in flight or on the ground, of passengers, crew ground personnel or the general public, at an airport or on the premises of a civil aviation facility.

Additional Crew Member (ACM)

Any person in addition to the flight and cabin crew who is required onboard for the conduct of the flight. Such persons are typically any of the following:

- Inflight security escorts (IFSE)
- Loadmaster
- Aircraft Dispatcher – when operating in the capacity of a Loadmaster

An additional crew member is not considered as a supernumerary.

Advance Passenger Information (API) System

An electronic communications system whereby required data elements are collected and transmitted to border control agencies prior to flight departure or arrival and made available on the primary line at the airport of entry.

Aircraft Dispatcher

The specific job title of the person responsible for turnaround coordination in AUH.

See also ***Person responsible for turnaround coordination***.

Aircraft Operators' Documents

Air waybills and consignment notes, passenger tickets and boarding passes, bank and agent settlement plan documents, excess baggage tickets, miscellaneous charges orders (MCO), damage and irregularity reports, baggage and cargo labels, timetables and weight and balance documents, for use by aircraft operators.

Airside

The movement area of an airport, adjacent terrain and buildings or portions thereof, access to which is controlled.

Altéa CM

Amadeus Altéa Customer Management.

APM or Delegate

'APM or delegate', where used in this manual, refers to the applicable of the following:

- Network Airports:
 - Airport Manager (APM)
 - Duty Supervisor (DS) – refer to separate definition
- AUH Hub:

- Director Airport and Ground Operations
- Senior Manager Hub Operations
- Senior Manager Hub Ground Operations
- Hub Operations Managers
- Ground Operations Duty Managers

Authority

The competent body responsible for the safety regulation of civil aviation in the State of the applicant or operator. In the context of this manual, 'Authority' shall be referenced to the 'GCAA'.

Auto - Boarding

Automatic commencement of boarding at a defined time per aircraft and gate type, provided all of the conditions within the associated procedures are met.

Baggage

Personal property of passengers or crew carried on an aircraft by agreement with the operator.

Behaviour Detection

Within an aviation security environment, the application of techniques involving the recognition of behavioral characteristics, including but not limited to physiological or gestural signs indicative of anomalous behaviour, to identify persons who may pose a threat to civil aviation.

Bomb Threat

A communicated threat, anonymous or otherwise, which suggests, or infers, whether true or false, that the safety of an aircraft in flight or on the ground, or any airport or civil aviation facility or any person may be in danger from an explosive or other item or device.

Cabin crew member

An appropriately qualified crew member, other than a flight crew or technical crew member, who is assigned by an operator to perform duties related to the safety of passengers and flight during operations.

Cargo

Any property carried on an aircraft other than mail, stores and accompanied or mishandled baggage. (**CAR-DEF:** The term air cargo is also used in a broader sense by the airline industry to mean any property (freight, express and mail) transported by air except baggage).

Check In

The process of reporting to an aircraft operator for acceptance on a particular flight.

Check In Position

The location of facilities at which check in is carried out.

Code Share

An arrangement under which an operator places its designator code on a flight operated by another operator and sells and issues tickets for that flight.

Commander

| Refer to Pilot in Command

Co-pilot

| A member of the flight crew acting in any piloting capacity, other than as pilot-in-command or commander.

Crew member

| A person assigned by an operator to perform duty on an aircraft.

Customer Product Record (CPR)

Altéa CM table that contains ticket information such as baggage allowance and EMD details.

Customer Product Table (CPT)

Altéa CM table that contains guest and itinerary information such as itinerary, seat number, booked cabin and number of checked bags.

Dangerous Goods

Articles or substances which are capable of posing a hazard to health, safety, property or the environment and which are shown in the list of dangerous goods in the technical instructions or which are classified according to those instructions.

Deportee

A person who had legally been admitted to a State by its authorities or who had entered a State illegally, and who at some later time is formally ordered by the competent authorities to leave that State.

Direct Transit Area

A special area established in an international airport, approved by the public authorities concerned and under their direct supervision or control, where passengers can stay during transit or transfer without applying for entry to the State.

Disembarkation

The leaving of an aircraft after a landing, except by crew or passengers continuing on the next stage of the same through-flight.

Disinfection

The procedure whereby health measures are taken to control or kill infectious agents on a human or animal body, in or on affected parts of aircraft, baggage, cargo, goods or containers, as required, by direct exposure to chemical or physical agents.

Disinsection

The procedure whereby health measures are taken to control or kill insects present in an aircraft, baggage, cargo, containers, goods and mail.

Disruptive Passenger

| Refer to Unruly Passengers

Duty Supervisor

Duty Supervisor (DS), where used in this manual, refers to any of the following, as applicable at the specific airport:

- EY network airport position of Duty Supervisor, or Duty Manager
- Onboarded supervisory personnel of the GHA or other service provider, where the applicable service provider is contracted to perform operational supervision and administrative functions normally performed by the airline. This function is internally referred to as 'Flight Supervisor'. Refer to the separate definition of Flight Supervisor.
- EY Hub airport position of Hub Operations Manager or Ground Operations Duty Manager.
- Velora Hub airport position of Duty Operations Manager.
- At airports planned as short-term passenger flight operations in accordance with GOM 1.2.9., the 'Dedicated Supervisor' as described in GOM 1.2.9.

NOTE

1. Tasks may be delegated on the day of operation at the discretion of the DS.
2. At airports where the job title Duty Manager is in use in line with local requirements, all responsibilities and functional requirements of the DS defined in this manual and in the DS job description shall apply to the Duty Manager.

Electronic Travel Systems (ETS)

The automated process for the lodgement, acceptance and verification of a passenger's authorization to travel to a State, in lieu of the standard counterfoil paper visa.

Embarkation

The boarding of an aircraft for the purpose of commencing a flight, except by such crew or passengers as have embarked on a previous stage of the same through-flight.

Emergency exit

An installed exit-type egress point from the aircraft that allows maximum opportunity for cabin and flight crew compartment evacuation within an appropriate time period and includes floor level door, window exit or any other type of exit, for instance hatch in the flight crew compartment and tail cone exit.

End User

An ultimate source and/or consumer of information.

Engineer

Unless specified otherwise, where the term Engineer is used in a policy or procedure, it shall apply to a local Engineer, on board (riding) Engineer or local Technician, as applicable to the location and function.

Escort

Refer to *In Flight Security Staff*.

Flight Crew

A licensed crew member charged with duties essential to the operation of an aircraft during a flight duty period.

Flight Supervisor (Onboarded Personnel)

At airports where operational supervision and administrative functions normally performed by the airline are outsourced to the appointed Ground Handling Agent (GHA) or other approved service provider (except as described in GOM 1.2.9.), the designated supervisory personnel of the appointed service provider with responsibility for ETIHAD operations shall go through the ETIHAD onboarding process. This involves the following, in accordance with Process Manual Ground Operations (PM-GO) 2.8:

- a. Submission of required documentation.
- b. Background security checks by applicable authorities.
- c. Subject to the required clearances for item (b), issuance of access to applicable ETIHAD systems and applications.
- d. Issuance of an ETIHAD contractor ID.

Personnel who have been through all of the above and are assigned to operational supervision and administrative functions on behalf of ETIHAD shall be internally referred to as a 'Flight Supervisor'.

Global Airports

Global Airports, where used in this manual, refers to all airports including Zayed International Airport (AUH) and Network Airports.

Freight

Refer to *Cargo*.

Ground Handling

Services necessary for an aircraft's arrival at, and departure from, an airport, other than air traffic services.

Inadmissible Person

A person who is or will be refused admission to a State by its authorities.

Such a person normally has to be transported back to their State of departure, or to any State where the person is admissible, by the aircraft operator on which he/she arrived.

In Flight Security Officer

A person who is employed and trained by the government of the State of the operator or by the government of the State of registration to be deployed on an aircraft with the purpose of protecting that aircraft and its occupants against unlawful acts of interference. This excludes persons employed to provide exclusive personal protection for one or more specific people travelling on the aircraft such as personal bodyguards.

In Flight Security Staff (also known as Inflight Security Escort)

EY staff or contracted personnel who are assigned to perform special tasks at the aircraft cabin of a specific EY flight of 'escorting' or monitoring certain individuals on board the flight for security reasons, assisting crew when called upon to impose restraint on unruly/disruptive passenger as approved by the PIC, maintaining vigilance in the cabin for suspicious activities, protecting the flight deck from unauthorized access, or protecting EY assets from vandals or theft.

Interactive API (iAPI) System

An electronic system that transmits, during check-in, Advanced Passenger Information (API) data elements collected by the aircraft operator to public authorities who, within existing business processing times for passenger check-in, return to the operator a response message for each passenger and/or crew member.

Interline Baggage

The baggage of passengers subjected to transfer from the aircraft of one operator to the aircraft of another operator in the course of their journey.

Jump Seat

A seat located at the rear of the flight deck and/or in the cabin or cargo compartment for use by crew members, supernumeraries, task specialists, observers or other approved persons.

Landside

1. That area of an airport and buildings to which both travelling passengers and the non-travelling public have unrestricted access.
2. Those parts of an airport, adjacent terrain and buildings or portions thereof that are not airside, as identified by Airport Operators and relevant entities in their security programs.

Loadmaster

A loadmaster is an appropriately qualified additional crew member other than flight or cabin crew who is assigned to perform loading and unloading duties, mass and balance calculations and safety duties on board freighter aircraft.

Mishandled Baggage

Baggage involuntarily, or inadvertently, separated from passengers or crew.

Network Airports

Network Airports, where used in this manual, refers to airports other than Zayed International Airport (AUH).

Operator

A person, organisation or company engaged or intending to engage in an aircraft operation. In the context of this manual, the Operator shall be referenced to as Etihad Airways.

Passenger

A person other than a crew member travelling or about to travel on board of an aircraft.

For the purpose of passenger classification:

- a. 'adult' means a person of an age of 12 years and above;
- b. 'child/children' means persons who are of an age of two years and above but who are less than 12 years of age;
- c. 'infant' means a person under the age of two years.

Passenger in the custody of law enforcement (PLE)

Is a passenger who is accompanied or escorted by law enforcement personnel other than a DEPA, EINAD or EMDP.

Person responsible for turnaround coordination

The responsibilities of the person responsible for turnaround coordination are described in GOM 4.2.3.

The specific job title of the person performing this function varies between airports and companies, therefore where this term is used within this manual, it shall be considered as applicable to both AUH and network airports, unless specified otherwise.

In AUH, the person performing this function has the job title of Aircraft Dispatcher. For requirements or procedures that are specific to AUH, the term Aircraft Dispatcher may therefore be used within this manual.

Pet

A domesticated dog or cat transported as cargo or passenger baggage.

See also Pet in Cabin, which is further restricted.

Pet in Cabin

A domesticated dog or a cat in a travel bag or carrier not exceeding a combined weight of 8 kg, carried in the passenger cabin.

Pilot in Command (PIC)

The pilot designated by Etihad Airways to be in command of the aircraft and charged with the safe conduct of the flight; for the purpose of commercial air transport operations, the PIC is also referred to as the commander.

Portable Electronic Device (PED)

Any kind of electronic device, typically but not limited to consumer electronics, brought on board the aircraft by crew members, passengers, or as part of the cargo, that is not included in the configuration of the certified aircraft. It includes all equipment that is able to consume electrical energy. The electrical energy can be provided from internal sources such as batteries (chargeable or non-rechargeable) or the devices may also be connected to specific aircraft power sources. Examples of PEDs are: laptops, mobile phones, iPads, tablets, radios, toys containing batteries, wrist watches, nicotine inhalers, e-cigarettes, shavers, etc.

Removal of a Person

Action by the public authorities of a State, in accordance with its laws, to direct a person to leave that State.

Removal Order

A written order served by a State on the operator on whose flight an inadmissible person travelled into that State, directing the operator to remove that person from its territory.

Security Management System (SeMS)

Communication and management tool of Etihad Airways for all its security and security-related incidents including acts or suspected acts of unlawful interference.

Shared Drive

Etihad virtual (electronic) network used as a repository of electronic files (examples: S:/drive, OneDrive, SharePoint).

Supernumerary

Any person in addition to the flight and cabin crew who is not essential for the conduct of the flight and is not classified as a passenger. Such persons are typically any of the following:

- Non-type rated crew members
- Cabin crew on familiarisation flights
- DG handler
- Authority Inspector
- Internal Auditor
- LOSA observer
- Animal Handler
- Flight Dispatcher (FOO)
- Cargo/mail courier
- Riding Engineer

Terminal

The main building or group of buildings where the processing of commercial passengers and cargo, and the boarding of aircraft occurs.

Transfer Passengers/Baggage

Passengers/baggage making direct connections between two different flights.

Transit Passengers/Baggage

Passengers/baggage departing the airport on the same flight on which they arrived.

Travel Document

A passport or other official document of identity issued by a State or organisation, which may be used by the rightful holder for international travel.

Unaccompanied Minor (UM)

A minor travelling alone or travelling only in the company of another minor.

Unclaimed Baggage

Baggage that arrives at an airport and is not picked up or claimed by a passenger.

Unidentified Baggage

Baggage at an airport, with or without a baggage tag, which is not picked up by or identified with a passenger.

Unruly Passengers

Persons who commit, on board a civil aircraft, from the moment when the aircraft door is closed prior to take-off to the moment when it is reopened after landing, an act of:

- Assault, intimidation, menace or wilful recklessness which endangers good order or the safety of property or persons
- Assault, intimidation, menace or interference with a crew member in the performance of duties or which lessens the ability to perform duties
- Wilful recklessness or damage to an aircraft, its equipment, or attendant structures and equipment such as to endanger good order and the safety of the aircraft or its occupants
- Communication of information which is known to be false, thereby endangering the safety of an aircraft in flight; and
- Disobedience of lawful commands or instructions for safe, orderly or efficient operations.

NOTE

Until the transition to CAR-AIR OPS is complete and all manuals are aligned with the new terminology used in CAR-AIR OPS, the term Nominated Person (NP) may still be reflected as Nominated Post Holder (NPH).

0.3.4.3 Phonetic Alphabet & Numbers

When verbal communication is used it is critical that the combination of letters and numbers are pronounced and understood by those who transmit and receive voice messages by radio, telephone or in person, regardless of their native language. The ICAO phonetic alphabet and numbering system shall be used by all parties when involved in the aircraft turnaround and other aircraft and passenger handling activities.

Alphabet	
A	Alfa
B	Bravo
C	Charlie
D	Delta
E	Echo
F	Foxtrot

7	Sev en
8	Ait
9	Nin er
Decimal	Day see mal
Hundred	Hun dred
Thousand	Thou sand

NOTE

Numbers shall be communicated and reported as single figures.

0.4 GSM APPROVAL

The GSM is issued on the authority of the NPH Ground Operations, who shall authorise all amendments and revisions.

0.5 GSM FORMAT

The format and standards which control the structure and preparation of the GSM will be administrated and controlled by the Flight Operations Documentation team.

The GSM will be administered and controlled in accordance with PM-ORG Chapter 2.1. The content within the GSM is presented and distributed in a functional, usable format that can be used without difficulty, observes human factors principles and meets the needs of ground operations personnel.

0.5.1 Title

The GSM contains a Title Page, a Table of Contents, a List of Manual Revisions, and a List of Temporary Revisions.

The Title Page of the manual shall contain the name of the manual, the revision number and the revision date of the manual.

0.5.2 Indexing

This manual is then divided into consecutively numbered chapters plus appendixes. Each chapter may be broken down further into sections and subsections. The first page number of each section shall continue from the previous section, and be numbered consecutively thereafter.

0.5.3 Pagination

Each page includes the name of the chapter, the number of the chapter/section, a page number, the revision date of the manual.

0.5.4 Manual Language

The entire manual, its amendments and information contained in its subparts is type written and published in English and presents a simple, legible and accurate format which is intended to be fully understood by ground operations personnel.

0.6 SYSTEM OF AMENDMENT AND REVISION

The GSM is periodically reviewed and a complete revision is planned every April and October (or earlier if required), capturing all amendments and revisions required by the GCAA and latest company requirements, ensuring its continuing suitability, adequacy and effectiveness in the management and control of ground operations, in conjunction with the GOM.

Instructions and information contained within the GSM shall correctly reflect the source document, be accurate and up to date. The GSM is amended through a system of complete revisions and temporary revisions.

0.6.1 Complete Revision

A complete revision to the manual will be published at the end of a corresponding publication cycle (typically April/October). The new revision will cover permanent changes which have been sanctioned, consolidate temporary revisions, addition of new data and enhancement layout of particular pages (or sections) within the manual.

0.6.2 Temporary Revision (TR)

A TR communicates any changes to the content of the GSM, which require immediate dissemination of information, in-between manual publication cycles. A TR to the GSM will be published when content changes due to the following:

1. The changes are of a temporary nature; or
2. The changes are required immediately.

TRs are controlled in the same manner that the GSM is controlled and each one shall include the chapter number and title, the words 'Temporary Revision', the page number, revision number with the letters '**TR**' and the date.

TRs overrule the permanent content of the GSM as long as they remain valid. All TRs are considered valid until revoked or incorporated into the next publication cycle of the GSM.

When a Temporary Revision (TR) is issued, a notation shall be made in the List of Temporary Revisions.

0.6.3 Annotation of Changes

When a complete revision is published or a TR is issued, all revised text will be indicated by a vertical change bar | appearing in the left or right of the paragraph where the change was applied.

0.6.4 Hand Written Amendments

Hand written amendments to the GSM are not permitted.

0.6.5 Obsolete Documents

Writing, control, distribution and revision of Etihad Airways approved documents for use in the conduct or support of ground operations is controlled in accordance with PM-ORG Chapter 2.1.

The ETIHAD SharePoint and ShareFile contain only the current versions of documentation to be used in the conduct or support of ground operations. Obsolete documents are deleted from the ETIHAD SharePoint and ShareFile by ETIHAD Ground Operations.

0.6.6 Proposal of Amendment

To facilitate change proposal to the GSM a 'Change Request' form is available in the Flight Operations Documentation Team SharePoint page. A change request initiates a multi-step in-house documentation amendment process. Every employee shall use the form to identify and forward incorrect, missing, confusing, duplicated or misinterpreted content of any operational documentation.

All Change Requests will be reviewed and assessed by the manual owner and if relevant and applicable to Etihad Airways operations, the proposed change will be reviewed by applicable stakeholders and, where required, subject to risk assessment. Where the change is accepted, it will be incorporated into the manual.

Any accepted proposal shall be subject to a compliance check and shall be sent to Safety & Quality for approval prior to implementing the change.

0.7 MANUAL DISTRIBUTION

The GSM distribution falls under the responsibility of the Ground Operations Policy team which ensures that the GSM is readily available to all operational personnel and that all users have easy access to the manual.

The method of distributing the GSM is by electronic means.

The Flight Operations Documentation team shall distribute the latest revision of the GSM to the Safety & Quality team and the Ground Operations Policy team prior to its effective date.

When released, new revisions shall be uploaded to the Etihad Airways Safety & Quality SharePoint.

The Ground Operations Policy team shall ensure that the GSM is also made available to Etihad Airways personnel as well as non-Etihad Airways personnel who may be authorised to carry out functions on behalf of Etihad Airways (e.g. ground handling service provider personnel).

The Ground Operations Policy team shall upload the GSM to the following platforms:

- SharePoint
- ShareFile

This manual, its subparts, appendices and associated documentation shall be accessible, unless specified otherwise, in a format suitable for operational reference at each location where cargo and dangerous goods handling operations are conducted.

Access shall be restricted to Etihad and contracted service provider personnel involved in the conduct or support of ground handling for Etihad Airways.

Refer to GOM 0.7.1 for further information.

0.8 BACKUP OF ELECTRONIC MANUAL

The backup of electronic documentation includes the backup of electronic repositories, used in the support of operations. Backups of all the electronic platforms are performed daily in accordance to corporate process defined in PM-ORG and are the responsibility of the IT department.

0.9 COMPANY OFFICIAL LANGUAGE

The official company language for Etihad Airways is English. All Etihad Airways operational personnel shall be able to effectively communicate in the company's official language during the performance of operational duties; and understand information in the GSM pertaining to their respective duties and responsibilities.

All communication exchanges between ground personnel, flight crew and cabin crew whilst conducting operational activities shall be conducted in English.

0.10 SAFETY ADVICE

The absence of safety advice does not indicate that there is no risk of injury or damage. All activities on the ramp and around the aircraft shall be performed with special attention and caution.

DANGER

Represents a personal danger for the person, which may include serious injury or loss of life.

CAUTION

Represents a general caution.

1.1.11	Understanding Human Trafficking.....	5
1.1.12	Communication Devices Etiquette.....	5

1.1 OVERVIEW

This chapter of the GSM focuses on the procedures applicable to delivering guest experience at every guest touchpoint.

1.1.1 Communicating Accurate Information

It is important that guests are continuously informed of any change which may have an effect on the status of their flight. Additionally, care shall be taken to ensure that the information communicated to guests is accurate.

It is important to note:

- “Airline speech / jargon” as in using airline terminology to our guests causes confusion and should not be used
- Speak to our guests either in English or in their mother tongue
- The initial impression guests obtain of Etihad is generally lasting and would no doubt have an important bearing on any future business relationships
- Be aware that your body language will be observed by the guest and it's important to project a positive reflection

1.1.2 Assistance to Guests

The points of engagement at each of the guest touchpoints shall be delivered confidently, efficiently and in a courteous manner, which will create the perception of remarkable service and professionalism.

1.1.3 Appearance

Staff must adhere to the company dress code regulations. Refer to iStyle on the Etihad SharePoint site for further details. Our GHA partners must also maintain grooming standards on a par with the EY iStyle grooming guide.

1.1.4 Communication Etiquette

A critical part of any brand is its tone of voice, i.e. the words and phrases used in communication.

Every communication, however small, can make a difference to the way Etihad is perceived.

The basic principles of good business communication are:

- Greet the guest with courtesy and professionalism
- Use the guests name once known
- Speak to our guests in a conversational way that makes them feel at home with us
- Even in internal communications refer to the three brand classes as First, Business and Economy
- Do not eat or drink whilst communicating with a guest
- Be engaging in your communication – the guest should feel that you understand and wish to deliver their individual requirements
- Respect cultural differences and never be patronising

1.1.5 Furnishing of Information to Members of the Public

Staff should not:

- Comment on internal issues relating to Etihad Airways as such comments can sometimes impact negatively on Etihad
- Divulge information relating to guest reservations e.g. specific flight details, as this is deemed to be a breach of security and guest confidentiality
- Comment on security matters in the presence of guests or members of the public.
- Make photocopies of Etihad documentation, in particular air tickets and guest name records (PNR)
- Make copies of guest tickets when requested by the guest unless applicable identity documentation is provided

1.1.6 Handling of Guest Data

It is extremely important that Etihad staff and our service providers are aware of the policies and procedures around the handling of personal information relating to our guests.

All staff must adhere to the following:

- Do not take photographs or screenshots of forms, system records or other sources of data relating to guests, their personal information or special requirements
- Do not use personal devices, personal email accounts, messaging (Whatsapp, Viber, Facebook Messenger and similar) or social media applications to handle or communicate data relating to guests, their personal information or special requirements

The above list is not exhaustive. Etihad must ensure compliance with all international and local data protection laws and regulations at all locations where we operate.

1.1.7 Personal Guest Data Requests

1.1.7.1 Requests from Foreign / Government Authorities or Third Parties

Foreign / government authorities and/or third parties (e.g. Federal Police, Criminal Investigation Department) may request for personal guest data from Etihad for official purposes.

When a request is made, the Airport Manager / Duty Supervisor / Delegate shall create a SeMS report and ensure the official letter written by the authority/third party is uploaded onto SeMS. The official letter must state the reason for the request and be signed. If a request is received in a language other than English or Arabic, the Airport Manager / Duty Supervisor / Delegate will be required to provide an unofficial translation of the request on SeMS.

Threat Assessment Centre (TAC) will review the report and letter and will assign the SeMS to Ethics & Compliance team for approval. For any urgent requests related to incidents during weekends and/or out of office hours, TAC will then assign the SeMS to Manager TAC & Risk Manager for approval.

Personal data requests from foreign / government authorities or third parties must be processed within 4 days from the date of travel. Any request received after this time shall be handled via post claim.

1.1.7.2 Requests from Health Authorities

If a request is received from authorities for health contact tracing the following shall apply:

- Validate the authority is responsible for contact tracing in the relevant country and that the reason for the request is mentioned
- Validate the information that the authority is requesting (should only be names, contact information e.g. telephone numbers, emails, addresses and seat numbers on the relevant flight)
- Validate the request is limited to the Etihad flight into the country making the request

Upon meeting the above criteria, the Airport Manager / Duty Supervisor / delegate shall email their respective Regional Manager to approve the request. Once approved, the request shall be recorded in SeMS which shall also show the approving manager's authorisation.

In the event of an Airport Manager being notified by local health authorities that a guest is confirmed as having travelled with a communicable disease, Airport Managers may be requested to provide the passenger manifest or similar details. Airport Managers are not permitted to provide guest information without seeking prior approval.

The Airport Manager shall immediately request a stamped and signed submission from the local health authority to Etihad Airways outlining the required information.

Only once such submission has been received, the Airport Manager shall send this submission by email to the Data Privacy Office, copying in NOC on the following email IDs:

- Data Privacy Office (dataprivacy@etihad.ae)
- Network Operation Centre (NOC@etihad.ae)

In such cases whereby an official letter cannot be received, the Data Privacy Office will assess the request on a case-by-case basis. Requests from Health Authorities will be prioritised by the Data Privacy Office.

If the submission has been approved by the Data Privacy Office, a notification will be sent directly to NOC and the Guest Control Duty Manager who will provide the passenger manifest/requested guest information to the relevant Airport Manager. The Airport Manager is responsible for promptly providing the requested information to the local health authority.

Should a request be received outside of UAE office hours (Weekends & Public Holidays), Airport managers shall notify the NOC Duty manager who will escalate to the Data Privacy Office via mobile.

SeMS report shall be created and all required documentation shall be uploaded.

1.1.8 Guest Feedback

Guests who wish to contact Etihad regarding a compliment, comment or complaint shall be advised to contact Guest Relations via etihad.com/feedback

Internal Feedback may be used by staff wishing to proactively provide feedback related to a guest complaint. It must never be shared with any commercial guests.

The internal feedback link is available from EYSharePoint site.

1.1.9 US Customer Service Plan

In line with United States Department of Transport regulations, our Customer Service Plan is available on our US website and can be accessed by our guests via the below link:

Customer Service Plan

<https://www.etihad.com/en-us/legal/terms-and-conditions-us/customer-service-plan>

1.1.10 Canadian Passenger Protection Regulations

In line with Canadian Transport Agency regulations, our Canadian Passenger Protection notice is available on our Canadian website and can be accessed by our guests via the below link:

Canadian Passenger Protection

<https://www.etihad.com/en-ca/legal/the-canadian-passenger-protection/>

1.1.11 Understanding Human Trafficking

Guest facing employees can be an important source of information for the relevant authorities when they are able to identify the signs of trafficking.

It is important to act with care and make every effort to avoid causing harm to themselves or to the possible victim.

If there is a suspected case, a proper detailed assessment of the situation is necessary before any response can be initiated.

- Check without being noticed (being discreet) for any potential trafficking signals
- Ask colleagues to check as well
- Assess whether the person tries to establish eye contact or avoids looking at you
- Try to initiate informal conversation
- Act normally
- Do not confront the guests
- Note seat number and passenger names or PNR
- If accompanied, note if companion is nervous, prevents the person from answering questions, is rude or evasive
- Assess the situation with colleagues and Duty Manager
- Be cautious and **DO NOT** try and act on behalf of law enforcement
- Assess the level of threat and follow the advised procedures
- Staff shall report suspected cases to a Supervisor / delegate who will inform the relevant authorities, as applicable. Once this is completed, no other action is required.

1.1.12 Communication Devices Etiquette

Where communication devices such as Tetra Radios are used, it is essential to be familiar with the best practices of radios usage. Misuse or inefficient use of these may lead to misunderstandings, delays, and even safety risks.

The following outlines Do's & Don'ts and the recommended languages:

DO's

- Airport team members shall always use clear, concise, and professional language. Be precise with the message
- Ensure to keep the volume at a level where you can hear calls without disturbing others
- Start each transmission by calling first the person you would like to speak with and then your name
- Remember that communications can be monitored. Be respectful and professional in all communications
- To avoid confusion and similar sounding consonants, the ICAO standard phonetic alphabet is to be used where required
- Pronounce numbers each digit ie. EY017 should be pronounced as “EY Zero, one-seven”
- Flight numbers shall be pronounced with three- digits ie. EY1 will be “EY Zero-zero-one”

DON'TS

- Avoid non-operational messages to keep channels clear for operational communications
- Do not interrupt if another conversation is ongoing, unless it's an emergency
- Staff shall avoid talking at the same time
- Refrain from using offensive, derogatory, or inappropriate language
- Avoid setting the volume too high or too low, which can lead to missed or disruptive messages
- Never leave your radio unattended or with unauthorised personnel
- Do not attempt to modify or repair the radio without proper authorization and expertise

2.1 OVERVIEW

This chapter of the manual focuses on the procedures applicable to the processing of guests and their travel documentation during guest acceptance. In accordance with international aviation and government regulations, all guests travelling on international flights shall be in possession of:

- A valid air ticket
- Passport documentation
- Visa / Transit Visa (if required) – refer to TIM Manual / TIMATIC for specific details
- Health documentation (if required) – refer to TIM Manual / TIMATIC for specific details

It is the responsibility of guests to ensure that all travel documentation applicable to their journey is in order prior to presenting themselves for check-in. Should travel documentation be inadequate or appear inadequate, carriage shall be refused. Carrying guests to foreign countries with inadequate travel documentation leads to severe immigration penalties and such situations shall be avoided at all costs.

Guests are required to travel as per the itinerary shown in their ticket, from the place of departure via any agreed connecting points to their final destination and vice versa. If a guest breaks the sequence of flights, all unused flights shall be cancelled.

Refer to GOM Chapter 10.2.1.

2.1.1 Check-in Experience

The check-in experience shall provide a warm, efficient and personalised welcome, setting a positive first impression of the Etihad journey.

At check-in:

- Guests shall experience a professional, welcoming and well-presented environment.
- Guests shall be acknowledged while waiting and supported through the queuing process.
- Service shall be prioritised in line with guest entitlement and product offering.
- Interactions shall be friendly and personalised, using the guest's name wherever possible.
- Staff shall proactively offer assistance to support guests through the check-in experience.
- Travel documentation shall be handled respectfully and professionally.
- Guests shall be clearly informed of key journey information, including seat allocation, boarding time and next steps.
- The interaction shall conclude with a courteous and personalised farewell, thanking the guest for flying with Etihad.
- Guests traveling in First shall be supported and guided to the next touchpoint wherever possible.

2.2 TRAVEL AND HEALTH DOCUMENTATION

2.2.1 Travel Document Verification

Etihad shall take necessary precautions at the point of embarkation to ensure that guests are in possession of the documents prescribed by the States of transit and destination for control purposes as described in Chapter 3 of ICAO Annex 9 on Facilitation.

This function is regulated by the Provision of ICAO's SARPs (Standards and Recommended Practices) as follows:

- Annex 9 Facilitation, Chapter 3, Entry and Departure of Persons and their Baggage
- Annex 9 Facilitation, Chapter 5, Inadmissible Persons and Deportees
- Annex 17 Security, Attachments to Annex 17, Extracts from Annex 9

Verification of travel documents shall be done at the check-in counter and prior to boarding the aircraft. Additional checks may be done at any of the following points:

- Prior to check-in
- Prior to entering the holding area

2.2.1.1 Technical and Fraud

Etihad has developed methods and procedures for the verification of passenger travel. This also includes checking the integrity of the travel documents and employing a behavioural assessment approach to detect non-bonafide intentions and potential fraud in travel documents or impersonation with a borrowed document. Travel Document Verification process is segregated into two functional aspects:

1. Technical (Rules/Regulations)
2. Fraud

Technical is termed under inadequacy or insufficiency of the documentary requirement as per the regulation of the States of transit and destination. The Fraud element relies strongly on Human Factors.

Technical can be broadly categorised under:

- Passport – Expired
- Passport – Not valid for Entry/Transit
- Passport – Not abiding by annotation mentioned
- Visa – Expired
- Visa – Invalid
- Visa – Not abiding by annotation mentioned
- No Visa
- No Transit Visa
- No onward ticket/confirmation
- Combination of the above in the Passport and/or Visa
- Others (Technical)

Fraud can be broadly categorised under:

- Altered Document
- Counterfeit Document
- Fantasy/Fictitious Document

- Stolen Blank Document
- Improperly Obtained/Issued Document
- Impersonation
- Combination of the above in the Passport and/or Visa
- Others (Fraud)

2.2.1.2 Secondary Document Validation – Handling of Guest Travel Document

In line with Etihad's Conditions of Carriage and International Civil Aviation Organization (ICAO) Annex 9, the below outlines the standard procedure for capturing, transmitting, and handling photographs of guests' travel documents during the secondary validation process.

Photographs of guests' travel documents shall only be captured in the following circumstances:

- **Identity Verification:** When there is doubt or inconsistency in the travel documentation.
- **Authority Requests:** Supporting clarification requests from Government entities on document authenticity, visa/entry clearance
- **Partner Airline Queries:** Responding to technical queries from partner airlines (e.g., 3L, QP) regarding travel documentation
- **Fraud Prevention:** Safeguarding Etihad Airways from liability under ICAO standards, state immigration laws, and industry protocols.

2.2.1.2.1 Communication Channels

All photographs and related communication shall be transmitted exclusively via approved, secure channels:

- WhatsApp on official Etihad/Corporate numbers
- Official Etihad/Corporate email
- Microsoft Teams

Communication shall comply with Etihad's Data Protection and Acceptable Use policies. Unauthorised sharing or retention outside approved channels is strictly prohibited.

Non-compliance will be subject to investigation and disciplinary action.

2.2.1.2.2 Role and Responsibilities

Under ICAO Annex 9 and Etihad's Conditions of Carriage, it is a legal and operational requirement to verify and, where necessary, authenticate travel documents to prevent fraud, protect the airline from immigration fines, protect national borders and the security of our guests.

Below are the roles and responsibilities of team members permitted to transmit or receive photographs of guests' travel documents for verification:

Role	Responsibility
AUH – Velora Document Verification Unit, Team Leaders or delegate.	Performs photo capture and secondary validation on the Etihad/Corporate-provided device.

Role	Responsibility
Global Network – Etihad Duty Supervisor/Delegate	Conducts validation and transmits photo evidence.
Regulatory Compliance Unit	Receives photos for validation and passenger facilitation.

2.2.1.2.3 Approved Tools and Devices

Only Etihad/Corporate-issued duty mobiles or iPads are permitted for capturing and transmitting photographs of guests' travel documents.

Personal devices are **strictly prohibited** from being used for this purpose.

2.2.1.2.4 Travel Document Imaging Guidelines

Capturing images of guest travel documents is a sensitive process that carries both regulatory importance and significant security risks.

To safeguard against such risks, team members shall strictly adhere to the following table when capturing and transmitting travel document images.

Do's	Don'ts
- Partially obscure non-essential areas, provided the biodata remains visible - Capture only the relevant information as instructed	- Edit the image - Retake multiple images

2.2.1.2.5 Deletion and Retention

Travel document images are highly sensitive and shall not be stored longer than necessary. To protect our guests and Etihad from data misuse or privacy risks, team members shall adhere to the following:

Request Type	Retention Period
Standard RCU/Authority Enquiries	Photos shall be deleted immediately once the passenger is admitted at destination.
Suspected Fraud / Potential Document Destruction	Photos are retained 3–6 months as required for potential Government Authority follow-up.

2.2.1.2.6 Guest Communication

When requesting to capture an image of a guest's travel document, team members shall use clear and consistent language. This helps guests understand the purpose, assures them their data is secure, and minimises concerns.

The following suggested scripts may be used as a guide:

“For security and immigration compliance, I will need to capture an image of your travel document. This is only for verification purposes and will be deleted once the check is complete.”

If a guest objects, politely reiterate:

“This is a regulatory requirement for your travel clearance. Without this step, we may not be able to complete your check-in/boarding process.”

2.2.1.2.7 Complaints Handling and Escalations

Team members shall escalate all complaints related to secondary validation or photography of travel documents to:

Guest Relations

To: GRReports@etihad.ae

Cc: GCRDutymanagers@etihad.ae

In cases where data protection or privacy concerns are identified, the Etihad Airport Manager or Ground Operations Duty Manager is required to escalate the matter to:

Data Privacy Office

To: DataPrivacy@etihad.ae

The contact details provided are strictly for internal use and shall not be disclosed externally. Guests shall be advised to contact Etihad Feedback:

Etihad Feedback

<https://www.etihad.com/en-ae/help/share-feedback>

2.2.2 Training

Etihad staff involved in the verification of documents presented for travel shall be given appropriate training for their functional task. The training shall be provided by Etihad or in liaison with Etihad's counterparts in foreign countries. Refer to GOM Chapter 2.1.

2.2.3 Airline Liaison Officers (ALOs)

The Immigration Liaison with Foreign Embassy Offices provides assistance to Etihad with travel document issues regarding guests who are inadequately documented, thus assisting in mitigation and/or reduction of potential immigration infringements and fines. These officers are called ILOs or ALOs – Airline Liaison Officers.

A number of ALOs are based in locations that have been identified as transit points for inadequately documented passengers arriving at destinations countries. All ILOs work to the ICAO and IATA code of conduct. (ICAO Annex 9 Chapter 3 Section I Point 3.32). Their role is to offer advice and expertise to Etihad with a view to preventing the carriage of inadequately documented passengers. Etihad has developed and maintained working relationships with ILOs and also built strong associations with all the ILOs in the region and the network which have further enhanced the cooperation, coordination and reputation of Etihad as an air carrier flying to relevant states.

2.2.4 MOU

To the extent permitted by the state, Etihad may sign a Memorandum of Understanding (MOU) with Foreign Immigration Services with regards to carrier liability acts and travel document integrity checks.

2.2.5 TIMATIC

TIMATIC (TIM) provides the following critical services:

- Passport requirements and recommendations
- Visa requirements and recommendations
- Health requirements and recommendations
- Airport Tax to be paid by the guest
- Customs regulations relating to import/export of goods and small pets by a guest
- Currency regulations relating to import and export by a guest

It is imperative that the guest's travel documentation has been checked, prior to acceptance, in the interests of both the guest and Etihad.

2.2.6 Passport

A passport is defined as an official document issued by a competent public authority to nationals or to alien residents of the issuing country. Other types of passport documents are:

- Alien passports
- Children's identity cards
- Diplomatic or Consular passports
- Official, Special or Service passports
- International Red Cross passports
- Joint passports (family passports)
- Laissez-Passer (UN document)
- National Identity book/card
- Seamen's Discharge books
- Military identity document
- Travel certificates

An identity document, particularly a passport document, is only valid for a limited period specified in the document. This may be extended by appropriate annotation by the issuing authorities. All departing guest travel documents shall be checked via TIMATIC for applicability. Altéa CM has a facility which ensures that passport validation checks are carried out, known simply as ADC – Automated DOCS check. The ADC electronically reads through the entire DOCs line and checks the passport details of every guest travelling on the flight. If input errors are made, the passport duplicate (dupe) checker will flag these.

2.2.7 Visa

A visa is an entry in a passport or other travel document made by a consular official of a government to indicate that the bearer has been granted authority to enter or re-enter the country concerned.

A visa, transit visa or a visa exemption from a country does not guarantee admission to that country and the final decision rests with the competent authorities at the port of entry in the country concerned.

2.2.8 Health Documentation

Certain vaccinations and/or health certificates are only required by a few countries, mostly in tropical areas. Generally, a vaccination certificate approved by the World Health Organisation is recognised. See TIMATIC for requirements and recommendations.

2.2.9 Emergency Contact Details

Guests who check-in via self-service channels will be prompted to provide an emergency contact, or optionally decline.

As mandated by the GCAA, check-in staff must ask guests if they wish to provide emergency contact details, however guests are entitled to decline. Agents will only be prompted to collect this information at check-in if it doesn't already exist within the CPR. In such cases, the emergency contact details can be added during the travel documents check.

2.2.10 Landing Cards

Landing Cards Process (Pakistan/US)

1. Stores & Amenities (SA) Manager send request for landing cards to the APM
2. APM provides three printing quotations and sends to GS materials team
3. GS materials team provides a purchase order and sends it to the APM
4. APM dispatches to Landing Cards EASC and cc GS Materials team / AUH Baggage Services

Landing Cards Process (UK)

1. Stores & Amenities (SA) Manager to request monthly for landing cards from GS materials team
2. GS materials team place an order
3. EY warehouse to notify Landing Cards EASC

Landing Cards Process (other stations)

1. Stores & Amenities (SA) Manager to request landing cards from EY Print Room cc GS materials team
2. EY Print Room to deliver to Landing Cards – Capital Catering

EASC Landing Cards contact details are as follows:

	GUEST SERVICES MANUAL GUEST ACCEPTANCE	Chapter: 2 Page: 16 of 116 Rev: 37 Date: 25 May 2026
--	---	---

Mobile	+971 56 997 2665
Email	landingcardseasc@capitalcatering.ae

Ground Services Material contact details as follows:

Tel Office	+971 2 5114491
Email	GSmaterials@etihad.ae

Outstations shall ensure that any request received from the service provider is immediately actioned to ensure sufficient stock of landing cards is always available at AUH HUB to be loaded onboard all departing flights.

Refer to Chapter 9.1 for the process on dispatching all material items from Abu Dhabi HUB to outstations.

2.2.11 Airline Watchlist

The watchlist is Etihad's program for monitoring specific guests and their travel on Etihad flights. Individuals may be added to the watchlist for one or more of the following reasons:

- a. Reported to be unruly/disruptive on the Etihad network
- b. Known or suspected offenders, under monitoring by certain foreign governments or agencies

The airline watchlist is designed to inhibit check-in for passengers that have matching credentials such as name, gender and date of birth to those on the airline watchlist.

In accordance with Etihad's Conditions of Carriage, individuals on watchlist may be prevented from boarding an Etihad flight, however airport staff shall liaise with Threat Assessment Centre (TAC) to determine whether a guest should be accepted or denied carriage.

Guests with a partial or complete match to the airline watchlist will be flagged for further verification during the check-in process. Check-in will be prohibited in Altéa CM until TAC are contacted. Agents shall ensure the guest is not notified about being on Etihad's watchlist.

2.3 ADVANCED PASSENGER PROCESSING (APP)

Altéa Customer Management supports integrated APP, which means a guest is not checked-in until a message is generated to APP for permission to board, and a response received allowing that to happen. Before or during the check-in process, Altéa CM collects the information contained in the "e" icon on the CPT and generates a message to a Communications Gateway which is owned and operated by SITA.

2.3.1 Types of APP messages

There are two types of APP messages:

1. A check-in request to which the APP government sends a check-in response
2. A cancellation request for an existing APP status to which the APP government sends back an acknowledgement of that cancellation

Each international flight that has a landing or take-off in an APP country requires a separate APP message. If a guest's itinerary involves two or more APP countries, then two or more messages must be generated for each guest.

If a guest is offloaded, it is necessary to send a cancellation request to cancel the APP response that the passenger had received before the offload.

2.3.2 Mandatory API Data

The following data is mandatory and shall be captured for all guests including infants:

- Travel document number
- Nationality (2 or 3 characters)
- Travel document type (passport or other accepted document)
- Issuing state of travel document
- Family names
- Given names
- Gender
- Date of Birth

The API transaction is required for all guests boarding for international flights inbound and outbound of Abu Dhabi. This also includes all guests transiting through Abu Dhabi.

2.3.3 UAE APP

If the guest is not cleared for travel through the DCS system the check-in agent must contact the UAE API:

The UAE API shall either:

- a. Initiate an override, via a message to Altéa CM to enable the issuance of the boarding card (For any government overrides an OSI remark shall be updated in the guest booking)
- b. Instruct the agent to REFUSE entry into the UAE for the applicable guest.

UAE APP is only applicable to guests departing or arriving into the UAE and not to guests who are transiting via UAE.

In the event of an APP outage, contact the IT Help Desk. Crew data will also be processed via UAE API with Crew Services access via a Web Portal. UAE API Call Center contact number shall not be shared with the guests under any circumstances. When a guest is denied on a flight, the Duty Supervisor, Delegate or Airport Manager shall complete a full incident report via ONRS and notify RCU, if applicable.

2.3.4 APP to/from Australia

Inbound to Australia

Australian Immigration Authorities has imposed 100% compliance for data capturing of guests and crew. Etihad Airways shall incur fines for each guest/crew member with incorrect passport details.

Boarding responses shall include: '**Contact BOC**' and '**Do Not Board**'. As such, it may be necessary to perform an Airline or Government override as follows:

- If the data is correct, contact BOC (Border Operations Centre) to obtain clearance for an override
- Enter the reference number taken from BOC into Altéa CM as an OSI remark

Processing Dual Nationals

To facilitate APP, guests shall use their Australian passport or the passport containing their Australian visa

- In the event that the guest is using an alternative passport, this may result in the passport being unknown to DIBP (Department of Immigration and Border Protection), resulting in a 'Contact BOC' message
- The BOC will capture the new passport details
- An 'Ok to Board' message will be returned

Duplicate Passports

All checks related to duplicate passports must be performed and corrected before boarding, to prevent infringements and fines imposed by the Australian Border Force (ABF).

2.3.5 ETA Application

Eligible Electronic Travel Authority (ETA) guests shall be directed to the [Australian Department of Home Affairs](#) website for further information on the ETA process as well as the link to download the mobile app.

2.3.6 APP System Outage Procedure

For system outages refer to the System Outage Procedures and Appendixes available in Etihad Global Airports SharePoint.

For other system outages impacted by DCS i.e. TIMATIC (ADC Regulatory) , staff shall contact BSC (Business Solutions Centre). The BSC will raise the incident on Altéa CM via ACSP to obtain incident reference.

As it will be unknown whether this is a Altéa CM connectivity issue or not, BSC shall then transfer the issue to the Service Desk for raising either with IATA or SITA.

In the case of a service outage the Service Desk will engage the Incident Management team for escalation.

Once the TIMATIC auto-check is confirmed to be down, staff shall refer to TIMATIC CLI. In such case that the entire system is not accessible, further assistance can be referred to Regulatory Compliance Unit at RegulatoryCompliance@etihad.ae which is available 24/7.

AUH:

1. Check-in agents shall immediately report the APP outage error response to the DM, who shall call the IT Service Desk on +971 (2) 5112233 to report the outage.
2. The IT Service Desk shall contact SITA to determine the anticipated length of the outage. If it is anticipated to be more than 15 minutes, IT Service Desk shall contact Business Solutions Centre to request an APP waiver from UAE API.

3. BSC Supervisor shall notify the IT Service Desk once the flights are waived in Altéa CM and IT in turn shall inform DM to proceed with check-in, ensuring that the Travel Documents are still added.
4. Once the APP system is back, the APP must be processed for those flights which has not commenced boarding of passengers.

Network:

1. Check-in agents shall immediately report the APP outage error response to the Duty Supervisor or Delegate, who shall call the IT Service Desk on +971 (2) 5112233 to report the outage.
2. The IT Service Desk shall contact SITA to determine the anticipated length of the outage. If it is anticipated to be more than 15 minutes, IT Service Desk shall contact the Business Solutions Centre to request an APP waiver from the respective APP authorities.
3. Once the waiver is granted, BSC Team shall initiate the waiver of APP in Altéa CM for flights which depart within that particular timeframe.
4. BSC Supervisor shall notify IT Service Desk once flights are waived in Altéa CM and IT in turn shall inform the Duty Supervisor / Delegate to proceed with check-in, ensuring that the Travel Docs are still added.
5. Once the APP system is back, the APP has to be processed by the concerned station for those flights which have not yet commenced boarding of passengers.

2.3.6.1 APP System Outage – Flights to Australia

In the event of APP system outage, ground staff shall follow the process below to verify all documents of guests travelling to Australia.

APP Outage and ETA System OK:

Ground staff shall manually verify all travel documents. If the passenger is holding a valid Australian or New Zealand travel document, the guest shall be allowed to board.

Travel documents for all other nationalities shall be verified through the TIETAC process (details are available at Australia's ETAS Manual - Information for airlines and travel agents homeaffairs.gov.au) to confirm the guest's authority to enter and remain in Australia. Check-in shall be completed if a valid visa or ETA is found through TIETAC. If no visa or ETA is found, ground staff shall contact BOC.

APP and ETA System Outage:

In the event both the APP and ETA systems are not available, check-in staff shall allow all Australian and New Zealand travel document holders to board.

Travel documents for all other nationalities shall be manually verified prior to completing check-in. If the passenger is unable to provide satisfactory proof that a visa or ETA has been granted, ground staff shall contact the Australian ALO or the BOC.

2.3.7 APP Authorities Contact Details

2.3.8 Advanced Passenger Information System (APIS)

Many governments require Etihad to submit advanced passenger information (API) including data elements related to the guest e.g. date of birth, nationality and travel document e.g. expiry number, expiry date.

Information is generally collected at the time of check-in, or provided from data collected during booking, and verified during presentation of the travel document.

Commercial airlines are required to send the guests and crew manifest to the Advance Passenger Information System (APIS) when operating international flights to selected destinations. The

manifests shall be forwarded using the required UN/EDIFACT format. Boarding and Boarding Pass printing will be inhibited until the data is completed.

Transmit API data at pre-arranged times to recipients specified by the airline. Always protect passengers' personal information and securely dispose of any related paperwork not kept on file.

2.3.8.1 Clearance Types

1. Security screening clearance – applies to all flights entering or leaving the U.S. The Advance Passenger Information System Quick Query (AQQ) satisfies the DHS APIS pre-departure final rule. The AQQ system interactively provides customer and flight information to the DHS for security screening purposes. Altéa CM sends a request to the DHS for each guest to obtain a Boarding Pass Printing Results (BPPR), which is a guest's status for boarding pass issuance and boarding approval.
2. Visa Clearance and Approval – applies to all flights entering the U.S. The Electronic System for Travel Authorization (ESTA) project satisfies the DHS Visa Waiver Programme (VWP). The ESTA system determines whether or not a guest is eligible to enter the United States under the VWP. The travel authorisation or denial is provided by the Customs and Border Protection (CBP). There are several ESTA statuses. A BPPR request sent for AQQ also returns an ESTA status.

With AQQ, the responsibility of screening guests for security reasons no longer rests upon Etihad, but is transferred directly to the Department of Homeland Security. However, the DHS clearance process will continue to be backed up by the Amadeus Watchlist process, if a DHS outage should occur.

2.3.8.2 Boarding Pass Print Result (BPPR)

AQQ processing begins when a flight is initialised, which is 72 hours prior to the flight date. At the conclusion of flight initialisation, all guests have an initial BPPR, although some will have an Error status if certain elements (such as date of birth) are not present in the PNR.

Amadeus sends a request to the DHS to obtain a Boarding Pass Printing Result (BPPR), which is a guest's status for boarding pass issuance and boarding pass approval. Each request may include up to ten guests, all of whom must be in the same PNR. An infant counts as one guest.

The Department of Homeland Security (DHS) may send unsolicited messages to change the guest's status for various reasons. If a guest's status changes from "Cleared" to "Selectee," a reprint of their boarding pass will be required. The boarding pass will include a "SSSS" remark to identify the guest for the selectee screening process. If the guest's status is marked as "Inhibited," the Threat Assessment Centre (TAC) shall be contacted for resolution.

Airport teams shall ensure that the Verify ID (VID) process is completed during the check-in flow before contacting the TAC. The following information should be gathered prior to making the call. This list is not exhaustive; the Department of Homeland Security (DHS) may request additional information. In such instances, TAC will provide guidance during the call.

- i. Full name of the guest as it appears on the passport
- ii. PNR
- iii. Nationality
- iv. Passport number
- v. Passport expiration date

- vi. National ID number, if applicable
- vii. Any additional nationality, if applicable
- viii. Date of birth
- ix. Country and city of birth
- x. Mother's and father's names
- xi. City and country of residence
- xii. Is the guest carrying any prohibited items, dangerous goods, or articles requiring prior approval, such as weapons?
- xiii. Is the guest travelling alone or with other passengers on separate PNRs?
- xiv. Number of pieces of checked luggage
- xv. Is the guest using a staff ticket?

2.3.8.3 ESTA (Electronic System for Travel Authorization)

ESTA (Electronic System for Travel Authorization) is a web-based system that determines the preliminary eligibility of visitors to travel under the VWP (Visa Waiver Programme) prior to boarding a carrier to the United States. Any guest who does not have an ESTA or visa must be **refused travel** at the point of origin. For applicable citizens or nationals of countries approved under the VWP and to make applications see: TIMATIC and/or Website: <https://esta.cbp.dhs.gov>

The Electronic System for Travel Authorization (ESTA) addresses the eligibility of a passenger to enter the United States under the Visa Waiver Programme (VWP) as determined by the Customs and Border Protection (CBP).

Guests who have not applied at least 72 hours prior to STD risk not having an approved ESTA prior to their scheduled departure.

For any ESTA visa not on file responses where the guest is holding an ESTA, airport staff may contact the US Customs and Border Protection on +1-718-487-5321.

NOTE

The above contact number shall not be disseminated to any guests, it is strictly for airline use only.

2.3.9 US Customs and Border Protection Pre-Clearance at AUH

Guests travelling with Etihad Airways from Abu Dhabi to the US shall be processed through the US Customs Border Protection Pre-Clearance facility in Abu Dhabi, allowing them to undertake all immigration, customs and agriculture inspections prior to departure. Upon reaching the US, guests shall be treated as US domestic arrivals, allowing faster processing at their arrival airport.

At check-in

When checking in a guest travelling to the US, check-in agent shall ensure that:

1. Before bags are checked in, the agent must ascertain if the guest is carrying any agricultural products i.e. all meats, all fruits, vegetables and anything else that can be consumed or planted. Should a guest have any of the items listed above, they must be advised to remove and discard the item(s). Other items of food not listed may be taken in hand luggage (only) and declared to CBP officers at AUH.

2. The guest's baggage is through-checked to the final destination. If an onward boarding pass is not issued for any reason, the guest must be informed to proceed to the Transfer Desk in AUH where their boarding pass will be issued.
3. The guest shall be advised that they must not purchase Duty Free liquor or perfumes in excess of 100ml at their originating airport or inflight to AUH. This applies even if the duty free liquor or perfumes are in a Secure Tamper-Evident Bag (STEBs).
4. Guests travelling with medicines or any type of oil shall be permitted to carry these items:
 - If less than 100ml, the guest is advised to carry this within hand luggage and declare to CBP officers at AUH
 - If more than 100ml, the guest is advised to stow in checked luggage and declare to CBP officers at AUH
 - The guest may be temporarily detained at the CBP checkpoint while CBP officers view the item. If not permitted, the item may be confiscated and destroyed by CBP officers.

The address input field in Altéa CM must be captured accurately at check-in, or else the details shall be entered at the Primary Processing Area by a USCBP Officer. Alternatively, guests may be sent to the Secondary Processing Area (SPA).

2.3.10 Canadian Passenger Protect Programme

In accordance with the Secure Air Travel Act and Secure Air Travel Regulations, guests flying into and/or out of Canada must be cleared via the Canadian Passenger Protect Program.

If a prohibited warning message appears during check-in, contact the Threat Assessment Centre (TAC) to perform clearance for a partial or positive match. Check-in will be inhibited until the applicable Government Override process is complete.

TAC will contact the Transport Canada Situation Center for clearance. In the event that clearance is not provided, airport teams shall not issue a boarding pass to the guest and shall follow the TAC instructions of notifying/handling the guest.

2.3.11 UK iAPP Response Codes

The UK iAPP system implements response codes to support compliance with UK permission-to-travel requirements for guests travelling to the United Kingdom, including visa nationals and non-visa nationals where an ETA or eVisa may be required/held.

At check-in, guest's travel document details are required to be submitted to iAPP and airport team members shall then follow the applicable action for the response returned before issuing a boarding pass.

In the event of iAPP inhibiting boarding pass issuance (e.g., No Record of Valid Permission), an override is permitted only once valid permission to travel has been verified and the required escalation process has been completed.

Following steps are to be followed:

- i. Check for valid physical evidence (visa vignette or passport stamp).
- ii. Confirm if the passport is newly issued and not linked to the UKVI account.

Guest may resolve and update their new passport details via the 'Update My Details' service, provided they hold a biometric passport and renewal is routine only (biographic details, such as name or nationality have changed).

- iii. If no physical evidence is available, use the View and Prove service (share code required).
- iv. For non-visa nationals, ensure an ETA is obtained and re-swipe the passport after approval.
- v. Contact the UK Border Force 24/7 Carrier Support Hub for verification:

Tel: +44 300 369 0610 or +44 204 619 6020

Email: CSHenquiries@contactus.homeoffice.gov.uk

2.4 CHECK-IN PROCEDURES

This chapter of the manual focuses on the procedures applicable to automated check-in.

Check-in is the complete sequence of steps which involves the registration of the guest and their baggage in a DCS or manual system, the labelling of the baggage and the issuance of one or more boarding passes.

Boarding passes containing the guest name must be issued for all guests, either on paper or electronically.

Apply check-in deadlines as per policy, respecting applicable guest's rights and on-time departure requirements.

Check-in may be provided at check-in counters, via self-service methods such as web check-in, kiosk or mobile check-in or mobile app, and may be performed using departure control system (DCS) or manually.

2.4.1 Check-In Counter Preparation

Prior to opening the check-in counters:

- Start and test equipment
- Ensure scales are functioning and calibrated
- Stock boarding card and bag tag printers
- Display required signage, both electronic and manual versions
- Ensure Dangerous Goods notifications are prominently displayed at the check-in area, baggage drop-off areas, self-serve check-in areas, and transfer counters
- Prepare check-in queues, stanchions, carpets, baggage sizers, podiums etc.
- Handling forms and marketing material to be displayed (if applicable)
- Information on guest rights to be displayed as per local law

2.4.2 Weighing Scales Requirements

The accuracy of baggage weight is a critical safety factor. The weighing scales used for checking the weight of guest baggage shall be calibrated and subject to a periodic check as per local laws or regulations, or as a minimum every 12 months in the absence of local laws or regulations.

The results of the checking and calibration of the baggage scales shall be recorded, retained and made available as per the requirements of the relevant authorities.

2.4.3 Signage & Notices

Notices shall be displayed that notify passengers about prohibited/restricted items and the types of Dangerous Goods forbidden for transport aboard an aircraft, including visual examples. Such notices shall serve to alert passengers that certain items of Dangerous Goods are prohibited in

checked baggage, prohibited in the cabin, or prohibited from carriage as checked baggage and in the cabin. Sufficient quantities of such notices shall be displayed prominently in the following locations:

1. At the airport:
 - i. Where tickets and/or boarding passes are issued, e.g. check-in desks, service desks and transfer desks.
 - ii. Where passenger baggage is accepted, including 'baggage drop' locations.
 - iii. In boarding gate areas.
 - iv. In baggage claim areas.
2. At all other locations where tickets and/or boarding passes are issued and where checked baggage is accepted, e.g. off-airport check-in locations such as city terminals.

2.4.3.1 Restricted Items Notice

Network Airports	
	
NOTE: Where it is not possible to display the EY Dangerous Goods notice, the notices displayed shall meet the requirements described in Chapter 2.4.3.	
Abu Dhabi	
Abu Dhabi Premium Check-In Counters	
Baggage Services Desk in the Baggage claims area <i>For all other locations, the Abu Dhabi Airports (ADA) Dangerous Goods and Prohibited Items in Baggage signage should be displayed, including the boarding gates, transfer desk and ticketing counters.</i>	

2.4.3.2 Dangerous Goods & Prohibited Items Information for Online/App/Self-service Channels

- a. Information on the types of dangerous goods forbidden for transport on board an aircraft and other prohibited/restricted items shall be communicated to all passengers, including via all means by which ticket purchase and/or boarding pass issuance can be completed by passengers without the involvement of a staff member. This includes:
 1. Etihad website.
 2. Mobile App.
 3. Self-service check-in kiosks.
- b. During online/mobile app/self-service kiosk check-in, the guest is presented with information on the types of dangerous goods forbidden for transport on board an aircraft and other prohibited/restricted items, it is required to acknowledge the information presented or exit the check-in process.
 1. If the guest acknowledges the information that has been presented, a boarding pass will be issued.
 2. If the guest chooses the option to exit check-in, they are prevented from completing the check-in process and a boarding pass will not be issued. They shall then be subject to the dangerous goods and prohibited/restricted items signage, and questions from a staff member at the check-in counter in accordance with Chapter [2.4.5](#).

2.4.4 Dangerous Goods Hotline

The Etihad Dangerous Goods Hotline, which is intended to provide support and guidance for Dangerous Goods enquiries that require immediate operational assistance.

The Dangerous Goods hotline is +971 50 642 3063.

For all non-urgent Dangerous Goods support or enquiries contact DangerousGoods@etihad.ae.

2.4.5 Passenger Security and Dangerous Goods Questioning

The mandatory security and DG questions below shall be asked for all guests at the time of check-in:

1. Is this your bag?
2. Are you carrying any weapons, prohibited items or other dangerous goods? (Point out restricted and dangerous items sign displayed at check in).
3. Can you confirm that if you have any power banks, loose batteries or e-cigarettes, that they are safely packed in your cabin bag, and not in this checked bag?

Variations to the above scripting are acceptable e.g. in line with local regulations, provided the questions seek confirmation related to ownership and packing of the bag and its contents, maintaining supervision of the bag, and carriage of any prohibited items or dangerous goods.

Confirmation that the guest has understood the questions shall be obtained for all departing guests. The Etihad Security Questionnaire may be used to read or assist in displaying the questions in appropriate language text, however it is not a requirement to have the questionnaire displayed.

NOTE

For guests travelling without checked baggage, only question 2 shall be asked.

2.4.5.1 Unsatisfactory Response to Passenger Questioning

If a guest provides a response to passenger questioning which is unsatisfactory, additional questions may be asked to clarify the nature of the concern.

If passenger answers “No” to the first question or “Yes” to the second question, the bag in question shall be referred to applicable authorities, where required in accordance with local regulations. Subject passenger and baggage shall be accepted only after being cleared by applicable authorities.

If during questioning, check-in staff discovers that passenger is carrying weapons or any prohibited items, check-in staff shall immediately ask for the weapons carriage approvals as required by Etihad before acceptance. If no weapons carriage approval exists, the weapons shall not be accepted for carriage and shall be referred to applicable authorities, where required in accordance with local regulations. This shall also be reported immediately to TAC.

2.4.6 Pre-Flight Preparation

Prepare check-in for flights in accordance with applicable Etihad requirements prior to opening of web or airport check-in and verify all necessary data has been transferred into the check-in system correctly. This should include the applicable of the following:

- a. Pre-flight editing (-4 hours)
- b. Conduct a staff briefing
- c. Catering order
- d. Standby/Upgrade list
- e. Block seats for security officers, crew, weight and balance, and if seats are unserviceable.
- f. Review the flight remarks, if applicable
- g. Review the boarding time, departure time and gate. Brief staff about the reason for any delays
- h. Apply payload restrictions, if any
- i. Check the passenger list for special guests (e.g. WCH (R,S,C), UM, etc.)
- j. Ensure flight status is open for web check-in if applicable

2.4.6.1 Seat blocking – Inventory Impact

Certain types of seat blocks directly impact inventory levels. A decrease in seat inventory may result in lost sales opportunities and reduced revenue.

Airports will be responsible for providing justification if the use of seat blocks has led to a decrease in inventory.

Block type	Description	Impact on inventory	Responsibility
H- Courtesy Block	Used for Neighbour Free Seats Can also be used for courtesy purposes	No	Managed from service support for Neighbour-Free Seats Can be manually used by airports at the discretion of APM or delegate
W- Crew Rest Seat	Required for crew rest on long-range flights	Yes	Managed from HQ only
D- Deadload	Used for Load Control	Yes	Managed from HQ only
P- Protected Seat	Reserved for ad-hoc crew bookings (e.g., ACMI Engineers, Etihad Ambassadors)	No	Managed from HQ only for ad-hoc crew associated bookings
T - Transit	Reserved for transit use	No, however not recommended	Shall not be used due to Altéa CM/FM system impacts
K- Unserviceable	Used for seat INOP, part seat or IFE issue	Yes	Managed from HQ via Guest Control.

In scenarios where H or P block is operationally necessary, the “Reason” field must be completed to provide justification for its use.

Seat Unblocking

Airport team members may unblock all other seat block types when instructed or where operationally necessary.

NOTE

For crew bookings that do not require check-in and have an assigned seat, the Flight Editing / Flight Control Admin team shall ensure that a preflight review is completed upon flight closure, when the system automatically releases assigned seats.

P-seat block shall be applied to the assigned crew seat to ensure it remains protected and is not allocated to any commercial or standby guests.

2.4.7 Check-In Process Flow

The following step-by-step procedure has been devised to streamline the check-in process:

1. Welcome and greet the guest

2. Airport staff should pay attention to signs that a guest may not be able to travel e.g. unruly behaviour or signs of illness
3. Ensure that all the appropriate documentation and labels are available at your check-in desk prior to commencement of check-in formalities.
4. Undertake the document verification checks.
 - a. Check the validity of the ticket with regard to the itinerary, flight, date, carrier, reservation status, class, and restrictions.
 - b. Check the ticket for the final destination and confirm this with the passenger.
 - c. Verify the passenger's identity against the travel document presented, including review of date of birth, expiry status of document, a visual comparison of the photo to the passenger, and ensure the name on the travel document matches the booked name.
 - d. Check travel documents for destination and/or transit requirements.
 - e. Review visa or entry conditions or limitations if required.
 - f. Collect Advanced Passenger Information (API) including system generated "ok to board"
 - g. When you identify an issue with a document, notify your supervisor who will contact the appropriate authority for assistance.
5. Ensure that valid contact details are included in the guest's PNR during the check-in process
6. All guests accepted shall be asked the current Etihad Security and Dangerous Goods Questions.
7. All guests accepted shall be questioned for any dangerous goods carried either as checked baggage or cabin baggage to detect and identify dangerous goods that are not permitted to be carried on board the aircraft by passengers or in passenger baggage.
8. Enter applicable guest gender.
9. Ensure checked bags have a guest name identity tag, label or sticker attached. If not, give the guest an identity tag, label or sticker and politely ask the Guest to complete their details and attach it to the bag
10. Remove old baggage tags and/or labels and ensure they are destroyed
11. Weigh checked baggage and enter actual pieces and weight (kg). Any bag weighing 0.5 kg and above shall be rounded up to the nearest kilogram and any piece below shall be rounded down. For example, if a bag weighs 15.4 kg, it shall be rounded down to 15 kg whereas a bag weighing 15.6 kg shall be rounded up to 16 kg.
12. Ensure all guests who are travelling as a family, to be checked-in as a pooled group within Altéa CM.
13. Ensure that cabin baggage is weighed and attach the applicable cabin baggage label.
14. Ensure the guest is allocated a cabin seat – Refer to Chapter [2.7](#)
15. Ensure that all checked baggage is:
 - within the maximum permitted weight per piece of 32kg (wheelchairs/mobility aids are exempt from this limit in accordance with GOM Chapter 4.10.5.3)
 - add heavy tag if baggage weighs 23kg or more

- in suitable condition for carriage, i.e. is not in damaged condition, fragile or unsuitably packed. Any items which fall into these categories shall be subject to the Limited Release procedure – Refer to Chapter 3.5.9 Any bags not suitable for secure carriage shall be refused.
- 16. Print the baggage labels and label the baggage to final destination as indicated on the ticket, except where destination regulations require checked baggage to be labelled to the first port of entry, and inform the guest accordingly
- 17. Ensure checked baggage is protected from unauthorised interference from the point at which it is accepted until the bags have been dispatched to the baggage sorting areas
- 18. All joining guests shall be issued with a boarding pass containing their name before proceeding through security to the airside area.
- 19. Affix baggage receipts to the reverse of the boarding pass.

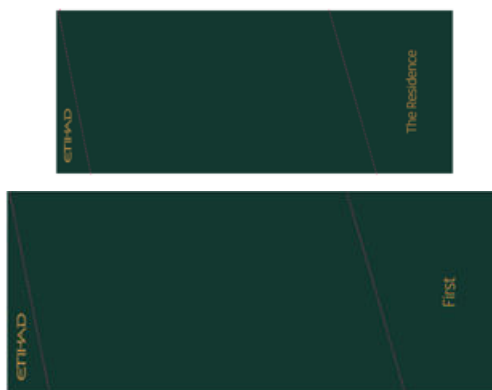

Ensure that you:

- Remind guests the time to proceed for boarding, departure gate and any applicable flight irregularities
- Enter the Etihad Guest Membership number into Altéa CM if necessary
- Return the ticket, travel documentation and boarding pass to the guest
- Address the guest by name and thank him / her for flying Etihad
- Refer the guest to the correct boarding gate and clear all baggage from the scales

The Residence and First Guests

Boarding pass sleeves shall be provided at check-in to all guests booked in The Residence or First.

Check-in team members shall ensure the guest's boarding pass is inserted into the appropriate sleeve prior to handover, ensuring the barcode remains visible for boarding purposes.

Airport Managers/Delegates shall ensure sufficient stock of boarding pass sleeves is maintained at all times, with adequate lead time allowed for stock replenishment to avoid shortages.

2.4.7.1 Bag Drop Process Flow

- a. It is mandatory in all airports where online check-in is enabled, to have a minimum of 1 bag drop queue, for guests who have checked-in online.

- b. The duty supervisor / delegate shall review the number of online/web check-in guests before check-in opens and plan for an adequate number of bag drop counters to be available.
- c. If the total number of bag drop guests represent 1.5 x the overall counter requirement, then 2 counters shall be opened, to ensure bag drop queue guests to be prioritised in the economy area. The bag drop counter should be located between the Business and Economy check-in setup.
- d. The bag drop agent(s) shall call forward guests from the Economy queue, when the bag drop queue is moving quickly or has no wait time.
- e. For airports that have no restriction on boarding pass print, the queue host shall only permit guests with digital boarding pass to the bag drop counter.
- f. Agents shall:
 1. Retrieve the guests booking via scanning the boarding pass (where scanners are available from the CUTE provider). Agents shall refer to the Altéa CM user Guide for alternative ways to retrieve guest's information in the event of passport scanner failure.
 2. Keep transaction time low by efficiently verifying travel documentation and issuing bag tags, along with Security/Dangerous Goods Questions,
 3. Request the guest to place each bag on the baggage scales and enter weight in the system.
 4. Encourage the guest to use their digital boarding pass (where permitted). The re-printing of a boarding pass is not required by Etihad.
 5. There is no need to upsell ancillaries at this touchpoint
 6. If the guest is holding a mobile boarding pass, affix the baggage receipts to the baggage flyer
 7. Verify the travel documents as per the airport requirement

2.4.7.2 Mobile Boarding Pass

Guests who check-in via the mobile site 'Etihad.com', can obtain a Mobile Boarding Pass (MBP), when travelling from selected airports.

Guests may present the boarding pass barcode via the Etihad mobile app, screenshot, Apple Wallet, Apple Watch or email.

If a guest is checked-in on multiple sectors, or if there are multiple guests in one check-in response, the mobile boarding passes will appear consecutively.

The barcode must be presented along with the flight details i.e. name, date, flight number and seat number to be accepted for travel

Instructions for the gate

- The mobile device barcodes shall be scanned using BGR devices
- The full barcode shall be displayed prior to scanning
- Care shall be taken when handling guests' mobile devices
- Mobile devices shall not be placed in direct contact with the BGR and shall be scanned at a distance which allows the barcode to be read

NOTE

1. If a mobile boarding pass cannot be retrieved (e.g. low battery) at check-in / transfer / boarding gate, verify the travel document and issue a printed boarding pass. In the event that the mobile boarding pass cannot be retrieved at a remote gate location, the person responsible for turnaround coordination shall verify the guest's details with the gate agent.
2. In the event that the aircraft is refuelling, crew shall verify the boarding pass and the guest shall be instructed to switch off their mobile device.
3. Boarding pass reprint shall be performed when guests have reported at the boarding gate with a codeshare flight number printed and without the Etihad flight number. An OSI shall be added in the system as "Reprinted due to codeshare BP".

2.4.7.3 Web Check-In

Guests travelling on Etihad operated flights, can use the Web, Mobile/App check-in from 30 hours to 1 hour prior to scheduled time of departure.

Web check-in boarding passes shall display the boarding pass (including barcode) in the body of the email that is sent to the guest. This allows the guest to use the email as a boarding pass, thereby reducing the need to print off the PDF version. The PDF version is also sent as an attachment.

2.4.7.3.1 Functionality

All guests and staff will be able to action the following using WCI:

1. Seat Changes
2. Enter API / APP information (this will still need to be confirmed by Check-in agents)
3. Enter FQTV Numbers
4. Through Check-in to other online WCI stations
5. Print their own boarding pass
6. Email their Itinerary

2.4.7.4 Return Check-In

Check-in for a return flight is permitted if within 24 hours to STD in Altéa CM or 30 hours prior to departure online. This may not be applicable for select stations due to local airport requirements.

2.4.7.5 Off-site Check-In

Off-site check-in may be permitted if:

- The guest is holding a valid ticket
- The location is an approved site
- Local off-site security process must be followed

2.4.7.6 Self Service Devices

Self-service may be utilised by guests who have checked-in online and guests who have not checked-in at all for select Network Airports.

The devices may not support the issuance of special baggage tags such as golf bags and strollers, acceptance of oversized, overweight or over height baggage and acceptance of selected guest categories. A conventional counter shall remain available at all times to assist guests who are unable to use self-service options and all exceptions handling.

2.4.7.7 Airport Companion App (ACA)

ACA shall be used for Etihad flights at the check-in area for select Network Airports.

The roaming agent shall be responsible for approaching guests in the queue to speed up the check-in process and reduce the check-in waiting time.

The roaming agents shall be responsible for completing the check-in formalities via ACA:

- Approach the guests in the check-in queue
- Ask security and dangerous goods questions*
- Perform document checks
- Issue the boarding pass
- Send the boarding pass via the provided email address (only email is supported by the app)

*Confirmation that the guest has understood the security and dangerous goods questions shall be obtained for all departing guests.

Once guest(s) have successfully checked-in, agents shall redirect them to the check-in counter for baggage acceptance.

For additional guidance, refer to the [Airport Companion App User Guide](#)

2.4.8 Guests Requiring an Extra Seat

Any guest travelling in Economy who cannot safely and comfortably fit within a single seat with the armrests in the down position shall be required to purchase an additional seat, for their entire journey. Width between armrests are usually 17 inches in Economy.

Guests are required to purchase an additional seat or upgrade if they do not meet all of the following criteria:

- Must be able to wear a seat belt, with one extension if necessary
- Must remain seated with the seat armrests down for the entire flight
- Must not significantly encroach adjacent seating space

The purchase of an additional seat ensures that all guests have access to safe and comfortable seating onboard.

Reservation

The fare for an extra seat is the normal fare which would have been charged to a guest occupying a seat and shall be booked at time of reservation in the same PNR and RBD. Guests booking an extra seat shall be entitled to additional checked-baggage allowance as applicable to that seat.

Airport Process

If the guest arrives at the airport without having purchased an additional seat, airports may, subject to availability block an adjacent seat as a courtesy to the guest. The guest must not be assigned seats which permit direct access to emergency exits.

Alternatively, the guest may be given the option to purchase an airport upgrade if there is sufficient availability.

In the event the flight is fully booked, the guest should be referred to the contact centre or issuing agent to purchase an extra seat on the next available flight.

2.4.9 Assessing Guest Fitness for Travel

It is important to assess our guest's fitness to fly to ensure the safety and welfare of our guests as well as protecting on time performance.

Ground personnel shall assess each passenger in terms of safety and security risk by looking for anomalies and observing certain emotional characteristics and/or body language. This shall include overall fitness to fly, including potentially contagious diseases, medical conditions, intoxication, etc. Further questioning may be required to assist with passenger assessment:

- a. When you identify a potential problem passenger, notify your supervisor.
- b. Supervisory personnel shall contact the appropriate local authority for assistance, as appropriate

The following guests shall not be permitted to travel:

- Guests with communicable or contagious diseases such as tuberculosis, acute poliomyelitis, acute hepatitis, typhoid fever, salmonellas, shigellosis, measles, chicken pox and rubella
- Guests with fever from an unknown cause when originating from countries in which serious communicable diseases are known to be present or endemic
- Guests suffering from diseases which might be adversely affected by air travel such as manifest de-compensation of heart and circulation, pneumothorax
- Guests suffering from diseases or conditions of which can be expected that the stress of air travel as such is beyond the capability of the guest
- Guests whose physical and/or mental condition would jeopardise the safe execution of a flight or the punctuality thereof
- Guests whose physical and/or mental condition might affect the health, safety and comfort of crew and other guests. These conditions include no bladder and/ or bowel control, smells and odours and uncontrollable behaviour

Refer to the [Fitness to Fly guidelines](#) for acceptance criteria.

In the event of a guest displaying any signs of any injury, bandages, surgical dressing, etc. they shall be questioned as to whether they have undergone any recent surgery. With any such case the guest's checked baggage (if any) shall be located and placed on standby, pending the outcome to the guest's fitness to travel. All efforts shall be made to ensure the guest's fitness to travel does not impede an on time departure.

If a guest appears unwell at the time of check in and a decision has been made to accept the guest, their checked baggage shall be tagged as 'Standby' in the event of a possible offload at the time of boarding.

Under no circumstances shall guests who show signs of heavy intoxication be permitted to embark an aircraft. Guests who exhibit unruly behaviour on board the aircraft before departure or during flight should be offloaded at either the boarding point or at the first transit stop/destination, as applicable to where the guest exhibits such behaviour. Refer to Chapter 6.7.

Etihad will not be responsible for any expenses incurred by the guest resultant from his/her offload.

2.4.10 MedLink Clearance

All staff shall exercise constant awareness of our guest's fitness to travel. If a guest or operating crew is showing symptoms of sickness they should be politely questioned about their state of health. If in doubt, an Etihad representative should be contacted for further assessment (if applicable).

If any symptoms are observed, call the MedLink Global Response Centre (Medical Fitness - to - fly) on +1 602 282 4956 for additional support, the Centre is operational 24/7.

Agents contacting Medlink from AUH airport may dial extension 8535. All other UAE offices can contact Medlink directly using a local number 025998535.

Agents will be given a Patch Number (numeric case reference) in this format BMDC-XXXX

The Patch Number shall then be recorded as an OSL comment within the guest's check-in record. This will ensure the Onboard Service List (OSL) is updated with this information.

2.4.10.1 Dispute of a Guest's Condition to Travel

In the event of a disagreement at the time of boarding or during a transit stop regarding a guest's physical/medical condition or improper behaviour, a senior airport staff member and SCCM shall discuss the issue with the Commander. This shall be done in a discreet manner, away from the guest concerned (preferably the flight deck) ensuring that the relevant SOPs and guidelines are referred to while avoiding subjective judgments.

If MedLink provides an approval for transportation, the guest should be accepted unless otherwise deemed unacceptable by the Commander for safety reasons.

2.4.10.2 Medical Offloads & Screening

Airport staff shall remain vigilant in identifying and assessing potential medically unfit guests in consultation with Medlink prior to boarding. This focus shall occur at all guest touchpoints and shall include: check-in, transfer desks / areas, DVU touch points, lounges, and boarding gates.

In order to assess our guest's fitness to fly, refer to Chapter [2.4.9](#)

It shall be noted that once onboard, if a guest alerts a crew member to a medical condition, the following should be considered, depending on the severity of the condition or symptoms:

- Cabin crew to initiate First Aid management and evaluate the guest's condition
- Consider contacting MedLink for an assessment or to initiate offload depending on the guest's condition

Should the passenger insist that they are fit-to-fly, they may be accepted on the basis that they travel at their own risk and without further questioning unless they pose a risk to the health or safety of others on the flight.

Regardless of MedLink's recommendation, initiation of guest offload remains the decision of the Commander after taking all factors, including the guest's assessment of their fitness and willingness to fly into consideration.

If an offload is required, ground staff shall initiate the process and shall be responsible for contacting MedLink and inform them of the situation. Ground staff shall ensure that subsequent

medical clearance is attained from Medlink prior to the offloaded guest travelling on another Etihad flight.

After pushback a return to stand will be initiated by the Commander only when absolutely required in the interest of guest safety for critical life threatening conditions.

In a return to stand situation, ground staff shall be contacted on the company radio frequency once the aircraft return has been initiated and they shall be briefed with the guest name and seat number in order to expedite the mandatory baggage offload.

2.4.10.3 MedLink Patch Checklist

In order to assist with a detailed and prompt assessment of a guest's fitness to fly, a MedLink Patch Checklist shall be completed before calling MedLink for all guests who show symptoms of illness.

A sample of the Form is shown below and is stored on the SharePoint under:

[MedLink Patch Checklist \(Ground\) EY207](#)

2.4.10.4 Operating Crew

In the event of an operating crew member feeling unwell, MedLink shall be contacted to provide medical support and assistance on ground, where necessary. The below number is dedicated for Etihad crew:

+1 480 333 3837

2.4.11 Group Check-In

Guests will be issued with a boarding pass and instructed to present themselves and their baggage at a desk for normal check-in formalities.

Unusual groups, excessive weights, or anything outside the standard shall be communicated to load control in accordance with GOM Chapter 4.

2.4.12 Non-Standard Passenger Weights

Where airport staff (including but not limited to check-in, transfer desk or gate staff) become aware of a significant number of guests on a particular flight whose weights, including cabin baggage, differ from standard weights:

- Staff shall inform supervisory staff or manager
- Supervisory staff or manager shall inform CLC (AUH)
- Staff shall proceed according to CLC instruction

For CLC requirements, refer to GOM Chapter 4.10.8.2.

Such scenarios may include large groups of guests authorised to carry additional hand baggage (e.g. charter flights for military personnel, sports or musical groups) or large groups comprising guests of size.

2.4.13 Guest Name Correction

Corrections to guest names in a PNR may be necessary for several reasons. These can include discrepancies between the name details and the travel documentation, name changes due to marriage, or misunderstandings by the agent when making the booking.

2.4.13.1 Airport Process- Guest Acceptance

Guests are only permitted to travel with a name that matches the name on their passport. If there is a discrepancy, the following scenarios will be considered matched provided that the guest holds an EY (607) ticket and applies only in the airport during the check-in window. The following is also applicable to both unused and partially used tickets.

- a. Where multiple names exist in the passport and one or more names as per passport are included in the PNR
- b. Where the name is a match to the passport but the title (Mr, Mrs, etc.) does not match the gender or accurate title of the guest (Title Amendments)
- c. Single Letter Name
- d. If no family/last name exists, the given name is in the last name field and given name as FNU (first name unknown) e.g. HABEEB MOHAMMAD/FNU MR Also acceptable is given name in the last name field and the title in the first name field e.g. HABEEB MOHAMMAD/MR
- e. If no given/first name exists, the family name should be entered in the last name field and the given name as FNU e.g. HABEEB MOHAMMAD/FNU MR. As above, names without first name can be booked as title only in the given name field e.g. HABEEB MOHAMMAD/MR.
- f. If there is a name suffix, such as Junior, JR can be included in the name field
- g. Special characters, e.g. Ü – no change required. Accept as per Machine-Readable Zone (MRZ) / passport swipe
- h. Name booked as match to the MRZ on guests' passport (data as per passport swipe)
- i. Official endorsements of supplementary names within the passport
- j. Where the reservation has two or more names that match the passport e.g. Reservation Name is RASHID/MOHAMMED and Passport Name is RASHID/MOHAMMED ALI ABDULLAH
- k. Genuine typing errors up to 3 characters e.g. TOM/JIRRY MR to TOM/JERRY MR. However, name correction that results in an entire name change is not permitted (e.g. Harry to Garry)

2.4.13.2 Name Correction – Ticket Reissuance

Tickets must be reissued under the name correction policy if any of the following:

- The ticket is not issued under EY (607).
- The ticket was booked through a travel agency.
- There are requirements from local authorities.
- The request is made outside of airport check-in hours.
- Complete name change or not considered match as described in Chapter [2.4.13.1](#)

If the required booking class (RBD) is not available, a fare difference may apply. Guest name corrections shall be performed by the Contact Centre or the travel agency.

Reason	Example	Chargeable
--------	---------	------------

Genuine typing errors up to 3 characters	TOM/JIRRY MR to TOM/JERRY MR	No
Title Amendments	TOM/MARY MR to TOM/MARY MRS	No
Rearranging Surname/First Name	MARY/TOM MRS to TOM/MARY or MARY TOM/FNU MRS	No
Maiden Name to Married Name (or vice versa)	JOHN/MARY to THOMAS MARY MRS	Yes
Shortened/Nick name to full name	ALSHAMSI/MOHD MR to ALSHAMSI/MOHAMMED MR	Yes
Addition/Deletion of Middle name*	BROWN/JOHN MR to BROWN/JOHN PAUL MR	Yes
Addition/Deletion of Surname*	PAUL/JOHN MR to BROWN/JOHN PAUL MR	Yes
Addition of Suffix (Jr, Sr, II, III, etc)	PAUL/JOHN to PAUL JOHN JR	Yes
Complete/partial name change for the same guest with proof from authorities (e.g. Deed Poll)	GEORGE/PAUL MR to DANIEL/JACK MR	Yes
* Both Surname and Middle name should be present in the passport. Middle name is not mandatory. Name correction policy does not apply to partially used tickets. Name correction that results in an entire name change is not permitted (e.g. Wei to Joe). Exceptions require pre-approval		

2.4.13.3 Airport Process- Guest Handling

When a name correction is required at the airport, the following process applies:

1. Ensure there are more than 60 minutes before STD and that the name change will not cause a delay.
2. Confirm that the guest is holding an EY (607) ticket, with only EY-operated segments for their journey:
 - For tickets issued by other airlines (OA), refer the guest to the issuing carrier.
 - For OA segments on EY tickets, direct the guest to the Etihad Global Contact Centre.
3. Verify that the guest has not yet checked in.

No flights should be kept open for check-in or delayed to process the name correction. This process is a courtesy to guests to resolve booking errors, but it can only be done if it is achievable within the time the guest reports for check-in. Guests using staff travel benefits shall be advised to contact Staff Travel or the staff member who issued the ticket for assistance.

Please refer to Chapter [6.2.1.4](#) for the acceptance of infants, where the name has been automatically truncated.

2.4.14 Through Check-In Failure via AUH

Perform through check-in whenever possible and as per the interline agreement. Travel documents must be checked for all through-checked parts of the journey.

All guests with onward connections via AUH shall be through checked-in from the point of origin. In the event that through check-in (TCI) fails, the originating station shall manually check-in the guest on the onward flight and add the baggage tag details if they have not been automatically captured

Where possible, the onward boarding pass shall be printed and handed over to the guest prior to boarding from the respective point of origin.

If the non-TCI is caused by system issue, call Business Solution Centre (BSC) and include the BSC call reference number onto the spread sheet.

2.4.15 Separate PNR Policy

Guests holding separate PNRs including another airline segment (OAL) with checked baggage are not eligible for through check-in to their final destination.

If the bag has been short tagged, the guest shall be advised to collect it from the transfer airport and re-check it at the departures area. The guest shall have valid travel documents to enter the country of the transfer airport. A comment shall be added in the system that the guest has been advised to collect their baggage at the transfer airport.

Exceptions

- Guests with NIL check-in baggage who are holding documented proof of carriage on OAL providing the transit time does not exceed 24 hours
- Two separate PNRs on EY to EY operated flights with a minimum of 60 minutes connection time. The check-in agent shall ensure that the guest and baggage is checked in to the final destination and the onward/inbound edit is added in Altéa CM
- All confirmed staff travel tickets
- Marine PNRs that contain the SEMN SSR

The Duty Supervisor or delegate may at their discretion make an exception to the policy due to operational reasons provided an OSI remark is added in the PNR, for example:

- A guest not having a visa for a transit point and can TWOV provided the baggage is through checked
- VVIPs/CVIPs/Groups

2.4.15.1 EY to EY operated

For guests transferring from EY to EY operated flights on separate PNRs the following shall apply at the origin airport:

1. Baggage routing edit shall be added to the applicable guest on the origin flight number
2. Guest shall be checked in on the origin flight and checked baggage tag issued to the final destination
3. Manually add the itinerary in Altéa CM to merge the PNRs
4. Check-in the guest on both flights and ensure bags are tagged to the final destination
5. Collect any excess baggage or service related payment as applicable

2.4.15.2 Guests with nil checked baggage

Guests with separate PNRs and nil checked baggage shall be through checked to their final destination by merging the bookings. A comment shall be added in Altéa CM to advise that the guest has been accepted with nil checked bags.

2.4.15.3 Guests inbound on other airline (OAL)

Guests who arrive at a transfer desk with checked baggage on a separate PNR from a previous flight shall only have their baggage added in Altéa CM if an interline agreement exists. If there is no interline agreement, guests shall be instructed to go to baggage reclaim area to collect their bag and proceed to the departure area to re-check the baggage. If the guest does not hold appropriate travel documentation to do so, they shall be checked-in with nil baggage and briefed that their bags will not be loaded. The guest shall be advised to communicate with the origin airline, not Etihad, to retrieve their bags. An OSI remark shall be added in Altéa CM that the guest has been advised to contact the inbound carrier regarding baggage repatriation. The duty supervisor or delegate shall inform the arrival airport that the baggage has not been accepted due to no existing interline agreement.

On arrival at the final destination, if the guest requests to raise an AHL at the baggage services desk and the baggage receipt provided does not include the arrival sector, the guest shall be advised to contact the previous carrier.

2.4.16 Hajj & Umrah

2.4.16.1 Hajj

It is critical each airport is fully engaged with the Hajj procedure to ensure the Hajj guests and their baggage correctly transfers through the HUB and arrive at the respective terminal to the Kingdom of Saudi Arabia.

Guests travelling for Hajj are not permitted to travel to the Kingdom of Saudi Arabia via DMM, RUH and ELQ.

The following outlines the acceptance process for guests travelling on Hajj:

- Guests holding a Hajj visa with accompanying annotation shall travel on the same flight with the person listed on their Hajj visa.
- Guests travelling for Hajj shall travel via Jeddah (JED) or Madinah (MED) airport only.
- Guests travelling for Hajj to JED shall have a Hajj service code added in Altéa CM and a Hajj tag placed on all checked baggage.
- Each guest is permitted to carry 5 litres of Zamzam water as checked baggage at no additional cost on their return flight from JED (not inside the checked baggage)

For any concerns regarding the validity or authenticity of a Hajj visa, it may be validated via the Ministry of Foreign Affairs website: <https://visa.mofa.gov.sa/visaservices/searchvisa>

Boarding pass issuance during online check-in may be inhibited for all guests travelling to Jeddah (JED) during Hajj period. Guests are subject to full documentation checks at the airport (including HAJJ SSR code added in Altéa CM and a Hajj tag placed on all checked baggage for HAJJ guests – refer to Chapter 3.5.18) and shall be given a boarding pass.

At AUH Hub:

The following flight documents shall be provided to SSCM. In the event of a system failure, manual Hajj manifest shall be completed.

- 4 x copies of the Hajj manifest
- 4 x copies of Passenger List with Hajj and DOB filter

A letter of undertaking is required where GCC nationals are travelling to JED or MED based on the stipulated time given by Saudi authorities.

2.4.16.2 Umrah

In order to comply with the Saudi Authorities, completion of the check-in process shall be inhibited until the check-in agent confirms whether the guest is an Umrah guest or not.

Check-in:

For all Umrah visa holder guests, Umrah edit shall be added to their Altéa CM record (CPT) including children and infants. This procedure does not apply to GCC Nationals and their accompanying dependents (Housemaid & Driver) under their sponsorship arriving together on the same flight.

Baggage Labelling:

An Umrah tag or sticker shall be attached to all checked baggage pieces belonging to Umrah guests.

Umrah tags/stickers shall not be attached to the checked baggage of GCC Nationals and their accompanying dependents (Housemaid & Driver) under their sponsorship arriving together on the same flight.

2.4.17 Persons other than Passengers or Operating Personnel (GOM 4.11.7)

For requirements for the processing of persons other than passengers and operating personnel, please refer to the below processes.

- a. **Crew Control** are responsible for managing positioning/deadheading (DHD) crew requirements in accordance with the Process Manual Crew Resources. DHD crew shall be included on the GENDEC with the code 'DH' in the PAX column.
- b. **Safety & Quality** are responsible for communicating the requirements for planned audits and inspections to applicable stakeholder departments.
- c. **Threat Assessment Centre (TAC)** are responsible for communicating the requirements for the carriage of In Flight Security Staff (IFSS) to applicable stakeholder departments. This shall include class of travel for each sector in accordance with applicable policies and any specific seating requirements. As a minimum, this shall include Crew Control, Staff Travel, Guest Control, Flight Editing/Flight Control Admin team and Centralised Load Control (CLC).

IFSS, where carried, shall be included as 'JS' on the GENDEC for each sector, regardless of whether they are on duty or positioning.

- d. **Flight Dispatch** are responsible for communicating the requirements for Flight Dispatcher familiarisation flights to applicable stakeholder departments. As a minimum, this shall include Crew Control and Centralised Load Control (CLC). Flight Dispatchers, where carried, shall be included as 'JS' on the GENDEC for each sector. Flight Dispatchers on familiarisation flights shall be seated in cockpit jump seats for all sectors, unless the requirements communicated by Flight Dispatch specify otherwise.
- e. The following sub-sections shall be adhered to by the applicable departments and teams for the processing of applicable personnel.

2.4.17.1 Deadheading (DHD) Crew (GOM 4.11.7.1)

DHD Crew	Scheduled Pax Flights to/from			Non-Scheduled Flights / Freighter Flights
	China/ India/Hong Kong/Taipei/South Korea	Singapore, USA and Italy	Other

DHD Crew	Scheduled Pax Flights to/from			Non-Scheduled Flights / Freighter Flights
	China/ India/Hong Kong/Taipei/South Korea	Singapore, USA and Italy	Other	
		plus yellow 'positioning crew' tag	yellow 'positioning crew' tag	

*In exceptional instances, for DHD crew it may be necessary to apply a different logic to the above (e.g., due to DHD crew on a flight that is not available in the check-in system). In such cases, in consultation with CLC, the person responsible for coordinating the turnaround shall instruct the flight crew as to which personnel to reflect on the fuel docket, to ensure the required outcome for the loadsheets. Flight crew shall proceed in accordance with such instructions, as per OM-A Chapter 8.1.8.4.

NOTE

In case of any issues relating to bookings for DHD crew, staff should contact Crew Control.

2.4.17.2 EY Auditors (GOM 4.11.7.2)

NOTE

Where a specific audit requires an Auditor to be processed any differently to this section, the specific requirements shall be communicated to the applicable stakeholder departments by Safety & Quality in advance.

- a. Where an EY Auditor will **return with the same aircraft** and **not** clear immigration at the network airport:
 1. The Auditor shall be reflected on the GENDEC only (i.e., no booking/check-in).
 2. A seat shall be blocked for them in the cabin, where requested as per the audit requirement.
 3. The Commander shall reflect the Auditor in the crew count on the fuel docket.
 4. CLC shall reflect the auditor in the crew count on the loadsheet.
 5. At AUH, the Auditor shall depart/arrive via the Crew Briefing Centre (CBC) with the operating crew.
- b. Where an EY Auditor will **not** return with the same aircraft, i.e., will disembark and clear immigration at the network airport (e.g., station audits, layovers), refer to the following table:

EY Auditors as per (b) above	Scheduled Pax Flights (except to/from China/India/Hong Kong/Taipei/South Korea)	Freighter Flights / Non-Scheduled Flights / Flights to/from China/India/Hong Kong/Taipei/South Korea

Bags as Crew Bags		√
Bags as Pax Bags	√	

2.4.17.3 External Auditors (GOM 4.11.7.3)

Where an external Auditor/Inspector (e.g., GCAA) is planned to perform an in-flight audit, the requirements shall be communicated to stakeholder departments by Safety & Quality, based on the specific requirements of the audit.

In general, the following should apply:

- a. Where the audit requires the external Auditor to proceed through the Crew Briefing Centre (CBC) at AUH with the operating crew:
 1. The Auditor will be reflected on the GENDEC only (i.e., no booking/check-in).
 2. A seat will be blocked for them in the cabin, where requested as per the audit requirement.
 3. The Commander will reflect the Auditor in the crew count on the fuel docket.
 4. CLC will reflect the auditor in the crew count on the loadsheet.

NOTE

It is **not** permitted to depart/arrive via the CBC using a boarding pass.

- b. Where the audit requires the external Auditor to proceed through the passenger terminal at AUH:
1. The Auditor will **not** be reflected on the GENDEC.
 2. The requirements of GOM Chapter 4.11.7.2 (b) for scheduled passenger flights will also apply to external Auditors.

2.4.17.6 Riding Engineer

Etihad Engineering has nominated a small group of line engineers to be Riding Engineers (RE). The RE may be carried to conduct transit maintenance checks at a station where the company does not have a maintenance agreement or where an aircraft is grounded.

The following requirements shall apply for Riding Engineers:

a. Riding Engineers on Duty

- Request to be sent by Crew Services (Crewcontrol@etihad.ae) or Pre-ops (AdvCrewControl@etihad.ae) to poscrew@etihad.ae distribution list indicating **SEATBLOCK/RE** with additional info of date/time/flight details (in local time).
- Only** Staff Travel or Guest Control shall create a PNR, issue a ticket and revert by email the confirmation to the same distribution list.
- Staff Travel or Guest Control shall ensure that there is an associated seat on the booking. If there is no seat associated, airport team members shall assign a seat based on the booked cabin.
- Riding Engineers departing from AUH and who must perform duties immediately upon arrival shall be booked a confirmed seat in Business. Riding Engineers returning to AUH from a duty with no further duties rostered shall be booked a confirmed seat in Economy upgradable to Business based on availability.
- The Riding Engineer seat block booking shall **not** be checked-in and shall reflect on the GenDec as RE.
- The flight crew shall include the Riding Engineer in the 'cabin' crew figure on the Fuel Docket, e.g. 2 /12.

7. Where the Riding Engineer is holding a booking in Economy (upgradeable to Business based on availability), the following shall apply prior to check-in closure when a Business seat is available, the assigned flight controller shall:

- i. Perform a courtesy block ("P" block) in Business for Riding Engineer. No other block type shall be used for this purpose as it may reduce availability in inventory.
- ii. Release the previously associated Economy seat.
- iii. Inform the assigned boarding gate staff who shall inform the SCCM of the changes in the Riding Engineer's seat.
- iv. Update the Flight Information screen to display the seat block for the Riding Engineer.

b. Positioning Engineers

1. Request to be sent by Crew Services (Crewcontrol@etihad.ae) or Pre-ops (AdvCrewControl@etihad.ae) to poscrew@etihad.ae distribution list indicating **POSENG** with additional info of date/time/flight details (in local time).
 2. Staff travel or Guest Control shall create a PNR, issue a ticket and revert by email the confirmation to the same distribution list.
 3. Eligibility is for Economy upgradeable to Business based on availability.
 4. The positioning Engineer shall be processed as per the **Deadheading (DHD) Crew** table in Chapter [2.4.17.1](#) and shall reflect on the GenDec as **DH**.
 5. Where the positioning Engineer is to be included in the operating crew figures as per certain country-specific requirements in Chapter [2.4.17.1](#), the flight crew shall include them in the cabin crew figure on the ACARS Fuel Docket, e.g. 2/12.
- c. All bookings shall be created only by Staff travel or Guest Control as confirmed and not waitlisted.
 - d. No seat blocks of any kind shall be created, unless specified in the above process.
 - e. Airport team members shall only action the instructions mentioned at points (a) 3 and 7.
 - f. No deadweights and no blocks which result in inventory reduction shall be created in Altéa CM.

NOTE

- The RE shall check-in/out with the operating crew through the Crew Briefing Centre at AUH and through crew channels at network airports.
- The RE shall comply with all relevant crew protocols including security customs, immigration, and random drug/alcohol testing.
- In Abu Dhabi, CBC shall share the required information to the Flight Control Admin Team Flightcontrol@etihad.ae to facilitate where crew is required to be checked-in on Altéa CM.

The Commander shall be authorised to approve an upgrade upon door closure, subject to remaining availability.

2.4.17.7 Flight Deck Jump Seat Allocation

In addition to persons listed on the GenDec, the following are allowed to utilize the flight deck jump seat in flight at the discretion of the Commander:

- Etihad Group CEO and C-Level executives
- Authority Inspectors in their official capacity
- Etihad Quality Auditors when performing in-flight audits
- Etihad GCAA licensed flight crew and cabin crew
- Etihad Flight Operations Officers (FOO) – Flight dispatchers
- Etihad loadmasters when on duty on freighter aircraft
- Task specialists when required for flight and on duty
- Any other person on a 'one off approval' authorized by the Vice President Flight Operations (or his deputy in his absence) prior to travelling

NOTE

1. On freighter flights, there will be no passenger check-in and all bags will be processed as crew bags.
2. In case of any issues relating to bookings for positioning/deadheading crew or any other non-operating persons reflected on the GenDec (e.g. GCAA Inspectors), staff should contact Crew Services.

2.4.17.8 Ticketed Supernumeraries on Cargo Flights

(Refer to GOM Chapter 10.2.19, CSM Chapter 3.7.2.6.2)

On certain freighter flights Etihad may transport ticketed supernumeraries such as horse grooms. Agents shall follow the Process Manual Cargo (PM-CG) process to accept and board such passengers.

2.4.17.9 External auditor or inspector booking requests – Ground Audit

When an external auditor or inspector (e.g., Transportation Security Inspector from Canada) is scheduled to perform an audit, airport teams shall ensure that all stakeholders are informed about the specific audit requirements.

In general, the following processes shall apply:

- i. General Booking Process via iFly

When an audit is scheduled:

- a. Airport Manager (APM) or assigned delegate must initiate a booking request via iFly, under the Duty Travel Consultants section.
- b. The request will go through the standard approval workflow. Tickets will be issued based on seat availability.
- c. After the audit is completed, airport teams must ensure that the guest is offloaded, and the ticket is voided/refunded.

- d. An email must be sent to Guest Control (GuestControl@etihad.ae), copying Duty Travel (DutyTravel@etihad.ae) to cancel the segment. Guest Control shall confirm once the cancellation is completed.
- e. Airport teams shall request a ticket void/refund from Duty Travel by replying to the same email thread.
- ii. Process for Last-Minute Requests

If the process in section (i) cannot be followed due to short notice, the following steps should be taken

- a. APM or delegate shall email Guest Control (GuestContro@etihad.ae) and copy Duty Travel (DutyTravel@etihad.ae) and provide the following information:
 - Copy of auditor/inspector’s passport
 - Flight details
- b. Guest Control will create a non-ticketed Economy booking under the name of the auditor or inspector. The “SR KEEP PNR” element in the booking shall be added to prevent cancellation by the revenue integrity system.

Additionally, the following remark shall be added to the booking:

“INSPECTOR BOOKING AS PER XX (STATION) REQUEST”

Guest Control shall respond on the same email thread with booking confirmation.

- c. Upon completion of the audit, airport teams must ensure that the guest is offloaded and notify Guest Control (copying Duty Travel) to cancel the segment. Guest Control shall confirm the cancellation.

NOTE

- Airport teams are responsible for ensuring that no non-ticketed guests are permitted to board.
- A gate comment may be added to ensure that non-ticketed guests are not accepted.
- SeMS report must be created and updated as necessary

2.4.18 Data and Airport Security Procedures

Disposal of Printed Documents

Printed material such as boarding passes, passenger lists, and handling forms may have to be reprinted and therefore left behind as waste. Dispose of these documents according to data protection rules, as they contain guest’s data.

Information Security

Departure control systems (check-in systems) must be controlled to prevent unauthorized access.

- Follow airport procedures intended to prevent unauthorized use and access to un-issued (blank) boarding passes
- Before leaving the counter, remove boarding passes and baggage tags from the respective printers or lock them

- Before leaving the counter, sign-out, log-off and lock the system
- Observe regulations concerning the usage of sign-ins and passwords

Restricted Areas

Secure all gate and departure areas by keeping doors closed, use appropriate barricades when directing the guests.

- Ensure all access doors are closed when not in use
- Position staff as required to direct the guests
- If guests have to walk on the apron to the aircraft, ensure the guests proceed directly
- If transportation has to be provided to the guests to move them from the terminal building to the aircraft, make sure only authorized personnel and screened guests are allowed to board the vehicle.

2.4.19 Credit/Debit Card Acceptance

Visa, MasterCard, American Express, JCB, Diners, Discover, UATP credit cards can be accepted for payment via Amadeus.

Depending on the authorisation parameters setup (permitted) by the respective Card Issuer Bank(s), success or failure of authorization message will be displayed on our terminals including Point Of Sale machine (POS) and Altéa CM.

NOTE

- Debit cards must have 16 digits and display the applicable card provider logo such as: Visa, MasterCard, etc.
- The applicable card holder bank will authorize the payment based on its internal authorization processes
- Signatures shall be obtained on audit coupon printed via the boarding pass printer (this includes chip and pin cards)

2.4.20 Administration of Flight Coupons

Administration of flight coupons and accounting is conducted by Revenue Accounting. In order to facilitate this administration the station shall comply with the procedures outlined below.

2.4.20.1 Flight Coupon Discrepancy

The loss of flight coupons or excess baggage coupons shall be reported to:
flowndocuments@etihad.ae

Where available, include ticket numbers as this can provide for settlement in the event of another airline's ticket being involved.

2.4.20.2 Charge and Keep Process

For codeshare/interline itineraries where the guest has commenced their journey on another airline, a charge and keep settlement shall apply. If the originating carrier has charged the guest excess baggage for the full journey and the guest and/or the airline is able to provide proof of payment, no further charges shall apply on the EY operated leg. Guests who can show no

evidence that Excess Baggage charges have already been collected shall be charged as per Etihad excess baggage policy.

2.4.21 Electronic Miscellaneous Document (EMD)

EMDs will be issued for ancillaries such as excess baggage, upgrades, pre-reserved seat, lounge access, name correction fees and falcons.

Each coupon of the EMD is associated to a flight coupon to ensure synchronised usage.

Audit coupons need to be signed by the guest and retained on station as follows:

- Visa/Mastercard - 6 months
- American Express - 18 months

2.4.21.1 Airport Voiding/Refund Process for Non-Refundable EMDs

There are occasions when a non-refundable EMD shall be voided or refunded by the airport as an exception e.g. if the service paid for has not been offered due to operational reasons. If it is not possible to void the document, then the refund process shall apply.

In the case of an involuntary refund request, the Duty Supervisor / Delegate at the respective airport shall contact their local or regional sales office with the EMD details and reason for refund, requesting them to raise a waiver request.

The sales team shall obtain the necessary approvals (waiver token number) and forward it back to the airport team.

Once the waiver token number has been obtained, the Duty Supervisor / Delegate shall send an email to etihadrefunds@etihad.ae along with the EMD number and waiver token number.

2.4.21.2 QwikCilver

QwikCilver is a virtual credit platform that facilitates the issuance of prepaid credits which can be redeemed via an Etihad Credit Account. Credits issued through QwikCilver:

- Are valid for 12 months from the date of issuance.
- May be issued and redeemed in multiple currencies.
- Vouchers can be directly credited into the Etihad Credit account for any Etihad product or service, including (but not limited to) new ticket purchases, seat selections, and excess baggage.
- May be totally or partially redeemed at any given time, and any remaining balance may be utilised against future flights.

QwikCilver vouchers shall replace the non-cashable EMDs previously issued in cases of DNB or downgrade.

Airport team members shall continue to print the voucher through Altéa CM once issued by the Guest Control team.

Each voucher will display a unique voucher PIN and a website link providing guests with detailed information on redemption procedures, terms of use, and instructions for managing their Etihad Credit Account.

To ensure guests are able to redeem the vouchers through this platform, team members shall ensure that the guest's email address has been captured and is accurate.

2.4.21.2.1 Voucher Cancellation

Where a voucher requires cancellation, airport teams shall coordinate directly with Guest Control.

2.4.21.2.2 QwikSilver Outage

In the event of a QwikSilver outage, Guest Control shall issue the standard DNB and Downgrade EMD vouchers. Guests shall be advised to redeem these vouchers through the Contact Centre.

2.4.22 Flight Closure

Prior to check-in closure, the duty supervisor or delegate shall attempt to telephone any premium guests that have not yet checked-in for their flight to confirm if they are travelling. Several attempts shall be made to contact the guest, prior to closing check-in.

Airport staff shall utilize all available telephone numbers in the CPR to attempt contact with the guest.

In the event of no contact details being available or there is no response from the guest, standby staff travellers may be accepted on a provisional basis after check-in closure. Standby staff shall be subject to offload or downgrade if required to accommodate commercial travellers.

For guests departing from AUH: TCC will be responsible for Premium Guest Call Outs in coordination with Flight Control Admin Team and Duty Operations Manager.

If Economy check-in is authorised to be held open beyond ETD -60 mins, consideration shall be given to onload all guests and staff before ETD -45 mins. A preliminary loadsheet will automatically be triggered based on ETD -45 mins. All guest acceptance, including onloading of standby guests shall be completed before this, in line with the published check-in closure time.

If there are changes made to the guest or baggage acceptance figures after ETD -45 mins, person responsible for turnaround coordination shall be informed.

Generation of the final loadsheet requires the flight status to be set to Finalised in Altéa CM when all guests have boarded the flight. Gate agents shall ensure the flight status is updated to Finalised immediately after the last guest has boarded to avoid any delays.

AUH departures: The check-in supervisor shall liaise with Flight Control Admin team to accept guests between -60 and -45 to ETD.

2.4.23 UAE Government Travel Program and ADNOC

Members of MOFA, Abu Dhabi Government Employee Travel Program, ESAAD, Basma and Homat Al Watan shall register to the UAE Government program through their customer profile to avail their benefits.

Eligible UAE Government and ADNOC members are entitled of the following benefits:

- Dedicated Priority Check-in (applicable to Abu Dhabi only)
- Extra Baggage allowance as below:

Ticket type	Class	Additional Allowance
Piece concept	Economy	1 piece at 23kg
	Business and First	1 piece at 32kg
Weight concept	Economy, Business and First	15kg

Where the membership number is not added on their reservation, airport team members shall recognize virtual cards via app. The official Welcome Letter shall be accepted for guests who are unable to present any of the cards. The Etihad Guest card number shall be entered into the system for all UAE Gov and ADNOC card holders.

There are no lounge benefits offered with these programmes and the benefits are applicable to the card holder only (excluding staff travel tickets).

NOTE

- If the UAE Gov or ADNOC member is also an Etihad Guest, the guest shall avail the higher of the additional baggage allowance.
- Where the Etihad Guest did not select the extra baggage allowance on their custom benefits and is also a member of UAE Gov or ADNOC, the guest can avail the baggage benefits of the UAE Gov or ADNOC programme.
- The extra baggage allowance does not apply to Hand Baggage Only (HBO) fares, regardless of the EYG status and Government Employee Programme.

2.4.24 US Flights

2.4.24.1 US CBP Pre- Clearance Departures

US Customs and Border Protection Pre- Clearance facility allows guests and their baggage to clear US Customs and immigration in Abu Dhabi instead of doing so on arrival in the US.

When checking in a guest travelling to the US, check-in staff shall brief the guests of the following:

- Liquids, aerosols, and gels (LAGs) must not exceed 3.4 ounces (100ml) and fit comfortably into a 1 litre resealable transparent bag, except for:
 - i. Medication, baby milk/food, special dietary or other medical requirements (to be used during the trip).
- Powder substances 12 ounces or larger are prohibited to be carried within guest cabin baggage, except for:
 - i. Medically prescribed powder-like substances and baby formula in sealed or unsealed containers. These may be subjected to additional screening at TSA, if packaging/ container is showing signs of alteration, tampering, or having signs that the contents are inconsistent
 - ii. Powder-like substances purchased at duty free, will be delivered to the guest as they board the aircraft to the US, and sealed in a Secure Tamper Evident Bag (STEB).

To comply with TSA regulations, guests must individually present their baggage for acceptance and take responsibility for their items, including addressing any questions related to security and dangerous goods. Whilst pooling of baggage allowance is permitted, the baggage shall be assigned separately to each guest.

2.4.24.2 Accurate Data & Document Verification for USA

All necessary information shall be collected and verified before accepting guests.

This includes:

- Full address in the U.S. (House/Apartment/Property Number, Street Name, City, State & Zip Code)
- Verification of the guest's name: the name on the reservation must match exactly with their passport
- Correct date of birth format

Guests with domestic connections within the U.S. should not select 'Yes' for International Transit when connecting to a domestic flight. A complete address must be added in the system.

For guests with international connections outside of the U.S., the flight number and city pair for the international connection shall be added.

Guests who have checked in online and possess a digital boarding pass for destinations or transit through the USA should ensure that the system is updated with the mentioned information.

Failure to comply will result in the creation of an INRS infringement report for further investigation against the fault station.

2.4.25 Acceptance of Guests on Triangular/Tag flights

Guests traveling on triangular flights, where they are required to remain on board during transit, shall be notified at check-in that their flight includes a transit stop and that they shall remain on the aircraft during this time. Guests required to disembark during transit cleaning shall be advised to retain their boarding pass as it is necessary for their continuing segment of the flight.

Guests who are transiting will be holding a single boarding pass with the origin and destination city. The transit city will not appear on the boarding pass.

2.4.25.1 Seat Changes

Airport team members are strictly advised not to manually perform seat changes with transit stops segment, as this may lead to discrepancies and trigger the printing of multiple boarding passes.

If a seat change is necessary, guests shall have the same seat allocated to the final destination. Agents must verify that the final destination is correctly reflected in the reprinted boarding pass.

Guests must not be assigned different seats throughout their journey, or the "new seat" column must not be left blank to prevent duplicate boarding passes.

2.4.26 Marine Fares

Airport team members shall ensure that guests travelling under the seaman category with SSR SEMN added to their booking have their supporting documents verified. The personal details should match those on the guest's passport, and must be validated in Altéa CM.

Where the verification process is unsuccessful, guests shall be advised to contact their company/agency or purchase a new ticket.

SEMN SSR shall be available for the following categories:

- Seaman
- Offshore
- Energy
- Air Crew

2.4.27 Crew Acceptance

For all departing flights, airport team members shall issue crew baggage tags through Altéa CM. These may be prepared in advance and handed over when crew report for check-in.

Where possible, crew names as per GENDEC should be recorded when issuing the crew baggage tags, so they will be reflected on the tags.

2.5 ETIHAD GUEST PROGRAMME

Etihad Guest programme benefits are now structured into three categories, as listed below.

Standard (Core) Benefits	Applies to all members on a given tier level
Custom Benefits	Benefits that members can customise for themselves, from a pool of benefits. Where there is no selection applied, the default benefits will be automatically awarded after 30 days.
Beyond Benefits	Benefits that are available to the member after they reach a certain threshold. These benefits can be shared with other guests including non-members.

2.5.1 Overview

Following are the Etihad Guest tiers in the programme:

1. Etihad Guest Bronze
2. Etihad Guest Silver
3. Etihad Guest Gold
4. Etihad Guest Platinum
5. Etihad Guest Emerald
6. Etihad Guest Exclusive

Full details of the benefits and tier level expiry date are available on www.etihadguest.com

2.5.2 Presentation of FQTV Membership Card

Etihad Guest shall present either their physical or virtual card at check-in, if the FQTV details are not present in Altéa CM.

Presentation of the or Member Account Statement is also acceptable for honouring associated tier level benefits.

2.5.3 FQTV Benefits with Other Airline Programmes

Staff should refer to the FQTV table stored on EY Global Airports SharePoint and ShareFile to display the current frequent traveller partners and any additional benefits such as baggage allowance, lounge access or priority check-in eligibility.

2.5.4 Etihad Guest - Airport Benefits

2.5.4.1 Priority Check-in and Boarding

Priority check-in and boarding are available for selected tiers Etihad Guest Platinum, Emerald and Exclusive are invited to use the First check-in desks, where available and use Priority Boarding channels at the boarding gates. Etihad Guest Gold are entitled to use the Business check-in desks and use Priority Boarding channels at the boarding gates.

Silver members are eligible to utilise the dedicated priority check-in counter in Abu Dhabi (AUH).

2.5.4.2 Extra Baggage Allowance

Etihad Guest Exclusive and Emerald are entitled to the following as part of their standard (core) benefits:

EY GUEST	EXCESS BAGGAGE ALLOWANCE	
	Piece Concept	Weight Concept
Exclusive	1 piece (weight as per fare class)	20 Kgs
Emerald	1 piece (weight as per fare class)	30 Kgs

Etihad Guests who select 'extra baggage allowance' as a custom benefit are entitled to the following:

EY GUEST	EXCESS BAGGAGE ALLOWANCE	
	Piece Concept	Weight Concept
Platinum	1 piece (weight as per fare class)	20 Kg
Gold	1 piece (weight as per fare class)	15Kg
Silver	10% Discount on baggage-pre sale only.	

- The extra baggage allowance does not apply to Hand Baggage Only (HBO) fares, regardless of the EYG status.
- Where extra baggage allowance is not on the Etihad Guest selected custom benefits, members of the Government Employee programme can avail the government scheme extra baggage allowance benefits.

2.5.4.3 Fast Track and Priority Baggage

Etihad Guest Exclusive, Emerald, Platinum, and Gold traveling with Etihad are permitted to use the dedicated Fast Track immigration channels in airports where this service is offered regardless of class of travel.

Priority Baggage shall be offered to all eligible guests.

2.5.4.4 Seat Selection

Etihad Guest can avail of complimentary or discounted seat selection (ie. Standard seats, extra legroom seats, bulkhead and emergency exit row seats) in the Economy cabin.

Etihad Guest are entitled to the following standard (core) benefits:

EY GUEST	SEAT SELECTION	
	Standard Seat	Extra Legroom Seat/ Bulkhead/Emergency Exit Row
Gold	Self + 1 guest on same PNR	—
Platinum	Self + 3 guests on same PNR	—
Emerald	Self + all guests on same PNR	Self + all guests on same PNR
Exclusive	Self + all guests on same PNR	Self + all guests on same PNR (50% discount)

Etihad Guest who select 'seat selection' as a custom benefit are entitled to the following:

EY GUEST	SEAT SELECTION	
	Standard Seat	Extra Legroom Seat/ Bulkhead/Emergency Exit Row
Silver	Self only	—
Platinum	(refer to the standard benefit table)	Self + 3 guests on same PNR

2.5.4.5 Etihad Staff holding Etihad Guest Card

Employees and supplementary ticket holders are not entitled to the Etihad Guest Loyalty Programme benefits when travelling on staff travel tickets. However, they are welcome to enroll in the program and access benefits when travelling on commercial tickets.

2.5.5 VVIPs and Etihad Exclusive/Emerald - Check-In Process Flow

The handling of VVIPs (members of the Al Nahyan Royal Family, designated as Sheikh or Sheikha) and Etihad Guest Exclusive/Emerald, regardless of their cabin class, must consistently reflect the highest level of exemplary service. Every interaction with Etihad staff and ground handling agents should be perfectly coordinated to ensure that our guests experience the utmost level of service both on the ground and in the air.

2.5.5.1 Departure

Confirmation (Prior to departure date)

- VIP Guest Experience shall send the VIP report within 24 hours prior to departure, which contains names of VIPs and Exclusive/ Emerald guest(s) and their flight details to the departure station
- Eligible guests will appear under the FOC MAAS list.

Preparation (day of travel)

- Pre check-in the guest(s) based on the information provided and issue their boarding card(s)
- The lounge staff shall be informed about the guest travel details
- Abu Dhabi Immigration/NG Duty Officers shall be advised that the guest(s) is travelling and that they shall be accompanied VIPs and through Immigration/Police by EY staff / GHA

Welcoming guests

- Wherever possible the guest(s) shall be greeted by Etihad uniformed staff. If not possible, then the guest(s) shall be met by a fully briefed GHA staff member
- Guest(s) shall be checked-in at a First counter regardless of their class of travel
- Staff shall welcome the guest(s) and provide an introduction
- Staff shall request the guests' passports and ensure that the baggage porters load the bags onto a trolley
- Staff shall confirm that all of the bags are present and correct with the guest(s)
- If any bags are not properly packed or are damaged, the baggage porter shall inform the Premium check-in staff who shall bring it to the attention of the guest(s) and ensure that a Limited Release Tag (LRT) is signed at check-in

Departing from Diamond Lounge (AUH)

- In the event that a guest is checking in at the Diamond Lounge, the EY staff/ GHA shall be present in order to oversee the process
- The check-in staff at the Diamond Lounge shall follow the normal check in process with the Special Services Agent/ EY staff/ GHA

- The guest(s) shall then be escorted by the Diamond Lounge staff to the gate. The EY staff/ GHA shall be present at the gate in order to introduce the guest(s) to the SCCM

Check-in / Baggage

- Staff shall verify the guests' passport details including the passport photo
- The standard security questions shall be asked to all guests travelling with hand and / or checked in baggage
- The guests' baggage shall be weighed and tagged with priority tags
- Images (pictures) of check in luggage shall be taken before the baggage is sent (AUH)
- The baggage departure hall shall be informed of the baggage tag numbers by the EY staff/ GHA
- EY staff/ GHA shall physically check to ensure that the checked in baggage is delivered to the aircraft side and shall confirm with the person responsible for turnaround coordination that the baggage has been correctly loaded

Lounge

- Guest(s) shall be assisted through passport control, security and to the Premium Lounge/first lounge – if passport control is congested, guest(s) shall be escorted to the front of the line
- Guest(s) shall be offered the concierge service for luggage stowing – if a guest wishes to use this service, all bags shall be received by the lounge staff in charge of the concierge desk and tagged with the lounge luggage tags that shall be handed over to the lounge supervisor
- Enquire (if unknown) or reconfirm (if already known) with the guest(s) as to their preferred boarding time
- At the boarding time, a Special Services Agent/ EY staff/ GHA shall lead the guest(s) to the gate and transfer them over to the SCCM
- The Lounge Supervisor shall ensure that all bags are retrieved from the concierge desk and the EY staff/ GHA shall confirm with the guest(s) that they have received all of their bags

Boarding

- An EY staff/ GHA shall liaise with the Lounge Supervisor as to the boarding time of the guest(s)
- The guest(s) shall be given a 5 minute warning in the lounge that they shall be escorted to the aircraft, to allow the guest(s) to have time to refresh and prepare for boarding
- The Lounge Supervisor shall transfer the guest(s) to EY staff/ GHA who shall escort the guest(s) to the boarding gate
- At the boarding gate, the EY staff/ GHA shall facilitate a smooth boarding process and then introduce the guest(s) by name to the SCCM and bid farewell to the guest(s)

Departure through the US Customs and Border Protection Pre-clearance facility (CBP) (AUH)

- VIP Guest Experience shall send the VIP report within 24 hours prior to departure, which contains names of VVIP or Exclusive/ Emerald guest(s) and their flight details to the departure station, AUH TCC Forward Planner and arrival station
- The rest of the check-in process shall remain the same

2.5.5.2 Post Departure

Email/ handling report

- EY staff/ GHA shall send an email to the arrival airport (copying VIP Guest Experience) with all relevant information, including the image of checked-in baggage and the loading position
- The travel itinerary of guest(s) shall be filed for future MAAS
- The EY staff/ GHA shall prepare a brief handling report and email to the following immediately after handling:

vipguestexperience@etihad.ae & tcccontroller@velora.ae

2.5.5.3 Transit at AUH

Confirmation

- VIP Guest Experience shall send the VIP report within 24 hours prior to departure, which contains names of VVIP or Exclusive/ Emerald guest(s) and their flight to details the departure station, AUH TCC Forward Planner and arrival station

Preparation

- Staff shall confirm if the guest(s) shall be using the Etihad Premium Lounge / Diamond Lounge
- Staff shall pre check-in the guest(s) based on the information provided and issue their boarding card(s) if not already issued at the inbound global airport
- The inbound global airport shall send an email with the baggage loading details to:

tcccontroller@velora.ae

cc. VIPGuestExperience@etihad.ae

- AUH TCC Forward Planner shall review the email from the inbound global airport for any special requests in addition to the baggage image which shall be forwarded to the arrival airport
- The baggage details shall be forwarded to auhbaggageservices@velora.ae if the inbound global airport has not already done so
- AUH Baggage Services and EY staff/ GHA shall liaise with the TBF (Transfer Baggage Facility) to ensure that the guest's baggage is correctly tagged and is transferred to the connecting flight

Welcoming the Guest(s) during transit

- The assigned staff shall be at the gate entrance in order to meet the arriving flight
- Should the aircraft arrive at a remote stand, a VIP car shall be provided where available and shall welcome the guest(s) from the door of the aircraft into the VIP car and then escort the guest(s) to the arrival gate
- The premium channel shall be used for security screening
- The assigned staff shall welcome the guest(s), provide an introduction, and escort them through security to the Etihad Premium Lounge

- The same process for departures, outlined above, shall then be followed

2.5.5.4 Arrival (AUH)

Confirmation

- VIP Guest Experience shall send the VIP report within 24 hours prior to departure, which contains names of VVIP or Exclusive/ Emerald guest(s) and their flight details to the departure station and AUH Special Services

Preparation

- AUH TCC Forward Planner review the email from the inbound global airport for any special guest requests
- The baggage details shall be forwarded to auhbaggageservices@velora.ae if the inbound global airport has not already done so

Welcoming the guest on arrival

- The staff shall receive the guest(s) from the SCCM at the aircraft door
- The staff shall greet the guest(s), introduce themselves and request the guests' passport(s)
- Staff shall confirm the number of carry-on bags with the guest(s) and ensure that they have all of their hand baggage and then escort the guest(s) through to arrivals
- Should the aircraft arrive at a remote stand, a VIP car shall be provided where available and the staff shall welcome the guest(s) from the door of the aircraft into the VIP car and then escort the guest(s) to the arrival gate
- In the event that a guest(s) is arriving through the Diamond Lounge, the staff shall be present for the entire arrival process

Immigration/ Customs

- Should a UAE entrance visa be required, all normal visa collection/eye scan processes shall be completed prior to proceeding to the Immigration counter
- Prior to the flight arrival, the assigned staff shall brief and notify the Immigration/Customs Duty Officer that a VVIP or Exclusive/ Emerald guest(s) is going to be escorted through immigration/customs
- Guest(s) shall be escorted through to the front of one of the other immigration lines or where guests are eligible, assist guests to the E-gates
- The staff shall escort the guest(s) through to the arrival lounge, and shall assist with hand baggage through customs screening after immigration (AUH)

Baggage claim

- VVIP / Exclusive/ Emerald guest(s) baggage should be the first bags on the belt
- Staff shall assist with the baggage collection and shall check baggage against baggage receipts and the details provided from inbound global airport

Arrivals lounge

- Guest(s) shall be escorted to the arrivals lounge once their baggage has been collected
- Prior to leaving the Arrivals Lounge, the Agent shall contact the Etihad Chauffeur to ensure that the limo and driver are available at the curb side
- The guest(s) shall be escorted by the assigned staff to the curb side and shall assist with the baggage
- The baggage shall be loaded into the trunk/boot of the limo by the staff
- Assigned team member shall bid farewell to the guest(s)
- The Agent shall ensure that the chauffeur has the correct destination for the guest(s)

Chauffeur

- The agent shall liaise with the Chauffeur Desk to confirm chauffeur bookings (if applicable)
- The chauffeur car and driver shall be waiting curb side prior to the arrival of the guest(s)
- The Etihad Chauffeur Desk shall be contacted once the guest(s) has cleared immigration

2.5.5.5 Arrival (Global Airports)

Confirmation

- VIP Guest Experience shall send the VIP report within 24 hours prior to departure, which contains names of VVIP / Exclusive/ Emerald guest(s) and their flight details to the arrival station

Preparation

- The airport staff assigned to meet and assist the guest(s) shall review the email from the inbound global airport for any special guest requests
- The baggage details shall be forwarded to the relevant station by AUH TCC Forward Planner

Welcoming the guest on arrival

- Wherever possible the guest(s) shall be greeted by Etihad uniformed staff. If not possible, then the guest(s) shall be met by a fully briefed GHA staff member
- Staff shall receive the guest(s) from the SCCM at the aircraft door
- Staff shall greet the guest(s), introduce themselves and request the guests' passport
- Staff shall confirm the number of carry-on bags with the guest(s) and ensure that they have all of their and then escort the guest through to arrivals

Immigration/ Customs

- Staff shall escort the guest(s) through immigration and customs wherever is permitted

Baggage claim

- Guest(s) baggage should be the first bags on the belt
- Staff shall assist with the baggage collection and shall check baggage against baggage receipts and the details provided from the inbound global airport

Email/ handling report

- The travel itinerary of guest(s) shall be filed for future MAAS
- Staff shall prepare a brief handling report and email to the following immediately after handling:

VIPGuestExperience@etihad.ae

Follow up

In the event that any issues are raised during the departure/ transit or arrival handling of Guest(s), staff shall call Guest Response, and a detailed report shall be sent at the earliest opportunity following the event to:

Guest Response Guestresponse@etihad.ae

VIP Guest Experience VIPGuestExperience@etihad.ae

2.5.6 Etihad Saver Awards

Etihad Guest allows guests to redeem their acquired miles towards the purchase of the tickets paid using miles under special booking classes and are subject to availability.

Such tickets are referred to as “Saver Awards”.

Saver Awards tickets can only be issued on Etihad.com or through the Etihad Contact Centre.

Saver Awards bookings will be offered in multiple fare brands such as Value, Comfort, and Deluxe.

Cabin	RBD	Brand Name	Indicator
First	O	Deluxe	FGDeluxe
	O	Comfort	FGComfort
Business	I	Deluxe	JGDeluxe
	I	Comfort	JGComfort
	I	Value	JGValue
Economy	N	Deluxe	YGDeluxe
	N	Comfort	YGComfort
	N	Value	YGValue

2.5.6.1 Seating benefit

- First and Business Saver Awards – Comfort and Deluxe
 - Seat Selection entitlement

- Economy Saver Awards
 - Deluxe - selection of both Standard and Extra-legroom seats
 - Comfort - selection of Standard seats only

2.5.6.2 Priority Access

Economy Saver Awards Deluxe are eligible for Priority Access and the following services to expedite the airport process:

- Priority Check-in
- Priority Boarding
- Priority Baggage Delivery

2.5.6.3 Upgrades

Deluxe Saver Awards fare in Economy or Business are eligible for airport paid upgrade and option to bid for an upgrade either using miles or cash from Contact Centre.

NOTE

Saver Award Business / Economy Value fare brand does not include refundable options, complimentary seat selection, lounge access, or eligibility for airport paid upgrades.

2.6 STAFF TRAVEL

This benefit extended to staff is a personal travel facility and is not a contractual right.

Etihad reserves the right to review, change, amend, modify or withdraw any or all of the terms and conditions of the personal travel facilities. The current terms and conditions for staff travel are available within the Etihad Staff Travel Policy and should be observed by all staff utilising this facility.

2.6.1 Staff Travel Dress Code Policy

The following are the dress code guidelines for all staff ticket holders for all cabins:

Acceptable

- Smart Casual / UAE National dress
- Smart jeans and casual shoes
- Neat non-collared t-shirts
- Leggings with long shirts or long pull over

Unacceptable

- Worn out, dirty, scruffy, torn, ripped clothes and footwear
- Super tight, revealing, sheer, sleeveless clothing
- Bare midriff, uncovered shoulders or a skirt or dress above the knee
- Sportswear, jogging attire or tracksuits
- Beach clothing including swimwear and footwear including flipflops

- Clothing with questionable or offensive words or graphics
- Shorts of any description, except for kids under 12

The only exceptions to the above are guests who are travelling on '**Media**', '**Prize Winner**', or '**Service Recovery**' tickets.

2.6.2 Stand-By List - Staff Travel

All stand-by guests travelling on staff travel tickets shall be added to the standby list and accepted based on their priority. The boarding priority and seniority are automatically updated in Altéa CM.

2.6.3 Regrade Process

Altéa CM is configured to run automated proactive onload and upgrade processes for staff ticket holders at -4 hours and -2 hours before the scheduled departure time.

For all staff guests who have checked themselves in between -4 hours and flight closure, the system will automatically accept/upgrade them.

These runs will take into consideration the buffer settings configured in the system backend.

Airport teams shall ensure that the system completes the proactive onload and upgrade process prior to initiating any manual actions.

2.6.3.1 Regrade Recommendation List

The Regrade Recommendation List provides a comprehensive view of both staff and commercial guests (**regardless of their check-in status**) who hold an eligible regrade code.

It is important to review this list in advance to identify the number of eligible guests for regrade.

The Regrade Recommendation List screen in Altéa CM is strictly for **review purposes only**. No regrade actions should be performed from this screen.

2.6.3.2 Onload Recommendation List

The Onload Recommendation List must be used as the primary screen to action regrades. This screen displays guests under checked-in and standby status.

The Onload Recommendation List will dynamically change based on the check-in acceptance figure.

All regrades must be actioned on this screen at the time of the respective station's check-in counter closure (-60 or -90 minutes before departure, depending on the station).

2.6.3.3 Exceptions for Early Regrades

Airports may be permitted to process regrades before the check-in counter closure.

Early regrades may be considered to create seat availability in the lower cabin for guests, provided this is actioned through the Onload Recommendation List screen.

Before performing any early upgrade, airport team members shall ensure that priority levels are not compromised.

The table below outlines when regrades may be processed in oversale situations:

Station	Regrade Timing for Oversale
Zayed International Airport (AUH)	-6 hours to STD
Network Stations	-4 hours to STD

NOTE

Regrades are not applicable to guests on standby travel (e.g., ID90) during these oversale periods.

2.6.3.4 Manual Regrade

All regrades shall be processed via the Onload Recommendation List screen wherever possible.

In cases where the manual regrade process is necessary, airport teams shall ensure that:

- The correct reason code is selected for the upgrade
- The free text field is completed with a clear and specific reason.

Airports shall avoid abbreviated entries such as “OK,” “Approved,” or “UG OK”

The Following Table displays the Manual Regrade reasons, criteria and text format:

Regrade Reason	Criteria	Free Text Format under Extra Information
Oversale this flight	Used when an alternative guest must be manually regraded, in case the guest listed on the Onload Recommendation list declines the regrade.	Upgrade due to oversale
	Where an involuntary downgrade occurs due to oversale	Downgrade due to oversale
Cust. Downgrade Requested	Where voluntarily requested by staff or commercial guest	Voluntary Downgrade
Marketing or Sales Initiative	Paid airport upgrades (MUYC & MUCF)	Paid Upgrade - EMD Number
Technical	A321LR Weight and Balance	A321LR Trim Issue
Management Authorised	• Approved by GCEO,CRCO and COGO	Approved by XXX – reason

Regrade Reason	Criteria	Free Text Format under Extra Information
	Service recovery upgrades	
	Empowerment - airport toolkit or approved CIP requests	Empower Authority XX

NOTE

Only the Airport Manager or the Duty Supervisor are authorised to make final decisions regarding operational upgrades.

2.6.3.5 PCV Sorting Process

In the event that a guest/s selected from the Onload Recommendation List declines the regrade and the list is already exhausted, the PCV ranking process shall be followed to identify the next most suitable guest.

2.6.4 Processing of Staff Travellers with Confirmed Reservation

The following basic principles shall apply if there is an oversold flight which has staff guests holding confirmed reservations in boarding priorities.

- Staff guests are to be treated in the same regard as commercial guests
- All staff with a confirmed booking (ID50, Duty Travel and Annual Leave) shall check-in online prior to arriving at the airport (where permitted)
- In cases where it may not be possible to accommodate all confirmed guests on a flight, seek volunteers to travel later and confirmed staff should be included as part of this process
- Media, Service Recovery and Prize Winner ticket holders are commercial guests and shall be treated as commercial guests

Staff shall refrain from linking confirmed and standby staff tickets in Altéa CM, as this practice impacts staff priority on the onload list. This applies for staff tickets travelling together with different priorities as well (eg:ALT & ID50). Additionally, agents are not permitted to link commercial tickets with staff tickets. Refer to chapter [2.4.15](#) for separate PNR policy.

Staff Travel Seat Reservations

Applies to confirmed reservations only:

Ticket Type	RBD	Standard Seat (lower price point)	Extra Legroom Seat until airport check-in	Extra Legroom Seat during airport check-in
Annual Leave Ticket	S	Free	Free	Free

Ticket Type	RBD	Standard Seat (lower price point)	Extra Legroom Seat until airport check-in	Extra Legroom Seat during airport check-in
Duty Travel Ticket	S	Free	Free	Free
Dead Headed	S	Free	Free	Free
Other discount tickets (prize winners, agents discount, sponsorship etc.)	S	Free	Chargeable	Chargeable
ID 50 staff & dependent	T	Chargeable	Chargeable	Chargeable
ID 50 supplementary	T	Chargeable	Chargeable	Chargeable

2.6.5 Disruption Handling for Staff Travellers with a Confirmed Reservation

2.6.5.1 Downgrade

In the event of overbooking, airport staff shall identify potential staff travellers that could be downgraded

Staff can be “asked” the following:

- If they are prepared to travel in a lower class cabin
- Travel on the next Etihad flight, if the next day provide overnight hotel accommodation (if away from base). If the next flight is more than one day additional nights hotel accommodation chargeable to the staff guest

If the answer is no to both options, they should not be downgraded unless they are the last to check-in and the flight is already full.

In the event a downgrade of staff holding a confirmed reservation becomes necessary after boarding has commenced, the below shall be followed:

- Agents shall identify the staff traveller with the lowest priority code
- The gate agent shall go onboard and reseat the staff traveller
- In case a seat becomes available at the time of boarding closure, the downgraded staff shall be re-accommodated in the original cabin

Staff that have been downgraded and holding a confirmed ID50 reservation are eligible for a refund of the full sector value

Staff that have been downgraded and holding an ALT are eligible for an additional return ALT

For staff that has been downgraded, advise Staff Travel via email who will communicate directly with the staff member concerned

2.6.5.2 Offload

- ID50 staff who have not yet checked-in for the flight, shall have their seat protected until check-in closes through theoretical seating.
- Duty Travel and Annual Leave Tickets shall have their seat allocation retained until flight closure
- Volunteers shall be proactively sought, as the confirmed staff are still considered confirmed and eligible for the compensation outlined in the Staff Travel Policy
- If there is any volunteer for denied boarding, this is preferred in-lieu of any involuntary DNB (including confirmed staff)
- Confirmed staff who are checked-in shall not be involuntarily offloaded

Offloaded staff shall be eligible for hotel accommodation (if away from base), refreshments and re-booking to the final destination via Etihad operated flights.

2.6.6 Travel via General Declaration (GENDEC) for UAE Based Staff

All travel using a General Declaration (GENDEC) shall be permitted for the following individuals based in the UAE, with the exception of Supernumerary Passengers:

- Operating crew members
- Positioning crew members
- Flight Engineers
- Loadmasters
- Supernumerary Passengers (cargo flights only)

No other staff members are permitted to travel on a general declaration unless agreed and approved by Etihad Operations Senior Management.

To comply with AUH Immigration regulations the following shall apply:

If departing AUH on a GENDEC, the return flight shall also be via a GENDEC. The departing outstation may differ from the original arrival station.

Staff travelling on a GENDEC shall ensure they carry with them at **all** times **all** of the following:

- Valid UAE Residence Visa
- Valid Etihad ID Card
- Valid Passport

2.6.7 Standby Staff Acceptance

Standby staff shall be accepted at check-in until all seats on board have been occupied.

This includes standby staff acceptance in the following cases:

1. **The ticketed class is full, but seats are available in the other cabin(s)**

In this case, airports shall upgrade commercial guests to accommodate staff in their respective ticketed class. For staff holding rebate tickets for premium cabins, a seat in the lower cabin shall be offered if the ticketed cabin is full

2. No availability of a meal in the ticketed class

Rebate staff shall be informed of meal unavailability and should they still wish to travel, the meal waiver form shall be signed by the staff guest. An OSL comment shall be updated in Altéa CM for identification by the crew on-board.

NOTE

Acceptance shall not be dependent on the physical presence of the standby traveller at the check-in counter.

2.6.7.1 Standby Transfer Baggage

The bags of guests with onward standby/space available connections shall be affixed with a Standby Tag (regardless of whether the guest has been allocated a seat for the onward sector) at the origin station.

The staff responsible for loading bags into the applicable containers shall be informed that where Thru (BG) containers have been prepared for specific onward flights, that any 'Standby' or 'Priority' tagged bags for those flights are NOT loaded into Through-Transfer containers, but are instead loaded into mixed Transfer containers (BT). This is to ensure that standby bags are only accepted at AUH once the guests final acceptance status ex-AUH is confirmed, and that Priority connecting bags are loaded at AUH into First/Business containers for onward flights.

Example of the Standby tag

34	99	Non-upgradable	Leisure

Staff upgrades must be performed in order of upgrade priority and not based on cabin entitlement. Commercial upgrades may be performed to accommodate staff upgrades.

In the event that two or more staff guest hold the same upgrade priority code, the guest with greater seniority shall be upgraded.

All commercial and staff upgrades shall be performed prior to accepting space available staff ticket holders.

2.6.9 Jump Seat Allocation Staff Travel

Jump Seat Type	Eligibility
Cabin Jump Seat	Vacant jump seats may only be assigned to persons authorised to use the flight deck jump seat (Chapter 2.4.17.7), Etihad Cabin Crew Instructors and Etihad technical staff (Technicians/Engineers) travelling on staff ID tickets and holding their Etihad ID card or VP Operations and Guest Experience Delivery approval on the day of travel. Airport staff shall confirm the following details before communicating a jump seat request to the Commander: - The Priority Code is applicable to Employee travel for Etihad Airways - The Employee Number (S/N) shown on the CPR matches that of the Etihad ID presented on the day of travel. - For licenced engineers and Etihad Cabin Crew Instructors, airport staff shall check the Etihad staff ID card credentials correspond to the accompanying authorisation letter (specimen below) prior to contacting the Commander for approval.
Flight Deck Jump Seat	The allocation of flight deck jump seats is at the absolute discretion of the Commander and is only available to those staff listed in Chapter 2.4.17.7 Flight Deck Jump Seat Allocation.

EY Technical Staff Travelling on Economy Class Jump Seat During Leisure

Officer On-Duty,

The staff member in possession of the Etihad ID card below, is entitled to use the cabin jump seat benefit during leisure travel as per Flight Ops OM-A-8.3.13.

Staff number	Staff Name	Job Title
29675	Vasim Cherukat	Aircraft Engineer

The mentioned staff has already completed the necessary training to get this benefit.

Note: This letter is valid for 6 months from date of issue and shall be carried during travel together with the Etihad ID Card.

Regards,

ETIHAD

Date: 06 May 2026

Subject: Etihad Trainers travelling on Jumpseat for leisure

Dear Officer on Duty,

The Etihad Airways cabin crew instructor is in possession of a valid CAA cabin crew License/ Attestation, and as such is entitled to use the flight deck/cabin jumpseat benefit during leisure travel as per Flight Operations OM-A-8.3.13.1/2.

NAME	STAFF NUMBER	JOB TITLE

Note: This letter is valid for 12 months from date of issue and shall be carried during travel together with a copy of their CAA License/ Attestation and Etihad ID Card.

Your cooperation is highly appreciated.

Yours sincerely,

Captain. Sanjay Sapra
Head of Crew Training

PO Box 35566, Abu Dhabi, United Arab Emirates

هاتف 2 511 0000 +971
etihad.com

- Eligible staff shall report to Standby Travel counters and request a jump seat no later than 60 minutes before STD. For flights to the US, requests shall be made no later than 90 minutes before STD. This process applies to leisure, compassionate, and emergency travel.
- Rules relating to dress code apply as per the Etihad Staff Travel Policy
- When using a cabin jump seat, crew shall be discrete, shall not distract the operating crew from their work, shall not get involved in loud conversations and respect ETIHAD guests
- ID passengers shall not contact the operating crew directly through rest or briefing time.

- At check-in, ground staff shall ensure the JMSA SSR code is added to the guest's booking. The SSR description shall include the job title of the staff member
- Flight Control Admin Team / Duty Supervisors at Network Airports shall extract the JMSA Ranking list (jump seat requests in priority order) from Altéa CM and communicate this to the person responsible for turnaround coordination for the Commander's review and approval.
- The Commander shall confirm the number of jump seats available. Jump seat acceptance shall be allocated according to the onload priority order, except when the Commander specifies otherwise, at their discretion.
- The verbal approval of the Commander, via the person responsible for turnaround coordination or Duty Supervisor/Delegate is acceptable.
- Following the Commander's approval, the list shall be processed according to the standard onload procedure for standby guests.
- Once Flight Control Admin Team / Duty Supervisors at Network Airports have assigned the jump seats, airport team members may proceed with check-in and print the boarding pass
- For authorised staff on compassionate/emergency leave:
 1. Pilot in Command ID guests should contact their respective Head of Fleet or Pilot Duty Manager (PDM).
 2. Cabin Crew ID guests should contact the Crew Briefing Officers (CBO).
 3. The respective CBO or manager (as applicable in accordance with the above) shall send an email to the Duty Supervisor / Delegate to advise and confirm the compassionate/emergency leave and associated approval for jump seat travel.
 4. The request shall then be confirmed with the Commander by airport team member before assigning the jump seat.

Under no circumstances shall commercial guests be seated on a jump seat. No alcohol shall be served or consumed while traveling on a jump seat and meal service will be based on availability.

NOTE

The respective Head of Fleet, CCOO or Line Manager shall send an email to the Airport Manager/ Duty Supervisor / Delegate to advise and confirm the compassionate/emergency leave.

Authorised staff accommodated in jump seats may be assigned a standard seat in the event of a last-minute gate offload of revenue or non-revenue guests. The gate agent shall:

Select the guest with the highest priority from the JMSA Ranking list

Reprint the boarding pass of the selected guest, strike off the existing seat, and manually write the new seat

OSI comment shall be added 'Manual seat change to XXX e.g. 47B'

Handover the boarding pass to the cabin crew and advise of the seat change.

2.6.10 Payload Restrictions - Staff Acceptance

In order to address payload restrictions on certain sectors, revenue sales caps are put in place to restrict the number of Guests that can be booked on affected flights.

Where the cap is reached but space available staff Guests are also listed, they may be accepted on the day of operation subject to payload availability, after any other revenue load such as cargo has been accepted.

Check-in/close out teams shall liaise with the Load Controller who, after liaising with the Commander to determine fuel requirements and payload availability, shall advise whether any guests beyond the cap amount can be accepted. The Load Controller's decision shall also take into account any cargo hold volume limitations on the flight before accepting extra guests with checked baggage.

2.6.11 Staff Travel Meal Waiver

On-board catering orders shall account for all commercial guests, confirmed and standby staff.

However, on occasions where the booked load increases beyond forecast and extra catering cannot be obtained, staff may be asked to waive their eligibility for a meal. A commercial guest must never be included in this process.

Process:

1. Airport staff should advise staff at check-in that due to a last-minute increase of commercial bookings, it may not be possible to provide them with a meal. The guest will then have the option to buy food/drinks at the airport.
2. If the guest proceeds directly to the gate, the guest must be paged by PA prior to boarding to alert them of this.
3. Airport staff shall obtain the staff traveler's consent that they agree to travel without a meal and a meal waiver form completed
4. A comment shall be added in Altéa CM, 'Staff accepted to fly without meal'

NOTE

In the event that a meal waiver is not required for all staff, those with the lowest boarding priorities should be asked, if operationally possible.

Example Staff Meal Waiver Form:

Staff Meal Waiver Form											
EY FLT NO				DATE				ORG		DEST

Complete the meal waiver form; add any applicable comments to assist the SCCM and ensure the staff, staff eligible family and / or friend signs as indicated. The Original Copy shall be kept at the outstation for the station file, with a copy for the SCCM.

2.6.12 Onloading of Staff Travelling on Multi Sector Standby Tickets

Below are the general guidelines for accepting staff standby tickets:

- A staff guest holding a standby ticket shall be accepted on to a flight subject to space availability
- A staff guest holding a standby ticket shall be accepted on board a flight after all commercial, non-offloadable and firm space employees have been accepted
- Staff guests holding a standby ticket shall be accepted in order of boarding priority and date of joining
- Staff guests and their eligible relatives shall be provided with the standard baggage allowance applicable to the cabin/zone in which they are eligible to travel
- In the event of a staff standby guest being offloaded from a flight, due no space being available, all costs including food and hotel accommodation shall be covered by the guest
- The bags of guests with onward standby/space available connections shall be affixed with a Standby Tag (regardless of whether the Guest has been allocated a seat for the onward sector) at the origin station

2.6.13 Chiefs Complimentary Upgrade (Staff)

Chiefs and their spouse/ travel companion are entitled to space available upgrades to The Residence when travelling on upgradable tickets. The relevant service code shall be present in the booking prior re-seating.

ID50 and ID90 tickets do not qualify for re-seating to The Residence.

2.7 SEATING

2.7.1 Seating Procedures

2.7.1.1 Exit Row Seating Eligibility

Exit row seats are seats which permit direct access to emergency exits. (e.g. guests can proceed directly to the exit without entering an aisle or passing around an obstruction). Centre seats – in the area between two opposite exits – are not considered as exit row seats.

Guests occupying emergency exit row seating must be able-bodied.

At the time of guest check-in, only those guests who appear reasonably fit, strong and able to assist the rapid evacuation of the airplane in an emergency shall be allocated seats which permit direct access to emergency exits. Persons of reduced mobility shall not be allocated seats where their presence could impede the crew in their duties, obstruct access to emergency equipment or impede the emergency evacuation of the aircraft. Self-help emergency exit seats are exit row seats which do not require a cabin crew seated next to it.

Where practicable, at least one able bodied person (ABP) shall be seated adjacent to each Self-Help Emergency Exit during taxi, take-off and landing.

Prior to boarding, boarding gate team members shall reconfirm that an ABP is seated in the emergency-exit row. If not, staff should reassign an ABP to the exit-row seat. Seat reallocation may be completed free of charge up to 90 minutes prior to departure. Guests shall be advised that any seat change applies to the specific flight only.

If an ABP has not been allocated prior to boarding, cabin crew shall identify a suitable volunteer and advise the Turnaround Coordinator/Aircraft Dispatcher of any seat change(s) before door closure. Where such reallocation occurs after boarding has commenced (including after the flight is closed), the Turnaround Coordinator/Aircraft Dispatcher may request the boarding gate team to update Altéa CM to reflect the actual occupied seats, supporting accurate load planning, mass and balance.

This requirement does not apply when allocation is not practicable due to low passenger load, or when seat changes are not permitted, as advised by Turnaround Coordinator/Aircraft Dispatcher.

Guests assigned an exit row seat who, prior to boarding, decide they wish to be re-seated, will be issued another seat assignment in a non-exit row without question and without being required to disclose the reason for requesting reseating.

The following categories of guests are among those who should not be allocated to, or directed to, seats which permit direct access to Emergency exits:

- Guests who cannot understand the English language or cabin crew briefing.
- Guests suffering from an obvious physical or mental disability to the extent that they would have difficulty in moving quickly if asked to do so.
- Guests who are either substantially blind or substantially deaf to the extent that they might not readily assimilate printed or given verbal instructions.
- Guests who because of age or sickness have difficulty in moving quickly.
- Guests who are younger than 18 years of age.
- Guests who are so obese that they would have difficulty in moving quickly or reaching and passing through the adjacent emergency exit.

- Deportees (DEPO), inadmissible (INAD) or prisoners in custody.
- Guests travelling with falcons pets or service dogs (excluding bulkhead seats).
- Pregnant guests

2.7.1.2 Children (Accompanied)

A child is a minor between 2 and 11 years of age (i.e. who have reached their 2nd birthday but not having reached their 12th birthday).

If the minor reaches his/her 2nd birthday during the journey, he/she will be considered a child as of the birthday.

Two children shall not be seated in one seat nor be fastened with one seat belt.

If a child cannot be safely secured using the seat belt, a blanket or a cushion shall be placed between the child's back and the backrest of the seat.

Children must occupy an individual passenger seat and may not be seated in emergency exit rows.

Children (more than 2 years and less than 5 years old) should ideally be seated in the same seat row as the accompanying adult where they can be adequately supervised in the event of turbulence, decompression or other abnormal conditions in the cabin and in an emergency evacuation.

If this is not possible, children should not be separated by more than one seat row or one aisle from the accompanying adult who must be provided with an individual pre-flight safety briefing by the cabin crew in order to consequently brief their children on actions to be taken. The following is guidance on the children's seating allocation:

1. Next to the accompanying adult's seat
2. Directly in front of the accompanying adult's seat
3. Directly behind the accompanying adult's seat (not in the premium cabins on wide-bodied aircraft)
4. Adjacent aisle seat (in the same seat row as the accompanying adult)

A maximum of three children (more than 2 years and less than 5 years old) per an accompanying adult should be permitted in the premium cabins on wide-bodied aircraft.

2.7.2 Car Seats in the Cabin

A portable car seat designed to carry an infant or small child (0–36 months) can be accepted provided the child fare is raised for the occupied seat. The car seat can then be carried in the cabin at no extra charge and fitted to a seat subject to the following conditions:

- Must be in good condition and show no signs of damage
- Shall be labelled stating that it has been approved for aviation use
- The seat should have instructions on the label which shall be followed
- If the car seat is not an approved type, it must be loaded in the hold
- A responsible adult shall occupy a seat next to the child
- The unit shall have a solid back and seat
- The unit shall have restraint straps installed to securely hold the child to the seat

Special Needs Car Seats

Special Needs Car Seats are specifically designed for children and adults that require additional support on board and cannot utilise harness supports.

Guests shall be allowed to travel on Special Needs Child Restraint Devices (CRD) provided they meet the requirements specified in Chapter 2.7.2.1.

Guests travelling on Special Needs CRDs shall be accompanied by a Safety Assistant.

2.7.2.1 Approved Car Seats for Cabin Use

Devices meeting the following requirements are acceptable on board:

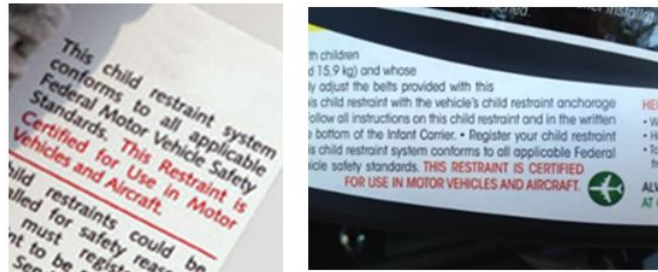

1. Australian/New Zealand Standards (AS/NZS 1754:2013 bearing the green label displaying 'For Use in Aircraft')

2. European Standard (European Technical Standard Order ETSO-C100c on Aviation Child Safety Device (ACSD); UN Standard ECE R44 or ECE R129 bearing the respective "ECE R" label; German Standard TUV Doc. TUV/958-01/2001 bearing the label "For Use in Aircraft")

3. **USA Standards (FMVSS No. 213)** bearing one or two labels displaying 'This child restraint system conforms to all applicable federal motor vehicle safety standards' and/or 'This restraint is certified for use in motor vehicles and aircraft' in red

4. **Canadian Standards (CMVSS 213 or CMVSS 213.1 bearing the respective label)**

Seating Allocation

- The car seat should be located in the vicinity of a floor level exit and not obstruct any passenger evacuation flow
- May be installed on any passenger seat provided that it is of a type that can be attached to an aircraft seat using the passenger seat belt only. If used on a seat equipped with an airbag seat belt, the airbag functionality shall be de-activated.
- Forward facing car seats may be used on both forward and rearward facing passenger seat, provided it is in the same direction as the passenger seat on which it is positioned.
- A rearward facing car seat is restricted to infants less than 10kg and shall only be installed on a forward facing passenger seat.
- Only one CRD per row segment is recommended except if the infants/children are from the same family or travelling group. A row segment is one or more seats side-by-side separated from the next row segment by an aisle.
- A car seat should not be allocated in an emergency exit row seat or in one row immediately forward or aft of an emergency exit row. A window seat is the preferred location; however, other locations may be acceptable, provided that access of neighbouring passengers to the nearest aisle is not obstructed by the car seat.
- In Economy due to seat pitch limitation, a car seat shall be used on:
 - Window or middle seat of a center row at a bulkhead row; or
 - Window or middle seat of a center row behind vacant seat; or
 - Window or middle seat of a center row behind a seat occupied by a member of the same family/group.

NOTE

Installation on the middle seat is not applicable on A320/A321

2.7.3 Special Needs Restraint Devices

Restraint devices may be used in conjunction with an aircraft seat, except on:

- Seats fitted with airbag seat belt
- Seats at emergency exit rows
- Economy aisle seats

Guests intending to use the harness and their accompanying adult should be pre-boarded to allow installation on the aircraft seat.

The following support devices are acceptable for cabin use for guests with special needs and children:

- CARES (Child Aviation Restraint System) is a GCAA, FAA and UK CAA approved restraint system, and may be used by children and guests with special needs:
 - CARES Harness - for children weighing between 10-20 kg (22-44 lbs) and up to 100 cm (40 in) tall.
 - Special CARES Harness - for guests with special needs, older children, and adults over 20 kg (44 lbs) and up to 183 cm (6 ft) tall.

Due to the size of seat back, CARES may not be used on First seats and narrow-body Business seats.

Guests using the Special CARES Harness are to be seated at a row in front of a bulkhead with no seats behind to allow use during all phases of flight.

- CRELLING Harness (Model 27)

Crelling Model 27 is acceptable for use onboard; it is not a safety harness but designed to offer postural support and a certain degree of restraint to guests with special needs to keep them in an upright sitting position.

The Crelling Model 27 harness consists of:

- Five-point body harness connected to a back pad and connected to two fixing straps fitted with comfort sleeves
- Waist belt fitted with a press button buckle to release the five-point harness
- Crotch strap to be attached to the harness waist belt

The 3 types acceptable for use in all cabins are as follows:

- Type 27I for children 2-5 years
- Type 27A for children 5-8 years
- Type 27B for 9 years to adult

Guests intending to use the harness should be pre-boarded to allow installation on the aircraft seat.

2.7.4 Baggage Items on Cabin Seats

Cargo and mail is not permitted to be carried on passenger seats.

Dangerous goods are not permitted in the cabin, except as permitted in accordance with [Chapter 3.3.1.3](#) as regular carry-on baggage or on one's person.

Large items of baggage including musical instruments (e.g. guitar, bass or cello) which exceed standard cabin dimensions or weight may be accepted for carriage in the cabin, if the guest has purchased an additional seat in advance. In such cases, the following shall be applied:

- The cabin baggage extra seat shall be booked in the same guest's PNR.
- The weight of any such items shall not exceed 75 kg per seat.
- Guests with other airline, interline or codeshare flights can be accepted provided they have been booked as per EY policy.
- The names must always be shown as a party of 2 (i.e. same last name). The first guest name (name field shall be the actual guest's name, while the second guest name shall be CBBG).
- The SSR CBBG must be present.
- Single ticket is issued to guest and CBBG bookings.
- Other guests (e.g. other family members travelling same itinerary) must be booked in a separate PNR.

- Seats shall be pre-reserved and allocated for such items in accordance with the following:
 1. Such items shall not be placed in emergency exit rows, in or behind over-wing emergency exit rows or bulkhead row seats.
 2. Such items shall be in a seat adjacent to and in the same seat row as the accompanying passenger.
 3. On narrow body (single-aisle) aircraft, window seats shall be used.
 4. On wide body (twin-aisle) aircraft, window seats shall be used. Middle and aisle seats may be used on the centre seat row, provided passengers seated in the same seat row have free access to the aisle.
 5. The following maximum dimensions shall be referred to for acceptance of such items for which an extra seat has been purchased:

Height: 114cm/45"

Depth: 22cm/9"

Width: 43cm/17"

Weight: 75kg/165lbs
 6. Guests will be permitted to carry large items and musical instrument within the below dimensions on the basis that they are allocated in a row of their booked cabin, where the guest is allocated a seat with a bulkhead immediately behind them.

Height: 155cm/ 61"

Depth: 22cm/9"

Width: 43cm/17"

Weight: 75kg/165lbs

If the guest is seated in any other area of the cabin, the existing acceptance criteria mentioned in point 5 above shall be followed.

Refer to GOM Chapter 8.19.3 for further important requirements and limitations pertaining to the carriage of large items on cabin seats.

2.7.5 Portable Inflight Beds

Travel accessories such as Portable Inflight Beds (PIB) are available to make travel more comfortable for children or adults. Travel accessories which require attachment to any part of a cabin seat including the tray table e.g. Fly Legs Up, is not permitted as it may cause damage to the seat.

PIB shall be used on the below seat type to ensure that all guests have direct aisle access.

Narrow body (single-aisle): Window seat

Wide body (twin-aisle): Window seat or middle seat of centre row

Use of travel accessories are not permitted on emergency exit rows.

2.7.6 Paid Seating

Guests wishing to pre-reserved their seat in advance will be charged depending on the seat type and location on the aircraft. All other guests will be assigned seats based on availability from 30 hours before departure. Guests may pre-reserve a seat online via manage my booking, mobile app, contact centre or their travel agency. Seats allocation is free at airport level, four hours before departure.

Pre-reserved seat charges are filed in Altéa CM.

Seats available for reservation in advance include:

- Standard Seats rear, middle or front zone
- Extra Legroom seats
- Exit row seats
- Bulkhead seats
- Neighbour Free Seats

Terms and Conditions

- Seat reservation is free for guests holding Economy Deluxe bookings
- If a guest voluntarily changes their flight, seat bookings may be transferred to the new flight, provided there is available space.
- Seats are non-refundable for voluntary changes
- Guests are not eligible for a seat refund if they were upgraded either voluntarily or involuntarily
- Airport staff will allocate Standard Seats at check-in free of charge
- Guests checking in via an IATCI carrier will obtain Standard Seats free of charge within the check-in window
- Business and First pre reserved seating are free of charge
- Extra legroom seats can be purchased via web and mobile app until check-in closure

Airport Sales

Airport staff shall charge for the following seats unless all other seats have been exhausted:

- Bulkhead Seats (infant policy and guests with disabilities or service dogs excluded)
- Extra Legroom Seat (A320 16/120 config excluded)

2.7.7 Economy Neighbour Free Seats

Neighbour-Free Seats (NFS) allows guests more space, comfort and privacy by bidding for one, two or even three extra seats depending on aircraft configuration and number of travellers in the booking.

Eligible guests will receive an email notification inviting them to bid for NFS. For successful bids, NFS are confirmed 6 hours prior to flight departure for Network Airports and 4 hours prior for AUH.

Guests eligible to receive an email notification for NFS shall be:

1. Holding a confirmed ticket on an EY-operated flight

2. Valid email address or Etihad Guest membership number updated in the PNR

The following categories are **not** eligible for NFS:

- a. Group bookings
- b. Staff travel bookings in S class

Bookings containing the following SSRs:

- Extra seat for cabin baggage (CBBG) and personal comfort (EXST)
- Miles upgrade – MRYC, MRFC, MUCF, MUYC
- Pet in cabin (PETC)
- Unaccompanied Minor (UMNR)

At the Airport:

1. Economy Neighbour Free Seats are not sold at the airport.
 - Guests can bid for NFS up to 72 hours prior to departure through Manage My Booking.
 - NFS bids are confirmed between 41 hours to 22 hours before departure
 - Guests can purchase instant NFS from 72 to 1.5 hours before departure, through Manage My Booking (subject to availability)
2. Agents shall identify NFS guests through the SBLK.
3. Additional seat(s) assigned to the guest shall be included in the CPR with the SBLK Service Code.
4. The SBLK SSR code will print on the boarding pass.
5. Confirmed NFS bookings will appear on the guest's CPR in Altéa CM. The seat map will also display the exact NFS allocation as H-blocked seat(s).
6. Non-confirmed staff tickets irrespective of their type shall not be accommodated on NFS seats.
7. In case of 'NO SHOW' NFS guests, blocked NFS seats can be utilised to accommodate staff, or as required.
8. Economy Neighbour Free shall not be used for the carriage of large items on cabin seats e.g. cellos, guitars, basses. Guests must purchase an extra seat in advance in line with the existing CBBG process.

NOTE

In case of irregular operations, last minute sales, go-shows and overbooking, NFS may not be honored. In such cases, the agent shall inform the guest to send an email to SelectUpgrade@etihad.ae and request for a refund.

2.7.8 Seat Changes & Refunds

Airport staff shall ensure that seat changes for guests who have pre-reserved their own seat, or who have already been checked-in are protected wherever possible.

In the event of a supervisor needing to change an existing pre-reserved seat this can be authorised during the following circumstances only:

- To accommodate a parent/guardian travelling with a child/minor under the age of 18
- To accommodate a family due to religious/gender/cultural considerations
- To accommodate a guest with a physical condition e.g. fractured leg, accommodate in bulkhead or non-exit row seat or aim to accommodate the guest on a standard seat with a free adjacent seat
- To accommodate a guest who paid for their seat which was unhonoured due to equipment change

Airports should firstly source staff travellers to move in order to accommodate the above seat changes. Commercial guests may be moved as a last resort.

Where possible, guests should be offered like-for-like seating i.e. window for window or by offering a better seat e.g. further forward rather than further back.

It is not acceptable for any seat change to be issued to a guest without a conversation before boarding. Gate agents are the final touchpoint for managing seat changes and communicating to guests before they board the aircraft.

2.7.8.1 Refunds

If guests have purchased a seat but travelled on a different seat, refer to below table to check if they are entitled to a refund.

Guests who have pre purchased a seat and are rerouted on another airline due to disruption are also entitled to a refund.

Guests shall be advised to visit etihad.com/feedback to obtain a refund.

Guest purchased:	Guest travelled on:	Eligible for Refund
Extra legroom seat	Forward, middle, rear zone seat	YES
Exit row seat	Forward, middle, rear zone seat	YES
Bulkhead seat	Forward, middle, rear zone seat	YES
Forward, middle, rear zone seat	Extra legroom seat, Exit row seat, Bulkhead seat	YES
Forward zone seat	Middle, or rear zone seat	YES
Middle zone seat	Forward, or rear zone seat	YES
Rear zone seat	Forward, or middle zone seat	YES
Extra legroom seat (e.g., 15A)	Extra legroom seat Window/Middle/Aisle on a different row (e.g., 18A)	NO
Exit row seat (e.g., 12A)	Exit row seat Window/Middle/Aisle on a different row (e.g., 24A)	NO

Guest purchased:	Guest travelled on:	Eligible for Refund
Bulkhead seat (e.g., 15G)	Bulkhead seat Window/Middle/Aisle on a different row (e.g., 24G)	NO
Extra legroom seat (e.g., 15A)	Extra legroom seat on any other position (e.g., 17C)	YES
Exit row seat (e.g., 40A)	Exit row seat any other position (e.g., 40C)	YES
Bulkhead seat (24K)	Bulkhead seat any other position (e.g., 24J)	YES
Forward, middle, rear zone seat (e.g., 33B)	Forward, middle, rear zone seat on any other position (e.g., 34A)	YES
Forward, middle, rear zone seat allocated through Comfort fare brand (H/K/M/Q RBD)	Any of the refundable options	NO
Forward, middle, rear zone seat allocated through Deluxe fare brand (Y/B RBD)	Any of the refundable options	NO

For A320 & A321 aircraft, airports shall ensure that the guests are briefed that the exit rows are non-reclinable prior to purchase.

Any guest who has mis-declared their suitability to the safety criteria for the Exit rows and is deemed not-fit by airport staff, will not be entitled to a refund.

2.7.9 Crew Rest Seats

For crew rest purposes, the below seats shall be automatically blocked by the system and shall not be released to accommodate any guests.

ROUTE	SEAT BLOCK REQUIREMENTS		
	B787-9 2 CLASS J28 Y262 (78E)	B787-9 3 CLASS (78D) & OPERATING AS 2 CLASS (78G)	B787-10 2 CLASS (78C / J)

			(1 seat)

NOTE

Revenue Management shall adjust the inventory accordingly.

2.7.10 Cabin Aircraft Operating as 2 Cabin Service

Due to operational requirements, three cabin aircraft (F/J/Y) may operate as a two cabin service (J/Y) to various airports. Altéa CM will be updated to reflect a two cabin configuration, whilst there are seats in the First cabin on the aircraft.

1. Any guest seated in a First seat will receive a Business service onboard
2. Boarding passes will reflect as Business for seats physically in the First cabin
3. Catering will be provided as a two cabin service
4. Self service channels will reflect as a two cabin service
5. No upgrade rate will be filed for airport paid upgrade - Business to First
6. There is no restriction to allocating First seats based on guests' PCVs.

2.8 UPGRADES

2.8.1 Etihad Select Upgrade (ESUP)

Etihad Select Upgrade (internally referred to as Plusgrade) is an online upgrade system where eligible guests shall be able to place a bid for an upgrade into the next cabin. Guest(s) shall receive an email prior to their departure if there are seats available in the higher cabin and if eligible for an upgrade.

Revenue Management (RM) shall review the offers on the flights from -72 hours until -6 hours to STD for network airport departures and -4 hours to STD for AUH departures. RM shall accept or reject the offer based on; the number of empty seats in the premium cabins, the offer amount, guest membership status, and RBD of the original booking.

Select Upgrade tickets are not re-issued into First/Business; therefore the ticket shall display the original booked RBD.

Amadeus functionality shall ensure that the check-in record remains in associated status despite the mismatch between the booked RBD and the ticket.

Payment for the upgrade shall be taken via an EMD.

Guests successfully upgraded are entitled to the following:

- Cabin baggage allowance of the upgraded class of travel
- Lounge access is permitted in accordance with the upgraded class of travel

- Fast track through the airport with priority check-in and boarding

For any ticketing issues regarding bookings staff shall contact GCCAUHPlusgrade@etihad.ae.

2.8.1.1 Select Upgrade Escalation Process

Airport teams shall follow the process outlined below, in the event that a guest has bid to upgrade (Plusgrade) and it has been incorrectly processed:

Pre-flight Editing Checks

Guest has been upgraded but disassociated ticket status before check-in.

Airports should as part of final editing checks, prior to check-in opening contact Service Support by email gccauhplusgrade@etihad.ae or contact + 971 600 555 665 to ensure resolution and associate ticket prior to the guest arriving at the airport.

NOTE

The above email and duty mobile are for internal use only and must never be shared with our guests.

Airport Check-In

Guests have successfully bid the Plusgrade and an EMD has been issued however the new booked cabin does not reflect in the PNR and seats are available:

1. Airport to contact Service Support by duty mobile and confirm if the guest was charged for the upgrade.
2. Once confirmation has been received, perform a manual regrade to accommodate guest in the higher cabin.
3. MUYC/MUCF service code shall not be added, as it will drive additional charges.

Guest advises that they were charged, and seats are not available:

1. Airport team to advise guest that seats are not available and apologise.
2. If available, offer guest an Extra Legroom seat free of charge.
3. Contact Service Support and verify the EMD. Once validated, insert a comment – At the Gate, “UG GUEST – HOLDING PG EMD”
4. Boarding gate staff shall review the flight status and manual regrade the guest if seats became available.
5. If guest cannot be accommodated in the higher cabin at flight closure, the Service Support team will be responsible to refunds.

Airport teams should avoid charging the guest for airport paid upgrades unless they cannot reach Service Support after several attempts

2.8.2 Commercial

A guest upgraded due to commercial reasons is referred to as a Commercial Upgrade.

Guests holding a commercial upgrade authority shall have a waiver added to their PNR.

The following are the main reasons for Commercial Upgrades:

1. To recognise a Commercially Important Person (CIP)
2. To recognise a Very Important Person (VIP)
3. To compensate Guests subjected to service deficiency such as a delayed flight, denied boarding, etc. on previous occasions

2.8.3 Commercial Upgrades Authorised by Etihad Management

The following applies ONLY to commercial guests whose booking is updated with an authority to upgrade.

Authorizing Manager	Y-J	J-F	Y-F	ID/AD	Upgrade Priority
GCEO	√	√	√	√	1
CRCO	√	√	√	√	2
COGO	√				3
VP Sales & Sales RGMs	√				4
SVP e-Com. Digital, Marketing & Loyalty*	√				5
Manager, Guest Response*	√	√			6

* For service recovery purposes only

- Commercial upgrades shall be guided by the following approval process
- Upgrade messages should be issued 24 Hours before flight departure
- All requests to be requested via email to the Upgrade Requests email address UGRequests@etihad.ae clearly showing the business justification, flight number, date, route and PNR for approval.

Emails must come from, or include a copy to, one person shown below in the Upgrade Authority list. Users of Salesforce.com should make their requests through this system

- The PNR will be updated to reflect the waiver
- Upgrade requests shown in the CKIN comments field are not acceptable and should not be honoured

2.8.4 Operational Upgrades at Airport

When it is known in advance that upgrades shall be required to counterbalance over-sales, it is important that the involuntary upgrade plan is initiated and cascaded to agents prior to check-in commencing.

Staff shall follow the PCV scheme in the event of performing operational upgrades. Proactive flight management should vastly reduce the need for upgrades to take place at the boarding gate.

The following guidelines shall be applicable to both Commercial and Operational upgrades:

- Airport Lounge usage is not an automatic privilege to upgraded Guests unless the authority explicitly states the provision of such privilege.
- Upgrades are subject to space and meal availability (check for availability of special meal requests if applicable).
- In the event of the flight being oversold, children(*) and/or infants(*) shall not be considered for an upgrade.

(*) Infants (up to but not including 2 years old) and children (2-12 years old).

Upgrades shall be actioned in the following order:

1. Guests who purchase instant/ mileage upgrade at airport on day of travel.
2. Selected commercial guests whose booking is updated with a CEO or Chief Officer authority to upgrade as a part of this policy.
3. Staff holding a confirmed ticket with eligibility for upgrade to premium cabin.
4. Operational upgrades to clear an overbooked flight.

The following categories of guest shall **not** be considered for operational upgrade:

- Guests with children and/or infants (due to meal requirements)
- Guests with SPMLs
- MEDA, INAD, DEPU
- UMNRR

2.8.4.1 Operational Upgrade - The Residence

The seating capacity within The Residence shall be utilised for operational upgrades to manage overbooking scenarios. A maximum of two guests (two adults OR one adult and one infant/child) can be accommodated in The Residence.

Guests shall be upgraded according to the PCV ranking within the First cabin.

Team members shall approach eligible First guests when the possibility of an operational upgrade to The Residence has been communicated by Flight Editing/Flight Control Admin Team, Duty Supervisor, or delegate.

When engaging with guests, team members shall:

1. Maintain communication that is polite, discreet, and aligned with the approved script.
2. Clearly advise guests that the upgrade is not guaranteed and, if available, will only be confirmed at the boarding gate.
3. Remind guests travelling with companions that an upgrade may result in being seated separately.

Any guest(s) upgraded to The Residence shall be informed that the upgrade is provided on a complimentary basis.

- Upgraded guests shall not be entitled to MAAS or VIP room access.
- Comment shall be added in the system as “*Residence FOC due to Operational Reasons*”

2.8.5 Instant and Promotional Upgrades

2.8.5.1 Airport Paid Upgrade

Airport Paid Upgrades are available for guests that wish to pay to travel in the premium cabin. For Airport Paid Upgrades, all payments shall be collected using the MUYC and MUCF service codes as applicable.

Airport Paid Upgrades **shall not be offered** for:

1. Guests travelling on staff tickets / non-revenue tickets (ID/AD tickets)
2. Upgrades from Economy to First
3. Redemption tickets for Business to First (“I” RBDs)
4. Sale Fares (“T” RBD)

Before proceeding with the process, the following assumptions must be met:

1. Catering levels have been reviewed and advised to all staff at the pre-flight briefing
2. Agreed cut off times with the catering provider for additional premium meals

Airport Paid Upgrades shall be offered at the time of check-in and take precedence over any annual leave and duty travel upgrades (duty travel upgrades actioned in advance of flight check-in excepted). Rates are subject to change; therefore the guest shall be advised of the rate only after checking on the system. Infants not requiring a seat shall be upgraded free of charge

- Rates are subject to change; therefore the guests shall only be advised of the rate only after checking the system
- Infants not requiring a seat shall be upgraded free of charge

The benefits associated with Airport Paid Upgrades are as below:

- Cabin baggage allowance of the upgraded class of travel
- Lounge access is permitted in accordance with the upgraded class of travel
- Fast track through the airport with priority check-in and boarding

2.8.5.2 Airport Paid Upgrades Onward Connecting Flights

Where guest requests for an Airport Paid Upgrade on a connecting flight, airport team members shall process and collect the payment by adding the MUYC or MUCF service to the preferred segments and through check-in the guest to final destination.

Guests may choose to only upgrade one of their sectors.

2.8.5.3 The Residence – Airport Paid Upgrades

Guests can purchase The Residence at the check-in counter using the accepted forms of payment.

1 Guest / 1 Guest + INF - Residence for One Person (RSOP)

2 Guests (Must be booked in same PNR, max 2 guests per PNR) - Residence for Two Person (RSTP/RSAP)

The service code when there are two guests in the PNR shall be added only to one guest, and the accompanying service code will be automatically added in the system.

For flights departing Abu Dhabi, the Premium team leader shall contact Aircraft Dispatcher to notify the crew of the last minute Residence booking. Lounge supervisor shall also be notified.

2.8.6 Mileage Upgrades

Airport upgrades using miles are available for guests wishing to travel in a premium cabin. Before proceeding with the upgrade, airport staff shall ensure that:

1. The guest holds the required number of miles
2. Catering levels and seat availability have been reviewed

Agents shall refer to Amadeus User Guide for instructions on how to add Upgrade Services and add guests to the Regrade List.

NOTE

1. Etihad Guest may upgrade family/friends provided that the card holder is present at check-in and they must be booked on the same PNR.
2. Miles and cash cannot be combined.
3. The mileage values for the upgrades are inclusive of taxes.
4. The mileage quoted is dependent on the tier level of the member whose miles are being deducted e.g. a Etihad Guest Silver is redeeming miles for another guest, then the silver discount applies.

Mileage upgrades are entitled to the following:

- Cabin baggage allowance of the upgraded class of travel
- Lounge access is permitted in accordance with the upgraded class of travel

For mileage upgrades which encounter an error during normal processing in Amadeus, agents shall call the service support team on +971 600 555 665 or +971 56 411 5067 to perform the mileage deduction in Comarch system (numbers are for internal use only)

If an airport does not have the resource to support the below process or if it would cause a delay to check-in closure, then the request may be denied.

Guests shall accrue Etihad miles as per the original ticket and are not entitled to the following:

- Extra checked baggage allowance
- Chauffeur service

2.8.7 Manual Regrade for Weight & Balance Management (A321 neo-LR)

To support the weight & balance requirements on the A321neo-LR, proactive upgrades from Economy to Business shall be carried out when necessary.

Approximately 24 hours prior to departure, Load Control shall review the aircraft's weight and balance data. Where the following conditions are met, a notification shall be issued to the respective airport teams indicating the minimum number of guests required to be seated in Business:

- Booked load in Business is fewer than 10 guests.
- Booked load in Economy exceeds 120 guests.
- The aircraft is expected to operate within Trim Envelope C (tail-heavy configuration).

Sample notification from Load Control:

Flight Date (UTC)	Flight Number	Origin	Destination	Booked Load J/Y	Minimum Required in Business
					XX

This information shall also be considered when finalising Business catering orders.

2.8.7.1 Airport Acceptance

Where all other upgrade options have been exhausted, such as airport paid upgrades and eligible commercial and staff regrades, complimentary upgrades are required to meet the minimum Business load for trim purposes, Team members shall apply the following selection criteria:

- Guest selection shall be based on the PCV score.
- The guest with the highest PCV ranking shall be prioritised for the upgrade.

NOTE

Airport teams shall continue to prioritise airport paid upgrades until check-in closure before processing any complimentary upgrades to meet trim requirements.

Upgrade Process

The Manual Regrade process shall be followed in Altéa CM with the following applied:

Regrade Reason	Technical
Extra Information (free text)	A321LR Trim Issue

Seat Accommodation

Guests upgraded for weight and balance purposes shall be assigned starting from the last row in Business ensuring optimal trim balance and consistent cabin distribution.

2.9 GUEST ARRIVAL, TRANSFER & TRANSIT

2.9.1 Pre-Arrival

Review the pre-arrival information from Altéa CM and/or messages.

- a. Prepare for short connections if applicable.
- b. Arrange facilitation for guest requiring assistance, e.g. UMR, PRMs.
- c. Review the PRM list and allocate the required staff and/or equipment
- d. Check requirements for any gate delivery mobility aids.
- e. In case of delay of arrival, liaise with Guest Control for rebooking of onward connections.

2.9.2 Arrival

- a. Ensure the Passenger Boarding bridge (PBB) is prepared and operated in accordance with GOM Chapter 5.1.3.5
- b. Ensure guest disembarkation routes are safe and supervised in accordance with GOM Chapter 5.1.3.6
- c. Provide guest assistance as required, including any special assistance requirements
- d. Communicate any delays in providing assistance services

2.9.3 Transfer

Transfer guests are defined as guests arriving at an airport on one flight number and departing on a different flight number without breaking their journey.

If applicable:

- a. Check the inbound/outbound connections and the number of guests affected
- b. Check time-critical connections, and inform gate staff of onward transfer
- c. Prepare for handling of guests requiring assistance
- d. Meet the transferring guests upon arrival of the incoming aircraft, using iFlight Neo app
- e. Direct guests as applicable:
 1. through-checked guests to the appropriate departure gate(s)
 2. non-through checked guests to the transfer desk or gate for check-in, as applicable
- f. If a seat change is required or requested, ensure that the guest receives an updated boarding pass with their new seat number. This is to prevent boarding errors for flights utilising Biometric Boarding.

2.9.4 Transit

Transit guests are defined as guests flying into and departing from an airport on the same flight number, which stops to pick up additional passengers or to refuel.

2.9.4.1 General

Transit guests may be allowed to disembark when scheduled ground time and local circumstances and facilities permit.

Certain categories of guests require escorting during the transit time in accordance with applicable security and special assistance requirements.

Local regulations shall be applied regarding security of transit guests. This may include, but may not be limited to, guest and baggage screening requirements.

Guests identified as remaining on board shall be advised at time of check-in that they must remain on-board the aircraft during the stop at the transit point.

Guests who are transiting shall hold a single boarding pass with the origin and destination city. The transit city will not appear on the boarding pass, therefore it is important that airport staff verbally advise the guest of the transit stop. Airport teams may identify the transit segment via the passenger details screen in Altéa CM.

2.9.4.2 Disembarkation of Transit Guests

- a. Instruct guests to retain their original boarding pass.
- b. Inform guests about boarding time and gate and available facilities
- c. Transit guests must be re-secured when re-boarding the flight. (i.e. travel document checked, boarding status verified, and transit card collected).
- d. Local regulations may require or permit certain categories of guests to remain on board.

2.9.4.2.1 Disembarkation of Transit Guests on Triangular/Tag Flights

To ensure that the correct number of transit guest remains on board and only applicable guests to disembark the aircraft, the following tasks shall be performed.

- a. The total number of transit guests that requires to remain on board shall be provided to the SCCM
- b. Mandatory headcount shall be performed by crew to ensure number of guests aligns with the transit number that has been provided
- c. Ground Staff shall be present on the aircraft exit door to conduct the secondary boarding pass check and allow guests with final destination of current transit stop to disembark. (The first check shall be done by the crew. This process shall not be done in lieu of crew or vice versa)
- d. In the event that the transit number doesn't tally:
 - Headcount exceeds the number manifested: Ground Staff and crew member shall go through the cabin and check for terminating guests and advise to disembark (Ground Staff to check from AFT and CC will start from FWD)
 - Headcount below the number manifested: Ground Staff and crew member shall go through the cabin with a copy of the manifest to identify the seat of the missing guest and ensure they are offloaded along with baggage (Ground Staff to check from AFT and CC will start from FWD)

2.9.4.3 Boarding Transit Guests

Boarding Procedure

- a. Board transit guests before local guests.
- b. Re-secure the flight by checking travel documents and validating boarding status by collection of the transit card or review of the original boarding card, as applicable. Validation may also be performed using the flight manifest or DCS.

Missing Transit Guests

The flight shall be re-secured before door closure. If guests are missing, refer to Chapters [5.8](#) and [5.9](#).

2.9.4.4 Aircraft Change En Route

The following tasks shall be performed in case of an aircraft change at any airport en route other than a regular transfer to another scheduled flight with a different flight number.

- a. Advise cabin crew that all transit guests must disembark with their carry-on baggage.
- b. Distribute transit cards, transit boarding passes or instruct guests to retain their original boarding pass, as applicable. Inform guests of the boarding time, gate number and available facilities.
- c. Provide guest assistance as required.
- d. In case of a change of configuration, assign guests new seat numbers if applicable, or apply free/open seating.

2.9.5 Abu Dhabi Stopover Program

Etihad Airways offers special discounts on hotel stay in Abu Dhabi for guests transiting Abu Dhabi.

The duration of each stopover night is capped at a 24-hour stay. Depending on the flight itinerary, a maximum of 4 nights, up to two nights for free accommodation and three or four nights with special hotel discounts, can be booked under this offer and is available for guests on select markets.

The hotel reservation is booked and managed by Etihad Holidays and are subject to availability.

Eligibility / Conditions

- Only bookings/tickets issued through Etihad direct channels qualify for Abu Dhabi Stopover.
- Hotel reservations must be made at least 72 hours before the scheduled arrival in Abu Dhabi.
- A minimum transit time of 24 hours is required.
- Individuals under 18 must be accompanied by an adult.
- Guests shall be responsible for obtaining any necessary visas and hold the required travel documentation to enter the UAE.
- Transfers to/from the hotel are not included.
- Valid for travel and hotel accommodation, excluding blackout dates during major events and conferences.

Stopover product is not available for:

- One-way fares
- Journeys commencing from Oman
- Travel agent bookings
- Staff Travel, Prize Winner and Commercial Gesture Tickets
- Etihad website bookings that do not have the "RM Stopover Remark"- example below

Flight tickets booked through the Stopover flow on Etihad.com will have the RM Stopover Remark. If a guest has a stopover flight booked through the web but there is no RM remark, they have likely purchased their tickets through the multi-city option, which does not entitle them to stopover hotels.

For urgent queries on Stopover booking status, airport teams may contact the Guest Service Support Team on +971 600 555 665. This number is for internal use only and must never be shared with our guests.

For more information, refer to the [Reservations & Ticketing Manual](#)

Abu Dhabi Stopover – Visa Application status check

Guests who booked an Abu Dhabi stopover and require a visa in the UAE will receive an email to inform them about their visa application status. Guests with an approved visa application with an APP OKTB response shall be accepted on the flight.

In cases where the visa application is under review or pending and the guest presents the letter below, airport team members must adhere to the following guidelines:

Sample Letter:

*Your visa application is under review. You **must** arrive at your departure airport as soon as check-in opens and present this letter so that the status of your application can be reviewed before you board your flight to Abu Dhabi.*

If your visa is approved before check-in closes, you will be accepted on the flight and can continue your journey as scheduled.

*If your visa is not approved or is rejected, you will **only** be accepted on the flight if your transit time in Abu Dhabi is within 24 hours. If this is the case, you will be permitted to remain in Zayed International Airport.*

If your transit time is longer than 24 hours and your visa is not approved before check-in closes, you will not be permitted to board. You will need to rebook your ticket following the applicable terms and conditions.

Guests with a transit time of more than 24 hours and a pending visa status:

- Since the APP will result in a NOT OKTB response, airport team members should contact the Regulatory Compliance Unit (RCU) to confirm the visa application status with the Visa Unit.
- RCU assesses the case and forwards the request via email to the Visa Unit, copying the Station Ops address xxxairport@etihad.ae
- Visa Unit will review the case and provide a response via email to RCU, copying the Station at xxxairport@etihad.ae

- iv. In cases of visa denial, the OSI shall be updated as “TRANSIT VISA REFUSAL and ONRS shall be created.
- v. The guest shall be advised to contact the Call Centre to rebook on an alternative flight and no DNB compensation shall be provided.

NOTE

Please be advised that the Airport Empowerment Toolkit shall not be used in these situations.

If guest's transit time is less than 24 hours, they shall be permitted to board their flight regardless of whether their visa has been approved or denied. Airport team members shall advise guests to remain in the airport's transit area. The OSI shall be updated as “GUEST BRIEFED TO REMAIN AIRSIDE”.

2.9.6 Etihad Shuttle

Etihad Airways provides regular shuttle transfers for Economy guests to and from:

- Zayed International Airport (AUH) and Dubai (XNB)
- Zayed International Airport (AUH) and Al Ain (ZVH)

Location Information:

- Abu Dhabi: Zayed International Airport, in front of Terminal A
- Dubai: Al Wasl Centre, behind Safestway Supermarket on Sheikh Zayed Road
- Al Ain: Etihad City Office, next to ADNOC petrol station, Main Street.

The distance between pickup/drop off in Al Ain to Zayed International Airport is approximately 140km and the drive time is 2 hours and 15 minutes, for Dubai to Zayed International Airport is approximately 129km and the drive time is 1 hour and 40 mins.

The Etihad Shuttle Service is available free of charge to guests holding confirmed shuttle reservations as part of a flight itinerary on Etihad Airways, Virgin Australia, Air Seychelles, Air Serbia, Alitalia, Royal Air Maroc, Hainan Airlines, Bangkok Airways, Vietnam Airlines and Garuda Indonesia.

Etihad Shuttle Service can be booked/added with Etihad or travel agency as part of the flight itinerary.

Terms and Conditions:

- The Etihad Shuttle Service must be booked 24 hours prior to flight departure. Bookings made within 24 hours shall not be confirmed.
- Unaccompanied Minors are not eligible for coach service.
- The Etihad Shuttle Service can only be used by guests who have a corresponding arriving or departing flight from Zayed International Airport on the same day. The service cannot be availed on any other day under any circumstances.
- Tickets or boarding passes should be produced on request of the coach operators prior to boarding the coach.

- In UAE, Etihad employees, their dependents and friends holding confirmed and standby Staff Travel tickets, travelling on EY Operated flights, holding valid Etihad Airways (607) tickets are accepted on the coach on space availability basis only.
- Go-Show fee AED 25 will not be applicable for staff ticket.
- Etihad Shuttle services may be affected by adverse weather conditions, and may be delayed or cancelled following directives from the government. This may result to guest taking a taxi at their own expense.
- A go-show guest (with no confirmed coach booking) may pay a fee of AED 25 to avail the Shuttle service from Dubai or Al Ain to Zayed International Airport, subject to seat availability. Only credit card payment is accepted. This service is currently not available from the airport.

2.10 PRIORITY ACCESS

Priority Access allows Economy guests to expedite the airport process by providing them with:

- Priority check-in
- Priority boarding
- Priority baggage delivery

Priority Access can be purchased at the airport, contact centre, travel agencies and online.

Guests who have pre-purchased Priority Access will have a 'Priority Access' EMD issued. They are also identifiable with a 'PRIO' edit.

2.11 MEET AND ASSIST

2.11.1 Overview

Etihad provides a Meet and Assist service to eligible guests, to facilitate a smooth airport experience. The MAAS service involves the guest being escorted by an EY or GHA staff member through the following touchpoints. Refer to Chapter [2.5.5](#) for handling procedures.

2.11.2 Eligible Guests

Category	Comments
Etihad Airways Group Executives (EXEC) • Chairman of the Board • Members of the Board including dependents (present and retired) • Group CEO • Chiefs • Senior Strategic Advisors and/or their Spouse and Children.	Email sent to Airport Duty Supervisor / Delegate from relevant Executive Secretary, or from 'AUH TCC Forward Planner'

Category	Comments
There is no requirement for children to be accompanied by the executive or spouse. They are entitled to MAAS when travelling alone.	
VVIPs Al Nahyan Royal Family, designated as Sheikh or Sheikha	System generated list communicated to Duty Supervisor or Delegate / Lounge from "VIP Guest Experience". Guests listed who are not eligible are on the list for information only.
CIPs – Salesforce approvals only	Email to airport from VIP Desk once Commercial Gesture is approved

The above eligible guests will continue to be communicated by VIP Desk to airports under the FOC MAAS list. The FYI list which is sent to airports by VIP Desk is only for information purposes, no MAAS is required.

Eligible CIPs and all other guests requiring MAAS must have a cost centre provided for prior salesforce approval. The commercial gesture ID shall be updated in the PNR remarks and the commercial gesture approval shall be emailed to the relevant airport.

2.11.3 Etihad Meet & Greet Paid Service

Etihad offers a Meet and Assist paid product globally at the majority of global airports. The delivery of the product is outsourced to NAS Aviation and selected third party providers.

Packages are available for departing, transiting or arriving guests via etihad.com. In addition, a VIP terminal package is a unique service offered only at Abu Dhabi airport.

Guests will receive a confirmation email with details of the service and details of the meeting point or representative contact number for the day of travel. The guest's PNR will not be updated as the service is fulfilled by an outsourced provider.

Issues with fulfillment of the service shall be directed to fasttrack.aero who manage the service. All service related comments, feedback and complaints should be directed to NAS Aviation via customer.service@fasttrack.aero

2.12 FIRST MEET & ASSIST (NETWORK AIRPORTS)

The First Meet & Assist (FMAS) is a service exclusively available to First-Deluxe and Residence guests.

A dedicated team of Etihad Hosts is appointed to deliver personalised assistance throughout their arrival, departure and transit at select airports with First and Residence service.

For FMAS handling procedure in Abu Dhabi, refer to [GSM 9.25](#).

2.12.1 FMAS Network Airport Handling

Considering the varying airport facilities, the handling process shall be applied, where applicable. FMAS will be progressively introduced across Network Airports in phased deployments, with relevant communications issued in advance of each rollout.

2.12.1.1 Ad Hoc Operations

In the event of ad hoc deployment of aircraft with First/Residence services to other airports within the network, FMAS shall be available to eligible guests. This shall not apply where a three-cabin aircraft operates as a two-class service.

At airports where dedicated Etihad Host team has not been appointed, FMAS shall be delivered by the Ground Handling Agent (GHA) in accordance with the outlined handling procedures. The Duty Supervisor shall act as the point of escalation for all matters relating to the service.

2.12.2 Eligibility

Guests booked on First – Deluxe fares and all upgrades to The Residence are eligible for FMAS service. The following are excluded:

- Staff tickets
- Operational upgrades due to oversale
- Unaccompanied Minors

For Unaccompanied Minors (UMNR) travelling in First – Deluxe or The Residence, the UMNR service shall take precedence over FMAS. Additionally, Home Check-In and Etihad Chauffeur services shall not be available for these guests. Please refer to [GSM 6.2.2](#) for detailed UMNR handling procedures.

The following table summarises the eligibility based on the guest's journey:

Journey	FMAS Eligibility Guide		
	Arrival Flight	Transfer/Terminating	Departure Flight
F-Deluxe/Residence	FMAS	FMAS	FMAS
OAL to First	No FMAS	FMAS from Etihad Lounge/Etihad 3rd party Lounge	FMAS
First to OAL	FMAS	Transfer (same terminal): 3rd Party Lounge/Transfer Desk Transfer (different terminal): Transfer Desk/Terminal Transfer Point Terminating: Arrival Hall	No FMAS

Eligibility shall be determined based on the guest's ticketed booking, and the Service Keyword (SK) **FMAS** will be used to identify guests who have opted to receive the complimentary service.

2.12.2.1 Etihad Concierge

All products and services for eligible First guests will be managed by Etihad Concierge who will confirm FMAS preferences, Etihad Chauffeur bookings, and any additional products and services offered to eligible First guests.

Etihad Concierge will send an email notification of eligible FMAS guests to the relevant stakeholders no later than 24 hours prior to departure or arrival.

For urgent matters concerning FMAS service bookings, Duty Supervisors shall contact the Etihad Concierge team:

Email: firstclassteam@etihad.ae

Primary Tel: +971 2 588 7999

Secondary Tel (Urgent Escalations): +971 2 588 7348

The contact details are for internal use only and shall not be shared with the public.

2.12.2.2 Residence Upgrades and Ad-Hoc FMAS

Any last-minute FMAS requests from Etihad Concierge, or instances where a guest has upgraded to the Residence or made a last-minute booking in F-Deluxe, shall be accommodated, where possible.

The Duty Supervisor shall add the FMAS SSR to the guest's booking and notify Etihad Concierge to ensure smooth handling upon arrival.

2.12.2.3 Residence Upgrades for Etihad Chiefs

For Etihad Chiefs upgraded to The Residence, any MAAS provided shall be in line with [GSM 2.11](#) where an Etihad representative or delegate shall deliver the MAAS service across all touchpoints. For flights departing from Global Airports, the handling report shall also be sent to include the First MAAS AUH team.

First MAAS AUH

| FMAASAUH@velora.ae

2.12.2.4 Etihad Global Chauffeur

Complimentary Etihad Chauffeur service is available in Abu Dhabi and network airports offering FMAS. This service must be pre-booked through Etihad Concierge no later than 12 hours prior to departure or arrival.

For any additional requests or queries related to Etihad Global Chauffeur bookings, the Duty Supervisor shall coordinate with [Etihad Concierge](#).

For urgent chauffeur booking matters requiring immediate action, the Duty Supervisor shall escalate the issue directly to the Etihad Chauffeur Team.

Etihad Chauffeur

Primary Tel: +971 2 588 7888

Secondary Tel (only to be used when the primary number is unreachable): +20 115 725 1292

The contact details are for internal use only and shall not be shared with the public.

2.12.2.5 Home Check-In and Land & Leave

Home Check-In and Land & Leave services in Abu Dhabi will be available to eligible First guests and The Residence as part of the FMAS product.

These services will be facilitated through Etihad Concierge, who will book the guest via the Morafiq booking portal.

For any queries related to the booking, airport team members shall direct the guest to the Etihad Concierge.

Eligible guests will have the following SSR reflected in their booking.

- **SK HCIN** (Home Check-In)
- **SK LAVL** (Leave & Land)

For more information related to the service, refer to GSM Chapter [9.20](#) and [9.21](#).

2.12.3 Etihad Host

2.12.3.1 Responsibilities

The Etihad Host is responsible for ensuring the guests' meet and assist experience is seamless, efficient, and elevated. Etihad Hosts shall:

- Execute all service touchpoints with a focus on guest comfort, safety, and discretion.
- Embody Emirati hospitality by delivering service with warmth, generosity, and cultural authenticity
- Proactively preparing for the guest's arrival to prevent any delays in service delivery.
- Accommodate last-minute guest requests with professionalism and efficiency.
- Demonstrate comprehensive knowledge of Etihad's Premium products and services.
- Remain accessible and attentive throughout the guest's entire airport journey.
- Utilise iPads during FMAS for real-time updates, guest information, and post-handling reporting.
- Ensure iPads are:
 - Maintained and fully charged after each use
 - Securely stored when not in use

NOTE

iPad maintenance and safekeeping shall be the responsibility of the Duty Supervisor at each station.

The FMAS service shall always be offered to eligible guests; however, requests to decline the meet and assist service shall be respected. Etihad Hosts will continue to coordinate with the relevant stakeholders to ensure a seamless process.

If the guest is at the airport and wishes to decline the FMAS, the Duty Supervisor or delegate shall confirm the FMAS requirements for the downline sectors, remove the FMAS SSR for the current sector, and notify the Etihad Concierge of the guest's preferences for the onward journey.

2.12.3.2 Service Standards

Service standards shall be followed in accordance with the [Airport Service Standards guidelines](#).

2.12.4 Guidelines

2.12.4.1 Booking Confirmation

#	Description of the Task	Responsibility
1	Retrieve the FMAS SSR through Altéa CM for all arrival/departure flights.	Duty Supervisor
2	Where applicable, the following OSI comment shall be added for each eligible guest to identify the assigned Etihad Host: "Contact Etihad Host Xxxxx for FMAS"	Duty Supervisor
3	The Etihad Host allocation and any relevant information shall be shared with the relevant stakeholders.	Duty Supervisor

2.12.4.2 Preparation

#	Description of the Task	Responsibility
1	Arrival and transit: Monitor the flight's arrival time and gate allocation. Departure: Verify the departure time and gate.	Etihad Host
2	Retrieve the guest booking and take note of the following: • Applicable SSRs (e.g. WCHR/SVAN/Special Meal/ Limo requests) • Additional comments which may apply to guest journey • Arrival/departure gate • Inbound connections from OAL • Etihad Global Chauffeur bookings (LIMO) • Porter services Notify stakeholders in advance to ensure timely preparations.	Etihad Host/Duty Supervisor

#	Description of the Task	Responsibility
3	Prepare the nameboard on the iPad in alignment with Etihad's branding and formatting guidelines (refer Appendix A). Note: The name displayed should reflect the guest's preferred name, as provided by Etihad Concierge.	Etihad Host

2.12.4.3 Transit Handling

2.12.4.3.1 Contact Stand Arrivals

#	Description of the Task	Responsibility
1	Monitor the flight's arrival time and arrival gate.	Etihad Host
2	Where a special service assistance WCHR / WCHS / WCHC / DEAF / BLND / DPNA) has been made, contact the Wheelchair Handling team ensuring provision of assistance is available prior to the arrival of the flight.	Wheelchair Handling Team
3	Etihad Host shall wait at the end of the jet bridge displaying the guest's name on the iPad. Greet guests using the appropriate designation and name and the Etihad Host shall introduce himself/herself by name.	Etihad Host
4	Etihad Host shall escort guests through the transit security process. Note: For guests connecting with OAL, the FMAS shall conclude at the end of the guest journey within the same terminal (Transfer Desk/terminal transfer point/ Arrival Hall/OAL Lounge).	Etihad Host
5	Based on eligibility, guests with onward connections on EY shall be assisted to the Etihad Lounge or Etihad 3rd Party Lounge.	Etihad Host

2.12.4.3.2 Remote Stand Arrivals

#	Description of the Task	Responsibility
1	Monitor the flight's arrival time and coordinate with the airside transport supervisor to ensure a Premium coach is available at shipside.	Etihad Host
2	Where a special service assistance WCHR / WCHS / WCHC / DEAF / BLND / DPNA) has been made, contact the Wheelchair Handling team ensuring provision of assistance is available prior to the arrival of the flight.	Etihad Host Wheelchair Handling Team
3	Etihad Host shall wait at the remote arrival gate, displaying the guest's name on the iPad. Greet guests using the appropriate designation and name and the Etihad Host shall introduce himself/herself by name.	Etihad Host
4	The transit process shall be conducted in accordance with the procedures outlined under Contact Stand Arrivals points 4-5.	Etihad Host

2.12.4.3.3 Contact Stand Departures

#	Description of the Task	Responsibility
1	Coordinate with boarding gate staff for boarding clearance and ensure that the Premium boarding lane is clear of queues. Gate staff shall do all possible to ensure the jet bridge is not congested, facilitating quick access to the aircraft.	Etihad Host
2	Etihad Host shall escort the guest to the gate.	Etihad Host
3	Guests shall be escorted to the aircraft doors and introduced to the Cabin Manager (CM)/Cabin Senior (CS). Any relevant information shall be passed on to the CM/CS. Thank and bid the guest farewell.	Etihad Host

2.12.4.3.4 Remote Stand Departures

#	Description of the Task	Responsibility
1	Coordinate with the Airside Transport Supervisor to ensure a Premium coach is available at the gate.	Etihad Host
2	The departure process shall be conducted in accordance with the procedures outlined under Contact Stand Departures points 1-3.	Etihad Host
3	Guests shall be escorted to the Premium coach once boarded. Note: Where permitted by airport authorities, the Etihad Host shall accompany the guest to the aircraft, where the guest will be introduced to CS/CM at the aircraft doors. Thank and bid the guest farewell.	Etihad Host

2.12.4.3.5 OAL Arrivals

This applies to guests with inbound flights from other carriers under the same PNR.

For guests who are required to clear customs or immigration, they shall be met at the Premium check-in counters (refer [Departure Handling](#)).

#	Description of the Task	Responsibility
1	Guests with OAL inbound flights shall be met at the Etihad Lounge/Etihad 3rd Party Lounge.	Etihad Host
2	Etihad Host shall approach the lounge and locate the guest at D-75 minutes, displaying the guests' name on the iPad.	Etihad Host
3	When the guest is located, the departure process shall be conducted in accordance with the procedures outlined under Contact Stand Departures or Remote Stand Departures	Etihad Host
4	Where the guest has not self-identified or accessed the lounge, the Etihad Host shall proceed to the boarding gate at D-60 and await the guest's arrival.	Etihad Host
5	Guests shall be escorted to the aircraft doors and introduced to the Cabin Manager (CM)/Cabin Senior (CS).	Etihad Host

#	Description of the Task	Responsibility
	Any relevant information shall be passed on to the CM/CS. Thank and bid the guest farewell.	

2.12.4.4 Departure Handling

#	Description of the Task	Responsibility
1	The chauffeur shall notify the Etihad Host team responsible for the expected arrival. The vehicle plate number shall be recorded to confirm the correct guest is being met and welcomed. Where there is no designated kerbside drop-off, guests shall be met once they have reported at the Premium check-in counter.	Etihad Host
2	Where kerbside drop-off is available, the Etihad Host shall ensure that a porter is present prior to the arrival of the Etihad Chauffeur, to assist guests with their check-in luggage from the kerbside to the Premium check-in counters. Where guests report directly to the check-in counters, the porter shall assist with all check-in luggage.	Etihad Host
3	Etihad Host shall greet guests using the appropriate designation and the guest's name and shall introduce themselves by name. Etihad Host shall escort the guest to the Premium check-in counter.	Etihad Host
4	Etihad Host shall oversee and support the check-in process, ensuring it is conducted smoothly and efficiently. Ensure that all checked baggage is affixed with the appropriate Residence or First tags and that the guest is issued the appropriate boarding pass sleeve.	Etihad Host
5	Etihad Hosts shall escort the guest through immigration and the entire departure process.	Etihad Host
6	Etihad Host shall assist guests to the Etihad Lounge/3rd Party Lounge.	Etihad Host

#	Description of the Task	Responsibility
	The guest shall be informed of the expected time the Etihad Host will return to assist with boarding.	
7	The boarding process shall be conducted in accordance with the procedures outlined under Contact Stand Departures or Remote Stand Departures	Etihad Host

2.12.4.5 Arrival Handling

#	Description of the Task	Responsibility
1	The arrival process shall be conducted in accordance with the procedures outlined in section Contact Stand Arrivals or Remote Stand Arrivals shall apply.	Etihad Host
2	The Etihad Host shall ensure that a porter is available at the baggage carousel to retrieve the guest's checked luggage and assist in transporting it to the designated Etihad Chauffeur or private transportation.	Etihad Host
3	The Etihad Host shall accompany the guest to the designated pick-up point for Etihad Global Chauffeur and introduce the guest to the chauffeur. OR To the Arrivals Hall if private transportation has been arranged. Thank and bid the guest farewell.	Etihad Host

2.12.5 Disruption Handling

In the event of a flight disruption impacting a First guest (e.g. missed connection, cancellation, delay, downgrade), the Etihad Host shall:

- Escort the guest to the Etihad Lounge/Etihad 3rd Party Lounge and ensure continuous care during the disruption.
- Provide timely updates based on the delay advisory and reaccommodation plan from Guest Control.

- **NOTE**
Should the guest decline the proposed reaccommodation plan, this shall be escalated without delay to the Guest Control Duty Manager.

- Coordinate with Guest Control for the issuance of welfare entitlements during extended delays.
- Escalate all FMAS-related disruptions to the Duty Supervisor/Airport Manager.

2.12.6 Reporting

The Etihad Host shall complete the handling report for each FMAS guest upon service completion. The report shall be submitted to the Etihad Duty Supervisor for review without delay—prior to the flight's arrival (for departures) or no later than the end of the shift (for arrivals).

The Etihad Duty Supervisor shall send the post-handling report as an attachment to the designated recipients, ensuring the subject header follows the given format:

Email Recipients To:	Airport Manager	AirportManagerXXX@etihad.ae
Cc:	Etihad Hub Operation Manager*	HOM@etihad.ae
	Premium Services Manager*	ZenaAhmadAliM@etihad.ae
	First MAAS AUH *	FMAASAUH@velora.ae
	Airport Operations XXX*	AirportoperationsXXX@etihad.ae

*to be included for flights departing to AUH and with onward connections on First/Residence

The subject header shall be formatted as follows:

First MAAS Handling Report | [Guest Name] |[PNR.] | [Flight No.] | [Date]

Example:

First MAAS Handling Report | Mr. Robert Smith | 123456 | EY06 | 11 July 2025

The post-handling report template can be found in [Appendix B](#).

All First Meet and Assist (FMAS) related correspondence shall continue to include the Premium Service Manager.

2.12.7 Feedback

Internal Feedback Escalations

For any internal feedback escalations and expected complaints, an email describing the events or complaint shall be sent to the below in the following format:

Internal Feedback Escalations Email Notification	
Subject Title	New Case PNR XXXXX First Guest Complaint
PNR Details	

Internal Feedback Escalations Email Notification

Flight Number		
Date		
Description of Events		
Email Recipients To:	GCR Duty Managers	GCRDutymanagers@etihad.ae

3.1 OVERVIEW

This chapter covers baggage acceptance and allowances, arrivals hall handling, baggage claim creation, tracing and recovery. The chapter aligns Etihad (EY) Terms and Conditions and internal processes with legislative and regulatory requirements.

3.2 CONDITIONS OF CARRIAGE

Terms and Conditions pertaining to baggage carried on Etihad are publicly accessible via Etihad website:

<http://www.etihad.com/en-ae/legal/conditions-of-carriage/>

3.2.1 Standard Checked Baggage Dimensions

Standard baggage is defined as follows:

All destinations	Less than 207cm (72x90x45)
------------------	----------------------------

Any single piece of baggage weighing more than 32kg must not be accepted for carriage (mobility aids excepted).

3.3 BAGGAGE SAFETY AND SECURITY

3.3.1 Dangerous Goods & Prohibited Items

Dangerous Goods are strictly prohibited from carriage by passengers and crew, as checked in baggage, carry-on baggage or on the person, except where permitted in accordance with [Chapter 3.3.1.3](#)

Totally forbidden are:

- **Security Type Briefcases or Attaché** Cases incorporating dangerous goods, such as lithium batteries or pyrotechnic devices
- **‘Strike Anywhere’** matches
- **Disabling Devices** such as mace, pepper spray, tear gas etc., containing an irritating or incapacitating substance
- **Fireworks** of any type, including all party fireworks, in any quantity
- Festive Crackers & Party Poppers
- Any article containing explosives
- Inflated balloons
- **Electro Shock Weapons** (e.g. Tasers)
- Liquid Oxygen Devices

Any item or product that contains a dangerous goods component such as battery(ies) which is subjected to a recall by the manufacturer for safety reasons is strictly prohibited, unless the recalled product/component has been replaced or repaired or otherwise made safe as per manufacturer instructions.

Important

Hoverboards, mini segways or other vehicles (including ride-on toys) containing lithium batteries, are forbidden for carriage as carry-on & checked baggage. Note: This includes these items with the batteries removed.

Inflated sports balls such as soccer balls, basketballs, footballs etc shall not be packed in guests' checked-in and carry-on baggage. Sports balls are acceptable for carriage (both as checked-in and cabin baggage) ONLY if they have been deflated.

3.3.1.1 Prohibited for Carriage in Cabin Baggage

- a. Guns, firearms and other devices that discharge projectiles designed to cause serious injury by discharging a projectile, or capable of being mistaken for such devices, including:
 - Firearms of all types, including pistols, revolvers, rifles and shotguns
 - Toy guns, replicas and imitation firearms capable of being mistaken for real weapons (i.e. lighters shaped like a firearm)
 - Component parts of firearms, excluding telescopic sights
 - Compressed air and carbon dioxide guns, including pistols, pellet guns, rifles and ball-bearing guns
 - Signal flare pistols and starter pistols
 - Bows, crossbows and arrows
 - Harpoon guns and spear guns, and
 - Slingshots and catapults
- b. Devices designed specifically to stun or immobilize, including:
 - Devices for shocking, such as stun guns and stun batons
 - Animal stunners and animal killers (e.g. humane killing devices)
 - Disabling and incapacitating chemicals, gases and sprays, such as mace, pepper or capsicum sprays, acid sprays, animal repellent sprays, and tear gas, and
 - Laser emitting devices
- c. Objects with sharp points or sharp edges capable of being used to cause serious injury, including:
 - Items designed for chopping, such as axes, hatchets, cleavers and 'machetes'
 - Ice axes and ice picks
 - Razor blades and box cutters
 - Knives with blades of more than 6cm
 - Scissors with blades of more than 6cm as measured from the fulcrum
 - Martial arts equipment with sharp points or sharp edges (i.e. throwing stars)
 - Swords, swordsticks and sabres
 - Khanjars, kirpans and khukris
 - Scalpels
 - Arrows & darts

- Crampons
 - Harpoons & spears, and
 - Ice skates, ski and walking/hiking poles
- d. Workers' tools capable of being used either to cause serious injury or to threaten the safety of aircraft, including:
- Crow bars
 - Drills and drill bits, including cordless portable power drills
 - Tools with blades or shafts more than 6cm capable of use as weapons, such as screwdrivers and chisels
 - Saws, including cordless portable power saws
 - Blow torches
 - Bolt guns and nail guns
 - Ropes and cords
 - Measuring tapes, and
 - Hammers, pliers, wrenches/spanners

NOTE

Workers' tools may be carried for operations reasons, if authorised by the airport operator. Such tools shall not be left unattended, and shall be accounted for and secured after the work is terminated.

- e. Blunt instruments capable of being used to cause serious injury when used to hit, including:
- Baseball and softball bats
 - Clubs and batons, such as billy clubs, blackjacks and night sticks
 - Martial arts equipment, e.g. knuckle dusters, clubs, coshes, rice flails, num chunks, kubatons, kubasaunts
 - Cricket bats
 - Golf clubs
 - Hockey or Lacrosse sticks
 - Kayak or Canoe paddles
 - Skateboards
 - Billiard, snooker or pool cues, and
 - Fishing rod
- f. Explosives and incendiary substances and devices capable of being used to cause serious injury or threatening the safety of aircraft, including:
- Ammunition
 - Blasting caps
 - Detonators and fuses
 - Replica or imitation explosive devices

- Mines, grenades and other explosive military stores
 - Pyrotechnics, including fireworks, party poppers and toy caps
 - Smoke-generating canisters or cartridges
 - Dynamite, gunpowder and plastic explosives
 - All other explosives and explosive devices
 - Gas and gas containers, e.g. butane, propane, acetylene, oxygen – in large volume
 - Non-safety matches
 - Flammable liquid fuel, e.g. petrol/gasoline, diesel, lighter fluid, alcohol, ethanol
 - Aerosol spray paint
 - Turpentine & paint thinner, and
 - Alcoholic beverages exceeding 70% alcohol by volume (140% proof)
- g. Any chemical or toxic substances which pose a risk to the health of passengers and crew or the security / safety of aircraft or property, including:
- Acids and alkalis, e.g. spillable wet batteries
 - Corrosive or bleaching substances, e.g. mercury, chlorine
 - Radioactive material, e.g. medicinal or commercial isotopes
 - Poisons
 - Infectious or biological hazardous material, e.g. infected blood, bacteria and viruses
 - Material capable of spontaneous ignition or combustion, and
 - Fire extinguishers

NOTE

1. Liquids, aerosols and gels (LAGs)

- i. LAGs in a container with a capacity greater than 100 ml (or equivalent) are prohibited to be carried on person or inside cabin unless exempted in accordance with paragraphs (b) and (c) below.
- ii. LAGs in individual containers with a capacity not greater than 100 ml (or equivalent) and contained in one transparent re-sealable plastic bag of a capacity not exceeding 1 litre (or equivalent). The contents of the plastic bag should fit comfortably and the bag should be completely closed.
- iii. Exemptions should be made for:
 - Medication, baby/milk foods, special dietary requirements to be used during the trip, and
 - LAGs carried by operational staff for personal needs

2. Inflight Catering, Stores and Supplies

- i. Items that are prohibited to be taken on board the aircraft through inflight catering, stores, and supplies are the same as prohibited items for passenger and cabin baggage.

- ii. LAGs intended for consumption, use, or sale on board the aircraft are not prohibited

3.3.1.2 Items Prohibited for Carriage in Checked-in Baggage

3.3.1.2.1 Guns, Firearms and Weapons

Except where approved in accordance with GOM Chapter 10.3.6.

- Pistols, revolvers, rifles, shotguns, pellet guns, etc.
- Replica and imitation firearms
- Sporting weapons
- Components of firearms (excluding telescopic sighting devices & sights)
- Toy guns of all types
- Cross bows
- Catapults
- Harpoon and spear guns
- Stun or shocking devices such as cattle prods, ballistic conducted energy weapons, etc.
- Lighters shaped like firearms.

3.3.1.2.2 Explosives and Flammable Substances

- Ammunition
- Blasting caps
- Detonators and fuses
- Explosives and explosive devices
- Replica or imitation explosive material or devices
- Grenades
- Gas and gas containers (such as butane, propane, acetylene, oxygen)
- Fireworks, flares and other pyrotechnics (including party poppers, crackers and toy caps).
- Non-safety matches
- Smoke generating canisters or cartridges
- Flammable liquid fuel such as petrol / gasoline, diesel, lighter fluid, alcohol, ethanol.
- Aerosol spray paint
- Static Guard Aerosol
- Turpentine and paint thinner
- Alcoholic beverages exceeding 70% by volume

3.3.1.2.3 Chemical and Toxic Substances

- Acids and alkalis such as wet batteries that may spill
- Corrosive or bleaching substances such as mercury, chlorine, etc.
- Disabling or incapacitating sprays such as mace, pepper, tear gas.

- Radioactive material such a medicinal or commercial isotopes
- Poisons
- Infectious or hazardous biological material such as infected blood, bacteria and viruses
- Material capable of spontaneous ignition or combustion
- Fire extinguishers
- e-cigarettes or similar vapour inhalation devices

3.3.1.3 Provisions for Dangerous Goods Carried by Passengers or Crew

Dangerous goods must not be carried in or as passenger or crew, checked or carry-on baggage, except as otherwise provided below:

Pilot in Command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the Airline is required*				
Alcoholic beverages , when in retail packaging, containing more than 24% but not more than 70% alcohol by volume, in receptacles not exceeding 5 L, with a total net quantity per person of 5 L. NOTE: Alcoholic beverages containing 24% or less alcohol by volume are not subject to any restrictions. Refer to local customs for more restrictive limitations.	NO	YES	YES	NO
Ammunition, securely packaged (in Div. 1.4S, UN 0012 or UN 0014 only), in quantities not exceeding 5 kg gross weight per person for that person's own use. Allowances for more than one person must not be combined into one or more packages. Contact EY Threat Assessment Centre (TAC) at tac@etihad.ae	YES	YES	NO	YES
Avalanche rescue backpack , one (1) per person, containing cartridges of compressed gas in Div. 2.2. May also be equipped with a pyrotechnic trigger mechanism containing less than 200 mg net of Div. 1.4S. The backpack must be packed in such a manner that it cannot be accidentally activated. The airbags within the backpacks must be fitted with pressure relief valves.	YES	YES	YES	NO
Batteries: spare/loose, including lithium, non-spillable, nickel-metal hydride and dry batteries , for portable electronic devices. • Must be carried in carry-on baggage only • For lithium metal batteries, the lithium metal content must not exceed 2 g • For lithium-ion batteries the Watt-hour (Wh) rating must not exceed 100 Wh • Must be individually protected to prevent short circuits (by placement in original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch) • For non-spillable batteries: – Each person is limited to a maximum of 2 spare batteries – Volts (V) and Watt-hour (Wh) for each spare battery must not exceed 12V and 100 Wh respectively.	More than 10 spare batteries requires approval	NO	YES	NO

Pilot in Command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the Airline is required*				
For articles which have the primary purpose as a power source (e.g., power banks), see Power banks				
Batteries: spare/loose lithium-ion batteries with a Watt-hour rating exceeding 100 Wh, for consumer electronic devices and portable medical electronic devices (PMED): - Watt-hour rating (Wh) must not exceed 160 Wh - Maximum of two spare batteries in carry-on baggage only. These batteries must be individually protected to prevent short circuits (by placement in original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch)	YES	NO	YES	NO
Batteries: spare/loose lithium metal batteries with lithium metal content exceeding 2 g, for portable medical electronic devices (PMED) only: - Lithium metal content must not exceed 8 g - Maximum of two spare batteries in carry-on baggage only. These batteries must be individually protected to prevent short circuits.				
Baggage with installed lithium batteries <i>Refer to GSM 3.3.1.6</i>	-	-	-	-
Camping stoves and fuel containers that have contained a flammable liquid fuel, with empty fuel tank and/or fuel container. Camping stoves and fuel containers for camping stoves that have contained a flammable liquid fuel may be carried provided the fuel tank of the camping stove and/or fuel container has been completely drained of all liquid fuel and action has been taken to nullify the danger. To nullify the danger, the empty fuel tank and/or container must be allowed to drain for at least 1 hour, the fuel tank and/or container must then be left uncapped for a minimum of 6 hours to allow any residual fuel to evaporate.	YES	YES	NO	NO
Chemical Agent Monitoring Equipment , when carried by staff members of the Organization for the Prohibition of Chemical Weapons on official travel.	YES	YES	YES	NO
Disabling devices such as CS, mace, pepper spray, etc. containing an irritant or incapacitating substance are forbidden on the person, in checked and carry-on baggage.	FORBIDDEN			
Dry ice (carbon dioxide, solid) , in quantities not exceeding 2.5 kg per person when used to pack perishables not subject to the IATA Dangerous Goods Regulations in checked or carry-on baggage, provided the baggage (package) permits the release of carbon dioxide gas. Checked baggage must be marked "dry ice" or "carbon dioxide, solid" and with the net weight of dry ice or indication that there is 2.5 kg or less dry ice.	YES	YES	YES	NO

Pilot in Command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the Airline is required*				
e-cigarettes (including e-cigars, e-pipes, other personal vaporizers) containing batteries must be individually protected to prevent accidental activation. Recharging of these devices and/or batteries on board the aircraft is not permitted, and measures must be taken to prevent accidental activation.	NO	NO	YES	NO
Electro-shock weapons (e.g. Tasers) containing dangerous goods such as explosives, compressed gases, lithium batteries, etc. are forbidden in carry-on baggage or checked baggage or on the person.	FORBIDDEN			
Fuel cells containing fuel, powering portable electronic devices (e.g. cameras, cellular phones, laptop computers and camcorders). Contact the Dangerous Goods team**	YES	NO	YES	NO
Fuel cell cartridges, spare for portable electronic devices. <u>Contact the Dangerous Goods team**</u>	YES	YES	YES	NO
Gas cartridges, small, non-flammable containing carbon dioxide or other suitable gas in Division 2.2. Up to two (2) small cartridges fitted into a self-inflating personal safety device, intended to be worn by a person, such as a life jacket or vest. Not more than two (2) devices per passenger and up to two (2) spare small cartridges per device; not more than four (4) cartridges up to 50 mL water capacity for other devices. The personal safety device must be packed in such a manner that it cannot be accidentally activated. <u>Contact the Dangerous Goods team**</u>	YES	YES	YES	NO
Gas cylinders non-flammable, non-toxic worn for the operation of mechanical limbs . Also, spare cylinders of a similar size if required to ensure an adequate supply for the duration of the journey.	NO	YES	YES	NO
Hair styling equipment containing a hydrocarbon gas cartridge , up to one (1) per passenger or crew member, provided the safety cover is securely fitted over the heating element. This hair styling equipment must not be used on board the aircraft. Spare gas cartridges for such hair styling equipment are not permitted in checked or carry-on baggage.	NO	YES	YES	NO
Hoverboards, mini segways or other vehicles (e.g. underwater/sea scooters, ride-on toys) containing lithium batteries , are forbidden for carriage as carry-on & checked baggage. NOTE: This includes these items with the batteries removed.	FORBIDDEN			
Insulated packaging containing refrigerated liquid nitrogen (dry shipper), fully absorbed in a porous material containing only non-dangerous goods.	NO	YES	YES	NO
Internal combustion or fuel cell engines . <u>Contact the Dangerous Goods team**</u>	YES	YES	NO	NO
Lithium Batteries: Security-type equipment containing lithium batteries , see Security-type attaché cases, cash boxes, cash bags	-	-	-	-

Pilot in Command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the Airline is required*				
Lithium battery-powered portable electronic devices (PED) including medical devices such as portable oxygen concentrators (POC) and consumer electronics such as cameras, mobile phones, laptops and tablets for personal use. - For lithium-ion batteries the Watt-hour (Wh) rating must not exceed 100 Wh - For lithium metal batteries the lithium metal content must not exceed 2 g - Devices must be protected from damage and unintentional activation, and - Devices in checked baggage must be completely switched off (not in sleep or hibernation mode), unless the device contains only lithium batteries not exceeding 0.3 g lithium content per device (lithium metal batteries) or 2.7 Wh per device (lithium-ion batteries), e.g. AirTags for baggage tracking. NOTE: Each person is limited to a maximum of 15 PED.	NO	YES	YES	NO
Lithium batteries, spare/loose, see <i>Batteries, spare/loose</i>	-	-	-	-
Lithium battery-powered electronic devices. - For consumer electronic devices and portable medical electronic devices (PMED) powered by lithium-ion batteries, the Watt-hour (Wh) rating may exceed 100 Wh, but must not exceed 160 Wh. <u>For portable medical electronic devices (PMED) only</u>, when powered by lithium metal batteries, the lithium metal content may exceed 2 g but must not exceed 8 g. - Devices must be protected from damage and unintentional activation and devices in checked baggage must be completely switched off (not in sleep or hibernation mode). Devices in checked baggage must be completely switched off (not in sleep or hibernation mode) and must be protected from damage and unintentional activation.	YES	YES	YES	NO
Matches, Safety (one small packet) or a small cigarette lighter that does not contain unabsorbed liquid fuel, other than liquefied gas, intended for use by an individual when carried on the person. Lighter fuels and lighter refills are not permitted on one's person or in checked or carry-on baggage. NOTE: "Strike anywhere" matches, "Blue flame" or "Cigar" lighters or lighters powered by lithium battery without a safety cap or means of protection against unintentional activation are forbidden.	NO	ON ONE'S PERSON		NO
Meals-ready-to-eat (MRE) - Also known as self-heating food, self-heating food packaging, heater meals, etc.	FORBIDDEN			
Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with non-spillable wet batteries, nickel-metal hydride batteries or dry batteries. <i>Refer to GOM/CSM 8.3.8.1.</i>	YES	YES	NO	YES

Pilot in Command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the Airline is required*				
Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with spillable batteries or with lithium batteries . <u>Refer to GOM/CSM 8.3.8.2 & 8.3.8.3.</u>	YES	YES	NO	YES
Non-radioactive medicinal or toiletry articles (including aerosols) such as hair sprays, perfumes, colognes and medicines containing alcohol; and Non-flammable, non-toxic aerosols in Division 2.2 , with no subsidiary hazard, for sporting or home use. The total net quantity of non-radioactive medicinal or toiletry articles and non-flammable, non-toxic aerosols in Division 2.2 must not exceed 2 kg or 2 L and the net quantity of each single article must not exceed 0.5 kg or 0.5 L. Release valves on aerosols must be protected by a cap or other suitable means to prevent inadvertent release of the contents.	NO	YES	YES	NO
Oxygen or air, gaseous, cylinders required for medical use . The cylinder must not exceed 5 kg gross weight. <u>Must have Etihad MEDA clearance.</u> NOTE: Liquid oxygen systems are forbidden for transport.	YES (MEDA)	YES	YES	YES
Permeation devices , for calibrating air quality monitoring equipment. <u>Contact the Dangerous Goods team**</u>	YES	YES	NO	NO
Power banks - Only one power bank is allowed per passenger - The watt-hour (Wh) rating must be 100 Wh or less and must be clearly marked (labelled, embossed, or printed) on the device - Use of power banks on board is strictly prohibited. This includes charging devices or charging the power bank itself using aircraft power sockets - The power bank must be switched off and protected from short-circuits and unintentional activation, e.g. kept in original retail packaging or a protective pouch/case. Power banks over 100 Wh are not permitted Safety recommendations for power banks: - Always keep the power bank easily accessible. - Economy cabin: Place it in a cabin bag under the seat, or in the seat pocket in front of you. - First and Business cabin: Place it in the seat's storage compartment. - Avoid storing it in the overhead locker, where crew may not be able to reach it quickly in an emergency.	NO	NO	YES	NO
Radioisotopic cardiac pacemakers or other devices, including those powered by lithium batteries implanted into a person or fitted externally.	NO	ON ONE'S PERSON		NO

Pilot in Command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the Airline is required*				
Security-type attaché cases, cash boxes, cash bags , etc. incorporating dangerous goods, such as lithium batteries and/or pyrotechnic material, are totally forbidden except as provided for in IATA DGR 2.3.2.6. <u>Contact the Dangerous Goods team**</u>	FORBIDDEN			
Specimens, non-infectious packed with small quantities of flammable liquid. In checked or carry-on baggage non-infectious specimens, such as specimens of mammals, birds, amphibians, reptiles, fish, insects and other invertebrates containing small quantities of flammable liquids. Contact the Dangerous Goods team**	YES	YES	YES	NO
Thermometer, medical or clinical , which contains mercury, one (1) per person for personal use, when in its protective case.	NO	YES	NO	NO
Thermometer or barometer, mercury filled carried by a representative of a government weather bureau or similar official agency. The barometer or thermometer must be packed in a strong outer packaging, having a sealed inner liner or a bag of strong leak-proof and puncture resistant material impervious to mercury, which will prevent the escape of mercury from the package irrespective of its position.	YES	NO	YES	YES

* Where the approval of the airline is required:

- Approval may be granted by the EY Airport Manager, Duty Supervisor or the Dangerous Goods team** (and MEDA / TAC where specified in the above table), where it is established that the item(s) presented are permitted for carriage in accordance with the requirements of the IATA Dangerous Goods Regulations and, where more restrictive, the above table.
- The PNR or check in record, as applicable at the time of enquiry, shall be updated with an appropriate remark to reflect the approval or denial.
- For those items that require airline approval and require inclusion on the NOTOC, the Commander shall assume from the NOTOC that all such items have been approved in accordance with the above.
- For any other items that require airline approval, the Commander may assume that approval has been granted in accordance with the above and is therefore not required to see evidence of approval. Should the Commander specifically request evidence of the approval, ground personnel shall confirm this by providing a copy of the PNR or check-in record containing the approval.

**** Contact details for the Dangerous Goods team:** (only for queries related to Dangerous Goods):

Legend:

For Urgent queries - Call the **DG Hotline**
+971 50 642 3063 (only by supervisory staff)

For Non-Urgent queries email
dangerousgoods@etihad.ae

YES: Carriage is permitted within the limitations specified

NO: Carriage is not permitted

Important

- When any cabin baggage cannot be accommodated in the passenger cabin;
 - Ground personnel and cabin crew shall ensure that they bring to the attention of the passenger that certain items of dangerous goods are specifically prohibited from being in checked baggage, e.g. loose or spare batteries of all kinds (including power banks), e-cigarettes, mercury barometers, fuel cells and spare fuel cell cartridges for powering portable electronic devices. Such items shall be removed and carried in cabin baggage only.
 - Additionally, passengers shall be advised to remove any valuable items, travel documents, cash, medication required during the flight or any other items not suitable to be checked-in. Cabin crew shall liaise with ground personnel when any cabin baggage cannot be accommodated in the cabin.
- The provisions of above Table may be limited by Security, State or operator variations. Where the passenger journey includes flights with any other airline(s), the passenger is responsible for obtaining the relevant approvals from the other airline(s) in accordance with the approval requirements of the applicable airline(s).

3.3.1.3.1 Handling of Baggage Displaying Dangerous Goods Labels

Upon discovery of a bag or package displaying a Dangerous Goods hazard or handling label as shown in GOM Chapters 8.3.4.1 and 8.3.4.2, personnel shall ask the passenger whether the bag or package contains Dangerous Goods.

If the passenger advises that the bag or package contains DG:

- a. Ask the passenger to confirm the type and quantity of DG.
- b. Do not accept the bag or package. Notify the passenger that the bag or package cannot be accepted unless the DG is safely removed, DG hazard/handling label(s) removed and the DG safely disposed of in accordance with the instructions of the local authority.
- c. Notify immediate supervisor and applicable local authority, to ensure the bag or package is adequately screened with the DG information provided taken into account.
- d. Report the occurrence in accordance with the requirements of GOM Chapter 12.

If the passenger advises that the bag or package does not contain DG:

- a. Notify immediate supervisor and applicable local authority, to ensure the bag or package is adequately screened with the possibility of DG contents taken into account.
- b. Where it is confirmed that the bag or package contains DG, proceed in accordance with above points (b) to (d)
- c. Where it is confirmed that the bag or package does not contain DG:

1. DG hazard/handling label(s) shall be removed
2. Report the occurrence in accordance with the requirements of GOM Chapter 12.

In case of any spillage from an item of checked or carry-on baggage, or any other item carried by a passenger or crew member, follow the applicable requirements of GOM Chapter 8.21 and report the occurrence in accordance with the requirements of GOM Chapter 12.

3.3.1.4 DG Reference Form

The Provisions for Dangerous Goods Carried by Passengers or Crew are also available as a reference form (form ref. EY360/GRH) via SharePoint and ShareFile.

This form shall be available at all locations where check-in and boarding operations are conducted for EY flights.

[SharePoint link to form](#) (EY users)

[ShareFile](#) (external users)

3.3.1.5 Handling of Liquids as Checked Baggage

Transportation of liquids in the hold is limited to prevent leakage that could damage or endanger the aircraft or the items carried on board.

The staff shall look for oil-bottles, olive-oil or water (including Zamzam water) during check-in and acceptance process. The staff shall ensure that these items are packed as per the instructions below – if not, the staff shall advise guest to repack the items.

Travelling with potentially harmful liquids:

Each bottle or container shall be packed according to the information outlined below:

- In a solid, leak-proof plastic bag, with zipper or tie closure
- Placed in a second plastic bag, solid, leak-proof with zipper or tie closure
- Placed in a solid box with or without protective layer inside (i.e. bubble, foam), taped and identified with a name tag
- A Limited Release Tag shall be signed at check-in and excess fees shall apply if the free quantity/weight/size allowance is exceeded.

Quantity above 20 litres shall be checked in as cargo.

NOTE
To prevent leakage when pressurized, 5% of each bottle shall remain empty.

3.3.1.5.1 Zamzam water

The maximum allowed Zamzam water to be carried as hand luggage is 100ml.

The Zamzam water may be carried from any point of departure and free of charge in addition to the ticketed checked baggage allowance, provided it is:

- carried in a transparent and resealable bag
- no more than 5 litres and suitably packed

- not placed inside the guest's checked-in bags
- no more than one Zamzam per guest

Transportation from Jeddah is permitted only for guests holding an Umrah and Hajj visa. GCC nationals or guests with a tourist visa must be registered in the NUSUK application to demonstrate that they have performed the pilgrimage.

3.3.1.6 Baggage Equipped with Lithium Battery

- Some check-in and carry-on bags feature integrated lithium batteries. These are commonly known as 'smart bags'. These bags are designed to ease travel and can follow the guest automatically through the airport, send tracking messages, serve as personal scooters and/or be used as recharging devices for PEDs.
- If the battery is an integral part of the bag and cannot be removed, the bag shall not be accepted for carriage – neither as checked-in or carry-on baggage.
- Only smart bags powered by a single lithium battery with a watt-hour (Wh) rating of 160Wh or below, and which can be removed from the bag, shall be allowed for carriage on Etihad flights.
- Agents shall check compliance with lithium battery rating, count and installation, as defined below.

WATT HOUR RATING	ACCEPTANCE
Over 160Wh	Not accepted
101Wh to 160Wh	Accepted with prior approval from EY Dangerous Goods team
100Wh or less	Accepted without prior approval, if: – Within size and weight as per applicable allowance – The battery can be removed and carried by the guest in a protective case or pouch in the cabin

- The battery shall be removed from the bag and carried separately by the guest as carry-on baggage or inside their carry-on baggage, ensuring it is in a protective case or pouch to protect from damage and short circuits.

NOTE

To identify a 'smart bag', the agent shall look for bags with external light, power or USB outlets or bags with unusual shape and base.

3.3.2 Drone Acceptance

Drones powered by lithium batteries may be carried as baggage by guests provided:

- The battery Watt-hour (Wh) rating is declared at check-in. This information is usually printed on the battery or on the drone itself.

- The drone remains completely switched off and protected from damage at all times.

Assessment of the battery (fit-for-carriage):

- If 100Wh or less, the drone can be accepted
- If above 100Wh but less than 160Wh, the Duty Supervisor / Delegate shall authorise carriage based on the condition of the device/battery, i.e., suitably packed and free from any visible damage. If in doubt, the DG hotline may be contacted for authorisation.
- If above 160Wh, the device/battery shall not be permitted for carriage.

If the drone's battery is non-removable and the Wh rating cannot be verified, it shall not be accepted for carriage. If the drone's battery is removable and the Wh rating cannot be verified, the guest may choose to travel only with the drone. The battery, in this case, shall be disposed of locally in line with the local disposal procedures.

A maximum of two spare batteries, individually protected and meeting the specified requirements, may be carried as cabin baggage only.

Guest to be advised that drones shall not be operated at any time within the airport premises (this includes buses, gates, corridors, trains, duty-free areas, etc.) or onboard the aircraft.

3.4 CHECKED BAGGAGE ALLOWANCES AND EXCESS BAGGAGE

3.4.1 Standard Baggage Allowance

Etihad determines a maximum single item weight for checked baggage taking into account:

- Any local legislation or health and safety requirements.
- Any other Applicable limits for transfer baggage
- Specific rules apply for AVIH, WCH, musical instruments and large sports equipment.

Weight Concept: Measured by total weight of checked baggage, shown as a weight on the ticket e.g. 20kg

Piece Concept: Measured by total weight of checked baggage, shown as a weight on the ticket e.g. 1PC (for piece concept tickets, the weight is not combinable)

Airports shall refer to the guest ticket to determine ticketed baggage allowance.

3.4.1.1 Hand Baggage Only Fares

Hand Baggage Only fares will display with a baggage allowance of NIL/0PC.

When travelling on a hand baggage only fare, members of Etihad Guest Programme and Government Employee Programme are not entitled of excess baggage allowance service benefits.

3.4.1.2 Staff Travel Checked Baggage Allowance

Baggage allowance applies to all staff travel ticketed guests, irrespective of the date on which the ticket was issued. The ticketed baggage allowance may therefore differ from the allowance that shall be applied.

Staff guests shall receive the baggage allowance for the cabin in which they are eligible to travel, regardless of the cabin class in which they ultimately travel.

For example, staff guests using an upgradeable Annual Leave Ticket booked in Economy with space available upgrade to Business will receive the Business baggage allowance, even if they are not upgraded. The same applies to any staff or supplementary guests holding a standby Business ticket, i.e. they will be eligible for the Business baggage allowance even if they can only be accommodated in Economy.

NOTE

- Baggage carried in excess of the applicable baggage allowance shall be charged at standard excess baggage rates. A discount applies if purchased more than 48 hours in advance on etihad.com
- Excess baggage charges shall apply to all staff guests whose allowance exceeds the maximums. This is applicable regardless of date of ticket issuance, baggage allowance shown on the ticket, class of travel and position held within the company
- Etihad employees are responsible for ensuring their friends and family members are fully aware of their current baggage allowances
- No single item weighing in excess of 32kgs will be accepted for check-in
- Staff Travel bookings cannot be merged with commercial PNRs to pool baggage

For applicable baggage allowance entitlements, refer to the Staff Travel Manual.

3.4.2 Medical Equipment and Supplies

3.4.2.1 Checked Baggage

Additional assistance guests including those with disabilities and reduced mobility are entitled to check baggage containing medical items such as equipment, medication and supplies. Items which may be accepted in addition to the guest's ticketed allowance include but are not limited to:

- **Mobility aids** such as wheelchairs, walking aids canes, prosthetics, crutches
- **Medical devices** such as personal portable oxygen concentrator (POC), CPAP/BIPAP, ventilator or respirator
- **Medical supplies** such as specialised food, EpiPen, catheters, bed pads etc.

The check-in agent reserves the right to ask to see the supplies to confirm the extra baggage weight being accepted.

3.4.3 Excess Baggage

- All excess baggage rates are filed and updated in Altéa CM.
- Guests with checked baggage in excess of their ticketed allowance shall be charged the applicable excess baggage fees.
- Excluding US and Canada, excess baggage shall be charged as per weight concept for all markets, even if the ticket shows piece concept.
- For piece market tickets, in Economy each piece must weigh no more than 23kg, otherwise excess baggage rates shall apply.
- Any single item exceeding 32kgs shall not be accepted as passenger baggage (mobility aids excepted).

- In addition to the ticketed checked baggage allowance, the maximum excess baggage that can be prepaid in advance of travel is 40kgs in weight markets and 6 pieces in piece markets

Excess baggage rates on weight concept routes are charged by kilogram at the airport. Guests can pre-purchase excess baggage bundles by other channels.

3.4.3.1 Oversized Baggage Charges

Checked-in baggage exceeding the standard dimensions but within the free baggage allowance and the 32kg limit will be charged the below oversized fee per one way connecting journey. Items with one dimension exceeding 300cm cannot be accepted as checked baggage. This is applicable for all tickets, regardless of purchase date.

Standard Checked Baggage Dimensions:

Etihad network	45 x 72 x 90 cm
----------------	-----------------

Televisions including or exceeding the below dimensions must be charged, however this policy is not to be shared with our guests, who shall refer to the standard dimensions.

All destinations: 40" and above

NOTE
Maximum television dimension allowed from DMM is 42" only.

For guests checking in oversized items, agents shall add an oversized bag service in Altéa CM.

Exceptions:

Items exceeding the standard dimensions, which can be accepted as part of the ticketed baggage allowance without oversized baggage charges, include:

Scuba Diving Equipment	Includes scuba regulator, tank harness, tank pressure gauge (pressure-sensitive devices may need special packing), face mask & fins & snorkel, Buoyancy Control Device (BCD), weight belt and cylinder tank (must be empty)
Ski Equipment	Includes one pair of skis, one pair of ski poles and one pair of ski boots
Snowboard Equipment	Includes one snowboard and one pair of boots
Water Ski Equipment	Includes one pair of standard water skis or one slalom water ski
Water Sports Equipment	Includes surfboards, wakeboards, wave skis, boogie boards, skim boards, paddle boards, speed boards, kiteboard/kitesurf Keels, kedges and/or fins must be removed or properly protected to prevent damage to other bags

Fishing Equipment	Includes 2 rods, 1 reel, 1 landing net, 1 pair of fishing boots and 1 tackle box. They must be packed together in one package
Bicycles	

Standard excess baggage charges shall apply if any of the above items exceed the ticketed allowance.

Vaulting poles, canoes, kayaks and similar items are not considered as sporting equipment and shall only be carried as cargo.

3.4.3.2 Golf Bag Allowance

All guests travelling on EY operated flights will be permitted to carry 1 golf bag in addition to their ticketed allowance. A golf bag may consist of clubs, balls and a pair of golf shoes. The SSR SPEQ will be added to the guest's booking if a golf bag is advised at the time of reservation.

Weight concept tickets: 1 bag up to 15kg

Piece concept tickets: 1 bag up to 23kg

3.4.3.3 Excess Baggage Charges: EY onto OAL (Non US/Canada)

For journeys involving other airlines (codeshare / interline), excess baggage shall be charged at the airport depending on the baggage concept of the ticket and zone of travel.

Excess baggage collection settlement between EY & other airlines (OAL) is based on a 'Collect & Keep' policy.

An EMD is issued for the entire journey e.g. EY - EY - OAL. Should excess Baggage charges be calculated in Altéa CM after manually updating transfer bags, these shall be waived using the "collect and keep" baggage waiver authoriser. The EMD number of the Excess baggage fees charged by OAL shall be updated in the additional information field.

3.4.3.4 Excess Baggage Charges: EY onto OAL (US/Canada)

Guests whose ticketed origin or destination is the US or Canada shall be charged in accordance with the originating carrier's excess baggage rates.

In the case of codeshare flights that form part of an itinerary whose ultimate ticketed origin or destination is a US or Canadian point, EY shall apply the baggage allowances and fees of the marketing carrier throughout the itinerary to the extent that they differ from those of any operating carrier.

These rules are not applicable to guests travelling on separate tickets issued within the same PNR.

Staff shall refer to the 'Codeshare/Interline excess baggage rates' table hosted on EY SharePoint and ShareFile.

3.4.3.5 Manual Excess Baggage Charging Process

The applicable SSR's in Altéa CM User Guide shall be used when the system is unable to auto-generate the excess baggage rates.

This applies to the following scenarios:

- Altéa CM is unable to determine the excess baggage weight and excess needs to be charged beyond the ticketed allowance.
- The excess baggage price cannot be retrieved due to a filing issue but must still be charged.

3.4.4 Identification of Commercial Waivers

3.4.4.1 Piece Markets

Commercial baggage waivers appear as a pink star in the baggage column of the CPT and are described further in the CPR.

The check-in staff shall identify any piece baggage waiver via the following code combinations:

Ticketed free baggage allowance	Approved waiver type	Filing in CPR
1 piece at 23Kg	1 extra piece at 23Kg	2-46
2 pieces each 23Kg	1 extra piece at 23Kg	3-69
1 piece at 32Kg	1 extra piece at 32Kg	2-64
1 piece at 23Kg	Upgrade to 32Kg	1-32

NOTE

Commercial waivers exclude any additional baggage entitlements for Etihad Guest or for any eligible partner airline's frequent flyer member.

3.4.4.2 Weight Markets

Commercial baggage waivers appear as a pink star in the baggage column of the CPT and are described further in the CPR.

The check-in staff shall identify any baggage waiver via the following code combinations:

Code	Description
X-WW	"X" indicates no restriction in the number of pieces. "WW" entitled baggage weight allowance, applicable on all sectors
X-WW OB	"OB" indicates the allowance is outbound sector only. On any other sector, the ticketed allowance applies
X-WW IB	"IB" indicates the allowance applies to the Inbound sector only On any other sector, the ticketed allowance applies
X-WW M	"M" indicates the waiver has been added manually

Examples:

- **X-40** No restriction on the number of pieces/40kg limit/applicable on all sectors
- **X-40 OB** No restriction on the number of pieces/40kg limit/outbound only
- **2-50** Maximum 2 pieces/50kg limit/applicable on all sectors

NOTE

Commercial waivers exclude any additional baggage entitlements for Etihad Guest members or for any eligible partner airline's frequent flyer members.

3.4.5 Excess Baggage Waivers

3.4.5.1 Pre Authorised Waivers

The following applies to excess baggage waivers for commercial guests and staff on duty travel.

Authorising Manager	Commercial Guests	Staff on Duty Travel
GCEO	√	√
CRCO	√	√
VP Sales *	√	√
Director Airports and Ground Operations		√
VP Guest Experience	√	
Manager, Guest Response **	√	

* Duty Travel for outstation staff only

** For service recovery purposes only

Authority to waive excess baggage charges for staff travelling on duty may be given by the Executives. A WVER Service shall be displayed for all excess baggage approvals.

The authority for excess baggage will appear in the CPR and shall contain the following details:

1. Flight No. (e.g. **EY470**)
2. Date of travel. (e.g. **4JAN**)
3. Authorizing person (e.g. **AUTH CCO**)
4. Cost Centre (e.g. **CC616**)
5. Guest's name number in the PNR (e.g. **1.1**)
6. Number of KG authorised in addition to the ticketed amount (e.g. **15K**)

3.4.5.2 Airport Waivers

In the event that baggage in excess of the ticketed allowance is accepted without payment, the check-in staff shall manually waive the service fees in Altéa CM. The authorization and comments fields shall be updated in the below format to ensure accurate compliance reporting:

Reason	Free text
Frequent flyer	For guests entitled to other airline excess baggage allowances, enter OAL airline code e.g. ZZ
Supervisor approved	Enter reason for supervisor waiving or Service Request number for technical issues raised with BSC
Approved ad-hoc	Enter event name e.g. UFC
Transfer	Enter inbound station code e.g. LHR
Upgrade	ESUP

3.4.6 Excess Baggage Documents

3.4.6.1 Prepaid Excess Baggage

Guests will be able to purchase prepaid excess baggage via the Etihad website and Call Centre. An Electronic Miscellaneous Document (EMD) is issued which will be associated to the E-ticket (EMD-A).

Prepaid baggage will be available at the following values: **5KG, 10KG, 15KG, 20KG, 25KG, 30KG, 35KG & 40KG.**

Prepaid baggage key points:

1. Available for sale from the time of booking up to -1 hour before STD. Refer to Etihad.com
2. Only available on Etihad operated flights
3. Online purchases are discounted by up to 65% for weight-concept baggage available up to 4hrs before STD and up to 30% for piece-concept baggage available up to 30hrs before STD
4. Online prices may vary due to dynamic promotional discounts
5. EMD can ONLY be issued for weight OR piece concept. A combination of both is **NOT** permitted
6. Guests can be issued multiple EMD
7. No refunds for partial use

Airport Functions

Ancillary services such as prepaid excess baggage will be displayed in Altéa CM as a Service. The service code for prepaid excess baggage is **XWBG**.

The comment will indicate the following information:

1. Service type i.e. XWBG
2. Description
3. Total excess baggage paid for in weight and pieces
4. A or S indicating associated or standalone
5. EMD number

If the guest has excess baggage in addition to the prepaid excess, then the applicable airport (non-discounted) excess baggage rate will apply as per our current policy.

3.4.6.2 Prepaid Excess Baggage by Miles

Members of the Etihad Guest programme can redeem Etihad Guest miles for additional baggage allowance on Etihad Airways.

Etihad Guests may go online via the Reward Shop or contact the Etihad Call Centre to redeem the miles.

At the Airport

Etihad Guests are not required to produce any voucher for the excess baggage as this shall be captured in the guest PNR and in Altéa CM.

Terms and Conditions

1. Etihad Guest Miles for excess baggage are to be redeemed no later than 48 hours prior to departure
2. Etihad Guest Miles redeemed for excess baggage are non-refundable and no part refund will be offered if the excess baggage is less than the amount redeemed
3. At check-in, if the amount of excess baggage exceeds the amount redeemed, the applicable excess baggage rate shall be paid
4. The value redeemed is not transferable against another PNR
5. For travel on the United States and Canada routes, guests can redeem Etihad Guest Miles to pay for each additional bag that weighs up to 23kg. Excess Baggage weighing more than 23kg up to 32kg will be subject to an additional charge at the airport

3.5 BAGGAGE ACCEPTANCE FOR CARRIAGE

3.5.1 Security of Stationery

Etihad staff shall always secure Etihad stock of unused baggage tags and/or boarding passes - both manual and automated - from unauthorized use.

Staff shall check all check-in and boarding gate areas after use. Unused baggage tags and/or boarding passes shall be removed and disposed of.

All materials used for passenger and hold baggage processing (e.g. boarding cards, baggage tags, FIMs, vouchers, stamps) must be protected or be under surveillance at all times in order to prevent unauthorized access and use.

3.5.2 Group Baggage Acceptance

When handling group check-in and baggage acceptance, the following methods are acceptable:

- a. Group Baggage Acceptance via “Head of Pool”
- b. Individual Baggage Acceptance against each guest in group

3.5.2.1 Group Baggage Acceptance via “Head of Pool”

Etihad permits a single travelling passenger to take responsibility for up to 99 pieces of baggage and have these pieces associated with their individual name record.

In order to permit this in a group scenario, the nominated passenger is considered the “Head of Pool” (HoP) and must:

- Accept responsibility for the contents and carriage of all items checked under their name record
- Answer Dangerous Goods and Security Questions for all items checked under their name record
- Accept that if any item is held for security reasons, that all items may be held until security cleared
- Accept that if the HoP does not positively board the aircraft, that all pieces of associated baggage will be removed from the flight
- During a diversion or disruption scenario where the HoP is offloaded from the aircraft, all pieces may be removed from the flight (based on consultation with the PIC and TAC)

If this method of baggage check-in is adopted, the HoP shall be provided with individual baggage tag receipts for reconciliation of checked items and for baggage claim/tracing purposes, if required.

NOTE

To comply with TSA regulations, guests must individually present their baggage for acceptance and take responsibility for their items, including addressing any questions related to security and dangerous goods. Whilst pooling of baggage allowance is permitted, the baggage shall be assigned separately to each guest.

3.5.2.2 Individual Baggage Acceptance against each guest in group

Each travelling guest presents their own personal bag for acceptance and takes responsibility for the item, including the response to security and dangerous goods questions.

All standard checked baggage reconciliation policies apply in this scenario.

3.5.2.3 Baggage Reconciliation

To comply with guest and checked baggage reconciliation requirements each guest shall be checked in and issued with their own individual baggage tag receipt(s) at check-in, however the following exceptions apply:

- Family members who are booked and are travelling together sharing the same PNR may have their baggage listed under one member of the group

- Parties of no more than 9 guests booked together on the same PNR and known to each other may have their baggage listed under one member of the group

Group Movements where a nominated “Head of Pool” (HoP) is established and responsibility is assumed for all group baggage. This is most common amongst sporting and entertainment groups where many group bags or equipment are required to travel under a nominated group leader.

In the event of any member of a pooled group being unable to travel, the checked baggage associated to the relevant guest(s) shall be reconciled and offloaded.

In the event it is not possible to determine the applicable checked baggage to be offloaded, all checked baggage from the applicable pooled group shall be offloaded.

Guests who are travelling as a group larger than 9 may pool their baggage under a nominated HoP. Group members are permitted to combine their free baggage allowance within the PNR.

Any incidents related to disruptions or offloading which may result in unaccompanied baggage on the aircraft shall be reported to TAC for an initial assessment.

3.5.3 Baggage Weights

Actual baggage pieces and weights shall be recorded against each guest during the check-in process. This is required to ensure the accuracy of aircraft weight and balance calculations. In addition, baggage weight is an important tracing and recovery element in case of any baggage irregularity - such as delay, mishandling or misrouting.

If actual weights cannot be recorded for a particular flight, airport staff shall inform Centralised Load Control (CLC). In accordance with GOM Chapter 4.10.5.3, check-in, transfer desk and boarding staff shall inform CLC of any individual pieces of hold baggage, whether accepted or intercepted at check-in, transfer desk or the gate (on or off-site), whose weight exceeds 32kg, including the actual weight and applicable baggage tag number. Where pieces only (no weights) are being recorded and any item of checked baggage is suspected or identified as being in excess of 32kg, CLC shall be informed, including the baggage tag number and, where available, the actual weight of the piece.

NOTE

The maximum permitted baggage weight per piece is 32kg. Wheelchairs/mobility aids are exempt from this limit in accordance with GOM Chapter 4.10.5.3.

3.5.4 Checked Baggage Procedures

During the baggage check-in process, team members must ensure the following steps are adhered to:

- Remind the guest to remove all valuables from their checked baggage, including:
 - Jewellery, watches, credit cards, and other financial instruments.
 - E-cigarettes, spare and loose batteries, and power banks
 - Essential medications, house and/or car keys, and irreplaceable documents (including those stored on memory sticks or SD cards).
 - Perishable items and foodstuffs such as spices, pickles, and herbs.
 - Any items that do not comply with transit or destination regulations.

2. Inform guests that all battery-powered portable electronic devices in checked baggage shall be completely switched off (not in sleep or hibernation mode*) and must be protected from damage and unintentional activation.

* Refer to Chapter [3.3.1.3](#) for specific exceptions related to **Lithium Batteries: Portable electronic devices (PED) containing lithium metal or lithium ion cells or batteries.**

3. Before issuing the baggage tag, the staff shall ensure that the baggage is fit for carriage. This means that the bag is robust, not over-loaded (the staff shall check for stretched zippers) and the baggage, as well as its wheels, handles, zippers or locks don't bear visible damage.
4. Special attention shall be paid to cardboard boxes and over-packed blankets. Some cardboard boxes, used by guest to carry personal items as checked baggage, may still have dangerous goods labels affixed from previous use. This can lead to further inspection and delay – including possible seizure of the baggage. Any labels from previous use (specifically any labels indicating dangerous goods) shall be removed from the baggage.
5. Cardboard boxes may also contain fragile items; guests tend to use these in order to carry electronics, kitchen ware or kitchen equipment, toys, sport equipment, art works or souvenirs. The staff shall ask the guest what is packed in the cardboard box and, if applicable, issue a Limited Release tag as per Chapter [3.5.9](#)
6. All cardboard boxes containing televisions and other electronics or kitchen items shall be labelled with a Limited Release tag.
7. All baggage tag stubs from previous flights shall be removed. This is important for recovery in case of a potential baggage irregularity. Multiple tag stubs from previous flights may cause confusion in case of manual scanning and complicate reconciliation.
8. In case the baggage is not fit for carriage, contains fragile items or bears signs of visible damage, the staff shall follow the limited release tag issuance procedure described in Chapter [3.5.9](#) in addition to this, the staff shall recommend the guest to repack or over-wrap the baggage with foil of bubble wrap, provided this service is available within the airport premises and guest has sufficient time to perform this.
9. If any of the guest's baggage are heavier than 32kg**, the guest shall be asked to repack the extra weight into different bags. If this process results in an excess number of pieces compared to the ticketed baggage allowance, excess baggage shall be charged
10. The staff shall verify that the name printed on the bag tag is in accordance with the name of the guest presenting the bag.
11. In Altéa CM, the correct number of pieces checked-in and weight shall be registered.
12. If the guest presenting his / her baggage has several flight sectors on his ticket, baggage shall be through-checked and/or interlined for all sectors.

Exception: If the guest has to transfer from an airport to another and has to take possession of his/her baggage, his baggage shall be checked only up to that airport.

13. When handing out the baggage identification label to the guest, the staff shall inform the guest of the destination to which the bag has been labelled, drawing his attention on the baggage receipts in his / her possession.
14. If baggage is transferring onto domestic flights requiring customs clearance before final destination, the check-in staff shall inform the guest where his / her baggage shall be

customs cleared. To determine whether an international to domestic transfer requires customs clearance, the staff shall refer to TIMATIC.

15. If a guest would like to have his / her baggage checked only to an intermediate transfer point, the staff shall inform the guest that baggage short tagging is available for layovers of 24 hours or longer.
16. If the staff is checking-in a group falling under the baggage pooling policy, the pooling guidelines explained in Chapter 3.5.2 shall be followed.

** Wheelchairs/mobility aids are exempt from this limit in accordance with GOM Chapter 4.10.5.3.

US CBP Alert: Guests connecting via US CBP shall not carry any food nor other perishable items. This includes spices, dried herbs and fruits, home-baked or home-cooked items, ghee butter, honey, chocolate and sweets, cured meats and any organic products. The staff shall remind guests that in case of breach of this restriction, their baggage can be offloaded, temporarily or permanently seized by US CBP authorities. Etihad Airways shall not be held liable for the delay or loss of their baggage.

3.5.5 Baggage Tags

- All old tags shall be removed
- Appropriate destination tag and handling tags shall be applied
- Tags shall be placed in an easily readable location, and where they will not easily be torn off
- Remove one stub from the baggage tag and stick to the item being checked
- Tag instructions shall be followed, and glue should not be directly in contact guest's baggage
- The staff shall follow the procedure with respect to supplementary tags on baggage items, such as priority tags, heavy tags, limited release tags etc.
- Follow operator procedure with respect to supplementary tags on baggage items, such as:
 1. Priority tags—to identify Priority baggage to be offloaded first, and segregated.
 2. Limited Release Tags—used on fragile or unsuitably packaged items.
 3. Fragile Sticker—requires extra care in handling.
 4. Heavy Tag—placed on items over 23 kg.
 5. Connection tags—may require segregation on loading and offloading.

3.5.6 Thermal Bag Tag

A system generated baggage label shall be affixed to all checked baggage.

Example Thermal Bag Tag:

3.5.7 Manual Bag Tag

In the event of a system failure, a manual baggage tag shall be used for the labelling of checked baggage:

These labels are used for direct journeys between two points and Interline. The destination station three-letter code and flight number shall be recorded by a black felt marker pen.

NOTE

- Remove the barcode section in the event of a second tag being required due to the amount of transfer legs
- Attach the transfer part of the new tag below the transfer the transfer line on the initial tag
- Mark the second tag as a conjunction tag
- Inform the person responsible for turnaround coordination when checked baggage is accepted at the gate

Example of Limited Release Baggage Tag:

NOTE

When the number of transfer points exceeds the number of transfer portions available on one baggage label, a second label of which the identification portion shall be removed and destroyed shall be firmly stapled to the first label; this will extend the required number of additional transfer portions below the lower transfer portion of the first label.

The Manual Baggage Tag is a pre-printed tag which consists of:

- TAG NUMBER** - each tag has a unique number printed in alpha-numeric characters & bar code format.
- INFORMATION AREA** – the area of the tag which consists of:
 - Issuing company
 - Tag number in alpha-numeric characters & bar code format

- Limited Release Section
- c. **ROUTING AREA** – The area of the tag used for entering details of all flights for which the baggage has been checked:
 - **Final Destination Field (TO)** – which contains the final destination, carrier, flight number & date
 - **Transfer Fields (VIA)** – two transfer fields which contain the airports of transfer, the carriers, flight numbers and dates
- d. **IDENTIFICATION/CLAIM PORTION** – removable part of the tag which is given to the guest at Check-in; it serves to identify the baggage at delivery & during tracing. The claim portion is a non-perforated, complete adhesive label
- e. **REMOVABLE STUBS** – a part of a baggage tag other than the identification / claim portion which can be removed from the tag by peel-off

The following areas must be accurately completed on the Manual Baggage Tag before affixing it to the intercepted bag:

a. **Routing Area**

- TO - Final Destination.
- VIA - Transfer Points.
- AIRLINE - Receiving & / Delivering carriers Airline.
- FLIGHT NO - Flight number & Date.

b. **Information Area**

- Check box for type of item
- Surname & Sequence Number
- Indicate damaged area if applicable

c. **Removable Portions (x 3)**

- One stub shall be affixed to the Gate Bingo Sheet
- A further stub should be attached to the bag

d. **Claim Portion**

- The guests shall be advised that the baggage is tagged to the final destination
- The claim portion shall be affixed to the guest's boarding pass

NOTE

The Final Destination & Transfer Points shall be completed using the 3-letter IATA Airport Code for each airport.

3.5.8 Automated Baggage Short Tag – Bus and Rail Connections

If a guest is connecting from an Etihad Airways flight onto a bus or rail service, Altéa CM shall automatically short tag his/her bags, ensuring that baggage is checked only as far as the final airport. For connections on rail services, a message will appear as follows:

Bags Short Checked - Advise Passenger to Claim Bag at CDG

In this case, the staff shall double-check the bag tag to confirm the short tagging.

3.5.9 Limited Release

Limited Release allows Etihad Airways to accept checked baggage, which shall be otherwise refused for carriage, without assuming liability for its damage or delay.

The following items shall be labelled as Limited Release at all times:

1. Baggage with visible damage (wheels, zippers, handles, locks, scratches)
2. Baggage with visible stains (dirt, mud, oil stains, wet damage, cracks)
3. Baggage, for which guest required a "Fragile" label or suggested it contains fragile items
4. Cardboard boxes containing televisions, computers or electronics
5. Cardboard boxes containing other fragile items - such as kitchen-ware
6. Artworks, sculptures, wooden frames, paintings, mirrors, souvenirs, antiques
7. Sporting equipment – surf, ski, cycling, scuba, golf bag (even if packed in special protective cases)
8. Musical instruments – including drums and stage equipment
9. Baggage containing perishable goods (e.g. food items, chocolates, flowers)
10. Baggage accepted after official check-in closure
11. Items exceeding the standard dimensions (Oversized Baggage)

Wheelchairs, mobility aids and other assistive devices shall never be tagged under the condition of Limited Release.

Steps to issue a Limited Release Tag:

1. The staff shall explain to the guest implications of the Limited Release tag.
2. The staff shall ensure that the reason for issuing a Limited Release tag is ticked on the tag itself.
3. The staff shall include the reason for issuing a Limited Release Tag in Altéa CM as an OSI comment.
4. In case the guest refuses to sign the Limited Release tag, the items shall not be accepted for carriage. This decision shall be endorsed by an Etihad representative or their delegate.
5. The staff shall include the reason for issuing a Limited Release Tag in Altéa CM as an OSI comment.
6. A thermal tag shall be printed whenever possible. If the staff cannot issue a thermal tag, a manual tag shall be used and all the relevant information added in Altéa CM.

3.5.10 Application of Baggage Tag

The procedure below outlines the correct method of affixing tags, ensuring that bags shall remain tagged to their final airport of destination.

After exposing the adhesive, the adhesive area shall be attached and positioned at the marked position and well compressed. It is very important to compress the entire adhesive area.

One of the stickers shall be peeled off and affixed to the baggage

3.5.11 Pushchairs, Strollers and Mobility Aids

Etihad Airways accept either a stroller, car seat or carry cot used for carriage of children or infants in addition to the standard baggage allowance. Wheelchairs (WCHR) and other mobility aids may be carried in addition to the checked baggage allowance.

3.5.11.1 Acceptance

- a. Staff shall advise the passenger to remove or secure any items that may become loose, detached or damaged during the handling process. This includes pillows, booster seats, accessories, umbrellas, loose seat belts and toys. These shall be carried separately.
- b. Staff shall ensure that all pushchairs, strollers, prams and similar items accepted as checked baggage are affixed with a nametag containing full passenger name and contact details. This shall be affixed to the item itself.
- c. All such items accepted as checked baggage shall be registered against the applicable passenger in the check-in system. This is regardless of the location of acceptance, i.e. on or off-airport check-in, transfer desks and departure gates.
- d. All such items shall be tagged to the final destination, i.e. **not** short-tagged to AUH if the passenger is transferring to another flight.
- e. One baggage label stub shall be affixed to the item itself.
- f. All items shall be placed into an ETIHAD clear plastic 'checked baggage' bag.
- g. The signed Limited Release section of the label shall be placed into the plastic bag.
- h. The plastic bag shall be secured using a cable tie wherever available. Otherwise, strong tape shall be used to secure the bag.
- i. The adhesive side of the baggage label shall be affixed flat onto the outside of the plastic bag, including the remaining baggage label stubs.
- j. For passengers arriving at the departure gate with pushchairs, strollers, prams and similar items, including those who are transferring from another airline, staff shall ensure the items are properly labelled and the passengers are advised where to collect their item.

3.5.11.2 Complimentary Strollers at Abu Dhabi

- a. Etihad offers complimentary strollers for use within the terminals at Zayed International Airport during passenger arrival, transfer and departure. These are available in designated cabinets adjacent to the arrival gates.
- b. It is not possible to deliver passengers' pushchairs, strollers and prams to or from the aircraft side. All such items labelled with final destination AUH will be delivered directly to the 'oversize baggage' collection area adjacent to the baggage carousels in the arrivals hall of the applicable terminal.

3.5.11.3 Pushchairs & Strollers as Cabin Baggage

As part of the cabin baggage allowance, guests shall be permitted to carry pushchairs and strollers in the cabin subject to the following conditions. Pushchairs and strollers carried in the cabin shall:

- a. Comply with the standard cabin baggage weight and size allowance.
- b. Be affixed with a cabin baggage tag.
- c. Be stowed and secured in the overhead stowage. Stowage must not create an obstruction to cabin crew and passenger movement or restrict access to any safety equipment or emergency exit.
- d. Be folded prior to boarding, shall not be used on board and only opened for use once outside the aircraft after disembarkation

3.5.11.4 Transfer Process

The pushchairs/strollers/wheelchairs transferring onto an Etihad flight without having to be claimed for customs clearance shall be transferred to the respective onward flight. They should be tagged as such from the origin station.

3.5.12 Acceptance of Transfer Bags

Following IATA resolution 780a, if baggage is checked-in connecting onto an Etihad Airways flight, baggage shall be accepted without release to the guest. Baggage check-in details shall be copied from the inbound carrier's check-in details.

3.5.13 Gate Delivery

Gate Delivery is applicable to wheelchairs and mobility aids (including strollers/pushchairs for children with a physical impairment), allowing them to be returned to guests at the arrival gate at transfer and destination airport(s), where guests require their own devices.

Acceptance

During check-in at the departure airport, the guest shall be asked whether they require their own mobility aid at the arrival gate at their transfer (if applicable) and arrival airport. All mobility aids shall be labelled to the final destination. Failure to tag the wheelchair to the final destination may result in the guest not receiving their wheelchair at the aircraft door. Where the guest requires their mobility aid at the gate of the transfer/arrival airport, a gate delivery tag shall also be applied.

If the guest does not require their own mobility aid from the gate at the transfer/arrival airport, it shall be explained to the guest that their mobility aid will be available for collection at the baggage carousel or out of gauge collection area at the final destination.

The CLC coordinator shall be notified of all gate delivery items.

Notification

For all gate delivery items, network airports shall send an email to HubGateDelivery@etihad.ae. Where the guest has an onward connection, the applicable destination airport shall also be copied. The email shall contain the following details for each gate delivery item.

Example:

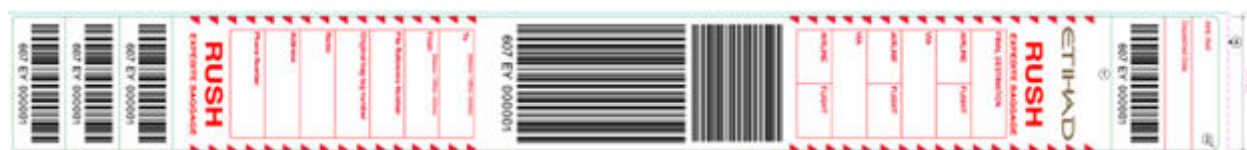

Guest Name	SMITH/JOHN MR
Tag Number(s)	EY222111
Loading Position	Bulk
Type of Item (delete as applicable)	Wheelchair – Lithium battery powered; Wheelchair – Non-spillable battery powered; Wheelchair – Spillable battery powered; Wheelchair – Dry gel battery Wheelchair – nickel-metal hydride batteries Wheelchair – dry (Alkaline-manganese, zinc carbon and nickel-cadmium) battery Wheelchair – Manual; Stroller/pushchair for physically impaired child; Mobility aid, other (please describe).
Full Routing	LHR/AUH/SYD
Flight No./Date (Local)	EY12/25JUL
Onward Connecting Flight No./Date (Local)	EY454/25JUL

3.5.14 Mishandled Baggage – Expedite Baggage Label (Rush Tag)

In the event of baggage being delayed due to any operational or handling irregularity, an expedite baggage label (also known as Rush Tag) shall be completed, and securely affixed to the mishandled item prior to further transportation.

This tag shall only be used to label and process mishandled baggage.

Example of the Manual Rush Tag:

3.5.15 Priority Baggage Tag

The Priority label shall be affixed to the following checked baggage:

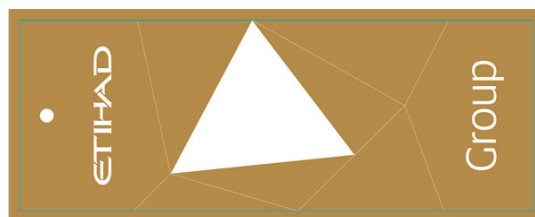

- Etihad Guest Exclusive
- Etihad Guest Emerald
- Etihad Guest Platinum
- Etihad Guest Gold
- Priority Access (PRIO)
- Economy Deluxe Fare including Saver Awards

3.5.16 Group Baggage Tag

A group identification label shall be attached to check in baggage for 9 or more guests travelling together.

This label facilitates the identification of baggage belonging to guests travelling together in groups, as well as to identify baggage of different groups on the same flight.

3.5.17 Hajj Guests

Staff processing Hajj guests shall ensure that:

- A nametag (baggage identification label) shall be affixed to all bags
- A Hajj tag or sticker shall be attached to each checked bag

Hajj tags or stickers shall **not** be attached to the checked baggage of GCC nationals; the tags are to be used on Non-GCC National's baggage only.

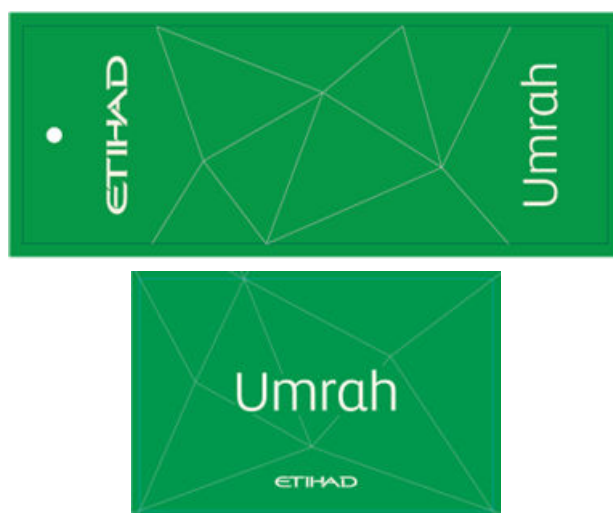

NOTE

The Etihad Airport Manager shall ensure that Hajj stickers are replenished in time prior to the commencement of Hajj seasonal operations.

3.5.18 Umrah Guests

An Umrah tag or sticker shall be attached to all checked baggage pieces belonging to Umrah guests.

Umrah tags/stickers shall **not** be attached to the checked baggage of GCC Nationals and their accompanying guests under their sponsorship.

3.5.19 Crew Baggage Acceptance

Operating and Positioning Flight Deck and Cabin Crew are permitted to carry one checked bag, weighing up to a maximum of 32kgs.

Airport staff shall ensure that the Crew Baggage Manifest is completed and collected from the SCCM for all departing flights on passenger aircraft with crew hold baggage.

All positioning crew hold baggage shall be affixed with a yellow 'Positioning Crew' tag at check in to ensure proper identification, loading and delivery.

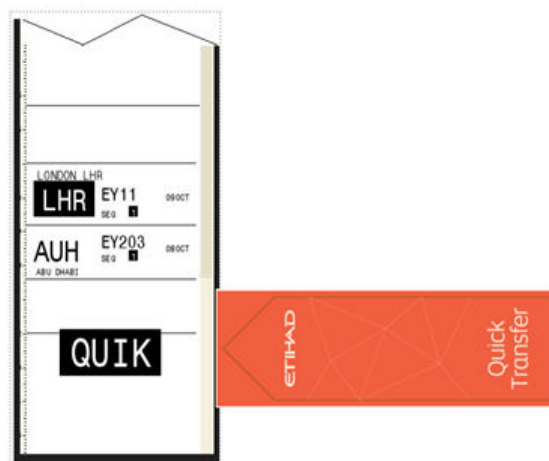

3.5.20 Transfer Baggage Tagging Procedure

3.5.20.1 Quick Transfer Baggage (BQ)

Quick Transfer is specifically applicable to connections via Abu Dhabi of **75 minutes or less**, however this may be adjusted based on operational requirements.

All pieces of checked baggage where the Thermal Baggage label indicates 'QUIK' (as per the below), shall be affixed with the following tag:

Example Quick Transfer Baggage label and supplementary tag:

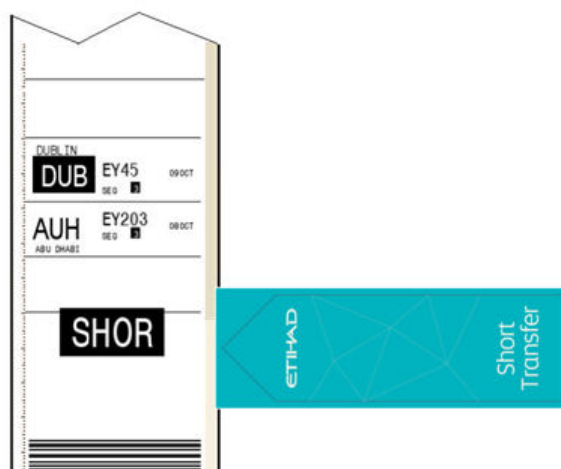

NOTE

This is also applicable to Quick Transfer bags accepted at the gate.

3.5.20.2 Short Transfer Baggage (BS)

Short Transfer is specifically applicable to connections via Abu Dhabi of **76 to 120 minutes**, however this may be adjusted based on operational requirements.

All pieces of checked baggage where the Thermal Baggage label indicates 'SHOR' (as per the below), shall be affixed with the following tag:

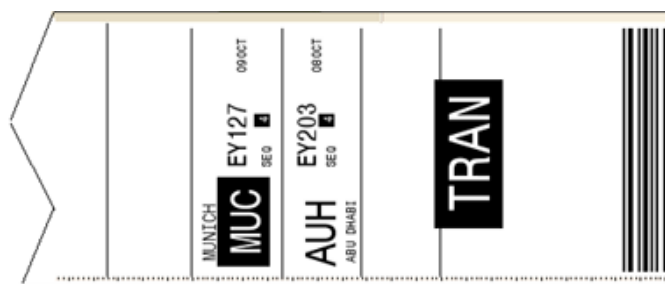

NOTE

This is also applicable to Short Transfer bags accepted at the gate.

3.5.20.3 General Transfer Baggage (BT)**Network to AUH**

General Transfer baggage is applicable to connections via Abu Dhabi **greater than 120 minutes**.

General Transfer baggage will be identified on the thermal baggage label with an onward destination from Abu Dhabi (AUH) along with the text 'TRAN'.

**NOTE**

This is also applicable to those bags that are accepted at the gate.

The above thermal baggage label indicator 'TRAN' does not apply to transfer bags originating in AUH and transferring at network airports.

3.5.20.4 Residence Transfer Baggage

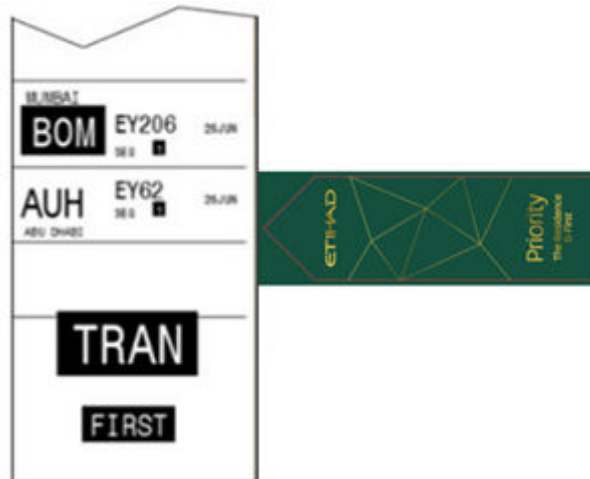

Checked baggage belonging to guests travelling in the Residence on the A380 on any sector of their journey, which is transferring to an onward flight at AUH.

Residence transfer baggage shall be loaded in the applicable containers, depending on destination:

- Quick Transfer (BQ)
- Short Transfer (BS)
- General Transfer (BT)

Residence transfer bags shall **not** be loaded in the bulk hold.

In addition to the applicable transfer supplementary tag (i.e. Quick or Short transfer), all pieces of checked baggage for the Residence guests shall be affixed with the following tag:

NOTE

Each guest travelling in the Residence has a checked baggage allowance identical to that of a First guest.

3.5.21 Heavy Label

In order to prevent damage to conveyor belts, baggage handling systems (BHS) or injury to baggage handling team members, a Heavy Baggage Label shall be affixed to all items of baggage weighing 23kg or above. A single piece of baggage weighing more than 32kg* shall not be accepted for carriage.

*Wheelchairs/mobility aids are exempt from this limit in accordance with GOM Chapter 4.10.5.3.

NOTE

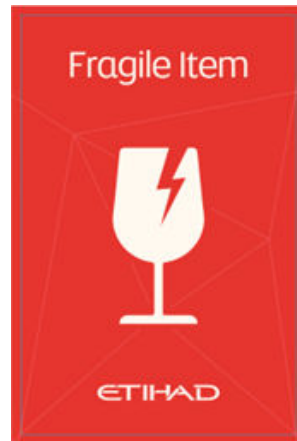

The actual weight of the item shall be reflected on the label.

Example Heavy Label:

3.5.22 Electric Mobility Aid (EMA) Tag

This label shall be used for all electric wheelchairs and mobility aids to assist in identifying whether the wheelchair/mobility aid has had the battery removed, whether the battery has been protected from short circuits or electrical circuits; and whether the wheelchair/mobility aid is required by the passenger at the gate or bag hall.

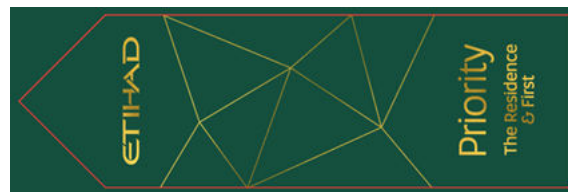

3.5.24 Unaccompanied Minor (UM) Tag

This label shall be affixed to the baggage of Unaccompanied Minors.

3.5.25 Residence and First Baggage

All pieces of checked baggage for Residence guests shall be affixed with the following tag:

3.5.26 Business Baggage

All pieces of checked baggage for Business guests shall be affixed with the following Priority tag:

3.6 CABIN BAGGAGE

3.6.1 Cabin Baggage Allowance

Guests are allowed to carry cabin baggage in the following quantities:

Class of Travel		Allowance
First	Network	2 Cabin bags (up to 12Kg total) and 1 personal item (up to 5Kg)
	USA Flights	1 Cabin bag (up to 12Kg) and 1 personal item (up to 5Kg)
Business	Network	2 Cabin bags (up to 12Kg total) and 1 personal item (up to 5Kg)
	USA Flights	1 Cabin bag (up to 12Kg) and 1 personal item (up to 5Kg)
Economy	All flights	1 Cabin bag (up to 7Kg) and 1 personal item (up to 5kg)
Infants (all classes)	All flights	1 personal item (up to 5Kg)

Each cabin bag shall not exceed total dimensions of 56 x 36 x 23cm including handles, pockets and wheels.

A **Personal Item** is defined as a single item, which should fit comfortably underneath the seat in Economy e.g., handbag, laptop, duty free, small rucksack, backpack or satchel.

Duty free is calculated as part of the total cabin baggage/personal item allowance, and not in addition to the core cabin baggage entitlement.

The following items may be carried in the cabin in addition to the standard cabin baggage allowance:

- **Mobility aids** such as foldable walking aids, canes, prosthetics and crutches
- **Mobility devices** such as personal portable oxygen concentrator (POC), CPAP/BIPAP, ventilator or respirator (refer to Chapter 6.1.12 for acceptance criteria)
- Adequate **medical supplies** for the duration of the flight e.g. EpiPen

3.6.2 Cabin Baggage Acceptance

Acceptance policies

Cabin baggage shall not be accepted if it:

- Is unsuitable for air carriage due to its weight, size or nature
- Cannot fit under the seat or be stowed in the overhead compartment
- Is unsuitably packed for safe air carriage (potential leakage or other damage to the cabin, risk for the safety and integrity of the operating flight)

Restrictions

- For security reasons, many countries restrict the carriage of liquids, aerosols and gels in hand baggage;

- Items refused by security screening must be hold-checked as per the operator's policy.

In case the guest carries an item intended as cabin baggage, which is not cleared by the authorities during the security screening at the airport and provided the guest has sufficient time to return to the check-in counters and proceed back to the gate, the staff shall accept this item as checked baggage under the Limited Release tag.

Guests disputing the cabin baggage allowance shall be advised that the allowance is in place and enforced for the safety of guests in the cabin, according to the safety rating of overhead stowage.

Cabin baggage verification procedure at check-in:

- The staff shall assess the size, weight and intended number of pieces of carry-on baggage
- Ensure that cabin baggage is weighed
- Guests shall be asked to place their baggage into the baggage gauge, if available, to verify the dimensions are compliant with the EY policy
- If the carry-on baggage exceeds the free allowance size and /or weight, it shall be hold-checked and charged if in excess of the used checked baggage allowance (piece and weight)
- The staff shall be aware of commonly carried dangerous goods items and ask the passenger to ensure these items are not being carried
- Guests who are almost reaching their total allowance shall be reminded of their allowance, in order to not exceed their allowance when purchasing duty free etc.

3.6.3 Boarding Gate

It is recommended that the first gate agent to arrive at the gate should prior to boarding commencement proactively go around the gate area to:

- Verify that guests are not holding pieces in excess of their allowance
- Ensure guests are within the cabin baggage dimensions with the assistance of the cabin baggage sizer sleeve

Any guest with an excess number of pieces or exceeding the dimensions should be asked to gate check the item(s). Where in excess of their ticketed baggage allowance, checked gate baggage fees shall apply.

The cabin baggage sizer sleeves should be available at the gate to assist with baggage exceeding dimensions.

A final cabin baggage check shall form part of the boarding agent responsibility. At the time of boarding a guest, a visual check shall be carried out to ensure that each guest is conforming to the cabin baggage policy. Any guests not conforming shall be taken to the side and have their item gate checked.

3.6.4 On-board

The stowage of cabin baggage in the overhead lockers is the guest's responsibility, however cabin crew shall monitor and assist guests to ensure that personal items are not being placed in the overhead lockers.

3.6.5 Restricted and Prohibited Items within the Aircraft Cabin

Strong smelling perishable items are prohibited as cabin and checked baggage. Examples of prohibited items include but are not limited to:

- Durian
- Cempedak
- Pedalai
- Marang
- Jackfruit

3.6.5.1 Liquids, Aerosols and Gels (LAGS)

LAGS (Liquid Aerosol Gels) within cabin baggage shall comply with the following:

All LAG's shall be carried in a transparent re-sealable plastic bag with a maximum capacity of 1 litre with dimensions 20 x 20 cm or 15 x 25 cm.

Each guest is permitted to carry only one such bag, which is to be presented separately from other cabin baggage to the security screening check-points for x-ray purposes.

Each of the liquids, aerosols and gels containers shall not contain more than 100 millilitres each.

Empty containers capable of carrying more the 100 millilitres are acceptable

Exceptions are allowed for medications, baby milk / foods and special dietary or other medical requirements (to be used during the duration of the trip, and LAGs carried by operational staff for personal needs).

For security reasons, many countries restrict the carriage of liquids, aerosols and gels in hand baggage

Duty Free Purchases

LAG items purchased at airport retails outlets shall be carried in a Security Tamper-Evident Bag (STEB), the STEB will be provided by the retail outlet where the LAG's are purchased

The security tamper-evident bag should not be opened before going through security checkpoints, otherwise contents may be confiscated at the check-point

Refer to GOM Chapter 10.2.7.

3.6.5.2 LAGS to Australia

- a. Liquids and Gels (LAGS) in containers of 100ml or less are permitted in the cabin on flights to Australia, provided:
 1. They are in a single, sealed transparent plastic bag with a perimeter of 80cm or less when the bag is laid flat, or
 2. In a Security Tamper Evident Bag (STEB) purchased from the originating airport prior to Abu Dhabi, in flight or at Zayed International Airport, and in original packaging and with receipt of purchase
- b. LAGS in containers in excess of 100ml are not permitted in the cabin on flights to Australia, except:

1. LAGS in excess of 100ml where purchased at Zayed International Airport, including duty free items. These shall be:
 - i. properly sealed in an original STEB provided by the retailer and not tampered with
 - ii. presented with receipt of purchase under the name of the passenger that holds the item and belongs to the flight
 - iii. delivered to the gate by authorised Duty Free personnel
 - iv. Subject to transfer screening, as well as secondary screening at the departure gate at Abu Dhabi
 - v. claimed by the passenger for carriage in the cabin as they board the flight, subject to satisfactory screening results
 2. As per AVSEC guidance:
 - i. for infants and toddlers, a baby product (e.g. infant formula) that is in a quantity that is reasonable for use for the duration of the flight
 - ii. a medical product (supplied on prescription) for the person
 - iii. a therapeutic product (i.e. special dietary products, contact lens solution) for the person in a quantity that is reasonable for use for the duration of the flight
 - iv. the contents of a bag being used to manage a medical condition of the person (e.g. a colostomy bag)
 - v. biological tissues, blood products, blood cultures, samples and substances used for medical research or reproductive health where permitted under the IATA Dangerous Goods regulations; or
 - vi. material or containers that are required to maintain the temperature, quality or integrity of items mentioned in items i-v above.
 3. Care Bags

LAGS bag containing LAG products that is in LAGS containers for the use or care of an infirm person or child who the person is accompanying through LAGS checkpoint.
 4. Goods covered by a notice given by the Secretary under paragraph 42(2)(c) of Aviation Transport Security Act (ATSA)
- c. There are no restrictions on LAGS in the hold of the aircraft.

3.6.6 Powder Restrictions

3.6.6.1 United States

Guests travelling to the United States on EY operated flights are prohibited to take powder substances of 350ml/350g/12oz or more as cabin baggage.

Exempted Items:

- Medically prescribed powder substances, baby formula and cremated human remains provided they are sealed, not tampered with and have supporting evidence
- Duty free items in Security Tamper Evident Bags purchased at Duty Free after clearing US CBP in Zayed International Airport

3.6.6.2 Australia

Guests travelling from Australia on EY operated flights are prohibited to take inorganic powder substances of 350ml/350g/12oz or more as cabin baggage.

Exempted Items:

- All organic powders e.g. powdered baby formula, powdered food, coffee, protein powder, flour, spices, sugar, most cosmetics, Epsom salt
- Powdered baby formula
- Prescription and non-prescription medicines (including special dietary products)
- Medical items accompanied by supporting evidence (e.g. doctor's letter) required during a flight
- Cremated human remains
- Duty free items in Security Tamper Evident Bags

NOTE

- There are no restrictions on the number of containers of inorganic powders per guest, provided the total volume of all the containers of inorganic powder is 350ml/350g/12oz or less
- Guests cannot partially remove inorganic powders to meet the threshold as the restriction is calculated on the total container volume
- There is no limit on organic powders

3.7 NON STANDARD BAGGAGE

3.7.1 Music Equipment

Musical instruments which fit into the dimensions permitted as cabin baggage (such as small flutes or violins), can be transported as part of the guest's cabin baggage allowance.

If the instrument (such as bass or cello) exceeds standard cabin baggage dimensions or weight, the item must be carried as checked baggage or the guest must purchase an additional seat for the instrument to travel in the cabin.

For musical equipment carried as checked baggage, the limited release process shall be applied.

More information about the carriage of Music Equipment in the cabin can be found in GOM Chapter 8.19.3.

3.7.2 Carriage of Human Remains and Animal (Pet) Remains

Transportation of cremated remains (human/pet) in urns is permitted on all Etihad Airways flights. Urns shall be accepted for carriage as cargo or checked baggage. Carriage of cremated ashes in the cabin is strictly prohibited. This impacts all guests travelling to/from AUH or in transit.

Where required, guests shall be advised to place cremated ashes in their checked baggage and carry a certificate of cremation for presentation to authorities, upon request.

Pending local departure station regulations, documentation including a death certificate or equivalent, issued by a competent authority at the origin, may be required. For pets, an alternative

document such as a veterinary certificate confirming death and/or a cremation certificate may be required, subject to local authority requirements.

The casket or urn containing the cremated remains shall be packed in a sealed outer box or case.

Non-cremated human remains and non-cremated animal (pet) remains in coffins/caskets shall be accepted for carriage only through Etihad Cargo.

3.8 LIVE ANIMALS

3.8.1 General

The following methods of carriage are applicable to live animals on Etihad flights:

- a. Falcons carried in the passenger cabin.
- b. Domesticated dogs or cats (pets), and trained service dogs carried in the passenger cabin.
- c. Live animals carried in the cargo hold (AVIH) in an approved container as checked baggage.

This is limited to the following only:

1. Falcons.
2. Guide dogs to lead the blind and/or deaf.
- d. Live animals as manifested cargo in an approved container in the cargo hold.

Etihad does not permit interlining of live animals between carriers.

3.8.2 Live Animal Container Requirements

For applicable live animals transported in the cargo hold, including falcons, the following requirements apply to containers, including cages:

- a. Only rigid containers with a secure door are acceptable.
- b. A water container shall be provided in each container.
- c. Only one animal per container, unless they are used to cohabiting, in which case the following applies:
 1. A maximum of two adult animals (other than falcons), of comparable size up to 14 kg each that are compatible may be shipped in the same container. Animals over that weight shall travel individually.
 2. Animals up to six months old (other than falcons) from the same litter, up to 14 kg each, up to a maximum quantity of three, may be shipped in the same container/compartment.
- d. The container shall be large enough to permit the animal(s) to stand in a natural position, turn around and lie down.

3.8.3 Falcons

3.8.3.1 Falcons in the Cabin

Falcons are permitted to travel inside the passenger cabin for no additional charge in all classes. A maximum of 15 falcons should be carried in the passenger cabin on scheduled flights. For VIP, VVIP or other party sponsored flights, the limit may be increased above 15.

First and Business

- Up to 2 falcons per guest (per seat) are permitted.
- Up to 3 additional falcons can be carried when an extra seat is purchased in Business.

Economy

- One falcon per guest (per seat) is permitted.
- 2 additional falcons can be carried when an extra seat is purchased within the same class of travel.

NOTE

- Baggage allowance for the extra seat will be shown on the CPR.
- Falcons shall be hooded and a chain or rope shall be attached to their legs in the passenger cabin or in the vicinity of other passengers in the terminal building.
- Guests shall carry their own perches for the birds to be attached to onboard.
- Preferably, a maximum of 15 falcons should be placed within the cabin on scheduled flights.
- During check-in process at AUH airport, Dispatch Duty Manager shall be contacted to prepare the seat covers. For network airports, contact your local cleaning provider.
- TIMATIC shall be referred to prior to acceptance for customs regulations.
- The applicable SSR shall be added for acceptance in cabin (FALC).
- Falcons shall not be accepted if total journey is more than 17 hours (including transit).
- Seats shall be allocated in the last row of the cabin in the booked class. If guests are travelling as groups they should be seated together.

3.8.3.2 Falcons in the Hold

All Classes

The charge for each falcon checked in for carriage in the hold shall be USD 500 per cage per one way (including transit). This shall be processed by adding the AVIH Service in the guest's CPR.

NOTE

- Carriage of falcons in the cargo hold shall be in accordance with the requirements of GOM Chapter 8.8 (including limitations on certain aircraft types) and the IATA Live Animal Regulations (LAR)
- Falcons shall not be accepted if total journey is more than 17 hours (including transit).
- The applicable SSR shall be added for acceptance in hold (AVIH).

3.8.4 Pets (Cats & Dogs) in the Cabin

A pet is described as a domesticated dog or cat.

- a. A single passenger is permitted to travel with no more than one (1) pet dog or cat in the cabin.

- b. The maximum number of pets in the cabin shall be as per the below Table. The total number of pets in the cabin **per flight** is more limiting than the sum of the allowable pets per class. The total per flight shall not be exceeded.

MAXIMUM NO. OF PET CATS/DOGS IN THE CABIN				
Aircraft	First	Business	Economy	Total Per Flight
Narrow Body	1 *	1 **	4	4
Wide Body	1 *	2 **	8	8

* By exception subject to NPH Flight Operations approval.

** May be increased by one in the applicable class, where passengers are travelling together and wish to bring more than one pet from the same household/family.

NOTE

Where a trained service dog is also on the same flight, the above numbers for pet cats/dogs shall be reduced by one (1) for each trained service dog booked.

NOTE

Each pet shall be in a separate animal container or pet travel bag.

- c. The following requirements shall apply to the animal container or pet travel bag:
- The pet shall be able to sit and stand in a natural position with its head fully erect (without touching the roof), turn around and lie down.
 - The carrier shall be ventilated on at least three (3) surfaces.
 - The carrier shall be escape proof (rigid door for kennels / secure entrance for pet travel bag) and leak proof.
 - The container floor shall contain absorbent material.
 - The pet shall not be allowed outside the pet travel bag or kennel whilst on board the aircraft.
- d. The guest shall provide dry food in a sealed container for the animal, sufficient for the duration of the journey.

3.8.4.1 Seating

For under-seat pet carriage in Economy (except B787), the guest travelling with a pet should be allocated a window seat where possible.

For under-seat pet carriage in Economy on B787, the guest travelling with a pet should be allocated a B or J type seat where possible.

For on-seat pet carriage in Economy (and Business on A320/A321), the additional purchased seat for the pet should be a window seat. The guest travelling with the pet shall be allocated the adjacent seat.

For on-seat pet carriage in Business (excluding A320/A321), the guest's seat and the additional purchased seat for the pet should be in the centre group of seats.

Where adjacent seats are not available, the pet booking shall not be confirmed by the Contact Centre even if other seats are available within the Business cabin.

A guest travelling with a pet shall **not** be seated in any of the following locations:

1. Bulkhead rows.
2. Emergency exit rows.
3. One row forward and aft of over-wing exit rows.

The following shall apply, in order of possibility - taking into account such factors as booked load:

1. Block the group of seats.
2. Block the adjacent seat to the passenger and, where applicable, the seat adjacent to the purchased seat used for on-seat pet carriage. Where adjacent seats are not available, the pet booking shall not be confirmed by the Contact Centre even if other seats are available within the Business cabin
3. Where the cabin is full, there is no requirement to block any seats.

Economy

For under-seat carriage, the pet shall be able to fit in a pet travel bag or kennel with maximum dimensions of 40 x 40 x 22 cm (L x W x H) in order to fit safely under the seat.

For carriage on an adjacent purchased seat, the pet shall be able to fit in a pet travel bag or kennel with maximum dimensions of 50 x 43 x 50 cm (L x W x H). The pet travel bag or kennel shall be secured to the seat with extension seat belts. Stowage shall be in accordance with GOM Chapter 8.19.3. Prior to boarding, cabin crew shall dress the assigned seat with a plastic bag of the type used for blanket collection, as well as a blanket, to cover the seat and seat back.

Where an additional seat has been purchased, the passenger is entitled to the additional checked baggage allowance associated with the purchased seat. This does not apply to under-seat carriage. The gross weight (pet and travel bag/kennel combined) shall be no more than **8 kg**.

Business

In Business, it is not possible to stow pets under seats.

An additional seat shall be purchased adjacent to the accompanying passenger and the pet shall be in a pet travel bag or kennel with maximum dimensions of 50 x 43 x 50 cm (L x W x H). The gross weight (pet and travel bag/kennel combined) shall be no more than 8 kg.

Where two (2) passengers travelling together wish to bring one (1) pet each (i.e. two (2) pets in total) in Business, an additional seat shall be purchased for each pet. Each pet shall be in a separate container.

Where an additional seat has been purchased, the passenger is entitled to the additional checked baggage allowance associated with the purchased seat. This does not apply to under-seat carriage.

The pet travel bag or kennel shall be secured to the seat with extension seat belts. Stowage shall be in accordance with GOM Chapter 8.19.3. Prior to boarding, cabin crew shall dress the assigned

seat with a plastic bag of the type used for blanket collection, as well as a blanket, to cover the seat and seat back.

3.8.4.2 Reservation

Guests shall contact the contact centre or submit an online booking form via the Etihad website at least 7 days prior to intended travel to enquire regarding travelling with a pet. Where two (2) pets will be carried, a separate form shall be completed for each pet.

Contact centre staff shall advise the guest of the documentation requirements and the requirement to submit all required documents to the contact centre no later than **72 hours** prior to intended travel, in order to ensure the animal has all required travel documentation for the intended routing.

Guests accompanying a pet in the cabin shall be at least 18 years old. If more than one pet from the same family is traveling, at least one guest with a pet shall be 18 or older, and remaining guests with a pet shall be 12 or older.

Once the guest has provided the completed form(s) and supporting documents, contact centre staff shall forward these to the Cargo Authorisations Team for checking.

Where the documents submitted are acceptable and travel is permitted in accordance with the requirements of the applicable countries, Cargo Authorisations Team shall notify the contact centre with an 'OK 2 Accept' email. Contact centre staff shall update the PNR with the 'PETC' SSR and a remark to reflect that this relates to a pet dog or cat, or the applicable number of pet cats and/or dogs (as applicable). The PETC SSR is a confirmation that the required checks have been performed by the Cargo Authorisations Team and that an 'OK 2 Accept' has been received.

For arrivals into the Abu Dhabi, the following shall apply:

1. The animal's health certificate is stamped by a government-accredited health official in the country of departure within 5 days prior to departure. PETC requests can be confirmed without the document being provided. Contact centre staff shall inform the guest that it is a requirement for this signed and stamped form to be carried by the guest and presented at the airport. A fillable and printable PDF version of the form is available on the EY website.
2. The guest is in possession of an Abu Dhabi Customs Bill of Entry, which shall be obtained through NOATUM LOGISTICS MIDDLE EAST OPC. LLC. Guests shall ensure all relevant documents are forwarded to NOATUM a maximum of 24 hours before the flight departure time. Where the guest is not in possession of a Bill of Entry, check-in staff may contact NOATUM directly to issue the document on urgent basis and refer to the below:
 - a. Agent shall inform the guest of the requirement to obtain the Bill of Entry and the applicable fee
 - b. Agent shall collect the mandatory documents from the guest and the flight information from Altéa CM
 - c. Agent shall forward all the documents to auhcustoms@noatumlogistics.ae, MohamadGhaziC@noatumlogistics.ae and copy shadi.abumadi@noatumlogistics.ae. The email subject line shall be as follows:

"URGENT BOE – FLIGHT NUMBER AND DATE - PNR – GUEST NAME"

- d. Agent shall call NOATUM at **+971 (0)2 8054277** to inform them of the urgent request

- e. NOATUM shall review the email, draft the Bill of Entry and send the payment link to the guest
- f. NOATUM shall issue the Bill of Entry upon receiving the payment from the guest

Any request made later than 2 hours before STD will be strictly subject to confirmation from NOATUM that there is enough time to issue the Bill of Entry.

The guest may change their request up to 3 hours prior to departure. In the event of voluntary changes, the guest shall resubmit the required form(s) and documentation to the contact centre in order for the approval process to take place again. For delays or flight cancellations, the guest may utilise the original animal documentation.

Guests that have purchased an additional seat for PETC shall be ticketed using the following format:

Passenger: SMITH/JOHN

Extra seat for Pet: SMITH/EXST

Guests travelling in Economy, who wish to upgrade, shall be required to purchase an additional seat to travel with their pet. Where the guest has already purchased an additional seat in Economy for their pet, the fare difference between the additional seat in Economy and the additional seat in Business shall apply.

3.8.4.2.1 Staff Travel

Confirmed Economy bookings are eligible for PETC service. A pet may only be carried by a staff traveller under the seat in front of them. Reservations shall follow the same process as commercial guests, via the contact centre. Staff travellers should refer to the pets section on Etihad.com for further information.

Pricing shall be as defined for commercial Economy guests.

PETC service is not applicable to the following categories of staff travellers:

1. Business and First .
2. Space available bookings.
3. Those holding upgradeable tickets.

3.8.4.3 Etihad Chauffeur and Coach Services

For guests using the Etihad Chauffeur service, or connecting Etihad coach services in the UAE, pets, as permitted by this policy, are permitted on these services.

3.8.4.4 Lounges

For guests eligible to use premium lounges, pets may be taken into Etihad lounges in Abu Dhabi. For lounges in network airports, access is dependent upon the acceptance policy of the lounge operator. Pets shall remain inside the pet carrier or kennel at all times.

3.8.4.5 Pre-Alert to Airports

Upon confirmation of a PETC SSR following verification of the required documents and 'OK to Accept' from Cargo Authorisations Team via email at cargoavi@etihad.ae contact centre staff shall send a pre-alert notification to the affected airports (departure, transfer (AUH) and destination – as applicable) in the following format:

Email Title (overwrite flight number(s) / date(s) / routing):

PETC PRE-ALERT EYxxx/ddmmm XXX-YYY / EYxxx/ddmmm YYY-ZZZ

Email Body:

PETC PRE-ALERT	
Guest name	
PNR	
Pet / Service Animal	
Type of Animal	
Flight Numbers / Dates / Routing	

The above message shall be sent to the following addresses:

Network Airport(s) (departure/arrival) – replace XXX with airport code:

AirportManagerXXX@etihad.ae and XXXairport@etihad.ae

AUH: tcccontroller@velora.ae

3.8.4.6 Acceptance at the Airport

- a. The guest and pet should be at the check-in counter at least 3 hours prior to departure. The passenger is required to bring all original documentation for the animal, in order to ensure a smooth verification process upon arrival at their destination.
- b. The check-in agent shall accept the guest and pet using the PETC Acceptance App.
- c. Check-in agent shall confirm that the 'PETC' SSR has been added in the reservation. This is a confirmation that the required documents have been checked and confirmed to be acceptable by the Cargo Authorisations Team.
- d. Check-in staff shall follow and complete the *Acceptance Checklist for Pet in Cabin*. The staff member and guest shall sign the form. Where multiple pets will be carried, a separate form shall be completed for each pet. As part of the Acceptance Checklist, check in staff are required to verify with the guest that they have the original documentation with them. Airport staff shall not retain any of the original documentation for the animal. It shall be returned to the passenger.
- e. At network airports, check-in staff shall ask the guest to show the animal's health certificate which, for arrivals into the UAE, the UAE Health Certificate shall be signed and stamped by a government-accredited health official within 5 days prior to departure.
 1. Each page of this document needs to be photographed or scanned at check-in, and sent along with the onward notification email described in Chapter 3.8.6.1. Where the App is used, this is part of the App workflow.
 2. After photographing or scanning, the form shall be returned to the guest.

NOTE

1. The health certificate name and format may differ slightly between countries/ locations, however please refer to [UAE Health Certificate for Cats and Dogs \(EY604\)](#) for an example format.
2. The UAE Health Certificate requirement is applicable for arrivals into AUH (not applicable to transfer between flights at AUH). Individual destination country requirements shall also apply
3. Stamps from local non-government veterinary facilities are **not** acceptable. Local teams must be familiar with the official government stamps for the applicable jurisdiction.

Examples of government stamps:

- f. For PETC departing from Australia, the following documents shall be signed and stamped by an Australian Government Veterinary Official and presented by the passenger to the Airport team prior to acceptance:
 1. Government Certificate of Health to Accompany Animals.
 2. Permit to Export Animals.
- g. The animal (while secured in the pet travel bag or kennel) shall be placed on the scale for weighing. This does not affect the guest's cabin or checked baggage allowances.
- h. Check-in staff shall enter a comment in the check-in system to include:
 1. PETC and weight (e.g. PETC 7KG).
- i. Check-in staff shall notify the person responsible for turnaround coordination by phone of the acceptance of the animal in cabin, including:
 1. Type of animal (dog or cat) including that it is a pet.
 2. Weight of animal including container.
 3. Guest seat number.
- j. Where a pet/service animal relief area is available for departures, the guest shall be informed of the facility and location, and shall be offered the opportunity to take their animal to the facility.
- k. Guest shall be directed to the applicable location to pass through immigration and security:
 1. At AUH, same terminal as check-in.
 2. At network airports, as per local requirements.
- l. Guest and animal shall pass through security where the animal shall be removed from the container. The guest and animal shall be screened to the same applicable screening

standard and measures. The container shall be screened separately by the screening authority in accordance with local requirements.

NOTE

As and when required, the guest, animal and container shall also be subject to enhanced security measures (e.g. secondary screening prior to boarding), as applicable.

- m. After passing through security, the owner shall put the animal back inside the pet travel bag or kennel and secure/lock it.
- n. In case not all requirements have been met and the guest is refused travel, the guest shall be directed to the contact centre for rebooking.

NOTE

- Acceptance shall be performed by a staff member with appropriate training for the acceptance of live animals at check in, or under the supervision of an EY airport staff member who has received appropriate training (e.g. Travelling with Animals eLearning course).
- In case of no PETC SSR code, airport staff shall contact the Global Service Support team within the Guest Contact Centre on +971 56 411 5067 (This number is for internal use only and shall not be given to any guests).
- Where a PETC has been pre-approved and there are concerns regarding documentation, airport staff may contact the Cargo Contact Centre (CCC) on +971 2 599 0099 (800 2535 within the UAE). Where unable to resolve/clarify the issue, CCC staff shall escalate the query directly to a subject matter expert within Cargo Authorisations Team.
- Guests arriving to the airport requesting an exemption to the PETC approval process shall not be accepted and should be referred to [Etihad.com/pets](https://www.etihad.com/pets) to complete the booking form. The above teams will not be in a position to provide exemptions where the guest has failed to complete the pre-approval process.

3.8.5 Trained Service Dogs in the Cabin

A service dog is defined as a dog, regardless of breed or type, which is individually trained to do work or perform tasks for the benefit of a qualified individual with a disability.

The following are **not** considered as service dogs:

- Animal species other than dogs.
- Emotional support animals.
- Comfort animals.
- Companionship animals.
- Service animals in training.

NOTE

1. EY does not allow the carriage of psychiatric service dogs, except on non-stop flight to/from the US.
2. Except when travelling to/from the US, service dogs must be certified by an ADI (Assistance Dogs International) or IGDF (International Guide Dog Federation) accredited organisation.

The carriage of a service dog in the cabin is permitted on EY routes to, from and via Abu Dhabi.

There is no limit to the number of service dogs allowed on a single flight provided the number of guests travelling with a service animal does not exceed the number of Able Bodied Persons (ABPs) capable of assisting with an emergency Evacuation.

It is permitted for a single passenger to travel with one (1) service dog in the cabin. On any itinerary involving flights to and/or from the US, it is permitted for a passenger to travel with up to two (2) service dogs in the cabin, provided they can be accommodated within the owner's seat space without encroaching into other passengers' space.

Trained service dogs traveling in premium cabins are not required to occupy an additional seat and must remain within the guest's designated seating area.

Before acceptance, airport team members must ensure guests understand that the trained service dog must remain within the guests' seat area and shall not encroach into the aisle or block emergency exits.

Guests traveling in Business may be required to travel with their seats upright to provide sufficient space depending on the size of the trained service dog.

Guests travelling with Service Dogs shall provide:

- An absorbent mat or similar to be placed on the floor where the animal will be located and sufficient additional material for the duration of the flight(s) and, where applicable, transfer time.
- Dry food in a sealed container for the animal, sufficient for the duration of the journey.

Service dogs shall be leashed, harnessed or otherwise tethered at all times whilst on board the aircraft.

NOTE

Due to airport restrictions, guests travelling with Service Animals to and from Malaysia will be subject to the following regulations:

- a. Only small size Service Dogs (up to 8Kg including the carrier) are allowed to travel to and from Malaysia.
- b. Service Dogs shall be kept in a cage at all times.
- c. Airport authorities reserve the right to stop Service Dogs from passing through the airport terminal should they display inappropriate behaviour.

3.8.5.1 Seating

Where possible, the guest travelling with a trained service dog should be allocated bulkhead row and a window seat. The guest shall not be charged for the seating location.

A guest travelling with a trained service dog shall not be seated in any of the following locations:

- Emergency exit rows.
- One row forward and aft of over-wing exit rows.

The following shall apply, in order of possibility - taking into account such factors as booked load:

- Block entire seat row.
- Block the group of seats.
- Block the adjacent seat to the passenger.
- Where the flight is full, there is no requirement to block any seats.

3.8.5.2 Reservation

Guests should contact the contact centre or submit an online booking form via the Etihad website to enquire regarding travel with a service dog. It is recommended for guests to request travel with a service dog at least 48 hours before flight departure.

Contact centre staff shall advise the guest of the documentation requirements to ensure the service dog is cleared for travel.

For arrivals into Abu Dhabi, the following shall apply:

1. The animal's health certificate is stamped by a government-accredited health official in the country of departure within 5 days prior to departure. SVAN requests can be confirmed without the document being provided. Contact centre staff shall inform the guest that it is a requirement for this signed and stamped form to be carried by the guest and presented at the airport. A fillable and printable PDF version of the form is available on the EY website.
2. The guest is in possession of an Abu Dhabi Customs Bill of Entry, which shall be obtained through NOATUM LOGISTICS MIDDLE EAST OPC. LLC. Guests shall ensure all relevant documents are forwarded to NOATUM a maximum of 24 hours before the flight departure time. Where the guest is not in possession of a Bill of Entry, check-in staff may contact NOATUM directly to issue the document on urgent basis and refer to the below:
 - a. Agent shall inform the guest of the requirement to obtain the Bill of Entry and the applicable fee
 - b. Agent shall collect the mandatory documents from the guest and the flight information from Altéa CM
 - c. Agent shall forward all the documents to auhcustoms@noatumlogistics.ae, MohamadGhaziC@noatumlogistics.ae, and copy shadi.abumadi@noatumlogistics.ae. The email subject line shall be as follows:

“URGENT BOE – FLIGHT NUMBER AND DATE - PNR – GUEST NAME”

- d. Agent shall call NOATUM at **+971 (0)2 8054277** to inform them of the urgent request

- e. NOATUM shall review the email, draft the Bill of Entry and send the payment link to the guest
- f. NOATUM shall issue the Bill of Entry upon receiving the payment from the guest

Any request made later than 2 hours before STD will be strictly subject to confirmation from NOATUM that there is enough time to issue the Bill of Entry.

For any flight itinerary that includes flights to and/or from the US, the guest shall complete both of the following forms after completing the flight reservation or on the day of departure.

1. [U.S. DOT Service Animal Air Transportation Form](#)
2. [U.S. DOT Service Animal Relief Attestation Form](#)

Where the guest completes the forms in advance and submits them to the contact centre, contact centre staff shall add the SVAN Service to the guest's booking and retain the forms for three months. Guests who wish to complete the forms at the airport may do so prior to completing check-in.

Copies of the above US DOT forms shall be made available to guests at the airport if requested.

The guest may change their request up to 3 hours prior to departure. In the event of voluntary changes, the guest shall resubmit the required documentation prior to travelling again. For delays or flight cancellations, the guest may utilise the original animal documentation.

3.8.5.2.1 Pricing

There is no charge for the carriage of a service dog in the cabin.

3.8.5.3 Etihad Chauffeur and Coach Services

For guests using the Etihad Chauffeur service, or connecting Etihad coach services in the UAE, service dogs, as permitted by this policy, are permitted on these services.

3.8.5.4 Lounges

For guests eligible to use premium lounges, trained service dogs may be taken into Etihad lounges. For third party operated lounges, access is dependent upon the acceptance policy of the lounge operator. Service dogs shall remain leashed, harnessed or otherwise tethered at all times.

3.8.5.5 Pre-Alert to Airports

Upon confirmation of a SVAN SSR following verification of the required documents and 'OK to Accept' from Cargo Authorisations Team via email at cargoavi@etihad.ae contact centre staff shall send a pre-alert notification to the affected airports (departure, transfer (AUH) and destination – as applicable) in the following format:

Email Title:

SERVICE DOG PRE-ALERT EYxxx/ddmmm XXX-YYY / EYxxx/ddmmm YYY-ZZZ

Email Body:

SERVICE DOG PRE-ALERT

Guest name	
PNR	
Pet / Service Animal	
Type of Animal	
Flight Numbers / Dates / Routing	

The above message shall be sent to the following addresses:

Network Airport(s) (departure/arrival) – replace XXX with airport code:

AirportManagerXXX@etihad.ae and XXXairport@etihad.ae

AUH: TCCforwardplanner@etihad.ae

3.8.5.6 Acceptance at the Airport

- The check-in agent shall accept the guest and service dog using the Live Animal Acceptance App.
- Check-in agent shall confirm that the 'SVAN' SSR has been added in the reservation. This is a confirmation that the required documents have been checked and confirmed to be acceptable by the Cargo Authorisations Team.
- Check-in staff shall follow and complete form EY601/GRH - Acceptance Checklist for Service Dog in Cabin.

NOTE

For itineraries involving flights to the USA, use form EY622/GRH - Acceptance Checklist for Service Dog in Cabin (Flights to the USA).

- At network airports, check-in staff shall ask the guest to show the animal's health certificate which, for arrivals into the UAE, the UAE Health Certificate shall be signed and stamped by a government-accredited health official within 5 days prior to departure.
 - Each page of this document needs to be photographed or scanned at check-in, and sent along with the onward notification email described in Chapter 3.8.6.1. Where the App is used, this is part of the App workflow.
 - After photographing or scanning, the form shall be returned to the guest.

NOTE

- The health certificate name and format may differ slightly between countries/locations, however please refer to [UAE Health Certificate for Cats and Dogs \(EY604\)](#) for an example format.

2. The UAE Health Certificate requirement is applicable for arrivals into AUH (not applicable to transfer between flights at AUH). Individual destination country requirements shall also apply.

- e. For SVAN departing from Australia, the following documents shall be signed and stamped by an Australian Government Veterinary Official and presented by the passenger to the Airport team prior to acceptance:
1. Government Certificate of Health to Accompany Animals.
 2. Permit to Export Animals.
- f. For any itinerary involving flights to/from the US:
1. Where there is no SVAN service to confirm that the 2 x US DOT forms have been received by the contact centre already, staff shall request the following 2 completed forms from the guest:

[*U.S. DOT Service Animal Air Transportation Form*](#)

[*U.S. DOT Service Animal Relief Attestation Form*](#)
 2. Where the guest presents the above forms at the airport, they shall be retained at the departure station for a minimum of 3 months.
- g. The staff member shall sign the form. There is no requirement for guest signature.
- h. Check-in staff shall ask the guest for the weight of the animal (kg). Where not known, the weight shall be considered as a notional value of 30 kg. This does not affect the guest's cabin or checked baggage allowances.
- i. Check-in staff shall enter a comment in the check-in system to include:
- SVAN and weight (e.g. SVAN 30KG).
- j. Check-in staff shall notify the person responsible for turnaround coordination by phone of the acceptance of the animal in cabin, including:
1. Type of animal (dog or cat) including that it is a service dog.
 2. Weight of animal.
 3. Guest seat number.
- k. Where a pet/service animal relief area is available for departures, the guest shall be informed of the facility and location, and shall be offered the opportunity to take their animal to the facility.
- l. Guest shall be directed to the applicable location to pass through immigration and security:
1. At AUH, same terminal as check-in.
 2. At network airports, as per local requirements.
- m. The guest and animal shall be screened to the same applicable screening standard and measures.

NOTE

As and when required, the guest, animal and container shall also be subject to enhanced security measures (e.g. secondary screening prior to boarding), as applicable. Enhanced security measures shall not, however, be applied purely on the basis that the guest is travelling with a service dog.

- n. In case not all requirements have been met and the guest is refused travel, the guest shall be directed to contact the contact centre to re-book.

NOTE

- Acceptance shall be performed by a staff member with appropriate training for the acceptance of live animals at check in, or under the supervision of an EY airport staff member who has received appropriate training (e.g. Travelling with Animals eLearning course).
- In case of no SVAN SSR code, airport staff shall contact the Global Service Support team within the Guest Contact Centre on +971 56 411 5067 (This number is for internal use only and shall not be given to any guests).
- Where a SVAN has been pre-approved and there are concerns regarding documentation, airport staff may contact the Cargo Contact Centre (CCC) on +971 2 599 0099 (800 2535 within the UAE). Where unable to resolve/clarify the issue, CCC staff shall escalate the query directly to a subject matter expert within Cargo Authorisations Team.
- Guests arriving to the airport requesting an exemption to the SVAN approval process shall not be accepted and should be referred to Etihad.com/pets to complete the booking form. The above teams will not be in a position to provide exemptions where the guest has failed to complete the pre-approval process.

3.8.5.7 Trained Service Dogs to the USA

This section defines the responsibilities and procedures for EY and appointed ground handling service provider personnel to follow in verifying the required documentation for trained service dogs being transported to the USA, ensuring compliance with government regulations, and preventing the spread of diseases such as rabies.

This is applicable to itineraries involving flights to the USA, whether joining at Abu Dhabi (AUH) hub or at network airports.

3.8.5.7.1 Responsibilities – Documentation and Dissemination

- For trained service dogs where prior notice is given to the airline, the EY Cargo AVI team in AUH is responsible for checking and verifying that the importer holds all required documentation for the carriage of dogs to the USA, in line with government regulations. Refer to Chapter [3.8.5.7.2](#).
- Where a trained service dog is presented at the airport without prior notice and documentation checks, EY airport staff and third-party ground handling personnel are responsible for checking and verifying that the importer holds all required documentation for the carriage of dogs to the USA, in line with government regulations. Refer to Chapter [3.8.5.7.2](#).

- c. EY Airport Managers at all airports where trained service dogs are accepted, are responsible for ensuring dissemination of associated policies and procedures to the EY airport team and appointed third-party ground handling personnel, to ensure understanding of the applicable requirements.

3.8.5.7.2 Documentation Requirements

The below items shall be checked and verified.

a. **Dogs from low-risk countries for rabies:**

1. CDC Dog Import Form receipt – printed or shown on phone screen.
2. Dog shall be at least 6 months old, as per accompanying documentation.

b. **Dogs from *high-risk countries for rabies*, US-vaccinated:**

1. A Certification of US-issued Rabies Vaccination form or USDA-endorsed export health certificate.
 - i. Must be endorsed by an official government veterinarian.
 - ii. Must be valid as per expiry date on form.
2. CDC Dog Import Form receipt (longer version including photo of the dog) – printed or shown on phone screen. Check that the following items on the import form also match the above document:
 - i. Name of dog
 - ii. Breed
 - iii. Sex
 - iv. Colour
 - v. Age
 - vi. Microchip number
3. Dog shall be at least 6 months old, as per accompanying documentation.

NOTE

On the CDC Dog Import Form, the port of entry shall reflect ***International – any preclearance airport***. If it reflects any other port of entry (e.g. the actual destination airport), ask the passenger to submit another CDC Dog Import Form application, selecting the port of entry as ***International – any preclearance airport***.

c. **Dogs from *high-risk countries for rabies*, foreign (non-US)-vaccinated:**

1. Do **not** accept, as this category is not eligible for entry via a pre-clearance facility.

3.8.5.7.3 Documentation Checks via Contact Centers

- a. Upon receipt of the applicable documents from the passenger, the passenger contact centre shall forward them to the Cargo AVI team for checking.
- b. Upon receipt of the applicable documents from the passenger, the passenger contact centre shall forward them to the Cargo AVI team for checking.
- c. Approval (or denial with reasons specified) shall be given by the Cargo AVI team to the passenger contact centre, who shall in turn advise the passenger whether the dog is approved or denied for travel.
- d. Where approved, the passenger contact centre shall confirm the special service request (SSR) in the reservations system, using the SSR code 'SVAN'
- e. Where denied, the SSR shall **not** be confirmed. An appropriate remark shall be entered in case of subsequent enquiry/follow up, or for airport staff information in case of any attempt by the passenger to travel with the animal following the denial.

3.8.5.7.4 Documentation and Other Checks at the Airport

- a. For **trained service dogs (SVAN) with a confirmed SSR**, the SSR is confirmation that all required documentation has already been checked and verified by the Cargo AVI team as per Chapter 3.8.5.7.3. Airport staff shall check the following prior to acceptance for the flight:
 1. For dogs from **high-risk countries for rabies** (only US-vaccinated permitted), the photo of dog on CDC Dog Import Form receipt shall match the dog being presented.
 2. Dog shall appear healthy. Ensure no signs of illness or injury, including:
 - i. Dog not moving or not responding to stimuli (e.g., sounds, commands, owner's touch).
 - ii. Vomit, diarrhea, or blood.
 - iii. Loss of balance.
 - iv. Significant hair loss or rash.
 - v. A lot of mucus around eyes or nose.
 - vi. Foam around the mouth.
 - vii. Difficulty breathing.
 - viii. Unusual behavior.
- b. For **trained service dogs (SVAN) without a confirmed SSR**, Airport staff shall check all the following prior to acceptance for the flight:
 1. All items specified in Chapter 3.8.5.7.2.
 2. For dogs from high-risk countries for rabies (only US-vaccinated permitted), the photo of dog on CDC Dog Import Form receipt shall match the dog being presented.

3. Dog shall appear healthy. Ensure no signs of illness or injury – refer to the list in Chapter 3.8.5.7.4 (a) (2) for guidance.

- c. All other (non-US specific) requirements shall also be checked in accordance with Chapter 3.8.5.6 prior to acceptance at the Airport. This shall include completion of form EY622/GRH – Acceptance Checklist for Trained Service Dog in Cabin (Flights to the USA).

3.8.5.7.5 Denial at or Prior to Preclearance (AUH)

All EY flights to the USA are pre-cleared using the CBP pre-clearance facility at Zayed International Airport (AUH) in Abu Dhabi. If determined at or prior to preclearance that a dog does not meet USA entry requirements, the following shall apply:

- a. Where it is discovered at an outstation (before travelling to AUH on an inbound connecting flight) that a dog does not meet USA entry requirements, boarding shall be **denied** by the EY Airport team at the origin airport.
- b. Where it is discovered at the check-in counter (landside) in AUH that a dog does not meet USA entry requirements, boarding shall be **denied** by the EY Airport team at AUH airport.
- c. Where it is discovered at a transfer desk or at the USA preclearance facility (airside) in AUH that a dog does not meet USA entry requirements:
 1. Boarding shall be denied at AUH airport by the EY Airport team.
 2. Airport staff shall liaise with Cargo AVI team to determine the requirements for re-entry into AUH or return to origin.
 3. For re-entry into AUH:
 - i. Cargo AVI team shall liaise with the UAE Ministry of Climate Change and environment (MOCCA) veterinary officer to arrange permission for re-entry, including any additional document checks, if required.
 - ii. EY Airport team shall escort the passenger and dog to the Customs clearance point in arrivals for re-entry formalities.
 4. For return to origin:
 - i. Cargo AVI team shall check the requirements for re-entry into the port of origin and, where required, liaise with the applicable origin EY Airport Manager or Cargo Operations Manager to organise any special arrangements required by the applicable local authority.
 - ii. EY Airport team shall instruct the passenger to make a reservation on the next available flight back to the origin airport via the Pets team in the passenger contact centre.
 - iii. Pets team in the passenger contact centre shall seek confirmation from the Cargo AVI team that the necessary documentation and any special arrangements required by the applicable local authority have been checked and verified, before confirming the special service request (SSR) for the dog to accompany the passenger on the applicable flight back to the origin.

3.8.5.7.6 Ensuring Care for Ill, Injured or Abandoned Dogs Placed On Hold Pending Admissibility Determination

3.8.5.7.6.1 Responsibilities – Notification, Coordination and Care

- a. The EY Airport Manager at the airport of arrival is responsible for the local notification and overall coordination to ensure the care of ill, injured or abandoned dogs placed on hold pending admissibility determination, including liaison with the applicable authorities, veterinary facility, cargo personnel and the importer.
- b. Flight crew are responsible for notifying the EY Network Operations Centre (NOC) in AUH via ACARS of any animals in the cabin that are determined prior to the arrival of the flight in the USA to be ill, injured or dead. Operations Control personnel within the EY NOC are responsible for onward notification to the EY Airport Manager at the arrival airport via telephone.

3.8.5.7.6.2 Ill, Injured or Abandoned Dogs

Where a dog arrives into the USA and is ill, injured or abandoned, the following shall apply:

- a. An initial assessment shall be performed by the EY Airport Manager or delegate. This shall be performed in a suitable location away from the general public, e.g., an unoccupied office or storage area. The initial assessment shall, as a minimum, check for the same items as listed in Chapter 3.8.5.7.4(a) (2).
- b. The EY Airport Manager or delegate shall notify the local CDC Port Health Station. This can be done via the CDC Emergency Operations Center on 1-770-488-7100. The notification shall include the findings of the initial assessment as described above. All CDC instructions shall be followed.
- c. All health and other documentation associated with the animal shall be provided to CDC. Where not available with the importer, the EY Airport Manager shall request this from the Cargo AVI team or the Contact Centre Pets team in AUH.
- d. The EY Airport Manager or delegate shall coordinate the safe and secure transportation of the animal to the veterinary facility as identified in Chapter 3.8.5.7.6.4 for veterinary evaluation, including during weekends, public holidays and after hours, with approval from CDC.
- e. Transportation shall be provided by the veterinary facility, local cargo handling service provider or private hire vehicle. This shall take place no later than 12 hours after arrival.
- f. In case of animal sickness or injury, transportation shall be via the most expeditious means to address emergency treatment.
- g. For service dogs, both the guest and service dog shall be provided transport to/from the veterinary facility.

3.8.5.7.6.3 Dogs Deceased upon Arrival

If an animal is determined to be deceased upon arrival in the USA, the following shall apply:

- a. The EY Airport Manager or delegate shall notify the local CDC Port Health Station. This can be done via the CDC Emergency Operations Center on 1-770-488-7100. All CDC instructions shall be followed.
- b. All health and other documentation associated with the animal shall be provided to CDC. Where not available with the importer, the EY Airport Manager shall request this from the Cargo AVI team or the Contact Centre Pets team in AUH.
- c. The EY Airport Manager or delegate shall coordinate with the third-party cargo handling agent, via the Area Manager Cargo Operations where required, to provide suitable packaging and transportation to a testing facility for determination of the cause of death.
- d. Packaging of the animal should be performed by a person wearing appropriate personal protective equipment, or as directed by CDC. Physical handling of the animal should be minimised.
- e. Temporary storage should minimise the time prior to transportation to the testing facility and ensure adequate separation between the dead animal and any personnel or live animals. Wherever possible, a refrigerated or cool location should be used, preferably in a cargo facility. The use of offices and other working areas should be avoided.
- f. Transportation may be provided directly by the third-party cargo handling agent, a sub-contracted organisation, or a hired third-party company. The vehicle should be refrigerated and ensure suitable separation between the animal, the driver and any other personnel.
- g. The EY Airport Manager or delegate shall liaise with the testing facility to ensure copies of all necropsy (examination of the body) reports and test results are sent to CDCanimalimports@cdc.gov and the local CDC port health station.
- h. Disposal or cremation shall be facilitated according to testing facility protocol, after CDC approval. The EY Airport Manager or delegate shall liaise with both parties to ensure disposal is authorised and facilitated. Documented evidence shall be requested from the testing facility and provided to CDC, where required.

3.8.5.7.6.4 Company Points of Contact and Veterinary Facilities

The EY company official(s) who will serve as points of contact for handling ill, injured, abandoned or deceased animals, animals on hold and animals denied entry following arrival in the United States, and the contact details that they can be reached upon, are detailed below, along with the primary nominated veterinary facility for the applicable airports.

Airport	ETIHAD AIRWAYS Point of Contact	Veterinary Facility

3.8.5.7.6.5 Payment

- a. The EY Airport Manager or delegate shall coordinate payment for the costs associated with:
 1. Animals abandoned upon entry.

2. Transportation for sick, injured or abandoned animals between airports and veterinary facilities.
 3. Care and treatment performed at veterinary facilities.
 4. Transportation, testing and disposal (cremation) costs for dead animals.
- b. To facilitate payment to the applicable entities responsible for transportation, housing, testing, care, treatment and/or return to origin, as applicable, the EY Airport Manager or delegate shall seek payment from the importer directly.
 - c. For any payment that cannot be facilitated directly by the importer, the EY Airport Manager shall facilitate payment via their company credit card directly to the applicable entities for the costs associated with the above.
 - d. For any payment that cannot be facilitated directly by the importer and where the amount exceeds that available on the EY Airport Manager company credit card, the EY Airport Manager or delegate shall liaise with the Director Airport and Ground Operations (DAGO) in HQ (AUH) for EY credit card payment directly to the applicable entities for the costs associated with the above.
 - e. For any payment that cannot be facilitated directly by the importer and where the amount exceeds that available on the EY Airport Manager company credit card, the EY Airport Manager or delegate shall liaise with the Director Airport and Ground Operations (DAGO) in HQ (AUH) for EY credit card payment directly to the applicable entities for the costs associated with the above.

NOTE

Where payment is made by EY in accordance with points (c), (d) and (e) above, EY may seek retrospective reimbursement from the importer.

3.8.5.7.7 Transportation and Care of Dogs Denied Entry and Pending Return

3.8.5.7.7.1 Responsibilities – Transportation and Care

- a. The EY Airport Manager or delegate at the airport of arrival is responsible for the overall coordination of the transport and care of dogs denied entry and pending return, including liaison with the applicable authorities, veterinary facility, cargo personnel and, where applicable, the importer.
- b. The EY Area Manager Cargo Operations is responsible for coordinating the cargo reservation, acceptance and handling of dogs denied entry or pending return, to ensure safe and compliant transportation back to the applicable destination.
- c. Appointed third-party ground handling personnel are responsible for the safe and compliant loading of dogs onto the applicable flight in accordance with airline procedures and applicable local regulations.

3.8.5.7.7.2 Dogs Denied Entry and Pending Return

- a. If an animal is denied entry upon arrival in the USA, it shall be returned on the next available flight to its country of origin, regardless of carrier or direct route and no later than 72 hours after arrival. The following shall apply:

1. Whilst awaiting return, the animal shall be transferred to and cared for in a facility that meets USDA APHIS Animal Care Welfare Act standards, where the animal shall be monitored, fed and watered. This shall be achieved by using a veterinary facility as listed in Chapter [3.8.5.7.6.4](#).

NOTE

Animals shall not be housed in cargo warehouses or airline offices.

2. The EY Airport Manager or delegate shall coordinate the safe and secure transportation of the animal to the veterinary facility, including during weekends, public holidays and after hours, with approval from CDC.
 3. Transportation shall be provided by the veterinary facility, local cargo handling service provider or private hire vehicle. This shall take place no later than 12 hours after arrival.
 4. The EY Airport Manager or delegate shall liaise with the veterinary facility, transport provider and EY Area Manager Cargo Operations to facilitate the pickup from the veterinary facility, transportation to the airport cargo facility, and handover to the third-party cargo handling service provider.
 5. The EY Area Manager Cargo Operations shall coordinate the cargo reservation, acceptance, handling, transport documentation and airside transportation with the third-party cargo handling service provider.
 6. The third-party cargo handling service provider shall perform the acceptance checks, ensure an appropriate transport device is used (i.e., crate or kennel) with absorbent material and adequate food and water, transport the animal to the aircraft and perform a handover to the third-party ground handling service provider. All requirements of the IATA Live Animal Regulations (LAR), EY procedures and local regulations shall be adhered to.
 7. The third-party ground handling service provider shall coordinate the safe and secure loading of the animal onto the aircraft in a suitable cargo compartment and provide notification to the operating flight crew.
 8. The EY Airport Manager or delegate shall provide documented evidence to CDC of the animal(s) having been returned to the origin upon departure of the applicable flight. This shall be provided in the form of a transport document (e.g., AWB or NOTOC), or any other form of documentation as requested by CDC.
- b. The company official(s) who will serve as our points of contact for transportation and care of dogs denied entry or pending return, and the contact details that they can be reached upon, are detailed in Chapter [3.8.5.7.6.4](#).
- c. Payment for the costs associated with animals denied entry and pending return shall be coordinated in accordance with Chapter [3.8.5.7.6.5](#).

3.8.6 Live Animal Acceptance App

The Live Animal Acceptance App is available to EY airport personnel and onboarded Flight Supervisors via Office 365 PowerApps. The App shall be used when accepting guests with live animals for travel in the cabin. Separate App submissions are required for each individual animal.

The person using the App shall enter the required information pertaining to the guest and animal, and shall follow instructions including requirements for hard copy checklists and other documentation, as applicable.

Upon submission via the App once all steps have been completed, an automated message will be submitted to:

1. Centralised Load Control (CLC) in AUH.
2. The local department responsible for CLC Coordination at the origin and onward destination airports, where applicable.
3. The applicable departments responsible for handling Live Animals at AUH Hub.

NOTE

Where it is not possible to use the Live Animal Acceptance App during acceptance of the passenger and animal, the processes specified in GOM Chapter 8.8.2.1.4 shall be applied to ensure proper acceptance and notification to onward airports.

3.8.6.1 Notification to Onward Airports

Notification to onward airports is automated via use of the Live Animal Acceptance App.

Only where it is not possible to use the App during acceptance of the passenger and animal, the following notification process shall be applied:

- a. As soon as possible after flight departure from a network airport, an email shall be sent to:
 1. HubPETC@etihad.ae.
 2. Where the guest and animal are connecting to an onward EY station at AUH, also send to the onward EY airport operations address (e.g. YYZairport@etihad.ae for YYZ).
- b. As soon as possible after flight departure from AUH Hub, an email shall be sent to the onward EY airport operations address (e.g. YYZairport@etihad.ae for YYZ).
- c. The email shall contain the following information as a minimum:
 1. Email title 'PETC on Board' or "SVAN on Board" or "FALC on Board" and flight numbers.
 2. Flight numbers and dates.
 3. Specify whether it is a pet, falcon or service dog.
 4. Guest name and seat number.
 5. An attached photograph/scan of each page of the animal's 'UAE Health Certificate' as shown at check-in, where the final destination is AUH.

Upon receipt of the notification, the arrival airport shall inform the applicable local authorities and service providers.

3.8.7 Live Animal Boarding

- a. When there is more than one pet and/or service dog on the same flight, other than when travelling with the same family/group, the following should take place whenever possible:
 1. The animals should be separated as far as possible in the boarding area.
 2. The guest seated furthest aft in the cabin should be boarded first.
- b. Ground staff shall notify the Senior Cabin Crew Member (SCCM) in advance of boarding if a guest with a pet or service dog will be pre-boarded, including seat number. SCCM shall in turn inform the Commander of the carriage of the dog.
- c. Guest shall be offered pre-boarding with the animal in order to ensure adequate time for identification of the seating location, installation of the absorbent sheet on the floor and any instructions from the cabin crew.
- d. Where the guest does not wish to pre-board, boarding staff shall inform the cabin crew, via the person responsible for coordinating the turnaround where required.

3.8.8 Live Animal Arrival and Transfer

Abu Dhabi

- a. Upon arrival at Zayed International Airport, the guest shall complete all arrival formalities in accordance with UAE regulations and requirements. This includes an inspection by the Ministry of Climate Change and Environment (MOCCAE) approved veterinary officer.
- b. At the Customs inspection point, the guest will be referred to the MOCCAE veterinarian. The required inspection and formalities shall take place in an office adjacent to the Customs inspection point.
- c. Where AUH airport staff need to contact the MOCCAE veterinarian (e.g. where not present when the guest arrives at Customs), the following duty mobile number shall be used: +971 56 177 8154.
- d. Where a guest with a service dog is transferring between flights at Zayed International Airport, the guest shall be met upon arrival and offered assistance.
- e. In the unfortunate event a pet passes away, the veterinary on duty shall sign a letter for Customs to approve the removal of the pet from the arrivals area. Etihad Cargo staff shall then facilitate the transport and consequent handover of the pet to MOCCAE quarantine facility, where it will be disposed of.

Network Airports

- a. At the destination airport, the guest shall complete all arrival formalities in accordance with local regulations and requirements.
- b. Where a pet/service animal relief area is available for arrivals, the guest shall be informed of the facility and location, and shall be offered the opportunity to take their animal to the facility.

3.8.9 Live Animal Acceptance Restrictions

In cases where a passenger wishes to travel with a trained service dog on the same flight where four (4) pets are already confirmed, the request of the guest wishing to travel with a trained service dog shall always take priority, regardless of time of reservation. In such cases, the reservation for the last passenger to book a pet cat/dog in the cabin shall be rearranged.

On any flight with falcons(s) travelling in the cabin, a pet dog or cat shall not travel in the same travel class as the falcon(s). In cases of a guest wishing to travel with a pet dog or cat in the cabin and a guest wishing to travel with a falcon in the same class on the same flight, the request of the guest who made the first reservation shall be confirmed.

In cases of a guest wishing to travel with a trained service dog and a guest wishing to travel with a falcon in the same class on the same flight, the request of the guest wishing to travel with a trained service dog shall always take priority regardless of time of reservation.

In cases where a guest provides a medical report prior to the flight stating that they are allergic to animals, animals shall be accepted in the cabin according to the following:

- If a pet or falcon and a guest with an allergy statement re travelling on the same flight, priority shall be given based on the time of reservation.
- If a trained service dog and a guest with an allergy statement are travelling on the same flight, the trained service dog shall always take priority regardless of time of reservation.

3.8.9.1 Seat Segregation Requirements

Where there is a mix of pet cat/dog, trained service dog and/or falcon in the cabin on the same flight, the following segregation rules shall apply. Refer to the rule at the intersection of the applicable row and column.

Wherever possible, PETC should be alternated between different sides of the cabin (e.g. 41A, 46K, 51A, 56K, etc.). This also includes SVAN.

SEGREGATION REQUIREMENTS – LIVE ANIMALS IN CABIN			
	Pet dog/cat	Service dog**	Falcon
Pet dog/cat	Minimum 5 rows apart (4 rows in between) *		Not in same class.
Service dog**			Minimum 10 rows apart
Falcon	Not in same class. Minimum 10 rows apart		No segregation requirements

* Segregation not required where multiple pets (cat and/or dog) are with the same number of passengers that are travelling together, i.e. where the pets are from the same household and are known to each other.

** Segregation is not required for service dogs travelling from the USA. Pets and Falcons may be re-seated.

3.8.9.2 Prohibited routes

The carriage of pets and/or service dogs in the cabin is not permitted on the below routes. On itineraries that include these routes, service dogs shall be shipped via cargo, unless exceptions are stated.

Cargo Contact Details

- **Email:** LiveAnimals@etihad.ae.
- **Phone:** 800 2535 (within UAE) / +971 2 599 0099 (from overseas).

Falcons Prohibited Routes

For additional information on Falcon acceptance, please refer to TIMATIC.

3.8.10 Live Animal Forms

[Acceptance Checklist for Pet in Cabin EY600](#)

[Acceptance Checklist for Trained Service Dog in Cabin EY601](#)

[Acceptance Checklist for Trained Service Dog in Cabin \(Flights to the USA\) EY622](#)

[UAE Health Certificate for Cats and Dogs EY604](#)

3.8.11 Carriage of Syringes & Auto-Injectors for Animals in Cabin

Guests shall be permitted to carry prescription medications and any necessary medical devices for the administration of medication to their pet (cat/dog) or trained service dog in the aircraft cabin.

To prevent delays at security or customs, the guest shall present an official letter from the veterinarian, printed on an official letterhead with a stamp. The letter shall include the following details:

- The number of syringes required for the animal's treatment;
- The type and quantity of medication required for the duration of the journey;
- The administration schedule, specifying the frequency of injections (e.g., hours after meals).

Where notification is provided to the contact centre, the contact centre agent shall promptly forward all relevant details to the station Duty Supervisor (network airports), GODM (AUH Hub), or delegate. The Duty Supervisor/GODM or delegate shall coordinate with the appropriate airport authorities to ensure they are notified of the carriage of the animal's medication prior to the flight.

NOTE

The above does **not** supersede the requirement for all necessary health and fit-to-fly requirements to be met for the carriage of pet cats/dogs and trained service dogs in the cabin.

3.9 VVIP/VIP ITEMS BY HAND OF CREW (HOC) OR RUSH TAG

These procedures are not applicable for flights to the US due to Customs & Border Protection (CBP) restrictions. Pre-approval for company documents only may be requested via the Manager CBP Operations on the day and is strictly subject to approval.

Any perishable or fragile items will be carried at the shipper's risk, due to elements such as temperature, which the item may be exposed to during the handling process. Items with a high value, such as jewellery, are accepted based on customs requirements at the destination.

3.9.1 Eligibility

Eligible Entities	Fee Structure	
	Hand of Crew	RUSH and Accompanied items
- HH SHEIKH MOHAMED BIN ZAYED ALNAHYAN - HH SHEIKHA FATIMA BINT MUBARAK (Office names: The Presidents Private Office, Presidential Court Office of the private affairs advisor and The Private Affairs Department of HH Sheikha Fatima Bint Mubarak) NOTE: Open-ended Excess Baggage process is in place.	All items accepted free of charge, provided the appropriate approvals have been given	RUSH and Accompanied Items to be charged at Excess Baggage Rate less 40% discount
HH SHEIKH ABDULLAH BIN ZAYED AL NAHYAN		Items to be charged at Excess Baggage Rate less 30% discount
All other Palaces, Embassies or official UAE Government Entities. Payment to be made prior acceptance, via the Abu Dhabi Guest Services Desk		RUSH and Accompanied Items to be charged at Excess Baggage Rate less 20% discount

3.9.2 Definitions

Shipment Type	Definition
Hand of Crew (HOC)	- Documents or small envelopes which do not exceed 5kg and do not contain valuable items - Accepted free of charge, at a limit of one (1) item per sender, per flight - A shipment form shall be completed for all hand of Crew items. Refer to Chapter 3.9.10 - Any items exceeding 5kg must be classified as RUSH
RUSH Tag	- Items sent as expedite 'RUSH' baggage, accepted in the hold of the aircraft along with other checked baggage - Subject to all standard security screening protocol - RUSH items may be subject to charges
Accompanied Baggage	- For countries that do not accept unaccompanied RUSH - Excess baggage being carried as 'checked baggage' of a passenger travelling on the same flight, by a nominated individual of an approved entity - The individual will take responsibility for all processes such as customs, similar to personal checked baggage - May be subject to charges, depending on eligibility
Authorized Personnel	- Any individual, approved by the entity and Etihad Airways to consign an item on behalf of a VIP entity - Authorised personnel list is maintained by Etihad Airways Government Relations

3.9.3 Approval Process (Entity Initiated)

1. A minimum of 24hours prior to the requested flight STD, authorised entity personnel shall complete the "Pre-Approval Form" and email to vauhaptkt@velora.ae
2. AUH Guest Services Desk (GSD) shall
 - a. Confirm that the request is received from an authorised individual, of an approved entity
 - b. Confirm if the item can be accepted, in accordance with origin/destination requirements (Refer to section 11 of the Station Information pages on SharePoint)

- c. Calculate fee estimate
- d. Contact Load Control with the number of pieces and weight to ensure there are no space restrictions
- e. Provide approval/denial advice to the sender by email, including latest time for the item to be presented at the airport for check-in and CC to impacted airport teams.

3.9.4 Payment

Applicable Fees are to be paid, via cash/debit/credit card at the Abu Dhabi GSD. For items originating from global airports, the payment shall be made in advance through ARDW, either in person at the AUH GSD or via phone, before the item will be accepted.

Cash payments are exempt from the cash handling fee and the dummy PNR must be cancelled after payment is collected. Once payment is collected, AUH GSD to send approval for carriage advise to impacted airports and VIPItemMovements@etihad.ae

3.9.5 Airport Acceptance Process - RUSH Tag

1. Confirm approval exists for carriage. Authorised entity personnel delivering the items shall be in possession of the approval email and valid ID card or document stating that he/she represents the palace that requested the items to travel.
2. Confirm any applicable fee has been paid. If the fee is not paid, or the shipment weight is higher than the amount paid, the shipper shall be referred to Abu Dhabi Guest Services Desk to complete the payment. Contact number for the AUH GSD Officer is +971 50 612 9059.
3. Confirm with the person responsible for turnaround coordination that the number of pieces and weight can be accepted on the relevant flight
 - Accept the item in accordance with the shipment type
 - Provide baggage receipts or copy of hand of crew form to the shipper
 - Advise the person responsible for turnaround coordination of pieces, tag details and weight of the items.
 - Send email notification to destination station and copy VIPItemMovements@etihad.ae with pieces, tag details, shipper and receiver information.

3.9.6 Airport Acceptance Process - Hand of Crew (HOC)

1. Confirm approval exists for carriage
2. Ticketing Officer (Hub) / Duty Supervisor or Delegate shall liaise with the person delivering the item, complete a 'Hand of Crew Shipment' form and ensure that all required names, item details and signatures are on the form.

In AUH, the ticketing office shall contact the Hub Allocator to advise there is a HOC. An advance notification email shall be forwarded to adairport.operations@adcustoms.gov.ae by the ticketing officer.

3. Hub Allocator (Hub) / Duty Supervisor or Delegate shall ensure arrangements are made for the item to be collected by a GSA and taken to the aircraft by gate staff before boarding

4. The nominated agent shall fill in their details on the HOC form and sign to confirm receipt
5. When the items are handed over, the SCCM to complete their details and return a carbon copy to the ground staff
6. HOC form to be filed on station for local reference only. There is no retention policy for these forms after the item has reached the destination.
7. Ticketing Officer (Hub) / Duty Supervisor or Delegate to send an email notification to the arrival station and copy VIPItemMovements@etihad.ae

3.9.7 Airport Acceptance Process (Accompanied Baggage)

1. Confirm approval exists for carriage
2. Ticketing Officer (Hub) to update the guest's profile (CPR) to indicate authority for excess baggage and number of kilograms/pieces
3. Check-in agent to reference the CPR to confirm excess baggage is approved
4. Accept baggage with accurate pieces/weights entered in Altéa CM
5. Ensure dangerous goods and baggage security questions are answered by the travelling guest
6. Ensure guest is handed all baggage claim portions

3.9.8 Arrival Process at Abu Dhabi Terminal A

When VVIP Hand Of Crew items are approved for carriage by Abu Dhabi Ticketing desk and are arriving into Abu Dhabi Terminal A, an advance notification email shall be forwarded to ADAirportOperations@icp.gov.ae by the ticketing officer.

Abu Dhabi HUB allocator shall also be contacted and informed of the approved HOC. HUB allocator shall be responsible for ensuring a member of staff is allocated to meet the arrival and collect the HOC.

1. GSA allocated to meet the aircraft shall collect the HOC from the SCCM and shall sign the HOC form to confirm receipt of the item
2. GSA shall deliver the HOC item to the Etihad Baggage Services desk using the arrivals staff route
3. When passing staff security checks, GSA shall present the HOC form and any other related documents to the National Guard officer if requested'
4. When the HOC is delivered to the Etihad Baggage Services desk at the baggage reclaim area, the Baggage Services agent shall sign the HOC form to confirm receipt of the item
5. The Baggage Services agent shall ensure the HOC is handed over to the authorised recipient and the Smart AUH Baggage Services App is updated accordingly
6. The person responsible for collecting the HOC from the Baggage Services desk shall exit the airport through the customs channel and shall follow any instructions provided by the customs officer

3.9.9 Tracking

All items accepted under HOC or RUSH Tag shall be recorded by the Ticketing Supervisors on the "VVIP/VIP RUSH Bag Register". The Manager Guest Support and Delivery shall ensure this report is completed and maintained in accordance with the business requirements.

ETIHAD AIRWAYS - VIP ITEM SHIPMENT REQUEST

Shipment Method

(select as appropriate)

Hand Of Crew

VIP Rush Baggage (Unaccompanied)

Excess Baggage (accompanied by a Passenger)

I/We hereby declare that the contents of the accepted items is correctly and accurately declared prior to hand over to Etihad Airways. I/We also declare and confirm that the items contained within do not contain any commodities, substances, materials or articles that can be classified as dangerous goods under the current edition of IATA Dangerous Goods Regulations. I/We accept the risks and the responsibility for any consequences arising from a breach of or non-compliance with this declaration and also agree that Etihad Airways will be indemnified from all demands, claims, liabilities, actions and expenses, including legal expenses and attorney's fees, which may grow out of or be connected with any wrong declaration of the content.

I/We accept that Etihad cannot be held liable for the spoilage of any contents which are perishable

3.9.12 Hand of Crew – Other Items

The following non-VVIP/VIP items are permitted for carriage as Hand of Crew items and do not require DAGO approval:

- Passports or other travel documents found at an airport or on an aircraft, which need to be forwarded to another airport. Notification shall be sent via e-mail to the airport Manager or Duty Supervisor / Delegate at the destination (for such items forwarded to network airports), and VIPitemmovements@etihad.ae (for such items forwarded to AUH).
- Passports or other travel documents held by crew due to suspicion that a passenger may destroy them during the flight.
- Potable water sample testing kits.
- Etihad or governmental correspondence.
- Live human organs and blood shipped as per [GSM 3.9.13 Live Human Organs and Blood by Hand of Crew](#).

3.9.12.1 Restrictions

HOC items shall not include dangerous goods or prohibited items.

3.9.12.2 Requirements

The following requirements shall apply to all HOC items:

1. Items originating from any area other than sterile airside areas shall be screened to ensure no prohibited items are included.
2. Items shall show no signs of damage, tampering or interference.
3. Items shall be accompanied by a Hand of Crew Shipment form.

3.9.13 Live Human Organs and Blood by Hand of Crew

The following sections describe the requirements for the movement of Live Human Organs and blood, within the GCC only, under the Hand of Crew process , i.e. non-cargo.

3.9.13.1 Eligibility

Eligible Entities	Fee Structure
Ministry of Health and Prevention	N/A
The National Centre for Regulating Donation and Transplantation of Humans Organs and Tissues	N/A

3.9.13.2 Notification and Approval Process

- a. Authorised personnel from one of the above entities shall complete the template shown in chapter 3.9.13.5 and include it in an email to the below audience, regardless of the intended routing. This shall be done as early as possible, however due to the nature of such shipments, some requests may be raised within a few hours prior to flight departure.

To: vauhapttkt@velora.ae

HOM@etihad.ae

CC: MHusein@etihad.ae

ERoux@etihad.ae

- b. An official letter from the UAE Ministry of Health and Prevention shall be attached to the email request. Where the letter is not available at the time that the request is raised, it shall be sent in a later email to the same audience or presented at the airport with the shipment.
- c. The email shall include the template (refer to chapter 3.9.13.5) to be completed by the person initiating the request.
- d. The following requirements and limitations shall apply:
 1. The quantity of blood shall not exceed 5 L in total.
 2. Each individual receptacle shall be leak-proof and shall not contain more than 1 L of blood.
 3. Where dry ice is used as a refrigerant, the quantity of dry ice shall not exceed 5 kg.
 4. Packaging requirements:
 - i. Outer package dimensions shall not exceed 30 x 30 x 30 cm (narrow body aircraft) / 36 x 36 x 36 cm (wide body aircraft).
 - ii. Outer packaging shall be waterproof and leak-proof.

- iii. Absorbent material shall be placed between the primary receptacle(s) and the outer packaging and shall be of sufficient quantity to be able to absorb the entire contents of the receptacle(s).

5. Marking and labelling:

- i. A label or mark indicating 'blood sample' or similar.
 - ii. Receiver name, company/entity, phone number and email clearly marked.
 - iii. Sender name, company/entity, phone number and email clearly marked.
- e. Upon receipt of the email, the Hub Operations Manager (HOM) (HOM@etihad.ae) shall:
1. Check the information contained in the email template against the quantity and dimension limitations specified in item (d) above.
 2. Where the specified quantities and dimensions are within the permitted limitations, forward the email to the applicable network station. This is regardless of whether the shipment is to or from AUH. The network station Airport Manager and Airport Operations addresses shall be copied (replace XXX with actual airport code), as well as the AUH Dispatch Duty Manager:

AirportManagerXXX@etihad.ae

XXXairport@etihad.ae

DispatchDMOPS@etihad.ae

3.9.13.3 Airport Delivery and Acceptance Process

- a. The person responsible for delivering the shipment shall deliver the package to the following location at the origin airport:
1. At AUH, Terminal A, the Guest Services Desk on the main departure concourse.
 2. At other GCC Airports, to the Etihad Airways office or check-in area.

NOTE

The duty Etihad staff at the origin station (HOM at AUH / Duty Supervisor at network stations) shall contact the sender using the contact details from the Blood Shipment Request email to ensure the required acceptance location is coordinated and understood.

- b. The Etihad staff member responsible for accepting the package at the origin airport shall:
1. Confirm blood sample shipment is approved.
 2. Confirm that there is an associated Blood Shipment Request email containing all required details as specified in Chapter [3.9.13.5](#)
 3. Check that the outer packaging appears to be intact and free from any visible damage.

4. Check that the sender and receiver details are shown on the package.
 5. Check that the dimensions do not appear to exceed 30 x 30 x 30 cm (narrow body aircraft) / 36 x 36 x 36 cm (wide body aircraft).
 6. Complete a [Hand of Crew Shipment Form \(EY038/SEC\)](#)
 7. Ensure the package is taken to the gate by hand.
 8. Ensure the package is delivered to the Senior Cabin Crew Member (SCCM) and the handover is documented on the Hand of Crew Shipment Form.
 9. Notify the destination station via email that the package is on board.
- c. The SCCM shall:
1. Securely stow the package in accordance with the same SEPM procedures that apply to the stowage of LHO under care of crew (cargo).
 2. At the destination airport, hand over the package to the applicable receiving Etihad staff member, and ensure the handover is documented on the Hand of Crew Shipment Form.
- d. The Etihad staff responsible for receiving the package at the destination airport shall:
1. Receive the package from the SCCM and ensure the handover is documented on the Hand of Crew Shipment Form.
 2. Deliver the package to the receiver.

NOTE

The duty Etihad staff at the destination airport (HOM at AUH / Duty Supervisor at network stations) shall contact the receiver using the contact details from the Blood Shipment Request email to ensure the required delivery location is coordinated and understood.

3.9.13.4 Approvals from Non-GCC Countries

- a. Requests from non—GCC countries shall require approval from Manager Ground Service Compliance who shall also obtain approval from Director Airports and Ground Operations.
- b. The process outlined in this section for GCC countries shall also apply and be followed for non-GCC countries.
- c. Approved entities from non-GCC Countries.
 - i. Ministry of Health and Prevention.
 - ii. The National Centre for Regulating Donation and Transplantation of Humans Organs and Tissues.

3.9.13.5 Blood Shipment Request Template

ETIHAD AIRWAYS – BLOOD SHIPMENT REQUEST	
Date of Request	
Route (from / to)	
Sender's Name	
Sender's Company/Entity	
Sender's Contact Number	
Sender's Email	
Receiver's Name	
Receiver's Company/Entity	
Receiver's Contact Number	
Receiver's Email	
Description of Contents	
Number of Packages	
Package Dimensions (cm x cm x cm) Note: Shall not exceed 30 x 30 x 30 cm (narrow body aircraft) / 36 x 36 x 36 cm (wide body aircraft).	
Total volume of blood (ml) NOTE: Shall not exceed 5000 ml (5 L)	
Dry Ice Quantity (kg) (if applicable) NOTE: Shall not exceed 5 KG	
I/we declare that the details of the item described above are accurately declared. I/we also declare that the items contained within do not contain any prohibited items, or commodities, substances, materials or articles that can be classified as dangerous goods under the current edition of the IATA Dangerous Goods Regulations. I/we accept the risks and the responsibility for any consequences arising from a breach of or non-compliance with this declaration and also agree that Etihad Airways will be indemnified from all demands, claims, liabilities, actions and expenses, including legal expenses and attorney's fees that may grow out of or be connected	

ETIHAD AIRWAYS – BLOOD SHIPMENT REQUEST

with any incorrect declaration of the contents of the package. I/we accept that Etihad Airways cannot be held liable for the spoilage of any of the contents of the package.

3.10 LOST AND FOUND

3.10.1 Lost & Found Property (RFP) Within The Aircraft Cabin

Lost and Found items (further referred as LF, i.e. Lost & Found or RFP, i.e. Registered Found Property) are all items, which were unintentionally left behind by guests and Etihad operating crew on board an EY aircraft. RFP is a preferred terminology, used by both IATA and WorldTracer – SITA system. RFP items can be located and handed over by:

- Cabin Crew
- Flight Deck
- Flight Engineers
- EY Technical – Cabin Cleaners
- The person responsible for turnaround coordination

3.10.1.1 Cabin Crew Responsibilities

- Cabin Crew shall handover all items found on board to the SCCM. Non suspicious items shall be handled as per the process below, while suspicious items shall be handled in accordance with the Airline Security Programme (ASP).
- The SCCM shall complete the Found Property Tag for all items found on board.

It is important to record:

- Correct flight number, Origin / Destination and date
- Cabin where items were found
- Location within the cabin, where items were found (overhead storage, seat number, lockers)

Accurate description increases the chances of returning the items to the guest.

Example: Found Property Tag (RFP Tag)

 الممتلكات التي تم العثور عليها FOUND PROPERTY	 FOUND PROPERTY EY No.	FOUND PROPERTY EY No.
Description of Article Where Found Flight No. At Date Sector To Staff No. Found by Title Staff No. Name (Block capitals) Signature Handed to Title Staff No. Name (Block capitals) Signature Action taken: Signal Sent Address Ready Received Owner's name (Block capitals) Address Signature Date Conclusion Original -CETD (Central Baggage Tracking Office - ABH) First Copy -Passenger Label -Attach to Article	Description of Article Where Found Flight No. At Date Sector To Staff No. Found by Title Staff No. Name (Block capitals) Signature Handed to Title Staff No. Name (Block capitals) Signature Action taken: Signal Sent Address Ready Received Owner's name (Block capitals) Address Signature Date Conclusion Original -CETD (Central Baggage Tracking Office - ABH) First Copy -Passenger Label -Attach to Article	Description of Article Where Found Flight No. At Date Sector To Staff No. Found by Title Staff No. Name (Block capitals) Signature Handed to Title Staff No. Name (Block capitals) Signature Action taken: Signal Sent Address Ready Received Owner's name (Block capitals) Address Signature Date Conclusion Original -CETD (Central Baggage Tracking Office - ABH) First Copy -Passenger Label -Attach to Article

3.10.1.2 Handover Process

Abu Dhabi:

- a. The SCCM shall hand over all found passenger items to the Cabin Cleaning Supervisor.
- b. If the Cabin Cleaning team has not boarded the aircraft by the time the crew are required to leave, the SCCM shall take the found passenger items to the Crew Briefing Centre (CBC) and deposit them in the lost and found lockers, then drop the key in the Key Drop box. The items should be retrieved by the Cabin Cleaning team twice per day in accordance with 2.2 (c-d).
 1. For items that may urgently be needed by the passenger (e.g., travel documents such as passport, or medication), the SCCM shall hand the items to the Aircraft Dispatcher, where the Cabin Cleaning team has not boarded the aircraft. The Aircraft Dispatcher or Dispatch Duty Manager shall liaise with the Cabin Cleaning team for collection.
 2. Only where both the Cabin Cleaning team and Aircraft Dispatcher are not available by the time the crew are required to leave, urgent items shall be taken to CBC by the SCCM. In such cases, the SCCM shall deposit the items in the lost and found lockers at CBC Arrivals and leave the key in the Key Drop box. They shall then inform the Crew Briefing Officer, who shall contact the Cabin Cleaning team in the stand 605 office by telephone to arrange collection.
 3. **Global Airports:** The SCCM shall hand the property to the GS / Duty Supervisor / Delegate meeting the aircraft on arrival
 4. Under no circumstances shall Cabin Crew carry the lost item through airport screening check-points; i.e., Airport Security and Customs

3.10.1.3 Ground Staff Responsibilities

At Abu Dhabi:

- a. Cabin Cleaning personnel shall hand over any passenger items found during cabin cleaning activities to the Cabin Cleaning Supervisor.
- b. The Cabin Cleaning Supervisor shall transfer all found passenger items to the office on stand 605.
- c. The Cabin Cleaning team at the stand 605 office shall:
 1. Log each item in the lost and found register.
 2. Place each item into a secure travel bag (provided by the Excess Baggage Company) and secure the bag.
 3. Approximately every six hours:
 - i. Contact the Velora Arrivals Baggage Supervisor on 054 413 2122 and request for the secure travel bags to be collected. This should be done at 0430, 1130, 1630 and 2330 local time.
 - ii. Notify the Excess Baggage Company that the items will be transferred to them.

NOTE

1. The combination for the secure bags shall be provided to applicable personnel only and shall not be shared.
2. Any larger items (e.g., cabin bags) that cannot be placed in the secure travel bags shall be kept and transferred individually alongside the secure travel bags.

- d. The Velora Arrivals Baggage team shall collect the items from stand 605 office transfer the items via the out-of-gauge (OOG) line to the baggage reclaim area.
- e. The items will be subject to screening and inspection by Abu Dhabi Customs.
- f. Excess Baggage Company personnel shall retrieve the items at the baggage reclaim area, categorise them and upload the details to their website.
- g. Excess Baggage Company personnel shall transfer the empty secure travel bags to the Baggage Services team in the Arrivals Hall.
- h. Baggage Services team shall transfer the empty secure travel bags back to the departure baggage make up area via the departure sortation system.
- i. Where the empty secure travel bags have been received at carousel 3 in the departure baggage make up area, the Velora Arrivals Baggage team shall transfer them back to the Cabin Cleaning team at stand 605 office when they are collecting the lost property items in accordance with point (h).

NOTE

Where otherwise required, the Cabin Cleaning team shall directly collect the empty secure travel bags for further use from carousel 3 in the departure baggage make up area.

- j. In case of passengers enquiring about items left on board an aircraft or in the airport, staff shall refer them to Excess Baggage Company Lost and Found office. Guests can contact the Lost and Found office via any of the following numbers:
 - Landside Office: +971 (0) 2 557 2752
 - Airside Office: +971 50 909 8168
 - Email: abudhabi@lost-and-found.ae
- k. In case of passengers enquiring about items that urgently need to be returned to them (e.g. travel documents such as passport, or medication):
 1. Passenger handling staff shall contact the Cabin Cleaning team in the stand 605 office on 056 547 7740 and request retrieval of the item(s).
 2. The Cabin Cleaning team in the stand 605 office shall liaise with the applicable team(s) to coordinate delivery of the item(s) to the passenger.

Global Airports shall make all efforts to repatriate items locally to guests. Every item received must be recorded into the World Tracer system (WT) as RFP.

If all attempts to match and repatriate the items fail, the global airport shall forward all registered RFP items with RFP tags filled and attached after 30 calendar days to the Central Baggage Tracing (CBT) in AUH using separate sealed Co-mail, marked to the attention of the Central Baggage Tracing - RFP.

All found lost property shall be entered into the World Tracer System as an RFP (Found Property) report for all stations to view by the arrival station.

After 30 days of unsuccessful tracing – or in accordance with valid local legislative – Global airports shall dispose of locally (i.e. shall NOT forward to CBT AUH) all items that have a monetary value typically under 150 USD and/or where it is difficult to track value. These items include e.g. neck pillows, blankets, gift purchases and souvenirs, keys, clothing items including jackets, scarfs, hats and gloves, canes, walking sticks, umbrellas, paper books, magazines, stuffed toys.

Global stations must never forward to CBT AUH perishables, dangerous goods (DG), alcohol & tobacco products and other items, which are not in accordance with safety, customs or cultural values and directives of the United Arab Emirates. All such items must be disposed of locally.

3.10.2 Crew Items

Any crew items (e.g., uniform items, crew handbags) found by the Cabin Cleaning team after the arriving crew have left the aircraft shall be handed to the Cabin Cleaning Supervisor.

- a. The Cabin Cleaning Supervisor shall transfer all found crew items to the office on stand 605.
- b. The Cabin Cleaning team at the stand 605 office shall:
- c. Log each item in the lost and found register.
- d. Coordinate the transfer of found crew items to the Crew Briefing Centre (CBC). This should be done twice per day at appropriate intervals.
- e. When delivering found crew items to the CBC, any found passenger items that were inadvertently taken to CBC by crew shall be retrieved and transferred to the office on stand 605, where they shall be subject to the process described in Chapter [3.10.1](#)

Any crew items found by Etihad maintenance when the cabin cleaning team is unavailable, shall be handed over to the Cabin Cleaning team office at stand 605 for coordination of transfer to the CBC.

4.1 FLIGHT DISRUPTION HANDLING

Delays may occur for several reasons:

- Technical
- Diversion
- Force majeure
- Medical emergency

In the event of a delay, the following guidelines are to be implemented at airports in accordance with local requirements:

- Establish the expected duration and actual reasons for the delay
- Ensure staff are briefed on the estimated time of departure, estimated time of arrival and any provisions being offered to ensure consistent delivery of information
- If a delay situation is known well in advance, it is important that the Guests, Crew and Ground Staff are notified beforehand, to pre-plan and eliminate any inconvenience
- The Airport Manager / Duty Supervisor / Delegate shall take charge of the delay situation and organise a delay briefing incorporating both Etihad and GHA (Ground Handling Agent) staff
- Provide immediate and accurate information at regular intervals
- Guests shall be advised and notified of the delay situation, informed of the reason for delay where appropriate and kept informed at regular intervals
- Hotel accommodation and transport shall be checked daily in the event of any possible delay situation
- Provide guests written information about their rights according to applicable regulations, upon request or as required
- Provide information in alternate formats to guests with impairments

A contact list shall be readily available reflecting contact numbers of:

- Senior and key staff members
- Applicable Departments
- Hotels and Transport companies
- Applicable Reservations sections

Irrespective of the duration of the delay situation, responsible staff members shall be assigned to various areas within the terminal building to engage with and assist guests.

4.1.1 Internal Communication

It is important that all relevant departments are kept informed of any delays and following updates if/when there are changes. The Airport Manager/Duty Supervisor/Delegate or appointed person shall ensure the following departments are informed of any delay:

1. NOC (Network Operations Centre) - in turn will coordinate with MCC
2. Guest Control - coordinate with the Call Centres (if required)

3. Catering (when applicable)
4. Ground Handling Agent
5. FIDS (Flight Information Display System)
6. Airport Ticket Desk (For AUH departing flights)
7. Lounges
8. Immigration & Customs (if applicable)
9. Airport Authority (in the event of night curfew)
10. Captain and SCCM
11. Area Manager Airport Operations in the event of any delay more than 1 hour

4.1.2 Delay Communications

Etihad Airways policy is to publish all departure delays greater than 30 minutes, with an update to the flight ETD. The exception is for slot-related delays which may improve with a revised slot.

Network Control is responsible for communicating ETD information to airports and other internal stakeholders via a "Delay Publication" email. The system will be automatically updated and a communication will also be triggered to the guests via SMS/Email.

Upon receipt of a delay publication, the Duty Supervisor / Delegate is responsible for ensuring the terminal FIDS are updated accordingly.

In a rolling delay situation, Network Control will advise a time for the 'next information' or 'NI' and will continue to do so until the situation and solution become clear, and an ETD can then be published. During these rolling delays, Guest Control will publish an ad-hoc communication to guests via SMS/Email, with appropriate information. Guests may receive multiple communications in this scenario, to keep them updated.

4.1.2.1 Automated Guest Notification

Automated SMS/Email notifications are sent to guests when flight information is updated, in the following scenarios:

- ETD update (>30 minutes and not due to slot control)
- Flight Cancellation

Delays of 30-59 minutes known in advance shall be reviewed by Network Control and Guest Control and a notification may be sent earlier than 60 minutes. In such cases, a Network Control email advisory will be sent to alert airports, prior to guests being advised.

Guest communication attempts can be identified in individual PNRs, by referring to the reservation details.

If there are no contact details updated in the PNR, the contact attempt will fail.

In the interest of obtaining guest contact details from the booking source, EY sends a booking message back to the original agent, requesting them to add contact details for the guest. This is in line with IATA Resolution 830d, for operational notifications (not sales and marketing). Airport staff can identify these messages back to the agent via OTHS SSR.

The date and time of the OTHS being added can be sourced from the reservation application if required.

4.1.2.2 Ad Hoc Guest Notification

During ad-hoc disruption events where communication is required by SMS/Email, Guest Control will send a custom message to the impacted guests, at the discretion of the Guest Control Duty Manager. Examples include, guests being sent to a hotel, but awaiting an ETD during an AOG event, or local weather events impacting the schedule, for example, a cyclone.

Guest Control will be responsible for advising guests of applicable information, in close coordination with the airport Duty Supervisor / Delegate. Airports may request specific communication if required, to assist managing the disruption.

4.1.2.3 Guest Contact Information

During a disruption we may need to contact our guests with an updated estimated time of departure (ETD) or rebooking details after they have had their initial interaction with us at check-in or the boarding gate.

The apology letter provided during a disruption advises guests to update their contact details via 'Manage my booking' on Etihad.com, or by contacting our global contact centre. When distributing the letters, team members shall highlight this where further information may be required. Letter Templates for disruption are available on EY Global Airports SharePoint and will also be distributed by Guest Control when required.

Airport staff must offer to assist with the updating of guest's telephone numbers and email addresses in the PNR if the guest is unable to self-service. An example may be a guest with a physical or mental impairment or an elderly guest.

When Network Control updates an ETD, this will trigger the email notification to the affected guests. This is particularly useful where airports have sent a guest to a hotel or place of residence and ensure they get real-time notifications.

NOTE

If contact details are updated after an ETD update is triggered, the Duty Supervisor / Delegate shall advise Guest Control, to have another ETD update published, and trigger messages to all PNRs with contact details.

4.1.2.4 Disruption Communications

The following is a timeline of actions that will take place by Hub Control and Network Control during a disruption:

Delay Duration	Action
1 -29 Minutes	For Hub departures, Hub Control will update iFlight Neo and notify Network Control. For Network departures, the Duty Supervisor / Delegate shall liaise with Network Control.
30-59 Minutes	Network Control will publish MVT ETD (email notifications will only be provided for delays > 60 minutes)
> 4 hours	Media statement to be issued by NOC Duty Manager

Delay Duration	Action
Cancellations/ Diversions	Network Control and Guest Control publish through standard channels plus a media statement
The above will be supplemented with telephone calls to the hub and network airports when required. NOTE: Ex AUH for CTOT / A-CDM Delays - Flight will board on time as slot delays can improve and come forward. For delays >20-mins, Hub Control will consult with the Duty Operations Manager.	

4.1.3 Airport Engagement with the Social Media Team

In order to ensure instantaneous communication with our Social Media Team, all Airport Managers shall engage with the Team as follows:

1. Airport Manager / Duty Supervisor or Delegate shall send a text or brief email to the Social Media Team to inform them of any event that may prompt guests to share the event via their mobile devices. Examples include any possible or confirmed delays, disruptions or incidents.
2. The text or email shall prompt the Social Media Team to call the Airport Manager / Duty Supervisor or Delegate for further details if required.

4.1.4 Onward Connections

Airport Manager / Duty Supervisor or Delegate shall liaise with Guest Control for the list of guests with onward connections.

This is to ensure that the guests are rechecked in and baggage is re-labelled. Guests shall be advised where there are alternate arrangements.

4.1.5 Hotels (HOTAC)

Where HOTAC is approved in line with the disruption guidelines, HOTAC and transport arrangements at the HUB will be managed by the airport team. For outstations, Guest Control will coordinate with TA Connections for HOTAC requirements.

The booking of hotels for staff including the flight deck, cabin crew, riding engineers and duty travel shall be booked by the respective department e.g. Crew Services, Staff Travel Team.

Hotel Allocation

Where hotel availability permits, TA Connections shall utilise a minimum of a 3-star hotel accommodation for Economy guests and either 4 or 5-star accommodation for Business and First guests. Hotels shall be selected by TA Connections in line with hotel rate caps set by Etihad.

Hotel Bookings

Guest Control shall communicate with TA Connections as soon as a delay is known, to make a block booking for hotel rooms and transport if required. Guest Control shall also provide initial information to TA Connections of any specials such as WCHC, UMR and INF guests so that appropriate hotel rooms can be booked. The number of hotel rooms booked will be approximately 50% of the booked load due to guests in the locality going back to their place of residence or

families travelling together who will share a room. TA Connections will contact the affected airport directly to confirm the hotel provider and booking details. However, the number of rooms can be topped up if required. Airport Manager / Duty Supervisor or Delegate shall liaise with Guest Control to inform TA Connections to top-up the room allocation.

Hotel Meal Caps

Hotel meal rate caps are in place at each airport location. TA Connections shall be responsible for informing the hotels of the meal caps to be applied at the time of booking. Hotels shall be informed by TA Connections that any alcohol consumption will be at the guest's own expense.

Accommodation Reconciliation

Network airports shall be responsible to allocate the rooms to guests in the event of multiple hotels being utilised, as well as handing out the Etihad disruption letters.

Airports shall reconcile the number of guests availing of the hotel accommodation and the number of guests returning to their place of residence. Reconciliation may be completed by printing the Onboard Service List (OSL) from Altéa CM and annotating the hotel name or if they are returning to their residences.

In the event of guests being sent to accommodation after being checked-in, the baggage carousel shall be checked by a staff member for any remaining bags to ensure that all guests have cleared immigration.

On the Global Airports Shift Report App, airports shall add a breakdown in the 'guest welfare and communication comment' section with the total number of guests who went to each hotel as well as the total number of guests which went to their residence e.g. 50 pax to Hilton, 20 pax to Marriott, 30 pax to the residence.

TA Connections shall forward a copy of the rooming list provided by the hotel staff to the airport and Guest Control once received. This shall be filed in case any further follow-up or checks on a guest's location becomes necessary.

There is no requirement to give the guest any hotel voucher from TA Connections, however, these may be requested by the airport directly from TA Connections as an exception if required.

Hotel Transport

TA Connections shall attempt to use hotels with free shuttles to/from the airport. If a hotel is available without a shuttle bus, TA Connections shall initiate arranging a third-party transport company based on the number of guests needing to be picked up. TA Connections shall liaise with the airport team to confirm the pick-up time and share the driver's number and pick-up location.

Hotel Pick-Up Timing

Airports shall be responsible for contacting TA Connections once a revised ETD is confirmed and agrees with TA Connections on the crew wake-up and pick-up time. Guest Control will contact TA Connections for guest pick-up times for the hotels. If there is no possibility of extending the crew and guest's checkout time at their current hotel, TA Connections shall arrange transport to move affected guests/crew to an alternative hotel.

Denied Boarding

If a guest is denied boarding, a hotel booking shall be made by Guest Control when a network airport calls for rebooking and voucher issuance. If a flight is heavily overbooked, network airports

may contact Guest Control in advance of flight closure to start sourcing and soft-blocking hotel accommodation.

Emergency Response Plan (ERP)

In case the station's Emergency Response Plan is activated, TA Connections shall be contacted to arrange HOTAC. Where possible, TA Connections shall source the hotel accommodation for ERP activation separately from the crew and standard disruption hotels.

The Airport Manager or delegate is responsible for contacting TA Connections to source the Special Assistance Centre.

The ERP hotels shall comply with the station requirements for the Special Assistance Centre.

Financial Reporting

Transport

TA Connections shall send invoices related to hotel accommodation, meals and transport directly to finance department. Finance department shall contact airports via email to confirm usage is correct prior to payment being processed.

Escalations or Feedback

The immediate escalation point for airports is to contact the Duty Manager at TA Connections, who is available 24 hours a day.

Any further escalations or feedback about the service or rates provided locally by TA Connections should be escalated to:

Keshab Poudel, Account Director: keshab.poudel@fleetcor.com

Bernard Hsiao & Rika Veranica Elizabeth Account Managers: bernard.hsiao@fleetcor.com
Rika.Veranica@fleetcor.com

CC: SGuiao@etihad.ae and HHamer@etihad.ae

4.1.6 Delay Announcements

Airport teams shall refer to the latest version of airport announcements available on the Airport and Network Operations section of the EY SharePoint or ShareFile.

Prior to the commencement of check-in:

- Check-in staff shall notify guests
- FIDS (Flight Information Display System) boards/screens shall be updated
- At the original boarding time, a suitable announcement shall be made over the public address system

When a delay situation becomes known during check-in:

- Immediately make an appropriate announcement
- Thereafter, announcements at regular intervals every 15 minutes
- Check-in staff to notify guests who have not yet checked-in
- FIDS (Flight Information Display System) boards/screens shall be updated

When delay becomes known before boarding:

- The new departure time will be centrally updated in Altéa CM.
- Staff shall advise guests accordingly and at regular intervals.
- Staff shall apply specific procedures for certain categories of passengers (SSRs, guests requiring special assistance, etc.)

When delay becomes known at boarding time:

- Immediately make an appropriate announcement
- Thereafter, at regular intervals but no longer than 20 minutes apart

Announcements in First and Business Lounges:

Where check-in is permitted in the lounges and public address facilities are available, the same procedure as outlined above shall be followed. If not, supervisory staff shall keep guests informed of developments.

4.1.6.1 Guest Facing Reasons

When there is a known delay for a flight, Guest Control shall provide the factual reason for the delay within the Altéa CM banner. The displayed banner will include a specific Guest Facing Reason (GFR) number.

If the delay does not align with any of the GFRs listed below, or clarification is required, Duty Supervisor/Delegate shall contact the Guest Control Duty Manager for support, ensuring consistency with notifications sent to guests.

Airport team members shall use the appropriate GFR when making announcements and communicating with guests. GFRs must be incorporated into the delay announcements as outlined in the [Airport Announcement](#) Guidelines.

Delay or disruption announcements shall be made every 15 minutes and shall be read as per the scripting within the document.

Guest Facing Reason	
1	Due to high cabin temperatures
2	Due to late arrival of the inbound aircraft
3	Due to weather within the vicinity of the airport
4	Due to weather at the destination airport
5	Due to unexpected circumstances impacting crew availability
6	Due to a diversion of the inbound aircraft
7	Due to airport restrictions in XXX Airport

Guest Facing Reason	
8	Due to aircraft refuelling
9	Due to late arrival of your aircraft onto bay
10	Due to a bird/lightning strike, resulting in additional inspection.
11	Due to industrial action in XXX Airport
12	Due to technical reasons, resulting in aircraft requiring additional inspection.
13	Due to a last-minute aircraft change for operational reasons
14	Due to the loading of catering
15	Due to a last-minute change of crew
16	Due to the late arrival of guests from another flight
17	Due to cabin crew safety and security checks
18	Due to unserviceable airport equipment
19	Due to stand availability
20	Due to late arrival of crew transportation
21	Due to enhanced security checks for your flight today
22	Due to security staff availability
23	Due to congestion within the terminal
24	Due to technical reasons, resulting in an aircraft change

4.1.7 Information and Communication to Guests

In general, provide immediate and accurate information at regular intervals.

- Ensure staff are briefed for consistent delivery of information.
- Provide passengers written information about their rights according to applicable regulations, upon requested or as required.
- Provide information in alternate formats to passengers with impairments.

4.1.7.1 Handling Procedures

- Passengers must be advised and notified of delays and kept informed at regular intervals.

- b. Where applicable, provide delay notice or passenger rights information and in alternate formats for passengers with impairments.
- c. Brief staff on the estimated time of departure, estimated time of arrival, and any provisions being offered.

4.1.8 Airport Empowerment Tools

Airport Empowerment tools may be requested based on practical judgement by eligible team members.

- Airport toolkit
- CIP Request to Regional Managers
- Policy Waiver requests (through Contact Centre)

The following team members are authorised to request for Policy Waiver, Toolkit & CIP Requests:

- Airport Manager, Duty Supervisor or Delegate
- Hub Operation Managers (where applicable)
- Ground Operation Duty Managers or Hub Supervisors

Regional Managers will monitor the issuance of the empowerment tools regularly and may request further justification for the reason for issuance.

The requests shall be raised through the [Empowerment App](#) via Power Apps. This will ensure that any service offered to guests is accurately recorded. Once acknowledged/approved, a notification will be triggered to the requestee.

For any policy waiver requests requested through Contact Centre, guests may be advised that the GSS team may contact them directly to collect credit card details if there are any applicable charges. Ensure that the guests contact details are updated.

4.1.8.1 Airport Toolkit

Each airport shall be given a maximum number of requests annually and is required to ensure they do not exceed the limits below (refer to Table 1). Airports are required to record the number of requests used until the dashboard is developed.

The following steps apply when applying a toolkit request:

Step 1: Submit the request through Power Apps

Step 2: Airports will action the request

Step 3: Guest Control Duty Manager & Director Airports & Ground Operations to approve the request from Global Airports and may require additional information if required. For Abu Dhabi, Hub Operation Managers will approve the request.

Airports must ensure that all requests are recorded in the app with proper justification. In the event of audit discrepancies, the airports will be responsible for providing the necessary explanations.

Below is a list of the available airport toolkits and the entitlements associated with each airport.

Toolkit Request	AUH Entitlement (per year)	Global Airport Entitlement (per year)
Cabin Upgrade	12	6
Extra Legroom seat	24	12
Lounge Access	24	12
5kg Excess Baggage*	24	12
Meal Voucher	24	12
Transportation voucher (AUH only)	No limit	-

*Applicable to Etihad Weight Concept markets only and will exclude USA and Canada markets (Piece markets).

The following are sample scenarios where the toolkit may be utilised, but not limited to:

Category	Scenarios	
Extra Legroom seat	GHA Error	Incorrect information provided, causing significant inconvenience to the guest.
Extra Legroom seat and Meal Voucher	PNR Issue	Corrupt PNR takes 30+mins to resolve
		Ticketing issue was unable to be corrected in time for the original flight
		System issue
Meal Voucher	Compassionate reasons or any scenario that may result of significant guest inconvenience	
Cabin Upgrade, Lounge Access, 5kg excess baggage or Transportation voucher (AUH only)	Ad hoc requests where applicable, at airport discretion	

4.1.8.2 CIP Request to Regional Managers

This option is available for exceptional requests made for certain guests regarding their future flights. Airports must submit these requests at least 48 hours in advance. Approval from the Regional Manager is required before granting any requests to guests.

4.1.8.3 Policy Waiver Requests

Policy Waiver requests for service recovery shall be done through our Contact Centre. GCDM will no longer be contacted by airports for these requests. Airport team members shall assess if the guest qualifies for a policy waiver based on the conditions (Refer to Chapter 4.1.8.3.1) and assist the guest by calling the Contact Centre at + 971 600 555 665 for policy waiver requests.

The Policy Waiver requests have no caps and can be requested through the Contact Centre as needed. Below is the list of available waiver requests.

Policy Waiver	*Example Scenarios
Name Correction	PNR to Passport Mismatch
Waive Change Fee	Compassionate
Waive No-Show Fee	Weather
Waive Seat Fee	Family Seating
*Scenarios include, but are not limited to lost passport, guests missing their flights due to heavy traffic, compassionate circumstances, e.g. death in the family, guests in obvious distress or heavily inconvenienced guests.	

4.1.8.3.1 Policy Waiver Conditions

Policy waiver requests apply only to the following:

- Applicable to Etihad ticket stock only (607) on PNRs with Etihad segments only. Should not be offered to OAL ticket stock or if guests have an OAL segment in their itinerary.
- This shall not be offered to Redemption tickets
- Limited to one policy waiver tool only. With the exception of medical cases where Medlink is not involved, change fee and no-show fee can both be requested
- Applicable to full revenue guests only and excludes guests travelling on Staff Travel benefits.
- When considering the policy waiver options, consider that transactions could take 15+ minutes, and ensure sufficient time before flight closure before offering service recovery to guests.
- Seat Fee Waiver cannot be used for any disability waivers.
- Airport Empowerment tools shall not be used for disruptive guest handling
- Cancellation fee waiver shall not be requested as part of empowerment tools.

4.1.9 iCoupon - Electronic Meal Vouchers

With the introduction of iCoupon, guests may use their boarding pass (printed or digital) as a meal voucher, redeemable at selected outlets at stations where iCoupon has been activated.

Guest Control is responsible for activating the meal vouchers through the iCoupon platform. The following scenarios may apply for iCoupon activation:

1. Full flight delay or cancellation

In the event of a full flight delay or cancellation, Guest Control will activate iCoupon, linked to the guest's boarding pass. A flight banner message will be updated in Altéa CM as follows:

“FLIGHT DELAYED/CANCELLED - ICoupon PROCESS ACTIVATED”

2. Isolated guest disruptions

For isolated guest disruptions (e.g. medical offloads or misconnections), airport team members shall contact Guest Control to request iCoupon activation.

The following factors shall be taken into account when issuing iCoupon meal vouchers:

- Each iCoupon voucher is valid for one-time use only, and any unused balance remaining after redemption will no longer be available.
- The voucher value will align with the meal type provided. Guest Control will coordinate with each station to determine the appropriate meal type based on the applicable zone or region.
- Multiple meal vouchers (e.g. breakfast and lunch) may be issued under a single boarding pass, in cases of extended flight delays,
- Airport team members shall advise guests not to discard their boarding passes, as these may be required to redeem the meal voucher.
- The flight number, date, and sequence number must be provided to Guest Control for iCoupon activation.

NOTE

iCoupon rates are available at [iCoupon Rates for Global Airports](#)

iCoupon QR codes with the list of available vendors are available at [iCoupon Vendor List](#)

For stations where iCoupon has not yet been implemented, the existing meal voucher issuance process shall continue to apply

4.2 FLIGHT DELAYS, DENIED BOARDING, DOWNGRADES & UPGRADES

4.2.1 Flight Delays

Network Control will update ETD/ETA's (Estimates) and ACARS will drive the ATD/ATA's (Actuals).

This will ensure that the flight departure/arrival times that a guest receives are consistently correct and reflect the information circulated by NOC.

Delay and Cancellation

A delay is defined as the airline's inability to operate a flight as per the scheduled time of departure. Cancellation occurs if the delay is extended for a period of time and it is no longer feasible to operate the flight. The following guidelines must be followed in the event of a delay:

1. Establish the expected duration and actual reason for the delay from Network Operations Centre (NOC).
2. For cancellations identify the reason from NOC.
3. Operational cancellations within 72-hours of the scheduled time of departure (STD) will be updated in Altéa Customer Management by Guest control.
4. Delays and cancellations outside of the 72-hour window must be updated through Short Term Operations or Schedule Planning.
5. For cancellations the flight status must be updated to 'Cancelled' and all guests must be re-booked by Guest Control.
6. Agents must follow the Manage Guest Re-accommodation procedure to re-route guests on alternate flights as per the re-accommodation plan issued by Guest Control.

4.2.1.1 Flight Delays - General

In cases of irregular operations (delays, cancellations, or denied boarding) within the operational window, the following shall apply:

- **Guest Control:** Publish delay advisories to affected airports.
- **Airports:**
 1. Refer to the Disruption Eligibility table to determine the appropriate provisions.
 2. Follow directions provided by Guest Response or local regulations.
 3. Provide refreshments, meals, or hotel accommodations as applicable.

Disruption Eligibility

DISRUPTION ELIGIBILITY (from STD)				
	Refreshments	Meals	Hotel Accommodation	
			Premium	Economy
From Global Airports	2-4 hours	4-8 hours	≥ 6 hours	≥ 10 hours (Over day)
				≥ 8 hours (Overnight)
From Abu Dhabi	2 hours	> 2 - 8 hours	≥ 6 hours	≥ 8 hours
To / From Canada	2 hours	> 2 - 8 hours	≥ 8 hours	

DISRUPTION ELIGIBILITY (from STD)

	Refreshments	Meals	Hotel Accommodation
From Philippines	2 hours	> 2 - 8 hours	≥ 8 hours
To / From Israel	2 hours	> 2 - 8 hours	≥ 5 hours
From Oman	2-3 hours	> 3 hours	≥ 6 hours
From Turkey	2-3 hours	3-5 hours	≥ 8 hours
From Kingdom of Saudi Arabia	1 hour	> 3 hours	≥ 6 hours
From Thailand	2 hours	> 2hours	≥ 5 hours
From Vietnam	2-3 hours	> 3 hours	≥ 6 hours

NOTE

In all cases, local regulations take precedence. Where local laws require additional or earlier provisions, those requirements shall be strictly followed.

Local catering shall be contacted to provide refreshments to guests on board or at the boarding gate.

Refreshment vouchers may be issued when no alternative option is available.

Example of Delay Advisory Notification sent to Airports by Guest Control:

ABU DHABI	GLOBAL AIRPORTS
Guests shall be provided with HOTAC for any delay equivalent to or exceeding eight hours. Airport staff shall apply for visas if required.	Guests shall be provided with HOTAC for any over-day delay equivalent to or exceeding 10 hours. HOTAC shall be provided for any over night delay equivalent to or exceeding eight hours.

4.2.1.2 Rolling Delays

Guests shall be kept informed of the situation and advised when the next briefing will be. Pending the nature of the situation, announcements applicable to the delay should be at a minimum of every 15 minutes. Where possible passengers should be seated within the boarding gate lounge/ area to ensure they are kept informed and to ensure a smooth and efficient boarding process.

Ensure refreshments and amenities are provided to passengers depending on the delay duration.

In the event of a delay with passengers on board, refer also to GOM Chapter 3.2.2.2.

4.2.1.3 Guest Misconnection Notification Process

In cases where guests will misconnect their onward flight due to a delay on the inbound flight, Cabin Crew shall advise the guests of their new flight details.

Guest control sends ACARS on misconnecting guests' details to flights when there is no internet connectivity.

Guest Control shall advise the airport team at the arrival station of the guest's rebooking details via email to make the necessary arrangements ahead of the guest's arrival.

NOTE

In the event of an amber or red event resulting in multiple misconnected flights the above process will not be followed.

In the event that the guests are not notified onboard, airport team members shall assist the guests on arrival with their connection.

4.2.1.4 UAE Passenger Welfare Programme (PWP)

The UAE Passenger Welfare Programme (PWP) came into effect on 01 November 2022 and applies to all Etihad Airways flights departing from, and diverting to, airports within the United Arab Emirates, including Zayed International Airport. The Passenger Welfare Programme forms part of Etihad Airways' Quality Assurance and Compliance Monitoring framework and shall be implemented in coordination with airport operators, contracted ground handling companies, and relevant UAE authorities.

The UAE Passenger Welfare Program shall be documented, include a Statement of Compliance with CAR PWP signed by the Etihad Airways and a copy submitted to the GCAA for acceptance.

The Passenger Welfare Programme is owned by Etihad Airways. The Manager Airport Service Policy is accountable for maintaining the programme, ensuring regulatory alignment, and facilitating oversight by the GCAA. The accountable person maintaining the programme shall meet a minimum of five (5) years' experience working with an airline, preferably with at least three (3) years in a leadership capacity and demonstrated exposure to regulatory compliance, policy development, and documentation management. In addition, a minimum qualification of a high school diploma and an in-depth understanding of airline ground operations, policy and procedural documentation, and applicable regulatory standards.

The accountable person maintaining the program shall have the authority to propose and, subject to acceptance by the GCAA, publish procedures that are compliant with applicable regulatory requirements and company policies, including consumer protection.

Etihad Airways shall maintain documented agreements with airport operators, ground handling agents, hotels, transport providers and relevant authorities to enable timely delivery of passenger welfare. Coordination shall include immigration and visa facilitation where required. A periodic review will be arranged in order to improve the program's effectiveness.

This UAE PWP aims to:

- a. provide a high level of protection of passengers by establishing common rules on care and assistance to passengers in the event of denied boarding, cancellation, delay and diversion of flights.

- b. establish regulations and policies required to implement effective coordination and control of the efforts to provide a passenger welfare program.
- c. require that commercial air transport operators flying to/from and diverting to airports located in the United Arab Emirates implement a passenger welfare program, which can be part of their airport Business Continuity Plan, and ensure that the program is implemented, supervised and audited as necessary;
- d. require that UAE airport operators implement a passenger welfare program, which can be part of their airport Business Continuity Plan, in coordination with commercial air transport operators and responsible UAE authorities
- e. require commercial air transport operators to have documented agreements with airports and contracted ground handling companies in which they operate, so as to facilitate the provision of passenger welfare as required.

Etihad Airways is ultimately responsible for ensuring full compliance with the Passenger Welfare Programme, including coordinating with other stakeholders, e.g. airport operator and confirming its activation to the GCAA. Unrestricted access shall be granted to the GCAA by Etihad Airways to verify continued compliance with the intent of this chapter.

4.2.1.4.1 Role of Guest Control

In the event of Flight Disruption or Commercial Overbooking, Guest Control shall be responsible to issue meals via iCoupon and shall provide reports upon request. The HOTAC & transportation is managed by the Abu Dhabi Hub Team and any vouchers issued for these services are captured in the compensation report.

The Passenger Welfare Programme shall be deemed activated when a flight disruption event occurs, including but not limited to:

- Denied Boarding due to Commercial Overbooking
- Flight Delays exceeding published thresholds
- Flight Cancellations
- Diversions to UAE airports

The Guest Control team is available 24/7 and may be contacted via email at GuestControl@etihad.ae or by calling 02 511 1326 (Option 2).

Records of Passenger Welfare Programme activation shall be retained for a minimum of three (3) years and shall include flight details, nature of disruption, number of affected guests, and welfare provided. These records shall be made available to the GCAA upon request.

4.2.1.4.2 Denied Boarding

In the event a guest is denied boarding, they shall be provided with:

- Option for a return flight to the first point of departure or re-routing to their final destination.
- Care (refreshments, meals, hotel accommodation, transport between the airport and place of accommodation and appropriate means of communication) as appropriate.

In addition, the guest shall be entitled to compensation as described in Chapter [4.2.3](#).

4.2.1.4.3 Terminal Delay

For any delay of up to 3 hours, airport teams shall make a delay announcement every 15 minutes.

In the event of anticipated delays of 3 to 8 hours (regardless of the distance of the flight) scheduled time of departure; guests shall be provided with:

- Up to date information on flight status;
- Free meals and refreshments commensurate with the waiting time;
- Appropriate means of communication;
- Hotel accommodation (commensurate with the time of the day) for guests who have missed their connection and their next probable connection is after 8 hours.
- Visa facilitation.

If the anticipated delay is more than 8 hours from the scheduled time of departure, guests shall be provided with:

- Hotel accommodation (commensurate with travel distance to the city of residence/ domicile and time of day);
- Free meals and refreshments commensurate with the waiting time;
- Appropriate means of communication;
- Transportation between the airport and the place of accommodation/hotel;
- Visa facilitation.

4.2.1.4.4 Tarmac Delay

For delays of up to 3 hours, airport teams shall make an announcement every 15 minutes. In the event of a delay of between 3 and 8 hours, guests shall be provided with:

- The opportunity to disembark from the aircraft (subject to local regulations);
- Up to date information on flight status
- Free meals and refreshments commensurate with the waiting time;
- Appropriate means of communication;
- Hotel accommodation (commensurate with the time of the day) if they have missed their connection.

If the delay is more than 8 hours from the scheduled time of departure; the following shall be offered to guests:

- Disembarkation from the aircraft (subject to local regulations);
- Hotel accommodation (commensurate with travel distance to the city of residence/ domicile and the time of the day);
- Free meals and refreshments commensurate with the waiting time;
- Appropriate means of communication;
- Transportation between the airport and the place of accommodation/hotel
- Visa Facilitation.

4.2.1.4.5 Diversion

Following a diversion to another airport other than the planned destination in the UAE, guests shall be provided with the following in coordination with the GHA:

- Care (refreshments, meals, hotel accommodation, transport between the airport and place of accommodation, and appropriate means of communication) in accordance with point 4.2.1.4.3 and 4.2.1.4.4 above;
- Option for a return flight to the first point of departure or re-routing to their final destination without additional cost;
- Visa facilitation.

4.2.1.4.6 Cancellation

In the event of the cancellation, regardless of whether checked-in or not, guests shall be:

- Informed at the earliest possible time;
- Offered care (refreshments, meals, hotel accommodation, transport between the airport and place of accommodation, and appropriate means of communication) as appropriate;
- Carried along with their baggage as soon as practicable on the next flight on which space is available and, where necessary, extend the period of validity of their ticket to cover that carriage.
- Provided an option for a return flight to the first point of departure or re-routing within a reasonable period of time on a flight of another airline subject to availability, or by other mutually agreed means and class of carriage.
- Visa Facilitation.

The above requirement shall apply to all transit flights and flights not originating from the city of residence /domicile of the guest.

4.2.2 Denied Boarding, Downgrades & Upgrades

4.2.2.1 Involuntary upgrade

If it is required to upgrade a guest to a higher class than which the ticket was purchased due to EY requirements, staff shall not request any supplementary payment from the guest.

Staff shall refer to the upgrade priority code table when performing operational upgrades.

4.2.2.2 Denied Boarding & Involuntary Downgrade

Guests holding a confirmed reservation may be denied boarding due to several reasons, including:

- Overbooking of the flight
- Reduced aircraft seating capacity due to unserviceable equipment e.g. cabin doors and slides
- Reduced weight/seat capacity due to a payload restriction
- Change of aircraft/aircraft version

4.2.2.2.1 Selection and Process

First/Business

In order to protect the integrity of the premium cabins during overbooking scenarios, Guest Control shall be involved in all J/F overbooking of more than 1 guest, in to proactively review options for re-accommodation and communicate with the airport team regarding operational priority. Guest Control shall commence callouts for downgrades via the contact centre where possible and shall ensure that any recommendation to downgrade or offload considers guests of a lower PCV.

Economy

Guest Control remains responsible for actioning pre-transfer and reaccommodation plans where approved by revenue management. On the day of operations, airport teams shall liaise with Guest Control for rebooking of guests who were unable to be accommodated on their booked flights. Airport teams shall ensure that requests to rebook guests with a high PCV are only made where the applicable guest has volunteered accordingly. Airport teams shall solicit volunteers across all cabins where possible, however where volunteers cannot be found, involuntary downgrade shall occur for guests with a low PCV.

All denied boarding and downgrade cases shall be reported to Guest Control for issuance of an EMD regardless of whether the guest is rebooked by EY.

Airport teams shall refer to the Disruption Eligibility table to determine the applicable welfare entitlements.

In the event of **Denied Boarding or Downgrade**, the following shall apply:

- Revenue Management shall continue to issue a 'watch list' to Guest Control, identifying flights that are likely to be affected
- Guest Control shall manage the physical re-accommodation of DNB guests and outline DNB/DG guest eligibility for compensation, HOTAC, meals and transport in accordance with company policy. Refer to the Denied Boarding and Downgrade Eligibility table. Local regulations shall be adhered to, where applicable
- Global Airports are required to call Guest Control for guest rebooking, issuance of EMDs/ QwikSilver vouchers and ticket re-issuance where applicable. Within the same transaction, Guest Control shall advise the airport teams what the guest welfare offering should include
- Airport teams shall follow the direction provided by Guest Control
- If a flight is not identified as over-sold on the watch list, but subsequently becomes overbooked after circulation of the watch list, the affected airports must contact Guest Control prior to managing the DNB/DG guests to clarify guest welfare offerings.
- For downgrading of guests, any difference in fare to be calculated by the issuing office and settled directly with the guest.

Contact Centre Responsibilities

- Where contact details are available within the guests' PNR, the contact centre will be asked to conduct callouts to notify guests moved to alternative services, so that they do not report to the airport for their original flight.
- If compensation is not issued at the airport (due to rerouting or other reaccommodation solutions), Guest Compensation entitlements per local legislation may be claimed by the guest via Etihad.com/feedback.

- A call-out report will be sent from the contact centre to the impacted airports, for visibility of the success to contact

Airport Responsibilities

- Airport teams are responsible for handing over DBC vouchers to impacted guests when they report at the airport. Where required, guests may be offered water/refreshment vouchers while they await completion of required processes, if deemed appropriate by the Duty Supervisor / Delegate.

4.2.3 Passenger Rights Regulations

Where passenger rights and regulations are not specified for a network airport, then team members shall refer to:

Disruption Eligibility

DNB & DG Compensation - [4.2.3.1.1](#)

NOTE

1. The compensation should be provided immediately at the airport. Compensation and reimbursement based on specific fare values shall be handled via post-claim.
2. For EU stations using currency other than EUR, compensation shall be based on conversion at current rates.
3. All compensation shall be paid cash, unless 'NON-CASHABLE' is mentioned.
4. Where '(EY)' is indicated, this shall refer to compensation determined and approved solely by Etihad, in cases where no regulatory requirement applies.

4.2.3.1 Other Destinations (EY)

4.2.3.1.1 Denied Boarding & Downgrade Eligibility

OTHER DESTINATIONS				
APPLICATION	DISTANCE (TPM)	INVOL. DENIED BOARDING		DOWNGRADE*
		Y	J/F	J/F
ALL OTHER DESTINATIONS	≥ 1500 miles	USD 100 NON-CASHABLE	USD 200 NON-CASHABLE	USD 200 NON-CASHABLE
	1501km – 3500 miles	USD 200 NON-CASHABLE	USD 400 NON-CASHABLE	USD 400 NON-CASHABLE
	> 3500 miles	USD 300 NON-CASHABLE	USD 600 NON-CASHABLE	USD 600 NON-CASHABLE

**In addition to the issuance of non-cashable vouchers for downgraded guests, the applicable fare difference shall continue to be refunded to the guest.*

4.2.3.2 European Union (EC261/2004)

4.2.3.2.1 Denied Boarding & Downgrade Eligibility

EUROPEAN UNION EC261/2004				
APPLICATION	ROUTES	INVOL. DENIED BOARDING		DOWNGRADE
Originating from EU Airports and Switzerland	ATH/JMK/JTR-AUH Only	Arrival at final destination less than 3 hours	EUR 200	Refund of 50% of the fare of the downgraded sector
	ATH/JMK/JTR-AUH Only	Arrival at final destination over 3 hours	EUR 400	
	All Other Destinations-AUH-(All)	Arrival at final destination less than 4 hours	EUR 300	Refund of 75% of the fare of the downgraded sector
		Arrival at final destination over 4 hours	EUR 600	

4.2.3.2.2 Long Delay of Guests Departing From EU Airports, Switzerland, Turkey and UK

Rules for Assistance

When it is reasonable to expect a flight to be delayed beyond its scheduled time of departure for four (4) hours or more, airport teams shall offer the following to the guests free of charge:

- Meals and refreshments in a reasonable relation to the waiting time
- Two telephone calls, telex or fax messages or e-mails

The assistance described above should be offered within the delay period mentioned, when the time of departure reasonably expected is at least the day after the time of departure previously announced, in addition to the assistance described above, airport teams should offer the guests the following, free of charge:

- Hotel accommodation
 - where a stay of one or more nights becomes necessary
 - where a stay additional to that intended by the guests becomes necessary
- Transport between the airport and place of accommodation (hotel or other)

When the delay is at least five (5) hours and the guest decides not to travel on the delayed flight, in addition to the meals and communications assistance described above, airport teams should offer the guest a reimbursement within 7 days (in cash, by electronic bank transfer, bank orders or bank cheques or, with the signed agreement of the guest, travel vouchers and/or other services) of the full cost of the guest ticket at the price at which it was bought, for the part or parts of the journey not made, and for the part or parts already made if the flight is no longer serving any purpose in

relation to the guest's original travel plan, together with, when relevant, a return flight to the first point of departure, at the earliest opportunity.

The assistance described above will apply without prejudice to any rights the guest may have under applicable law (including EU Directive 90/314 on package travel) to further compensation, although any such assistance granted may be deducted from any such further compensation.

Each EU Member State has designated a body responsible for enforcement of EC Regulation 261/2004. Airport teams are required to prepare the "Formal Notice" by including only the appropriate contact details of the relevant national body of the station. Adequate stocks of these "Formal Notices" should be maintained at the Airport at all times.

EU regulation 261/2004 also requires each Member State to lay down rules and procedures on the sanction applicable to the infringements of this Regulation. Airports are required to comply with the requirements of such local rules and procedures too.

In the event of a delay with passengers on board, refer also to GOM Chapter 3.2.2.2.

Persons with Reduced Mobility (PRM) or Special Needs

Priority shall be given to PRM and any persons accompanying or certified service dogs accompanying them, as well as unaccompanied children.

In cases of denied boarding, cancellation, and delays of any length, PRMs and any persons accompanying them, as well as unaccompanied children, shall have the right to care as stated above.

Information on Passenger Rights

Notice containing the following text shall be displayed at check-in counters:

If you are denied boarding or if your flight is cancelled or delayed for at least two (2) hours, ask at the check-in counter or boarding gate for the text stating your rights, particularly with regard to compensation and assistance.

Where flights are delayed or a guest is DNB, Guest Control shall provide a letter to guests stating the rules for compensation and assistance in line with the regulation

		Over 4 hours	400% of the one-way fare up to USD 2150	

*Where the guest is involuntarily downgraded and elects not to travel, the guest is entitled to a full refund to the original form of payment (and any ancillary fees) within 7 business days for credit card payments and 20 calendar days for all other forms of payment.

Payment of the DNB compensation shall be made without delay and no later than 24 hours from the time the denied boarding occurs.

Persons with Reduced Mobility (PRM) or Special Needs

Priority shall be given to PRM and any persons accompanying or certified service dogs accompanying them, as well as unaccompanied children.

Information on Passenger Rights

Where flights are delayed or a guest is DNB, Guest Control shall immediately provide a letter to guests stating the rules for compensation and assistance in line with the regulation.

4.2.3.5.2 Refund Process for Flights to/from USA

To comply with the new DOT guidelines, all guests with a flight to/from the US who experience a flight disruption will be offered an alternative flight or a refund of their ticket. A flight disruption shall include significant delays (more than 6 hours), cancellations, and schedule changes. This shall apply to guests holding refundable and non-refundable tickets.

When a significant flight delay or cancellation is published, the Guest Control team shall issue meal vouchers for iCoupon-enabled airports and arrange hotel accommodation, transportation, and rebooking on alternative flights. For stations that are not iCoupon-enabled, meal arrangements shall be managed by the Airport teams.

Where guests no longer wish to continue their journey, airport teams shall inform them of the opportunity to obtain a full refund of the unused portion of their tickets. Airport teams shall coordinate with Guest Control to ensure guests are correctly removed from the flight to allow the initiation of refunds, and all relevant guest details are updated in Altéa CM. This is vital to enable the relevant teams to contact the guest for the processing of refunds.

4.2.3.5.2.1 Refund Process for Delay/Cancellation

- After a flight delay or cancellation is published, Guest Control shall email all affected guests. The email will outline any applicable rebooking options and offer the opportunity for guests to obtain a refund should they no longer wish to continue their journey.

- b. Airport teams may print a copy of the delay/cancellation letters provided by Guest Control and distribute them to affected guests as required.
- c. When guests choose not to continue their journey and request a refund, Airport teams shall compile a list of guest names and PNRs, and email GuestControl@etihad.ae. The following subject line **MUST** be used for such cases:

“Subject: USA INV REF - 7 day rule”

- d. Guest Control shall immediately notify Etihad Refunds, GBSS and Call Centre with the provided list, to ensure refunds are processed within the timeframe stipulated by US DOT.

Airport teams shall inform guests refunds will take between 7 and 20 days to reflect, depending on the form of payment. Airport team members may refer guests to the Contact Centre for further details.

4.2.3.5.2.2 Refund Process for Ancillaries Purchased

Seats/Upgrades

For additional services purchased (e.g upgrades, extra legroom seats, pre-reserved seats, Neighbour-Free Seats) but not honoured due to a flight disruption or aircraft change, guests shall be entitled to a full refund.

Service	Refund Process
Airport Upgrade / Etihad Select Upgrade (Plusgrade)	Guest shall contact Call Centre and request a refund
Pre-reserved Seat/Extra Legroom Seats	
Neighbour-Free Seats (NFST)	Auto refunded by Plusgrade team after flight departure

4.2.3.6 Canada (CTA APPR)

4.2.3.6.1 Denied Boarding & Downgrade Eligibility

CANADA CTA APPR				
APPLICATION	ROUTES	INVOL. DENIED BOARDING -COMMERCIAL OVERSALE ONLY		DOWNGRADE
To/From Canada Including Connecting Flights	Canada ↔AUH↔ (ALL)	Arrival at final destination less than 6 hours	900 CAD	Refund of the fare difference of the downgraded sector

CANADA CTA APPR

APPLICATION	ROUTES	INVOL. DENIED BOARDING -COMMERCIAL OVERSALE ONLY		DOWNGRADE
		Arrival at final destination between 6 and 9 hours	1800 CAD	
		Arrival at final destination over 9 hours	2400 CAD	

*Where the guest is involuntarily downgraded and elects not to travel, the guest is entitled to a full refund (and any ancillary fees) within 30 days after the day on which Etihad Airways becomes obligated to provide the refund.

All refunds must be paid using the method used for the original payment, unless:

- the person has been informed in writing of the monetary value of the original ticket or additional service and the availability of a refund by the method used for the original payment;
- the refund is offered in another form that does not expire; and
- the person confirms, in writing, that they have been informed of their right to receive the refund by the method used for the original payment and have chosen to receive the refund in another form.

Payment of the DNB compensation shall be made without delay and no later than 48 hours from the time the denied boarding occurs.

Where it is necessary to deny boarding involuntarily, the following guests shall not be denied carriage:

- Unaccompanied Minors
- Guests with disabilities and their support person
- A family member travelling together
- A guest previously denied boarding on the same ticket

Right to Care

Where guests are affected by a flight disruption that has not been notified at least 12 hours before the scheduled departure time, except when the disruption is due to circumstances outside Etihad's control.

When a flight is cancelled or when a delay reaches two (2) hours, the following shall be provided to affected guests:

- Food and beverages in reasonable quantities; and
- Access to means of communication, such as complimentary Wi-Fi.

Where guests are required to wait overnight for the next available flight, the following shall be provided free of charge:

- Hotel or comparable accommodation; and
- Transportation between the airport and the accommodation.

Information on Passenger Rights

In the event of a delay or cancellation, Etihad shall inform affected guests of the following:

- The reason for the delay or cancellation;
- The care and compensation that will be provided under applicable regulations and airline policy; and
- Recourse available, including options available to guests through the Canadian Transportation Agency (CTA).

4.2.3.6.2 Tarmac Delays from Canada

A tarmac delay is defined as a delay on the tarmac after the doors of the aircraft are closed for take-off or after the flight has landed.

Etihad must be able to provide the following standard of treatment in the event of a tarmac delay:

- Access to lavatories, in working order
- Proper ventilation and cooling or heating of the aircraft.
- If it is feasible to communicate with people outside the aircraft, the means to do so
- Food and drink, in reasonable quantities, taking into account the length of delay, time of day and location of the airport

If the tarmac delay occurs at an airport in Canada, guests have the right to disembark 3 hours after the aircraft doors have been closed for take-off, unless the aircraft departure is imminent i.e. in the following 45 minutes and Etihad can continue to provide the above standard of treatment. The right to disembark also applies after 3 hours of arriving at a Canadian airport.

There is an exception to the obligation to provide an opportunity to disembark if this is not possible for reasons of safety and security or related to air traffic or customs control.

Etihad must give guests with disabilities and any support persons the opportunity to disembark first, if possible.

Etihad will facilitate access to assist in the event that urgent medical assistance is required before take-off or after landing.

4.2.3.7 Israel (ASL)

4.2.3.7.1 Denied Boarding & Downgrade Eligibility

ISRAEL ASL					
APPLICATION	ROUTES	INVOL. DENIED BOARDING		DOWNGRADE*	
Israeli Nationals, Passengers Holding Return Tickets to Israel and Passengers Holding Israeli Passports and Israeli Residency	TLV↔AUH Only	Arrival at final destination less than 5 hours	NIS 1225	Fare DG Sect. x Km DG Sect.	
		Arrival at final destination over 5 hours	NIS 2450	_____ Tot. Km	
	TLV↔AUH↔ (All)	Arrival at final destination less than 6 hours	NIS 1835	Seg- ments Below 4500 km	Segments Over 4500 km
		Arrival at final destination over 6 hours	NIS 3670	Fare DG Sect. x Km DG Sect. _____ Tot. Km	Full Refund of the fare of the DG sector
* Downgrade compensation for flights from TLV (below 4500Km) is calculated multiplying the value of the fare of the downgraded sector and the ratio between the distance (in Km) of the downgraded sector and the total distance (in Km) of the guest's journey.					

Right to Care

The assistance as described in this section is provided in the event that a flight time of departure is delayed by at least two (2) hours from the scheduled departure.

Delay of Two (2) Hours or More

When a delay reaches two (2) hours, the following shall be provided free of charge to affected guests:

- Meals and refreshments in reasonable proportion to the waiting time; and
- Two (2) communications, which may include telephone calls, telex, fax messages, or e-mails.

Delay of Five (5) to Less Than Eight (8) Hours

When the delay is expected to last between five (5) and less than eight (8) hours, the following shall also be provided free of charge, where applicable:

- Hotel accommodation, if a stay of one or more nights becomes necessary, or if an additional stay beyond the guest's original plan is required; and
- Transport between the airport and the accommodation (hotel or other).

Information on Passenger Rights

Where flights are delayed or a guest is DNB, Guest Control shall immediately provide a letter to guests stating the rules for compensation and assistance in line with the regulation.

4.2.3.8 South Korea

4.2.3.8.1 Denied Boarding & Downgrade Eligibility

SOUTH KOREA				
APPLICATION	ROUTES	INVOL. DENIED BOARDING		DOWNGRADE (EY)

		Arrival at final destination over 4 hours	USD 600*	
* Guests shall also be offered a full refund of the cost of the ticket in the event no alternative flight can be offered or if the new flight does not meet the guest's requirements.				

4.2.3.8.2 Tarmac Delays for Flights from Korea

The following policy shall apply for tarmac delays on flights departing and arriving into Korea, in line with the Air Transport Passenger Protection guideline in accordance with Korean Aviation Law Article 119-5.

- Guests shall not remain on board for more than 4 hours from door close to take off or touchdown to door open, except in the following circumstances:
 - When the pilot in command applies reasonable judgment that the aircraft should remain in the area for safety or security reasons including weather conditions or directions by a government agency.
 - When a government organisation advises the pilot in command that returning to the terminal or deplaning guests at an area other than the gate would disrupt airport operations.
- Adequate food and water shall be provided no later than 2 hours after the aircraft leaves the gate or touches down where the aircraft remains on the tarmac, unless the pilot in command determines that safety or security considerations preclude such service.
- Announcements shall be made at least every 30 minutes while the aircraft is delayed, including the reason for the delay and updates.

Rules for Assistance

The assistance as described in this section is provided in the event that a flight time of departure is delayed by at least two (2) hours from the scheduled departure.

Delay of Two (2) Hours or More

When a delay reaches two (2) hours, the following shall be provided free of charge to affected guests:

- Meals and refreshments in reasonable proportion to the waiting time; and
- Hotel accommodation, if a stay of one or more nights becomes necessary; and
- Transportation between the airport and place of accommodation (hotel, place of residence of the passenger or other); and
- Two (2) communications, which may include telephone calls, telex, fax messages, or e-mails.

Persons with Reduced Mobility (PRM) or Special Needs

Priority shall be given to PRM and any persons accompanying or certified service dogs accompanying them, as well as unaccompanied children.

In cases of denied boarding, cancellation, and delays of any length, PRMs and any persons accompanying them, as well as unaccompanied children, shall have the right to care as stated above.

Information on Passenger Rights

Notice containing the following text shall be displayed at check-in counters:

If you are denied boarding or if your flight is cancelled or delayed for at least two (2) hours, ask at the check-in counter or boarding gate for the text stating your rights, particularly with regard to compensation and assistance.

Where flights are delayed or a guest is DNB, Guest Control shall provide a letter to guests stating the rules for compensation and assistance in line with the regulation.

The assistance as described in this section is provided in the event that a flight time of departure is delayed by at least one (1) hour from the scheduled departure.

Delay of One (1) Hour or More

When a delay reaches one (1) hour, the following shall be provided free of charge to affected guests:

- Refreshments and beverages

Delay of Three (3) Hours or More

When a delay reaches three (3) hours, the following shall be provided free of charge to affected guests:

- Meals and refreshments in reasonable proportion to the waiting time

Delay of Six (6) Hours or More

When the delay is expected to last more than six (6) hours, in addition to the above, the following shall also be provided free of charge, where applicable:

- Hotel accommodation and transportation to and from the airport

Information on Passenger Rights

Where flights are delayed or a guest is DNB, Guest Control shall provide a letter to guests stating the rules for compensation and assistance in line with the regulation.

Persons with Reduced Mobility (PRM) or Special Needs

If it becomes necessary to involuntarily deny boarding, the following guests shall not be denied carriage:

- Unaccompanied minors
- Persons with disabilities and Special Needs Passengers
- First-degree relatives travelling together, and their accompanying housemaid
- Travel groups

4.2.3.13.1.2 Tarmac Delays from Saudi Arabia

A tarmac delay is defined as a delay on the tarmac after the doors of the aircraft are closed for take-off or after the flight has landed.

Etihad must be able to provide the following standard of treatment in the event of a tarmac delay:

- Access to lavatories, if the aircraft is so equipped
- Proper ventilation and cooling or heating of the aircraft
- The ability to contact people outside the aircraft
- Food and drink

Where a tarmac delay occurs at an airport in the Kingdom of Saudi Arabia, guests shall have the right to disembark once the delay reaches three (3) hours, unless disembarkation is restricted due to security or safety reasons.

In the event of disembarking the aircraft, priority shall be given to persons with disabilities and special needs and assistants or companions thereof, whether persons or animals.

In the event of choosing to disembark the aircraft, the passenger has the right to request Etihad to treat the flight as cancelled under the flight cancellation provisions of Saudi GACA.

4.2.3.14 Philippines (CAB ABPR)

4.2.3.14.1 Denied Boarding & Downgrade Eligibility

PHILIPPINES CAB ABPR			
APPLICATION	ROUTES	INVOL. DENIED BOARDING	DOWNGRADE
Originating from the Philippines Only	MNL - AUH - (All)	The higher of either the full value of the fare, including taxes, surcharges and optional service items or 10,000 PHP	Refund of fare difference and additional 50% of that value

Where it is necessary to deny boarding involuntarily, the following guests shall be given priority to board (in order of priority):

- Unaccompanied minors;
- Senior Citizens, PWD and their companion(s);
- Passengers travelling with children under four (4) years old;

- Passengers with scheduled non-elective medical procedures;
- Passengers who were previously denied boarding on the same ticket;
- Passengers who have outward connecting flights.

4.2.3.14.2 Long Delay of Guests Departing from Philippines

Rules for Assistance

The assistance as described in this section is provided in the event that a flight time of departure is delayed by at least two (2) hours from the scheduled departure.

Airport teams shall offer the following to the guests free of charge:

- Meals and refreshments in a reasonable relation to the waiting time
- Telephone calls, telex or fax messages or e-mails
- Hotel accommodation, if a stay of one or more nights becomes necessary, or if an additional stay beyond the guest's original plan is required; and
- Transport between the airport and the accommodation (hotel or other).

4.2.3.14.3 Tarmac Delays from Philippines

Etihad must be able to provide the following standard of treatment in the event of a tarmac delay:

- Enough food and water, working air conditioning, functional toilet facilities, and access to medical help if necessary.
- Timely and accurate announcements

Where a tarmac delay occurs at an airport in the Philippines, guests shall have the right to disembark once the delay reaches three (3) hours, unless disembarkation is restricted due to security or safety reasons, or if it would disrupt airport operations.

In the event of choosing to disembark the aircraft, the passenger may be entitled to accommodation, when necessary, plus food and communication services (JMC No. 001 s. 2023 - Guidelines on Long Tarmac Delays).

NOTE

The compensation for scheduled flight delays shall be made on a post-claim basis. Guests shall be directed to Guest Relations via [Etihad Feedback](#).

Information on Passenger Rights

Notice containing the following text shall be displayed at check-in counters and boarding gates:

If you are denied boarding, your flight is cancelled or your flight is delayed for at least two hours, please enquire about your rights at the check-in counters or at the departure gate, particularly rights to compensation and right to care.

In the event of a flight delay, cancellation, or involuntary denied boarding, Guest Control shall issue a written notice to affected guests outlining the applicable compensation and assistance entitlements in accordance with the regulation. The notice shall also provide the contact details and complaint channels for both Etihad Airways and the Civil Aviation Authority of Thailand.

4.2.3.16.3 Tarmac Delays from Thailand

A tarmac delay is defined as a delay on the tarmac after the doors of the aircraft are closed for take-off.

Etihad must be able to provide the following standard of treatment in the event of a tarmac delay:

- Proper ventilation, appropriate cabin temperature, and lavatory facilities
- Access to medical assistance, where required

Where a tarmac delay occurs at an airport in Thailand, guests shall have the right to disembark once the delay reaches three (3) hours, except in a case that may affect safety or security or in a case of a reason concerning air traffic management.

In the event of choosing to disembark the aircraft, the passenger shall be entitled to care, as in the case of flight delays or cancellations.

4.2.3.16.4 Reporting to CAAT

Airport Managers, Duty Supervisors, or their Delegates shall submit to the Civil Aviation Authority of Thailand (CAAT) a report on the provision of passenger care and protection in the event of any flight delay, cancellation, or denied boarding involving passengers originating from Thailand. The report shall be submitted via the CAAT ECMS system within forty-eight (48) hours from the time the disruption is notified, as applicable.

4.2.3.17 Vietnam (CAL)

4.2.3.17.1 Denied Boarding & Downgrade Eligibility

VIETNAM CAL			
APPLICATION	ROUTES	INVOL. DENIED BOARDING*	DOWN-GRADE (EY)
Flights Departing Vietnam Only	Vietnam origin flights-AUH-onward sectors	USD150	USD 400 NON-CASHABLE
*Compensation payments shall be made in cash within 14 working days from the date on which the request of the passenger is received.			

4.2.3.17.2 Long Delay of Guests Departing from Vietnam

Rules for Assistance

The assistance as described in this section is provided in the event that a flight time of departure is delayed by at least two (2) hours from the scheduled departure.

Delay of Two (2) Hours or More

When a delay reaches two (2) hours, the following shall be provided free of charge to affected guests:

- Refreshments in a reasonable relation to the waiting time

Delay of Three (3) Hours or More

When a delay reaches three (3) hours, the following shall be provided free of charge to affected guests:

- Meals and refreshments in a reasonable relation to the waiting time

Delay of Six (6) Hours or More

When a delay reaches six (6) hours, the following shall be provided free of charge to affected guests:

- Meals and refreshments in a reasonable relation to the waiting time
- Accommodation during the waiting period for at least one night as necessary and transportation to and from the airport

Information on Passenger Rights

In the event of a flight delay, cancellation, or involuntary denied boarding, Guest Control shall issue a written notice to affected guests outlining the applicable compensation and assistance entitlements in accordance with the regulation.

4.2.4 Process Customer Value (PCV)

The Process Customer Value (PCV) guides airport teams on the categories for prioritising and protecting guests on flights where the number of guests exceeds the number of available seats, for example; overbooking, payload restriction, unserviceable seats, etc.

At any given time, for guidance on "High Priority" operational acceptance - Guest Control shall be contacted to discuss guests who must be protected and associated recovery for any impacted guests in Premium Cabins or of High Value.

Guests who do not receive a boarding pass at the origin station for their connecting flight shall be advised that their bag has been tagged to the final destination and shall be asked to see the transfer desk in Abu Dhabi to collect their boarding pass for the next flight.

Airports teams shall seek volunteers where appropriate in all scenarios where a requirement to disrupt guests is anticipated.

4.2.4.1 Management of Payload Restrictions

Upon receipt of a payload warning for any flight, the departure airport shall be responsible for ensuring that seats are protected and payload remains available for all guests with high PCV and guests with special service requests (WCHR, WCHS, WCHC, MEDA, UMR).

NOTE

For AUH departures only, Flight Control Admin team and Guest Control shall be responsible for actioning this on receipt of a payload warning.

In circumstances requiring acceptance of a final payload that is more restrictive than the booked load for any given flight, the following rank shall be used to determine how the payload is reduced in order to depart with an acceptable underload.

Rank	Scenario	Action
1	Guests boarded	Baggage and other payload to be offloaded to the extent required to reduce payload.
2	Guests not yet boarded	Guest Control shall select specific guests that shall be denied boarding. Guest Control shall ensure guests with the highest PCV are protected at all times.

For Duty Travel and ID50 confirmed bookings, airport teams shall ask guests if they are willing to voluntarily offload in exchange for applicable welfare. For any confirmed staff guests checked-in, they shall not be involuntarily offloaded.

Where possible in global airports, guests with excess baggage shall be asked to identify the main piece of baggage (within the core allowance) to have a loading priority, and additional pieces shall be marked as LRT and segregated for potential offload where the payload is restricted.

4.2.4.2 Commercially Capped Payload

On some routes, depending on the equipment type and season/month, a commercial cap is enforced based on historical data for payload performance. This cap shall be made known to the airport teams and shall be updated in the Flight Comments box by Flight Editing / Flight Control Admin team, in consultation with CLC.

At -24hrs, Flight Editing / Control Admin team shall block the number of capped seats to remove the seat visibility from the seat map and ensure DCS seat counts are updated accordingly. Targeted guest's offload and rebooking shall be processed by Guest Control.

Any guests unable to be accepted, down to the level of the commercial cap – should be considered as denied boarding due to commercial oversale. Airport teams shall not accept guests beyond the commercial cap if it requires reduction of other payload (i.e. passenger baggage), unless available payload is confirmed by CLC.

If, on the day of operation, CLC can confirm available payload that exceeds the commercial cap, all revenue guests shall be accepted and standby guests may be unloaded to the extent possible.

4.2.5 Critically Overbooked Flights (>10 DNBs Expected)

Guest Control Responsibilities

- Within 48 hrs to departure, Guest Control will identify critically overbooked flights (>10 guests overall, not single cabin overbooking)
- Applicable flights will be closed for sale in the Economy.
- Advice on closure of premium cabins will be as per Revenue Management
- Close inventory on subsequent Etihad flights, where required, to consider rollover of DNBs across multiple flights
- Identify a recovery plan and proactively communicate rebooking options (pending final seat availability) to the airport team

NOTE

At this time, pre-transfers can be initiated that have zero cost involved in rebooking, and shall be proactively actioned. Airport teams may suggest examples of this to GC. For example, ZRH-FCO-AUH, rebooked on ZRH-AUH direct on EY flight where seats are available and guest can be contacted. Or LHR-AUH-SYD-MEL is rebooked to LHR-AUH-MEL direct on EY where seats are available.

- Where subsequent Etihad flights become overbooked as a result of DNB rebooking, action subsequent flight pre-transfer (within -72hrs STD)
- Where an airport calls for the rebooking of guests off a critically overbooked flight, rebooking activity is to be conducted at the time of the call during the check-in window, rather than waiting until the flight closure time

Airport Responsibilities

- On critically overbooked flights (>10 overall), the Airport Manager / Duty Operations Manager / delegate may decide to compensate guests with a cashable EMD for the applicable DNB value.

- The APM/GODM/Delegate shall advise the Guest Control Duty Manager that the cashable compensation is being activated.
- The station will advise Guest Control of the value the EMD must be reflect. Where local legislation applies, stations do have the ability to offer an amount less than that
- which is payable to the guest, therefore, Guest Control will go per advice from the airport manager.

NOTE

In any scenario where a guest arrives earlier than the original scheduled time of arrival (STA), DBC is not payable by Etihad (i.e. rebooking on a flight directly to the final destination). This excludes the EU in line with applicable compensation rules under EC261.

- Guests shall be advised to contact the Etihad Contact Centre in order to initiate 'cashing' of the EMD voucher (via bank deposit).
- Where possible, identify volunteers for rebooking options, based on local compensation offer and alternative flight details
- Where required, contact Guest Control to action proactive recovery (connecting to direct options where the guest is retained on EY)

4.3 RETURN TO STAND

4.3.1 Airborne Return

The action of an aircraft departing, becoming airborne and then returning to the departure airport, is known as a **"Return Airborne"** and should be treated as an incident. Any incident requires a report from the Operating Captain.

Depending on the situation, normal disruption procedures apply and the Airport Manager / Duty Supervisor or Delegate shall ensure that NOC / Guest Control is advised and kept up to date.

If an emergency is declared (either by the Captain or Airport Authority), the ERP may be initiated by the NOC once they have been notified of the situation.

4.3.2 Ground Return

In the event of an aircraft returning to the terminal without becoming airborne is known as **"Ramp Return"** and should be considered to be either an 'Incident' or an 'occurrence' depending on the situation.

In the event a flight returns to the gate after departure, agents at the boarding gate shall liaise with Load Control and take the necessary steps to process the flight depending on the operational requirement:

- De-board and offload guests. If the flight is cancelled, follow the cancellation procedure
- Offload specific guests
- If the flight is delayed, de-board all guests and follow the delayed procedure
- Follow the re-accommodation procedure in order to re-route guests

4.4 MASS DISRUPTION

In the event of disruption, all airports shall refrain from sending guests with connecting flights to AUH in the following scenarios.

- Cancellation of departures from AUH
- Technical problems within the fleet resulting in equipment downgrades leading to flights becoming heavily overbooked

In such scenarios, network airports shall contact Guest Control for rebooking options.

4.4.1 Not to Board Policy During Major Disruptions

In the event of major disruptions at Global Airports, Guest Control shall notify stations via email “**Not to Board**”, providing a waiver and instructions on how to respond to guests, and direct them to the Contact Centre for any booking modifications.

Airports must strictly follow the instructions and ensure no guests are uplifted from the origin unless explicitly approved.

To ensure that guests are not travelling from the origin station, airport team members shall implement the following measures:

- Add gate comments to the guests’ profile indicating they have been requested not to travel
- At check-in/boarding gate, review all comments associated with guests prior to acceptance at check-in/boarding

4.5 TSA SFPD OUTAGE

SFPD Outage procedure applies to all US flights and the US airspace SFPD Overfly (AUHYYZAUH).

NOTE

In the event of an SFPD Outage, access to both “No-Fly” and “Selectee” watch list on TSA Web board shall no longer be available for manual verification.

There are three circumstances where Etihad Airways shall be advised if the TSA SFPD (DHS) link is down:

1. **Planned SFPD Outage declared by Amadeus:** Official communication from Amadeus received by Business Solution Centre via IT Help Desk.
2. **Planned SFPD Outage declared by TSA SFOC:** Official communication from TSA Secure Flight Operations Center (SFOC) received by TAC, indicating that there is an “planned” outage event in progress.
3. **Unplanned SFPD Outage at AUH HUB and outstation including US stations:** The check-in agent displays Boarding Pass Print Result (BPPR) status PREV during check-in.

Details of the above procedures can be found on the EY SharePoint: SFPD Planned and Unplanned Outage Procedure and on EY Sharefile.

4.6 SYSTEM CHECK-IN FAILURE

Where no DCS is available or in case of DCS failure, apply the manual check-in procedure outlined in Altéa CM System Outage Procedures available on Etihad SharePoint and ShareFile.

Local backup procedures must be established in every station and tested regularly, and include provisions for the collection and transmission of API data as required.

1. Emailing Altéa CM Passenger Manifest

Each network airport shall email the departure passenger list via Altéa CM to their airport's Altéa CM mail group address at least 24 hours prior to departure of each flight. In the event that the manifest is not required, the email shall be deleted post flight departure.

2. Altéa CM System Outage Preparation Practice

In order to prepare for a possible Altéa CM system outage, all network airports shall practice manually checking in a flight every six months.

This practice shall not be carried out on live flights to protect the operation and any regulatory requirements. The Airport Manager shall ensure that the GHA is prepared and can produce the supporting documentation.

Details of the Altéa CM System Outage Procedures can be found on the EY SharePoint and ShareFile.

NOTE

The Passenger Manifest shall be emailed and printed for Altéa CM system outage practices.

4.6.1 Emergency Back-up Check-in

In case of DCS and/or BHS failure, local backup procedures must be established in every station and tested regularly.

4.6.2 Financial Controls

The following process shall apply for financial control during a local Amadeus outage at AUH:

Task	Information
Excess baggage Collection	If a manual flight is being processed due to a system outage, airports will be unable to view the guest's free baggage allowance and therefore cannot apply excess baggage charges. NOTE: Baggage weights shall be recorded during check-in for load control purposes only.
General ancillaries	Airports may contact BSC to support with card payment processing.

Task	Information
Denied Boarding Compensation	Guest Control shall confirm the eligibility for compensation and shall issue a confirmation letter. The guest shall be referred to the Feedback team to receive the compensation.

4.6.3 Manual Check-in Kits

All airports shall ensure there is a pre-prepared kit within the airline or GHA office, holding all required printouts and stationery to handle a manual flight, if necessary.

After each exercise, the kit shall be checked and replenished as required. The number of kits prepared shall be consistent with the number of daily flight departures from the station.

The kit shall contain the following at a minimum:

- Check-in Slip (Passenger Manifest)
- Check-in Close Out Slip
- [Manual Seatmaps](#)
- [Manual Baggage Bingo Sheet](#)
- Manual Bag Tags
- Manual Boarding Passes
- Operational Swing Tags, as required
- Pens & Highlighters

If a station requires assistance to print any of the forms/stationery in A3 paper size, please contact GSMaterials@etihad.ae to request prints to be sent via OCS Mail.

4.7 INADMISSIBLE / OFFLOAD COST RECOVERY

Rerouting and/or rebooking of guests due to being offloaded or inadmissible shall be managed in line with the below table. Guest Control are responsible for the physical re-accommodation of the guest and authorization of any welfare offering.

Inadmissible Scenario	Unutilised Coupon Available:	Absence of Coupon:
Inadmissible due to travel documentation non-compliance	If the guest holds a return ticket, Guest Control shall reissue the ticket INVOL, free of charge.	In the event the guest does not hold a return ticket, Guest Control shall issue new ticket using Cost Center based on the Intellex report-INRS raised by the airport, using the flat fees approved by Revenue Management for the region. The arrival airport shall call Guest Control to add service
Inadmissible due to refusal immigration		

Inadmissible Scenario	Unutilised Coupon Available:	Absence of Coupon:
		code CODT against the guest's profile, and should issue the EMD and collect the flat fee from the guest upon arrival from DCS-CM. Guest Control shall notify the arrival station of any INAD fees that need to be collected.

4.8 UNSERVICEABLE SEATS

The Guest Convenience Dashboard has been developed to give our airport teams real-time information about the serviceability of aircraft seats.

This report enables team members to assess, based on guidance from the Maintenance Control Centre (MCC), whether a guest can occupy a particular seat or if it should be classified as unusable for safety reasons.

Guest Control shall ensure that the seats are blocked in the inventory for all Part Seat, IFE issue and inoperable (INOP) seats.

Etihad team members at global airports and the Flight Control Admin team in AUH shall monitor the dashboard before opening the check-in counters to ensure the following:

4.8.1 Seat INOP

All SEAT INOP shall be kept blocked and not allocated to commercial guests.

Guest Control shall be contacted to issue the apology letter and arrange any applicable compensation where premium guests are downgraded due to inoperable seats

4.8.2 Part IFE/ Part Seat Issue

A Part Seat or IFE issue that has been blocked can be released last by the local flight controller for standby guests or to guests with low PCV in an overbooking scenario.

Flight Control Admin / Network Airport Duty Supervisors shall record a comment in Altéa CM (Check-in Comment under the flight comment summary) to capture the premium seat block type as reflected in the Guest Convenience Dashboard prior to check-in opening. Timely and accurate updates are essential to ensure check-in agents are fully informed and able to proactively brief guests.

E.g. 6A – IFE INOP/ LAST TO OCCUPY 7B – SEAT INOP (TRAY TABLE INOP) DO NOT OCCUPY

Airport team members shall proactively inform premium guests of any seat defects and, where feasible, offer a suitable alternative. This approach ensures clear, accurate communication and maintains consistency with Etihad service standards.

When a guest identifies themselves as having pre-reserved seats on one of the blocked seats, and has been automatically reallocated by the system, agents shall explain and offer the following options:

1. Assign a similar seat where available;
2. Offer guest the original seat and brief about the unserviceable seat description by contacting the local Flight Control Admin team. Should the guest accept, a remark shall be added in the system – “GST OK WITH IFE/SEAT ISSUE”; or
3. Assign any available seats and advise guest to contact Etihad feedback.

4.8.3 Last Minute - SEAT INOP

Last minute seat INOP shall be managed by the stations. Guest Control shall be contacted for apology letter or DNB/downgrade compensation, where applicable.

5.1 GENERAL

- a. Check that boarding facilities and gate monitors are displaying flight information.
- b. Tensa barriers, Premium and Economy signage must be set up when the first agent reaches the gate.
- c. Ensure Restricted Items notices are displayed at the boarding gate.
- d. Start and test gate equipment or if required prepare manual boarding documentation.
- e. Prepare gate materials e.g. boarding passes, bag tags and other handling forms.
- f. Before boarding, ensure that guests and their cabin baggage have been security screened in accordance with applicable requirements.
- g. If walking on the ramp, ensure that the route to the aircraft is safe and clearly marked for both guests and staff. Guests must be supervised on the ramp at all times.
- h. For passenger boarding bridge (PBB) boarding, secure and mark off the route to the aircraft and block off any unused passageways if required. Identify passageways where required (e.g. per class). Ensure all access doors are closed when not in use. Position staff as required to direct guests.
- i. If guests are walking on the apron to the aircraft, ensure that guests are proceeding directly to the aircraft.
- j. Obtain clearance for boarding from the crew. This shall be done via the person responsible for turnaround coordination, where applicable.
- k. Follow safety requirements for fuelling, including with guests/crew on board, in progress as per GOM Chapter 5.2.7.
- l. Make boarding announcements as applicable.
- m. Ensure policies relating to passengers requiring assistance or pre-boarding are followed in accordance with the applicable sections of this manual.
- n. Verify each guest's identity as per all applicable requirements.
- o. Check the name on the guest identity document(s) with that on the ticket and visually match the guest with the photograph.
- p. Confirm boarding acceptance in the DCS for each guest before allowing them to board.
- q. For manual or non-automated boarding, check the flight number and date on the boarding card.
- r. Apply cabin baggage policies and account for any gate-tagged items.
- s. Secure the flight by matching the number of checked-in guests to the number of boarded guests.
- t. Provide final guest numbers to cabin crew. This shall be done via the person responsible for turnaround coordination, where applicable.
- u. Provide required flight documents to cabin crew. This shall be done via the person responsible for turnaround coordination, where applicable.
- v. Advise ramp staff of any gate baggage to be loaded, to ensure loading, reconciliation and communication to load control. This shall be done via the person responsible for turnaround coordination, where applicable.

- w. Ensure the check-in system status does not allow additional guests to be checked in after published check-in closure times without the knowledge of gate staff. In case any additional guests are to be accepted, ensure load control is informed. This shall be communicated via the person responsible for turnaround coordination, where applicable.
- x. Liaise with the person responsible for turnaround coordination, where applicable, to ensure final guest and baggage information is passed to load control based on flight closure figures.
- y. Send required post-flight messages after flight departure by changing the DCS to the applicable status. This shall be performed by the department responsible for Flight Editing / Flight Control Admin team for the particular station.

5.1.1 Boarding Experience

Boarding shall be conducted in a calm, orderly and welcoming manner, reinforcing confidence and care at the final airport touchpoint.

During boarding:

- Guests shall experience a professional and well-presented boarding environment.
- Guests shall be acknowledged while waiting, with staff maintaining a calm and professional presence.
- Boarding shall be managed in line with approved processes and group boarding policy.
- Guests shall be proactively informed about the boarding process and relevant requirements.
- Staff shall proactively offer assistance to support guests through boarding.
- Boarding interactions shall be efficient, accurate and well-managed.
- Boarding interactions shall include a warm greeting and a courteous farewell, reinforcing appreciation for the guest's journey with Etihad.

5.2 AIRCRAFT SECURITY

Station Management shall arrange for appropriate Ground Staff (who may be employed by the Handling Agent) to ensure that only bonafide guests are permitted to board the aircraft.

A cross-check of the guest's boarding pass against a passport or other form of official photo identification shall be conducted prior to boarding.

All guests and their cabin baggage must be subjected to appropriate security screening prior to being permitted to board the aircraft.

5.3 BOARDING GATE PROCESS

5.3.1 Priority Boarding

The Priority boarding lane should be clearly identifiable so that our premium guests can identify it from a distance. Priority boarding should be actively monitored at the entrance to ensure only eligible guests are able to utilize it.

The Boarding Lead agent shall communicate with the lounge to coordinate the optimal time to call Premium Guests to proceed for boarding and ensure the Priority lane is always available at all times at their convenience.

Guests that purchased Priority Access are entitled to board the aircraft in the premium boarding lane.

The priority boarding lane should not be used to manage 'overflow' of guests from the Economy lane. Instead, the agent managing the Priority podium/BGR shall call forward from the Economy lane, when the priority lane is empty. This keeps the premium lane free for eligible guests as they arrive but allows management of boarding queues.

Where possible, before boarding commencement, the agent boarding priority guests should stand at the head of the priority queue, to welcome only priority guests before the announcement is made and the queue becomes automatically used by all guests.

5.3.2 PRM Boarding

Guests with SSRs (such as wheelchairs and infants) should be identified and brought to the front of the queue for pre-boarding. If a wheelchair guest does not wish to pre-board, they should be encouraged to board after the majority of guests have boarded.

5.3.3 Group Boarding

Group boarding shall be applied for flights which are on a contact stand (connected with a jet/aero bridge) and remote stand.

For remote boarding, Boarding Lead agent shall communicate with the lounge to coordinate the optimal time to call Premium Guests to proceed for boarding and ensure the Priority lane and Premium Bus is available at their convenience.

Where possible at check-in, agents shall highlight the boarding group number to the guest.

Group numbers will vary based on aircraft type and guest boarding eligibility.

Group	Boarding Eligibility
Pre	Residence First Emerald Extra Care
1	Exclusive Business Platinum
2	Gold Priority Access
3	Silver and Economy Boarding (defined at the backend rule)
4	Economy Boarding (defined at the backend rule)
5	Economy Boarding (defined at the backend rule)
6	Economy Boarding *A380 flights only

5.4 BOARDING ANNOUNCEMENTS

Airport and boarding announcements shall be made for all flights, unless restricted to do so by local authorities, such as at silent airports, or where it is not practical due to constraints at the boarding gates.

Announcements shall be made for all flights boarded via aerobridge/contact stand or remote stands, according to the Airport Announcements Guide which is available on the Etihad Global Airports ShareFile and ShareFile.

5.5 DOCUMENT CHECKS AT BOARDING GATE (GOM 10.2.15)

- a. Boarding gate staff shall verify via manual or automated means the passenger's travel documents (i.e. boarding card recorded on the system for the particular flight, matching passport and boarding card details), and conduct passport-to-face identification and verification prior to allowing passenger to board the aircraft. Only passengers who pass the travel documentation and identification checks shall be allowed to board the flight.
- b. Where biometric boarding is used, the individual passenger shall be matched against the image or data of an existing biometric capture for instant identity verification, in accordance with criteria determined by the owner of the system and agreed upon by applicable stakeholders. The following shall apply:
 1. The biometric boarding system in use shall be approved by all of the following:
 - i. The airport operator and applicable local authorities, in accordance with applicable regulations.
 - ii. Post Holder AVSEC or delegate.
 - iii. Manager Business Solutions Support.
 2. The passenger shall be directed to the applicable biometric boarding point as part of the boarding process.
 3. Upon successful biometric capture, the passenger shall be cross-checked against stored current travel documents.
 4. Where the cross-check positively matches the passenger against an existing biometric capture and stored current travel documents, the biometric boarding system shall automatically instruct the departure control system (DCS) to board the passenger, subject to checked in status in DCS.
 5. Where the above steps are successfully completed, manual reconciliation of the passenger against their travel documents is not required.
- c. Any passenger who fails to pass the above checks shall not be allowed to board the aircraft and shall be referred to the applicable authorities for further investigation.
- d. Any passenger holding a boarding card for a different flight shall be stopped, questioned and referred to the correct gate and flight.
- e. Subject to threat and risk assessment or as required by the applicable authority, paragraph (a) may be conducted by a dedicated EY ground staff team
- f. In case of increased threat or as required by the applicable authority, EY ground staff or agent shall also conduct crew identification and verification of assignment on the flight based on the General Declaration (GENDEC).

- g. When an unmanifested passenger occurrence is discovered after flight departure but prior to arrival, the APM, DS or delegate in the origin station shall immediately report it to TAC/NOC in order for a risk assessment to be performed. Further guidance from TAC/NOC shall be followed. APM, DS or delegate shall subsequently raise a SeMS report for investigation purposes.
- h. When an unmanifested passenger occurrence is discovered before flight pushback or after flight arrival at the destination, the APM, DS or delegate shall create a Ground Safety Report (GSR) via Intellex.

5.6 CABIN BAGGAGE CHECKS AT BOARDING GATE

At the boarding gate, the gate agent shall ensure that cabin baggage monitoring occurs before boarding commencement and during the boarding process. Gate agents shall ensure that the bag tag printer (BTP) is stocked and working, or sufficient manual tags are available, should any cabin bags need to be checked-in.

Collection of cabin baggage shall occur only when the item exceeds the permitted size, weight or number of pieces, or where it is unable to be stowed in the cabin.

5.7 AUTO-BOARDING

In order to achieve a streamlined boarding process that is aligned between Flight Operations and Ground Operations, the required boarding times are revised to coincide with the introduction of the Auto-boarding process.

Auto-boarding is the defined time before Scheduled Time of Departure (STD) by which both Ground Staff (GS) and the Senior Cabin Crew Member (SCCM) shall have completed all procedures required before boarding and are ready to accept the first guest onboard.

5.7.1 Auto-Boarding Times

Aircraft Type	1st guest onboard the aircraft before STD
A320/A321	- 35 mins
A350/B777/787	- 45 mins
A380	- 55 mins

5.7.2 Auto-Boarding Process

- Once operating crew arrive at the aircraft, aircraft dispatcher/turnaround coordinator shall confirm with the SSCM that the auto-boarding time as indicated above is achievable.
- If achievable, the first guest shall be ready to board the aircraft door once the auto-boarding time has been reached.
- If the boarding can commence earlier than the scheduled auto-boarding time, SSCM to inform aircraft dispatcher/turnaround coordinator who shall notify the boarding gate staff to begin boarding immediately.
- If at any time the above auto-boarding time is not achievable, auto-boarding shall be called off by the cabin crew or aircraft dispatcher/turnaround coordinator.

- Aircraft dispatcher/turnaround coordinator shall contact the applicable party, informing them that the auto-boarding procedure will not be followed.
- Once ready for boarding, SSCM shall update the aircraft dispatcher/turnaround coordinator, who shall provide clearance to the ground staff.

All related pre-boarding activities (e.g. FIDS updates, announcements, etc.) shall commence in a timely manner to ensure the first guest will board the aircraft by the indicated auto-boarding time.

5.8 GATE OFFLOAD AND ONBOARD CHECKS FOR UNMANIFESTED GUESTS

For any guest who is checked in but does not present themselves for boarding any checked baggage shall be offloaded from the aircraft. This includes any guest who leaves the aircraft with the intention of re-boarding and subsequently becomes a 'no show' and any guest who presents themselves at the gate but does not board the aircraft, e.g. due to medical reasons or fear of flying.

It is ultimately the responsibility of the Airport Manager to ensure these procedures are being applied consistently for every Etihad departure.

It is essential that all flights are finalised correctly after all guests have been accepted and boarded in order to avoid an un-manifested guest(s) situation.

Staff at the gate should check for any missing guests at least 20 minutes before departure and call the primary contact number located in the guest's CPR to check the location of the guest(s).

The following procedure and precautions shall be taken prior to offloading a missing guest(s) from the system.

Offloading Guests at Network Airports

In the event one or more guests are missing at boarding closing time, the gate staff shall:

1. Inform the person responsible for turnaround coordination of the missing guest, including details of any checked baggage.
2. The gate staff shall inform the SCCM to make a full name call (PA) onboard for the guest.
3. The missing guest's seat shall be physically checked and if occupied, the boarding pass and passport shall be verified and reconciled against the guest's name/seat number, shown as per the printout.
4. If the guest has been correctly identified as a guest who is not yet boarded in Altéa CM, the agent shall inform the boarding gate to subsequently board the guest manually in the system.
5. The person responsible for turnaround coordination shall be immediately advised to ignore any baggage offloading details which may have been already passed for the missing guest.

At remote stands, on board seat checks and communication with the SCCM shall be performed by the person responsible for turnaround coordination.

Where the guest cannot be located and is confirmed not to be on board, the gate agent shall:

1. Offload the guest and any applicable checked baggage from the flight in the check-in system.

2. Inform the person responsible for turnaround coordination that the offload has been completed.
3. Ensure the On Board Service List (OSL) is updated accordingly and the SCCM is informed. For minor changes (up to three items changed), these may be annotated manually prior to handing over the OSL to the SCCM.

The person responsible for turnaround coordination shall verbally inform the PIC and SCCM of any missing guests, including whether they have checked baggage. They shall also verbally update the PIC and SCCM on any actions taken, including when any bags have been offloaded from the aircraft.

Offloading Guests at AUH

Staff at the gate should check for any missing guests at least 20 minutes before departure and call the primary contact number located in the guest's CPR to check the location of the guest(s).

1. Make a PA for the missing guest in the boarding area and include their name.
2. Call the primary contact number located in the guest's CPR to check the location of the guest(s).
3. Inform the Aircraft Dispatcher of the missing guest, including details of any checked baggage.
4. The gate staff shall inform the SCCM to make a full name call (PA) onboard for the guest.
5. The missing guest's seat shall be physically checked and if occupied, the boarding pass and passport shall be verified and reconciled against the guest's name/seat number, shown as per the printout.
6. If the guest has been correctly identified as the guest who is not yet boarded in Altéa CM, the agent shall inform the boarding gate to subsequently board the guest manually in the system.
7. The Aircraft Dispatcher shall be immediately advised to ignore any baggage offloading details which may have been already passed on for the missing guest.

If the gate staff member is unable to go to the aircraft, they shall inform the Aircraft Dispatcher, for this check to be performed by the Aircraft Dispatcher.

Where the guest cannot be located and is confirmed not to be on board, airport staff shall seek confirmation from the Aircraft Dispatcher to offload the guest in the check-in system. Where the Aircraft Dispatcher confirms the guest shall be offloaded, airport staff shall:

1. Add the MPRT service to all guests with checked baggage that shall be offloaded. The MPRT service is not required for guests with no checked baggage.
2. Print the MPRT list only for missing guests with checked baggage and provide it to the Aircraft Dispatcher. For remote stands, the MPRT list shall be sent to the aircraft on the last bus, along with the On Board Service List (OSL) and Customer Weight and Balance.
3. Offload all missing guests and any applicable checked baggage in the check-in system and confirm the offload to the Aircraft Dispatcher.

4. Ensure the On Board Service List (OSL) is updated accordingly and the SCCM is informed. For minor changes (up to three items changed), these may be annotated manually prior to handing over the OSL to the SCCM. Coordinate this via the Aircraft Dispatcher, where applicable.

There is no requirement for the Aircraft Dispatcher to obtain the signature of the PIC.

Where a guest presents himself at the boarding gate after baggage offloading has commenced, gate staff shall contact the Aircraft Dispatcher to confirm whether the bags have been located and offloaded.

Where the bags have not been located or offloaded from the aircraft, the Aircraft Dispatcher may ignore the MPRT and request that the guest is accepted on the flight. In such cases, gate staff shall reinstate the passenger and bags in the DCS and board the guest accordingly.

NOTE

For ramp coordination procedures during passenger/baggage offloads at AUH, refer to GOM Chapter 10.3.8.1 (j) (3)

5.9 OFFLOAD NOTIFICATION REPORTING SYSTEM (ONRS)

All Passenger Offload or Refusal Notifications are reported via the use of Offload Notification Reporting System (ONRS) within INTELEX.

These include three categories of Offload Notifications:

1. Passenger Offload Report (due to travel documentation, no show, service related, etc.)
2. Passenger Potential Offload (due to travel documentation)
3. Passenger Refusal Report (due to travel documentation)

Reports shall be created as per the location requirements in the table below:

Location	Report Type
AUH HUB & Network Airports Boarding Gate	Passenger Offload report
AUH HUB & Network Airports Check-in	Passenger Refusal report
AUH HUB (Clearance granted by destination authorities and guest boarded)	Passenger Potential Offload report

For AUH HUB and Network Airports, ONRS of the offloaded/refused passenger is optional and shall be created where required by Guest Control due to rebooking purposes or local station requirements.

ONRS shall be created for all counter refusals/offloads due to travel documentation or APP. Where a passenger is required to be rebooked or rerouted to the applicable destination, ONRS sends an automated email notification, which includes but is not limited to the following recipients:

- Guest Control
- Abu Dhabi Transfer Desk
- Document Verification Unit (DVU) Operations, AUH
- Regulatory Compliance Unit, NOC
- Applicable network airports

When Guest Control updates the ONRS report with the ticket details, if the category is “Fraud”, this generates an automated email to the Crew Briefing Officers, who shall forward the ONRS report (Category Fraud) to the operating SCCM and provide a printed copy which only involves offload location AUH.

Airport staff at AUH and Network Airports shall notify and handover the travel documentation to the SCCM of the flight prior to boarding where the passenger is being repatriated to. The travel documentation shall be held by the SCCM and handed over to airport staff at the station of repatriation.

Non-compliance to health documentation shall fall under all three report types:

- Passenger Offload
- Passenger Refusal
- Passenger Potential Offload (AUH HUB Only)

5.10 BOARDING DISCREPANCIES & DUPLICATIONS

It is mandatory that guests are boarded using the Altéa CM automated 2D barcode scanners boarding mode. This ensures quicker identification of discrepancies.

The benefits of using boarding gate readers effectively ensure:

- Guests have been boarded onto Altéa CM correctly.
- Seat changes after guests have left the check-in desk / actioned at the boarding gate and the guest is given an updated boarding pass.

If a seat is changed when the guest is not present, every effort shall be made to exchange the new boarding pass for the old one with the guest before the guest boards. In the event of a faulty printer, airport staff shall inform SCCM about any amendments done by hand on the boarding pass, providing them with the following details:

- Name of guest
- New seat number/ cabin

A document check for all guests shall also be made at the boarding gate to identify any discrepancies between the boarding pass and the passport.

The guest shall not be boarded until such a time as it is established that either:

1. They are the correct guest holding the correct boarding pass and that any other guest who may have boarded with the same seat number is identified, advised of the seat change and boarded in Altéa CM according to the correct seat number. The boarding pass shall

be reprinted to reflect the correct seat number, even if the guest has already boarded the aircraft. If reprinting is not possible, the boarding pass shall be amended by hand.

2. If they are holding the correct boarding pass but with a seat number that has since been changed in Altéa CM that they are issued a new boarding pass in exchange for the old one which shall be destroyed. If there is no boarding pass printer available at the gate, both portions of the existing boarding pass shall be amended by hand to reflect the new seat allocation in the system. The guest shall be boarded in Altéa CM according to the correct seat number.
3. If they are holding the correct boarding pass with the correct seat number, it shall be investigated as to whether a person had already boarded the aircraft holding the same boarding pass and/or seat number. If a guest has boarded with the same seat number, the procedure described in Note 1 shall be followed. If a guest has boarded holding an incorrect boarding pass, the error shall be identified, correct passenger details identified and the guest subsequently processed correctly. Any baggage discrepancies shall also be corrected and baggage retrieved and relabelled as appropriate. Crew and Load Controller/CLC must be notified of any last-minute changes to passenger and/or baggage load.

Any incidents involving boarding discrepancies shall be handled professionally and promptly to ensure that disruption is kept to a minimum both operationally and in terms of guest service.

5.10.1 Head count Discrepancies

- Check with the SCCM to establish if there are any seating discrepancies, such as seat dupes, on board
- Check the flight history to identify any guests who may have been offloaded after check-in
- Check for any seat changes that have been carried out after boarding
- As a last resort, ask the SCCM to perform a headcount to verify the TOB

5.11 GUESTS REFUSING TO TAKE THEIR ASSIGNED SEAT ONBOARD THE AIRCRAFT

In the event that a guest refuses to take their assigned seat onboard the aircraft, the following guidelines should be observed by the SCCM operating the flight:

- Should a guest have queries about their assigned seat at the point of entry (boarding door), the SCCM conducting the boarding should direct the guest to the Gate Staff / Airport Duty Supervisor / Delegate to address the issue.
- Should a guest board the aircraft and once at their assigned seat raise a concern in regards to his / her seat, the SCCM within the area will try to resolve the situation calmly. Should the guest become aggressive, or refuse to occupy their assigned seat, the guest will be asked to proceed with their belongings to the boarding door, asked to step outside of the aircraft and the issue addressed by the Ground staff away from the view of other guest where possible.
- Once outside of the aircraft, while the issue has been addressed, if no resolution is found, Ground staff will start locating the guest(s) checked baggage in case the guest(s) is offloaded and/or the aircraft is ready to depart.
- Arguments and discussions in the cabin should be avoided at all times.
- The SCCM will complete an Onboard Cabin Report (OCR) in coordination with Ground staff and the Commander.

If a dispute arises after the aircraft has commenced push-back and prior to the crew being seated for take-off, or if a guest attempts to upgrade their seat from a lower class cabin, the SCCM will direct the guest to return to their pre-assigned seat. If the guest refuses to follow the SCCM instruction, the Commander shall be informed. If the guest refuses to return to their pre-assigned seat on the Commander's instruction, the Commander should consider returning to the gate for offloading of the guest and their baggage.

NOTE

The SCCM and Cabin Crew will try to accommodate the guest prior to the doors closing. Doors cannot be closed prior to all guests being seated in their assigned seats.

While the aircraft is on the ground with the boarding door open, it is the responsibility of the Ground staff and Cabin Crew to resolve seating disputes for guests to take their assigned seats prior to door closure for departure.

5.12 CABIN BAGGAGE INTERCEPTED AT THE GATE

The following procedure describes the process for acceptance of any cabin baggage intercepted at the gate or aircraft cabin and loaded into the aircraft hold. This also includes duty-free items that require loading into the aircraft hold, items that have been removed from the possession of a guest by security personnel that are conditionally accepted for carriage in the aircraft hold, as well as excess carry-on baggage and other abnormal load items.

In **all** cases, the following shall take place:

1. Cross-check boarding pass against passport to ensure the guest is still holding his / her own boarding pass.
2. When cabin baggage cannot be accommodated in the passenger cabin, staff shall ensure that they bring to the attention of the guest that certain items which are permissible in the aircraft cabin are not permissible in checked baggage, e.g. spare lithium-ion batteries, mercury barometers, fuel cells and spare fuel cell cartridges for powering portable electronic devices. Such items shall be removed and carried in cabin baggage only. Additionally, advise the guest to remove from the intercepted bag any valuable items, travel documents, cash, medication required during the flight or any other items not suitable to be checked-in.
3. Check the bag in. At locations where it is possible to weigh the bag, apply the actual bag weight. Where weighing is not possible, a standard weight of **7 kg** shall be applied for each piece.
4. Tag the bag to the final destination as Gate Bag.
5. Explain to the guest where they should collect their bag and hand claim the portion of the tag to the guest.
6. Affix one peel-off portion of the baggage tag to the actual bag.
7. Affix another peel-off portion of the baggage tag to the Gate Bingo Sheet and complete the required details against the peel-off portion on the sheet.
8. Inform the Load Controller of any cabin bags intercepted where Altéa CM has not yet been updated with guest's baggage details.
9. Enter the baggage tag details against the guest record in Altéa CM including tag numbers (pieces and weight for all Etihad flights).

Last minute offloads of baggage from the cabin followed by the subsequent mandatory steps as described above can cause delays, therefore proper cabin baggage control from check-in and prior to boarding is important to avoid such situations.

The peel-off portion of the baggage label shall be affixed to a Baggage Bingo Sheet for all bags checked in at the gate, as well as any bags labeled at check-in and brought to the gate, e.g. strollers, personal wheelchairs/mobility aids, etc.

For remote stand departures, the Baggage Bingo Sheet shall be sent on the final bus from the gate to the aircraft to the person responsible for coordinating the aircraft turnaround.

Gate staff shall also call the person responsible for coordinating the aircraft turnaround and advise the final number of gate-checked bags as per the Baggage Bingo Sheet used at the gate to record all gate-checked bags, as soon as all guests have been boarded.

The Baggage Bingo Sheet which shall be used to record bags checked at the gate is available on the Etihad Global Airports SharePoint under 'Forms'.

At locations where bags checked in at the gate are scanned into a Baggage Reconciliation System (BRS) at the gate before dispatch to the aircraft, the Baggage Bingo Sheet is not required.

5.12.1 Checked at Gate Fee

A fee shall be charged when guests are required to check-in a bag at the gate due to carrying more than their cabin baggage allowance.

The fee does not apply for guests inbound from a US carrier on an interline journey, or for bags which are checked-in because there is not sufficient space in the cabin (but the guest isn't exceeding their allowance).

The fee shall only be collected via credit card at the gate. If the guest is unable to pay by credit card or processing the payment risks on-time departure, gate agents may waive this fee.

5.13 GATE OFFLOADS AND UPGRADES

In the event that a guest travelling in a premium cabin is offloaded at the gate, it is the responsibility of the gate staff to ensure that the regrade list is reviewed for any ticket holders eligible for a premium cabin.

For AUH departures, gate staff shall contact Flight Control Admin team to perform the upgrade.

For network airport departures, gate staff shall action the upgrade in Altéa CM.

5.14 MANUAL BOARDING

- As the guests board the corresponding sequence number on the boarding pass need to be marked off the Boarding Check Sheet
- The smaller portion of the boarding pass to be retained by guest
- The larger portion of the boarding pass to be retained by agents and counted
- For each guest boarded strike the appropriate security / sequence number on the Manual Boarding Check Sheet Sequence Chart
- Ensure the final checked-in count matches the boarded passenger count prior to door closure and prepare and board a final manifest

5.15 AIRCRAFT DEPARTURE DOCUMENTATION (GOM Ref. 1.4.7)

The following guest-related documents shall be delivered to the SCCM prior to departure for all passenger flights. For preliminary information prior to handover of the printed lists, the SCCM shall refer to the iPad:

5.15.1 Passenger Flights from Network Airports (GOM Ref. 1.4.7.1)

Altéa CM List (2 copies required)	Gates	Printing	Distribution
'On Board Service List (OSL) – Cabin Manager Specific' *	All gates	Print once check-in has been closed	To SCCM

- * If any last minute changes are made to the OSL after printing, a new copy of the OSL shall be printed and handed over to the SCCM. In case of minor changes (up to 3 strike-through), these may alternatively be annotated manually on the OSL prior to handing to the SCCM, provided the changes are also immediately reflected in the DCS.

Airports using manual procedures or DCS other than Altéa CM shall provide the equivalent of the above lists to the SCCM.

Any network airports requiring a copy of the inbound Post Departure Manifest for local authorities may retrieve it directly from Altéa CM, or use the Teletype Passenger Manifest (TPM) message received from the origin airport. Should the data be purged in the system, the request shall be forwarded to Business Solutions Centre (BSC).

Details recorded on aircraft departure documentation shall be accurate and legible on all copies.

5.15.2 Passenger Flights from Abu Dhabi (GOM Ref. 1.4.7.2)

Altéa CM List (2 copies required)	Gates	Printing	Distribution
'On Board Service List (OSL) – Cabin Manager Specific' *	All gates	Print once check-in has been closed	To SCCM
Customer Weight and Balance **	All gates	Print immediately after boarding completed	To Aircraft Dispatcher

- * If any last minute changes are made to the OSL after printing, a new copy of the OSL shall be printed and handed over to the SCCM. In case of minor changes (up to 3 strike-through), these may alternatively be annotated manually on the OSL prior to handing to the SCCM, provided the changes are also immediately reflected in the DCS.

- ** In case of any changes to the passenger load after the Customer Weight and Balance are printed, a new copy shall be printed reflecting the revised final loads.

At **bus gates**, the above lists shall be handed to the driver of the final bus by the gate agent. The Aircraft Dispatcher shall collect the lists from the bus driver and hand the OSL over to the SCCM. The Aircraft Dispatcher shall refer to the Customer Weight and Balance for verification of the final counts in Altéa CM.

At **contact gates**, the applicable printouts shall be handed to the SCCM and Aircraft Dispatcher by the gate agent.

Details recorded on aircraft departure documentation shall be accurate and legible on all copies.

5.16 BORDER CONTROL FORMALITIES

All guests embarking on an international journey shall be subjected to the following airline and border control departure formalities:

- Check-in procedures
- Documentation verification
- Airport security screening
- Immigration clearance
- Holding lounge facilities (if applicable)
- Boarding gate procedures (check travel documentation again)
- Aircraft boarding procedures

Guests who do not comply with the documentation, health and other regulations as required by the relevant authorities of the country to which they are destined shall be precluded from travel as they could be deported and/or repatriated to the country of origin along with penalties being imposed on the delivering carrier(s).

5.17 SAFETY AND SECURITY AT THE BOARDING GATE

All staff performing gate duties must remain vigilant whilst doors are open to the boarding bridge/ remote stand. The agent(s) performing boarding pass scanning at the BGR are responsible for ensuring that guests cannot pass behind them or follow any path other than directly to the aircraft door.

Gate setups that have large spaces between the BGR point shall be managed with tensa barriers and/or additional staff to ensure the integrity and security of the boarding process.

Any guest who wishes to de-board the aircraft must be escorted from the aircraft by a team member. In the case of de-boarding, the guest must be immediately deboarded in Altéa CM and shall be instructed to retain their boarding pass. The identity of the guest must be confirmed by performing a face-to-passport check.

Any guests returning to the boarding door must not be permitted to re-enter the terminal unless under escort, in accordance with local operating procedures.

Guests must comply with posted placards and team member instructions at all times. Any situation involving a potential breach of boarding integrity shall be reported to TAC.

Airport Teams must display the appropriate identification, such as Etihad Airways Employee ID and/or Airport Authority issued security pass. Remain vigilant and immediately report any suspicious behaviour to your supervisor or line manager.

5.17.1 Retrieving lost items after physical boarding in Abu Dhabi

In the event that a guest requests to leave the aircraft to retrieve items left behind at the boarding gate or terminal, retrieval shall be limited to the following essential items only:

1. Wallets
2. Passports / Travel Documents
3. Medicines
4. Mobile Phones or Electronic Devices

Prior to any guest disembarkation, ground staff must sweep the boarding gate holding area to confirm whether the reported item is present.

In such cases, the following shall apply:

Aircraft on contact stand

- SCCM or Cabin Crew shall inform the assigned aircraft dispatcher and notify the reason for guest disembarkation.
- Aircraft Dispatcher shall contact the Ground staff and advise about the request.
- SCCM or Cabin Crew should inform the guest that disembarkation may only be possible once boarding is completed, and shall advise the guest to take all personal belongings upon disembarkation. The Cabin Crew shall then conduct a security check of all areas to which the guest had access.
- In the event that the guest requests ground staff to collect the item from the gate holding area, the Cabin Crew shall explain that, due to security reasons, they have to collect the items personally.
- Ground staff shall escort the guest from the aircraft, in the gate holding area and until the guest returns to the aircraft.
- Should the item be left behind outside the boarding gate holding area, and the guest wishes to retrieve it, the ground staff shall deboard the guest in the system. If the guest does not return to the gate on time, the standard offloading procedure will be initiated.

As a proactive approach, after boarding the last passenger, ground staff will sweep the boarding gate holding area for any left behind items and inform SCCM of any findings. However, ground staff are not allowed to touch or carry any passenger items due to security reasons.

Aircraft on remote stand

- SCCM to inform the guest that, as the aircraft is parked at a remote stand, the offload procedure shall be initiated.
- SCCM shall also advise the guest to take all personal belongings upon disembarkation, and cabin crew shall conduct a security check of all areas to which the guest had access.

6 SPECIAL CATEGORIES OF PASSENGERS (SCP)

6.6.3 Passenger Risk Assessment Form (GOM 10.2.20.3)..... 57

6.7 **PASSENGER UNRULY/DISRUPTIVE BEHAVIOUR OR
INTERFERENCE ON THE GROUND (GOM 10.6.1.3).....57**

6.1 PERSONS WITH DISABILITIES (PWD) AND PERSONS WITH REDUCED MOBILITY (PRM)

6.1.1 Overview

Guests are requested to advise of their needs at the time of reservation, with advance notification required for the following, subject to acceptance and approval:

1. Guests traveling on a stretcher
2. The use of oxygen on board and the use of a personal portable oxygen concentrator, ventilator or respirator on board
3. The carriage of an incubator

A person with reduced mobility is understood to be a person whose mobility is reduced due to physical (locomotory or sensory) or intellectual deficiency, age, illness or any other cause of disability and who needs some degree of special accommodation or assistance over and above that provided to other guests. This requirement will become apparent from special requests made by the guest, their family, a medical authority or reported by company personnel or industry-associated persons (travel agents, etc.).

For guests with disabilities and those requiring or requesting assistance the below shall be followed:

1. Ask the guest what assistance they require and how you can help them
2. Advise guests what services and assistance are available based on their needs.
3. Advise the guest of available equipment such as on board wheelchairs, Braille or tactile markings, accessible lavatories
4. Provide information to guests in alternate formats upon request
5. Ensure accurate SSR codes and any other relevant information are recorded in Altéa CM.

There is no limit to the number of guests with a disability who may travel on a flight.

On any flight identified as carrying a significant number of guests with special service requests under the categories WCHC, MEDA, BLND (with no escort), and/or any other guests who declare themselves as being unable to assist with their own emergency evacuation, an assessment by airport teams shall be made to ensure that:

1. The number of guests unable to assist with their own emergency evacuation does not exceed the number of Able-Bodied Persons (ABP) capable of assisting with an emergency evacuation
2. Airport teams shall assess guests in the WCHC category as per Chapter [6.1.7](#) to determine whether a Safety Assistant is required.

Within the context of this procedure, an ABP is defined as a person who meets all of the following requirements:

1. is 18 years old or above;
2. does not have any physical and/or mental disability and/or reduced mobility that may prevent them from assisting themselves and others in the event of an emergency;

3. has no other role or private responsibility that may prevent them from assisting themselves and others in the event of an emergency. For example, an ABP travelling alone has no other role or private responsibility, unlike a family travelling together with younger children or pets.

6.1.2 Classification

Guests with disabilities are classified into various groups distinguished depending on the declared disability, medical status or the special assistance requested.

WCHR wheelchair (R for Ramp)	Wheelchair assistance required; guest can walk short distance up or down stairs.
WCHS wheelchair (S for Steps)	Wheelchair assistance required; guest can walk short distance, but not up or down stairs.
WCHC wheelchair (C for Cabin)	Wheelchair required; guest cannot walk any distance and will require the aisle chair to board.
STCR	Transport in the aircraft on stretcher
DEAF	Guest who is deaf, or deaf without speech.
BLND	Guest is blind (may be accompanied by a guide dog)
DPNA	Guest is disabled with intellectual or developmental disability needing assistance
MEDA	Guest with medical condition or needing oxygen during the flight but can be transported on a normal seat

Airport teams shall ensure that the above conditions are met and the guest is able to comply.

6.1.3 Guests with Visual or Hearing Impairments

Guests who identify themselves as having a visual or hearing impairment shall be provided with access to the same information provided to other guests.

Ensure accurate SSR codes and any other relevant information are recorded in Altéa CM.

A medical certificate or medical clearance is not required. However, the relevant medical details shall be entered into the PNR through the Service Info field alerting the cabin crew and airport teams that the guest is visually or hearing impaired.

The guest may not be seated at a designated exit door or in the row in front or behind such an exit. Do not automatically assign the guest a bulkhead seat.

If traveling with a reader/interpreter they shall be seated next to the guest.

6.1.3.1 Guests with Visual Impairment

When assisting visually impaired guests, staff shall follow the below guidelines:

- Ask but don't assume what the guests needs are

- Introduce yourself and explain what you will be doing
- Verbalise and describe your actions
- Offer your arm, you may ask which side they prefer you walk, on the left or the right side regardless if the guest has a guide dog

When guiding the blind person to their seat, place their arm on the arm or back of the seat, so that they know which way the seat is facing.

If the guest prefers to be guided, let him or her hold your arm. Stay about a half step ahead of the guest so that he or she is prepared for turns, steps, etc. Caution the guest of an escalator, moving walkway, ramp, or steps before you approach it.

Wheelchairs, electric carts and other devices are usually not appropriate for assisting blind guests. Most blind people are skilled at navigating their surroundings, either with or without assistance, and prefer to do so.

If the guest has a cane, stow it in one of the following areas:

- In an approved stowage compartment
- On the floor secured between a non-emergency exit window seat and the wall of the aircraft
- Beneath any two non-emergency exit window seats, if the cane is flat on the floor
- Under a series of guest seats in the same row of the aircraft as long as the cane does not protrude into the aisle

6.1.3.2 Guests with Hearing Impairment

Where possible use visual and written information to communicate with the guest. If the guest uses lip reading, ground staff shall use normal speaking tone, speak rather slowly, keep the hands away from the mouth and maintain eye contact with the guest.

6.1.4 Guests with Reduced Mobility

Guests with mobility problems, e.g. guests with fractured legs in plaster, paraplegics, etc. shall be accommodated in seats allowing the maximum space for their comfort, or space for leg support devices with the least possible disturbance to guests in adjacent seats. Limbs in plaster casts shall not obstruct the aisle or emergency exits.

Guests with a physical condition e.g. fractured leg should be accommodated in either a bulkhead seat, non-exit row seat or on a standard seat with a free adjacent seat, where possible.

If a guest's special needs were not communicated at the time of booking or is identified with reduced mobility upon departure, all reasonable efforts shall be made to accommodate the guest. The relevant SSR code and comment shall be updated in Altéa CM.

If crutches, canes and similar walking aids are stored in a special location in the cabin, the users of such aids shall be assigned seats which will permit quick access to the aids when needed.

Guests with disability or PRM affecting only one side of their body (hemiplegics, artificial limb, arm or leg in cast, splint or brace, etc.) should be seated in an aisle seat with the unaffected side of their body towards the aisle; this will facilitate their mobility in cases of emergency.

Groups of PRMs shall be seated in subgroups in order to enable a rapid flow of other guests during an evacuation.

6.1.4.1 Passengers Unable to Assist Themselves in Emergencies

- a. There is no limit to the number of passengers with a disability who may travel on a flight.
- b. On any flight identified as carrying a significant number of passengers with special service requests under the categories WCHC, MEDA, BLND (with no escort), and/or any other passengers who declare themselves as being unable to assist with their own emergency evacuation, an assessment by airport teams shall be made to ensure that:
 1. the number of passengers unable to assist with their own emergency evacuation does not exceed the number of Able-Bodied Persons (ABP) capable of assisting with an emergency evacuation
 2. The declaration made by the guest on the 'Questionnaire for PRM' is completed and reviewed by airport teams to determine whether a Safety Assistant is required.
- c. Within the context of this procedure, an ABP is defined as a person who meets all the following requirements:
 1. is 18 years old or above;
 2. does not have any physical and/or mental disability and/or reduced mobility that may prevent them from assisting themselves and others in the event of an emergency;
 3. has no other role or private responsibility that may prevent them from assisting themselves and others in the event of an emergency. For example, an ABP travelling alone has no other role or private responsibility, unlike a family travelling together with younger children or pets.

6.1.4.2 Accompanying Attendants

6.1.4.2.1 Personal Care Attendant

Guests who are not self-reliant shall be strongly recommended to travel with a Personal Care Attendant who is fully familiar with the physical condition of the guests' disability and capable of attending to the guests' in-flight needs such as medical procedures, feeding, assistance in using the lavatory facilities and in case of delays and flight irregularities.

At the time of check-in, airport teams shall confirm with the guest whether they can perform the following personal functions:

- a. Capability to feed themselves
- b. Capability to take care of their own needs within the lavatory
- c. Capability of administering own medicine and medical procedures

If a guest is unable to comply with any of the above conditions, they shall ideally travel with a Personal Assistant. If a Personal Assistant is not accompanying the guest, they shall not be denied boarding and the airport teams shall inform the guest that cabin crew are not in a position to assist them to perform any of these activities and they shall look after their own needs.

The personal care attendant shall be seated next to the guest.

6.1.4.2.2 Safety Assistant

A Safety Assistant is an able-bodied person who will assist a guest with disabilities to exit the aircraft in case of an emergency evacuation, or establish communication with cabin crew for

purposes of the required safety briefing. The Safety Assistant shall be seated next to the guest. If several PRMs are to be accompanied, the Safety Assistant shall be seated in the same row. If space is not available in the same row, then in the row immediately in front or behind shall be used.

Concern that a guest with a disability may need personal care services (e.g. assistance in using the lavatory facilities or with eating) is not a basis for requiring the guest to travel with a Safety Assistant. A Safety Assistant is not a personal care attendant who looks after the personal care needs of the passenger.

The SCCM shall be advised by the ground staff of any Safety Assistants travelling on the flight.

WCHC guests such as paraplegic, quadriplegic, guest walking on crutches etc. can be accepted without a Safety Assistant provided that airport teams are satisfied that the guest can physically assist in their own evacuation. Airport teams shall take into consideration the declaration made by the guest and their evaluation prior to accepting any guest without a Safety Assistant.

A Safety Assistant shall accompany the following guests:

- a. **Stretcher case** - The Safety Assistant shall also be capable of attending to the medical needs of the passenger
- b. **Severe mental disability or impairment** (guest is unable to comprehend or respond appropriately to safety instructions)
- c. **Severe mobility impairment** so severe that the person is unable to physically assist in his or her own evacuation (for example, calling for help does not meet the required physical ability)
- d. **Both severe hearing and vision impairments** e.g. deaf-blind (if the guest cannot establish some means of communication that is adequate to permit transmission of the safety briefing and to enable the guest to assist in his or her own evacuation of the aircraft in case of an emergency)

Contrary to the individual's self-assessment that he or she is capable of travelling without Safety Assistant, if airport teams are of the view that the guest meeting the criteria of paragraph (b), (c) or (d) above shall travel with a Safety Assistant, the matter shall be brought to the attention of the Etihad Airport Manager or delegate.

For flights to and from the United States, the matter shall be brought to the notice of the CRO immediately for resolution. The CRO's decision to accept the guest for travel without a Safety Assistant can only be reversed by a determination made by the Commander based on the safety of the aircraft and its guests.

When evaluating a guest's self-assessment for travel, it is critical that credible and verifiable facts must be considered to ensure the person's actual condition is established.

6.1.4.2.3 In-flight Complaints

In the event a guest with disabilities experiences issues while at the airport, the matter shall be brought to the attention of the Duty Supervisor / Delegate. Complaints raised on board shall be forwarded to the airport teams on arrival at the next Etihad Airways destination.

For flights to and from the United States, the guest shall be informed of his right to contact a CRO. The SCCM shall inform the Commander, who will in turn notify NOC via ACARS. In addition, the SSCM shall complete an On-board Cabin Report (OCR). Upon arrival, the airport team members name and staff number shall be recorded on the SCCM copy of the report which

shall be addressed to Guest Relations and a copy of the OCR for airport teams to follow up with the assigned CRO.

6.1.5 Guests with Disabilities Travelling on US Itineraries

Airport teams shall be reminded that United States law and Etihad policies require that Etihad provide assistance to guests with disabilities and resolve any disability-related complaints in a timely and satisfactory manner.

If an airport team member is unable to assist a guest with a disability or there is a question regarding Etihad's assistance for disabled passengers policies, for guests traveling on itineraries involving the United States (traveling to or from the United States) Etihad has Complaints Resolution Officials (CRO) that are available to assist.

All staff members employed by Etihad at airports in the United States are trained as CROs. In addition, many staff members employed by Etihad in AUH Hub are also trained as CROs. In the event that a guest traveling on a United States-related itinerary makes a disability-related request that cannot be resolved, staff should request assistance from a CRO. In case of any doubt, staff should immediately request assistance from the Duty Supervisor / Delegate or Airport Manager.

The CRO will then assist the guest and attempt to resolve the issue. If the issue is not resolved to the guests' satisfaction, the CRO shall make a report of the complaint and provide the guest with a copy of such report.

6.1.5.1 Complaints Resolution Official (CRO)

AUH Hub Operations Team serves as the nominated 24/7 airline Complaint Resolution Official (CRO), consisting of Hub Operations Managers (HOM), Etihad Ground Operations Duty Managers (GODM), Duty Supervisors, Etihad Lounge Manager and Spa, and Etihad Lounge Supervisors, who are certified to perform the CRO function and to support all airports in compliance with U.S. Department of Transportation (DOT) Part 382 requirements.

In all US airports, Etihad employees are trained as a CRO and shall fulfil this function locally, or this may be delegated to an appropriately trained GHA employee.

Where a trained CRO is not physically available at the airport, the Etihad ground representative shall contact the AUH Hub CRO team using the dedicated phone number.

AUH Hub CRO Team (24/7)

Primary Tel (GODM): +971 54 2066698

Secondary Tel (HOM): +971 54 2066695

Email: GODM@etihad.ae

The contact information is strictly for internal use and must not be disclosed to guests under any circumstances.

At Abu Dhabi, all internal communications with the CROs may be sent to the AUHCRO@etihad.ae distribution list.

Upon request for assistance, the applicable CRO shall assist the guest and make all attempts to resolve the issue. The CRO shall take a report of the complaint and provide the guest with a copy of the report in the following scenarios:

- The complaint relates to a violation of 14 CFR part 382 and the CRO agrees
- The CRO has determined the incident did not result in a violation of 14 CFR part 382
- The guest has been denied boarding for reasons directly related to his or her disability

The CRO's decision to accept the guest for travel without a Safety Assistant can only be reversed by a determination made by the Commander based on the safety of the aircraft and its guests.

CRO responsibilities applicable to guests with disability, include:

- Determining whether there is a basis for refusing to provide transportation to a guest with a disability by making an individualised assessment based on reasonable judgment that relies on current medical knowledge or on the best available objective evidence
- Assisting and resolving operational concerns or issues related to PRMs and PWDs
- Reporting all unresolved CRO complaints or refusals for carriage to Guest Relations for follow up
- Ensuring that a copy of the 14 CFR Part 382 is available on station in the event a guest requests it for review (copy available via Etihad Global Airports SharePoint and Sharefile). An electronic copy can be found [here](#).

NOTE

A CRO does not have the authority to countermand a decision by the Commander of an aircraft based on safety reasons.

6.1.5.1.1 Communication Flow of CRO Complaints

CRO's shall complete the below form when handling all disability related complaints and furnish any supporting evidence to ensure accuracy in the series of events.

Complaints Resolution Official Statement

Where a dispositive statement is required, it must be prepared and submitted to the guest within 10 days by a certified CRO within Airport Services Policy team, indicating the reason for refusal of carriage. For verbal or written complaints that do not involve a refusal for carriage, the response shall be provided within 30 days.

The written response shall specifically admit or deny whether a violation has occurred, and shall inform the complainant (guest) of their right to pursue DOT enforcement action under 14 CFR Part 382.

In addition, the CRO shall forward the following documents to Guest Relations:

- a. Copy of the Complaint Resolution Official (CRO) Statement, including any comments made by the guest(s) and associated facts
- b. Contact Details for the guest
- c. Any relevant supporting documentation

The CRO shall ensure the title of the email contains "CRO Complaint" and address to GCRDutyManagers@etihad.ae

6.1.6 Guest Self Assessment for Travelling Without a Safety Assistant

In case of disagreement with a guests' self-assessment that he or she can travel without a Safety Assistant, the guest shall never be challenged or asked to demonstrate ability to conduct certain functions.

If the decision of the CRO is to require the presence of a Safety Assistant, the following procedure shall be followed:

1. Airport teams shall source a volunteer guest on the flight who would be willing to act as a Safety Assistant. Duty staff travellers, deadheading crew or able bodied passenger (ABP) would be suitable for this purpose
2. In the event that there are additional cabin crew (over and above the minimum required cabin crew) one may be seated next to the guest for take-off and landing and serve as a Safety Assistant. The Commander shall also be informed
3. If the above actions cannot be fulfilled:
 - a. **Flight to/from a US airport:** - a Safety Assistant sourced by the guest shall be transported free of charge but in such situations the Safety Assistant will be required to return to the origin on the first available flight
 - b. **All other flights** - a Safety Assistant sourced by the guest, the additional seat shall be charged to the guest or safety assistant

If there is no spare seat available for the Safety Assistant, the guest shall be denied boarding, the applicable Denied Boarding Compensation shall be provided and the guest and safety assistant shall be rebooked on the next available flight.

If a PRM is travelling without an Accompanying Personal Care Assistant or Safety Assistant, the questions in Chapter 6.1.7 shall be verbally asked by either the CRO or staff member at the time of acceptance to establish the guests' mobility. Note the Personal Care Assistant and Safety Assistant can be the same person subject to meeting both criteria.

In the event a guest is not permitted to travel without a Safety Assistant:

- CRO or Duty Supervisor / Delegate shall assist to provide additional support to the guest, explain the reason for the refusal and resolve any potential verbal complaints
- CRO or Duty Supervisor / Delegate shall request the guests' contact details in addition to completing a "Complaints Resolution Official Statement". A CRO within the Airport Service Policy team shall then issue a written response to the guest explaining the facts supporting the guest's refusal for travel
- CRO shall complete the "Complaints Resolution Official Statement" and forward a copy to Guest Relations on the same day as the refusal via email

6.1.7 Assessing Guest Mobility

All guests with reduced mobility shall be treated with care and respect to ensure their needs are catered for and understood.

In the event of guests reporting for check-in having failed to make known their infirmity at the time of making their reservations, and it is apparent that they are fit for travel by air, it is important that the check-in agent enters the full details concerning such guests into the system. The relevant details will appear on the list which is handed to the cabin crew prior to departure of a flight and enable downline stations involved to draw the relevant information when required. In the event of an off-line station, it will be necessary for the departure station to send a suitable message in this regard.

	GUEST SERVICES MANUAL SPECIAL CATEGORIES OF PASSENGERS (SCP)	Chapter: 6 Page: 13 of 60 Rev: 37 Date: 25 May 2026
--	---	--

It remains the duty of the airport teams to assist departing guests to the entrance of the aircraft where cabin crew will take over. In case of arrivals, it will be the responsibility of cabin crew to assist disembarking guests to the aircraft door where airport teams will take over.

The following questions shall be verbally asked at the time of airport check-in to any WCHC guest:

Questions to be read to guest:	YES	NO
Q1. In the unlikely event of an emergency, will you be able to evacuate unassisted?		*
Q2. Are you able to take care of your personal needs within the lavatory, eating and medication (if applicable) whilst on-board? NOTE: Cabin crew cannot assist within the lavatory, administering medicine or feeding		**
Q3. Are you able to breathe for the length of the flight without additional oxygen, an incubator or other assistance? NOTE: If oxygen required, MEDIF is required		**
* Requires a Safety Assistant <i>(If guest disagrees, they shall not be challenged or denied travel, a CRO must be contacted)</i>	Safety Assistant must be an able-bodied passenger (ABP), 18 years or above, no physical and/or mental disability or other role (e.g. travelling with younger children or pets) preventing them from assisting others in event of an emergency Refer to Chapter 6.1.6 for further info on sourcing a safety assistant	
** Recommend travelling with Personal Care Attendant	If a Personal Care Attendant is not travelling with the guest, they shall not be denied travel. Inform the guest that cabin crew are not in a position to assist them to perform above activities and that they shall look after their own needs.	

Upon confirmation of the above questions, an appropriate comment shall be added in Altéa CM e.g.

- **WCHC QUESTIONS CONFIRMED - GST STABLE**
- **WCHC QUESTIONS CONFIRMED - GST TRAVELLING WITH ABP IN 16C**
- **WCHC QUESTIONS CONFIRMED - GST RECOMMENDED TO TRAVEL WITH PC ATTENDANT**

NOTE
It is a mandatory requirement that the appropriate comment above is added in Altéa CM, to ensure that the Cabin Manager/Supervisor can confirm on their iPad that the questions have been asked to the guest

CRO FORM

A sample of the Complaints Resolution Official Statement (CRO) is shown below and is stored on the SharePoint Safety and Quality site:

[Complaints Resolution Official Statement EY429](#)

6.1.7.1 Seat Allocation

Guests shall not be allocated nor occupy seats where their presence could:

1. Impede the emergency evacuation of the aircraft
2. Impede the crew in their duties
3. Obstruct access to emergency equipment

Guests with physical or mental disabilities and guests with reduced mobility (PRM) plus one accompanying guest will be entitled to free of charge seating at the time of reservation and/or at the airport if the guest proactively states that they are entitled.

6.1.7.2 Free Seating for Guests with Disabilities

Guests travelling with the below SSR codes will have the ability to select a Standard Seat free of charge in Manage Booking, during the online check-in flow and at the airport:

- DPNA
- DEAF
- BLND
- WCHC
- WCHS

Please note that seat selection for WCHR will remain chargeable. Guests with a cast or prosthetic leg and guests travelling with service animals requiring extra legroom seating shall arrange this prior to arriving at the airport through the Contact Centre.

The on-shift Complaints Resolution Official (CRO) is responsible for ensuring that we comply with the necessary requirements for guests travelling to and from the United States. Airports without an on-shift CRO can contact the AUH Hub CRO Team for assistance.

If a guest arrives at the airport and Standard Seating is no longer available for selection, airports can allocate an Extra Legroom seat free of charge. Paid seating shall only be used if Standard Seating is no longer available or if the guest is physically unable to sit on an Economy Standard seat and is not to be proactively offered.

Any paid seating that is waived for guests with disabilities shall be waived using "FOC Seating XXXX (e.g.: DPNA/ DEAF/BLND, etc.)" as the free text remarks.

6.1.8 Boarding

Guests with disability and PRMs who self-identify as needing additional time or assistance to board shall be offered pre-boarding.

A guest with a disability or PRM shall never be hand-carried when boarding onto or disembarking from the aircraft, even if the guest consents, except during an emergency evacuation. The guest shall not be left unattended by the personnel responsible for enplaning, deplaning, or connecting assistance in a ground wheelchair, boarding wheelchair, or other device in which the guest is

not independently mobile for more than 30 minutes. This requirement applies even if another person (e.g., a family member or personal care attendant) accompanies the guest unless the guest explicitly waives the obligation.

For guests using their own wheelchairs, the wheelchairs shall be taken at the departure gate and loaded in the hold of the aircraft by the ramp agents after the guest has been seated

1. Cabin crew will be able to verify that the guest's condition is stable by checking the comment on the boarding stub, e.g. WCHC
2. Any WCHC guest accepted for travel at any Etihad station **SHALL NOT** be offloaded at a subsequent station unless their medical condition has deteriorated
3. Should there be any doubt about the guest's medical condition, ground staff shall contact MedLink. The cabin crew shall contact MedLink if gate agents do not have access

6.1.9 Refusal of Transportation

Guests shall not be refused travel unless there is a legitimate reason for refusal, as per Etihad policy.

A guest with a disability shall not be refused transportation on the basis that the person's disability results in appearance or involuntary behaviour that may offend, annoy or inconvenience crew members or other guests.

PRM and/or MEDA cases may be refused travel based on the General Conditions of Carriage (Right to Refuse Carriage) and where one of the below reasons is applicable:

- The guest has such a degree of physical infirmity that the trip would likely result in complications (e.g. diversion) or death
- The guest requires individual nursing or care during the flight, if not accompanied by a suitable escort
- The guest fails or refuses to submit themselves to Etihad's specific conditions of carriage
- Information is required about the guest's medical condition (diagnosis) where the guest's own physician refuses to disclose such information
- The guest has a contagious disease
- The guest who, because of his/her physical or medical condition, poses a direct threat to the health or safety of other passengers, their property, the aircraft or crew that cannot be eliminated by providing additional aid or services or by other means (e.g. face masks, separate seating).

In determining whether an individual poses a direct threat an individualised assessment shall be made based on reasonable judgment that relies on current medical knowledge or on the best available objective evidence, to ascertain the nature, duration and severity of the risk; the probability that the potential harm to the health and the safety of others will actually occur; and whether reasonable modification of policies, practices and procedures will mitigate the risk.

The questions outlined in Chapter 6.1.7 shall be verbally asked at the time of acceptance to establish the guest's mobility.

If the guest is refused transportation, Guest Response shall ensure that a written statement setting out the reasons for refusal (with reference to the General Conditions of Carriage) is provided within 10 calendar days of the refusal of transportation.

Etihad policy shall be applied with respect to rebooking to a later date, and/or making all efforts to accommodate the guest on the next possible flight, if applicable, or refund of the ticket.

6.1.9.1 Refusal of Transportation by Pilot in Command

Airport teams shall inform the SCCM who in turn shall inform the Commander about the presence on board of any guest with disability or who requires special assistance on-board. If deemed necessary the Commander may request a medical evaluation by a qualified physician or Medlink.

The CRO's decision to accept a guest with a disability to travel without a Safety Assistant can only be reversed by a determination made by the Commander based on the safety of the aircraft and its guests.

The Commander has the authority to refuse carriage or to offload any guest if the guest acts in a manner that raises legitimate questions as to whether he or she poses a risk to the safety of the flight. In exercising this authority, the Commander shall not discriminate against any guest with a disability on the basis of such disability.

The decision to offload the guest shall be reasonable and justifiable to avoid liability to the airline.

When transportation is refused by the Commander to a guest with disability:

1. The Commander shall provide an iReport explaining the facts of the refusal, and shall state if the refusal was against the advice of the CRO
2. The CRO shall document the circumstances of the refusal on the CRO Statement form, including the fact that the guest was refused transportation by the Commander
3. A CRO within the Airport Service Policy team shall provide the guest with a written statement with the reason for refusal, within 10 days of the event

In order to assist the Commander in the proper exercise of their authority, all company personnel engaged in guest handling and loading, including other crew members, handling agents and check-in personnel, shall alert the Commander if at any time they consider that the condition of a particular guest could jeopardise the safety of the flight.

6.1.10 Cabin Crew Responsibilities

Cabin crew shall perform the following tasks when requested by a guest with disability or when offered and accepted by the guest:

1. Assistance in moving the guest to and from an aisle seat (fitted with a movable armrest) as part of boarding and disembarking process using appropriate transfer techniques
2. Assistance in identifying and opening food and beverage packaging (not actual feeding)
3. Assistance with the use of the on-board wheelchair to enable the guest to move to and from the lavatory including transferring from a seat to the wheelchair if requested
4. Assistance to a semi-ambulatory person in moving to and from the lavatory, not involving lifting or carrying the person
5. Assistance in stowing and retrieving carry-on items and assistive devices stowed in the cabin (wheelchair / crutches / walkers / canes, etc.)
6. Ensure that guests with visual or hearing impairments receive the same information as others in a timely manner. This includes details about flight safety, take-off and landing procedures, weather conditions at the destination, on-board services such as beverages and meals, and any changes to the flight schedule or aircraft. Also provide information on

diversions, connecting gates, and emergencies such as fires or bomb threats, as long as sharing this information does not compromise their safety duties.

7. In case of receiving a written or verbal complaint on-board, SCCM shall complete an OCR addressed to Guest Response and include the following key points:

- Summary of facts (event on-board)
- Action taken to resolve the issue
- Persons involved (staff and/or guests)

Cabin crew are not required to perform any personal care functions including the following activities:

- a. Assistance in actual eating or drinking
- b. Assistance within the restroom or assistance at the guest's seat with elimination functions
- c. Provision of medical services

6.1.11 Medical Clearance Procedure

The Medical Information Form (MEDIF) is a form used to assess guests requiring assistance.

- a. In the event a **Medical Information Form (MEDIF)** shall be completed, the following shall apply:
 1. MEDIF shall be submitted along with a recent medical report, completed by the guest's treating physician within the **14 days** prior to departure
 2. The two forms shall be submitted to the MEDA Department (meda@etihad.ae) at least **72 hours** prior to departure
 3. The forms shall be easily understood and written in English or Arabic ONLY
- b. Approval to travel is determined by the Etihad Medical Centre and communicated via the MEDA Department by the issuance of an Etihad Medical Certificate.
- c. The medical clearance will be required for guests:
 1. Who require a stretcher
 2. Who request Etihad Airways to provide in-flight oxygen at a pre-determined level, or who are using their own Portable Oxygen Concentrator (POC) or ventilator / respirator
 3. Who appear to have a communicable disease or condition that could pose a direct threat to the health and safety of others on the flight
 4. Whose medical condition is such that reasonable doubt exists that they can complete the flight safely without requiring extraordinary medical assistance; this includes but is not limited to Guests who:
 - i. Suffer from unstable medical conditions (physical or psychological)
 - ii. Suffering from acute medical conditions such as recent heart attack, heart failure, stroke, embolism, respiratory failure, recent surgery
 5. Requires the use of battery powered medical equipment or needs to undertake any medical procedure during the flight e.g. administering injections
 6. Suffers from thrombophlebitis

7. Are travelling with an infant aged 7 days or less or a premature infant (who does not require an incubator) or an infant with a medical condition
8. An Unaccompanied Minor with a medical condition

NOTE

Certain guests who require special assistance may not be required to provide medical clearance, for example:

- Guests with simple fractures
- Guests with reduced mobility due to age
- Visually or hearing impaired guests
- Guests with mental health issues

- d. Applicable SSR codes, special requirements and escort requirements (where applicable) shall be verified and recorded in Altéa CM through the relevant services and comments.
- e. Check that additional needs have been communicated via the respective SSR codes and entered into the DCS and PNR, and verify if escort requirements are fulfilled, if applicable.
- f. Guest must be holding either a full revenue or confirmed staff ticket. Staff tickets on a space available basis are not acceptable. If the guest is being escorted by a nurse, only commercial tickets are acceptable for both parties.

The MEDIF form is available on the Etihad Airways website

6.1.12 Medical Portable Electronic Devices

6.1.12.1 Continuous Positive Airway Pressure (CPAP) or Bi-Level Positive Airway Pressure (BIPAP) Device

Positive Airway Pressure (PAP) is a method of respiratory ventilation used primarily in the treatment of sleep apnea, a disorder where the patient has noticeable deep snoring; this device eases breathing by opening airways during sleep.

6.1.12.2 Carriage and Usage Rules for CPAP and BIPAP

- a. Etihad Medical Certificate is NOT required;
- b. The device should display a manufacturer's label that indicates it has been tested to meet applicable FAA requirements for medical portable electronic devices, or otherwise accompanied by an FAA compliance letter from the manufacturer;
- c. The maximum weight and dimensions (Length, Width, Height) of the device shall not be larger than the allowed cabin baggage limits so that it does not block the aisle way or the entryway into the row;

- d. The device (except if handheld) shall be stowed during critical phases of flight including taxiing and turbulence
- e. Battery-powered and electrically-powered devices are permitted, however the following requirements and restrictions shall apply:
 1. If using in-seat power, the necessary power adaptors shall be carried by the guest.
 2. On below aircraft where in-seat electrical power is not available, usage is restricted to battery power:
 - Economy on the A320
 - Economy on all A321 except A321neo ACF A6-AER, S
 - Business on A321neo A6-AEQ
 - Economy on A350
 - The Residence bedroom on the A380
 - Economy on B787 - A6-BNE, F, G, H, I, J, K, L
- f. The device shall be used only at a seat location that does not restrict any guest's access to, or any required emergency or regular exit, or the aisle(s) in the cabin; and the user is not permitted to sit in an exit row
- g. The Commander shall be informed whenever a guest brings and intends to use a CPAP/ BIPAP device on board
- h. For battery-powered devices, refer to Chapter 6.1.12.6 for battery requirements and other details.

WARNING

CPAP/BIPAP device may only be plugged in when in use and shall not be plugged in to charge the device. The use of extension cables is not permitted.

6.1.12.3 Portable Oxygen Concentrator (POC)

A Portable Oxygen Concentrator (POC), also called a Portable Concentrator, is a portable device used to provide oxygen therapy to a patient at substantially higher concentrations than the levels of ambient air; POC treats low oxygen levels in the blood.

These devices may be carried and used by a passenger onboard an aircraft provided that certain safety conditions and device(s)' operating requirements are followed.

For battery-powered devices, refer to Chapter 6.1.12.6 for battery requirements and other details.

When accepting a guest traveling with a POC, airport staff shall use the Wheelchair & Oxygen Acceptance App as described in Chapter 6.1.13.4.

Approved Devices

The following battery powered POC models, **whether or not they are labelled**, are FAA approved for use onboard Etihad aircraft, however this list is not exhaustive:

1	AirSep Focus	13	Invacare Solo2
2	AirSep FreeStyle	14	Invacare XPO2
3	AirSep FreeStyle 5	15	Oxilife Independence Oxygen Concentrator
4	AirSep LifeStyle	16	Oxus Inc. RS-00400
5	DeVilbiss Healthcare iGo	17	Precision Medical EasyPulse
6	Delphi RS-00400	18	Respironics EverGo
7	Inogen One	19	Respironics SimplyGo
8	Inogen One G2	20	SeQual Eclipse
9	Inogen One G3	21	SeQual SAROS
10	Inova Labs LifeChoice	22	SeQual eQuinox (model 4000)
11	Labs LifeChoice Activox	23	SeQual Oxywell (model 4000)
12	International Biophysics LifeChoice	24	VBOX Trooper

NOTE

If a newly FAA approved device is not listed, it may be allowed provided an evidence of FAA approval is verified. SCCM shall submit a CSR attaching a photo of the evidence.

6.1.12.4 Respirators/Ventilators

Respirator or ventilator is a machine that mechanically assists someone who cannot breathe by themselves; the device is usually connected by a tube in the neck (tracheotomy).

Users of a ventilator will usually be accompanied by a physician or experienced nurse. The requirement of a nurse or doctor escort will be evaluated by the EAMC, based on the provided medical reports.

For battery-powered devices, refer to Chapter 6.1.12.6 for battery requirements and other details.

6.1.12.5 Carriage and Usage Rules for Ventilator, Respirator and Portable Oxygen Concentrator (POC) Devices

- a. Etihad Medical Certificate (clearance through the Etihad Medical Information Form (MEDIF)) is required;
- b. The device should display a manufacturer's label that indicates it has been tested to meet applicable FAA requirements for medical portable electronic devices, or otherwise accompanied by an FAA compliance letter from the manufacturer. For POC, the approved devices may be accepted whether or not they are labelled.
- c. The maximum weight and dimensions (Length, Width, Height) of the device shall not be larger than the allowed cabin baggage limits so that it does not block the aisle way or the entryway into the row;
- d. The device shall be used only at a seat location that does not restrict any passenger's access to, or any required emergency or regular exit, or the aisle(s) in the cabin; and the user is not permitted to sit in an exit row
- e. The Commander shall be informed whenever a passenger brings and intends to use a portable electronic medical device on board the aircraft and shall be informed about the contents of the physician's statement / medical certificate including the magnitude and nature of the guest's oxygen needs;
 1. The user shall allow the cabin crew to review the contents of the physician's statement / medical certificate.
- f. The user of a portable electronic medical device shall comply with the following condition:
 1. The user shall have a written statement, in his/her possession, signed by a licensed physician that:
 - i. States whether the user of the device has the physical and cognitive ability to see, hear and understand the device's aural and visual cautions and warnings and that he/she is able, without assistance, to take the appropriate action in response to those cautions and warnings, or otherwise he/she must be travelling with someone who is capable of performing those functions;
 - ii. States whether or not oxygen use is medically necessary for all or a portion of the duration of the trip; and
 - iii. Specifies the maximum oxygen flow rate corresponding to the pressure in the cabin of the aircraft under normal operating conditions.
- g. Whenever the 'Fasten Seat Belt' sign is switched off, guests operating their portable oxygen concentrator may continue to operate it while moving about the cabin;
- h. The user shall ensure that the portable oxygen concentrator is free of oil, grease or other petroleum products and is in good condition free from damage or other signs of excessive wear or abuse;
 1. Only lotions or salves that are oxygen approved may be used by persons using the portable oxygen concentrator device;
 2. The user, whose physician's statement / medical certificate specifies the duration of oxygen use, shall obtain from the Etihad reservations centre, or by other means, the duration of the planned flight.

- i. Check-in staff shall ensure the devices are in compliance with the applicable conditions and operating requirements described above.
- j. For battery-powered devices, refer to Chapter 6.1.12.6 for battery requirements and other details.

6.1.12.6 Battery Requirements for Portable Medical Assistive Devices

- a. The following requirements are applicable for all lithium battery-powered portable medical assistive devices including CPAP/BIPAP:
 - 1. Lithium ion batteries for medical electronic devices may have a watt hour (Wh) rating exceeding 100 Wh but not exceeding 160 Wh. For portable medical electronic devices using lithium metal batteries, lithium metal content may exceed 2 g but not exceeding 8g. For lithium batteries that fall within these parameters, a maximum of two (2) spare batteries are allowed, in carry-on baggage only.
 - 2. For Lithium ion batteries with a watt hour (Wh) rating not exceeding 100 Wh and for lithium metal batteries with lithium metal content not exceeding 2 g, the user shall carry on the flight an adequate number of fully charged batteries, based on the battery manufacturer's estimate of the hours of battery life while the device is in use and the information provided in the physician's statement / medical certificate (physician's statement / medical certificate not required for CPAP/BIPAP), to power the device for not less than 150% of the expected maximum flight duration. All spare batteries shall only be carried in carry-on baggage only.
- b. The following requirements are applicable for all battery-powered portable medical assistive devices including CPAP/BIPAP:
 - 1. The user shall ensure that the unit is not connected to any of the aircraft power sockets, except for CPAP/BIPAP.
 - 2. The user shall carry on the flight an adequate number of fully charged batteries, based on the battery manufacturer's estimate of the hours of battery life while the device is in use and the information provided in the physician's statement / medical certificate (physician's statement / medical certificate not required for CPAP/BIPAP), to power the device for not less than 150% of the expected maximum flight duration.
 - 3. The user shall ensure that all spare batteries are in carry-on baggage only. These batteries shall be individually protected and packaged in a manner that:
 - Protects them from damage (e.g. by placing each battery in a protective pouch)
 - Terminals insulated (e.g. by placing in a protective casing and/or taping over exposed terminals)
- c. When a battery-powered portable medical assistive device is transported as checked baggage, the device shall be completely switched off and shall be protected from damage and inadvertent activation.

6.1.12.7 Portable Dialysis Devices

Portable dialysis devices (used for kidney failure treatment) are permitted to be carried in the cabin and shall be treated as other assistive devices provided it can be safely stowed onboard. The device may be carried in addition to the standard carry-on baggage allowance.

Devices which do not meet the safety criteria e.g. exceed weight or dimensions of cabin baggage, may be checked-in free of charge.

For battery powered devices, refer to Chapter [6.1.12.6](#) for battery requirements and other details.

NOTE

Portable dialysis devices shall not be used at any time during the flight.

6.1.12.8 Carriage of Syringes & Auto-Injectors

- a. Guests shall be permitted to carry prescription medications, and any medical devices needed to administer them, in the aircraft cabin.
- b. Such medical devices include syringes and epinephrine auto-injectors, commonly known as EpiPens.
- c. The following conditions shall be met:
 1. The device shall comply with applicable, safety and hazardous material rules
 2. The guest is carrying a prescription or supporting letter from their doctor to avoid delays at security or customs. The letter shall be written on headed paper, stamped by a doctor and dated no earlier than 3 months before the date of travel

Refer to Chapter [3.8.11](#) for Carriage of Syringes & Auto-Injectors for Animals in Cabin.

6.1.12.9 Carriage of Medical Oxygen

Gaseous oxygen or air cylinders required for medical use may be carried by a guest where specifically approved by the airline (MEDA in conjunction with Ground Operations and Flight Operations) or uplifted by Etihad Technical in accordance with Chapter [6.1.14](#) when requested by a guest via MEDA.

These cylinders shall be carried strictly in line with the provisions set out for passengers and crew in the IATA DGR. This also applies where the cylinders are being carried by medically trained persons.

1. Each cylinder shall not exceed 5 kg gross weight.
2. Cylinders, valves and regulators, where fitted, shall be protected from damage that could cause inadvertent release of the contents.
3. The Commander shall be informed of the number of oxygen or air cylinders loaded on board the aircraft and their loading location(s).

When accepting a guest requiring medical oxygen during the flight, airport staff shall use the Wheelchair & Oxygen Acceptance App as described in Chapter [6.1.13.4](#).

NOTE

1. MEDA approval is required for carriage of medical oxygen.
2. Personal medical oxygen devices that utilise liquid oxygen are forbidden for carriage on the person, in checked baggage and in carry-on baggage.

6.1.13 Wheelchair Guests

Guests requiring wheelchair assistance may book a service in advance. This gives our providers time to ensure that sufficient manpower is available on the day of travel. Any guest who has not pre-booked assistance shall be informed they may be subject to longer waiting times and their travel plans may be disrupted. When possible, all guests shall be assisted within 30 minutes from the moment they request assistance.

6.1.13.1 PRM Check-in

Should guests report at the check-in counters and request assistance, the following shall apply:

1. Guests shall be checked-in and the appropriate SSR shall be added to their booking.
2. Should the guest wish to make use of his / her own wheelchair, this shall be permitted. The check-in agent shall tag the wheelchair with the appropriate baggage tag and inform the guest they can use the wheelchair until the aircraft door.
3. For EU airports only: if a guest requests for wheelchair assistance and the SSR has not been added the agent must confirm with the parent/guardian that they consent to the sharing of information within Etihad and our service providers to fulfill the request. Once the guest consents it must be recorded in the service info field.

Guests requiring a WCHR at AUH airport shall be requested to make their own way to the end of the jet bridge, where an assistant or dedicated buggy service shall be waiting to assist them.

For remote stand arrivals in AUH, WCHR guests shall be assisted from the arrival gate within the terminal.

Airport teams at network airports shall correctly identify the wheelchair type required by the guest. If a wheelchair SSR has already been added by contact centre or travel agency, airport teams shall confirm with the guest that it corresponds to the type of assistance required by the guest and amend it if necessary..

WCHR

Guest cannot walk long distance. The guest shall be assisted from the point of self-identification to the gate area.

WCHS

Guest cannot walk long distance, climb or descend steps. The guest shall be assisted from the point of self-identification to the aircraft door. When the aircraft is parked at remote stands, a medical high lift or equivalent alternative shall be available. WCHS guests shall disembark last.

WCHC

Guest is completely immobile and requires a wheelchair from their seat on board. Such guests may also be travelling with a safety assistant (refer to Chapter [6.1.4.2.2](#)). WCHC guests shall disembark last.

6.1.13.2 Priority Mobility Aid Space On-board

Guests travelling on widebody aircraft with a mobility aid may utilize the closet space on board the aircraft. The closet space (refer to below max. dimensions) can allow stowage of one folding wheelchair, mobility aid or other assistive device. The space is available on a first come first serve basis.

Aircraft Type	Location	Maximum Dimensions	Available Closets
A380	Main Deck – Stowage under FWD stairs	33cm x 91cm x 106cm 13in x 36in x 42in	1
	Upper Deck – Stowage FWD of UR2 door	33cm x 91cm x 106cm 13in x 36in x 42in	1
A350	Centre Closet FWD of door 3 RHS	33cm x 91cm x 106cm 13in x 36in x 42in	1
B777-300 2-Class	Closet FWD of L1 door or AFT of R2 door, as applicable	33cm x 91cm x 106cm 13in x 36in x 42in	1
B777-300 3-Class	Closet FWD of L2 door	33cm x 91cm x 106cm 13in x 36in x 42in	1
B787	Closet FWD of L1 door	33cm x 91cm x 106cm 13in x 36in x 42in	1
A320/A321	Not applicable	Not applicable	Nil

Other mobility aids such as canes, crutches and foldable walkers are allowed in the overhead lockers.

Mobility aids exceeding the above dimensions shall be checked into the hold free of charge.

6.1.13.3 Deplaning of Wheelchair Guests

- Ground Staff shall assist the guest on arrival in line with the applicable SSR:
 1. WCHR guests shall be assisted from the end of the jet bridge to the curbside
 2. WCHS guests shall be assisted from the aircraft door to the curbside
 3. WCHC guests shall be assisted from their seat to the curbside
- If the guest is travelling with his own wheelchair, The wheelchair shall be retrieved from the cargo hold prior to disembarking the guest All cushions, sheepskins, straps etc. shall be placed on the guest's own wheelchair as requested
- Depending on where the guest is seated, they may be transferred directly into their own wheelchair; the aircraft **"Aisle Wheelchair"** shall be used where necessary. Ensure the guest is comfortable and collect all cabin baggage
- In the arrivals area, Ground Staff shall assist with the collection of baggage, documentation, connecting flights or to their transport

- Many PRM's drive their own vehicles and may need assistance with baggage collection and stowage thereof into their vehicles

6.1.13.4 Wheelchair and Oxygen Acceptance App

- a. The Wheelchair and Oxygen Acceptance App is available to EY airport teams and onboard Flight Supervisors via Office365 PowerApps.
- b. The App shall be used by the origin airport whilst accepting the following guests, wherever any of the above personnel are available at the time of acceptance:
 1. Guests travelling with their own wheelchair or mobility aid. This includes manual and battery-powered devices:
 - i. Battery-powered wheelchairs/mobility aids with lithium batteries.
 - ii. Battery-powered wheelchairs/mobility aids with non-spillable batteries.
 - iii. Battery-powered wheelchairs/mobility aids with spillable batteries.
 - iv. Wheelchairs/mobility aids – other/manual.
 2. Guests requiring the use of medical oxygen on board. This includes:
 - i. Portable Oxygen Concentrators (POC).
 - ii. Etihad-provided oxygen cylinders.
 - iii. Guest-provided oxygen cylinders.
- c. The person utilising the App shall enter the required information pertaining to the guest and the device(s) and follow instructions including requirements for tagging, removal/carriage of batteries and protection of the device, as applicable.
- d. Upon submission via the App once all steps have been completed, an automated message will be submitted to:
 1. Centralised Load Control (CLC) in AUH.
 2. The local department responsible for CLC Coordination at the origin and any onward destination airports, where applicable.
 3. The applicable departments responsible for wheelchair coordination and assistance at AUH Hub.
- e. Where an EY airport staff member or onboard Flight Supervisor is **not** present at the time of the guest check-in or boarding (e.g. a transfer guest from another carrier), the following shall take place:
 1. Details shall be recorded manually during acceptance and the App submission shall be completed at the earliest opportunity prior to check-in closure; **or**
 2. The person accepting the guest shall contact CLC* and the local CLC Coordinator by phone and transmit the required information according to the type of device as per point (g) below.

* CLC does not need to be notified for Portable Oxygen Concentrators, however the local CLC Coordinator shall be notified, in order to inform the Commander.
- f. Where information is transmitted verbally in accordance with (e) (2) above:

1. The person receiving the information shall write down the information received.
 2. The person communicating the information shall request a verbal read back to ensure the correct information has been recorded by the person receiving the information.
- g. Information to be provided where App not available, per device type:

Wheelchairs/Mobility Aids	
Wheelchair type:

NOTE

The Wheelchair and Oxygen Acceptance App is intended to simplify the acceptance process for wheelchairs/mobility aids and guests requiring medical oxygen on board, and to enhance the communication of applicable information to CLC and the Commander. All requirements for the acceptance and handling of wheelchairs/mobility aids and guests requiring medical oxygen shall be adhered to in accordance with the GOM and this manual

6.1.13.5 Mobility Aid Acceptance and Handling

To facilitate the acceptance of all wheelchairs and mobility aids at check-in, airport team members shall use the Wheelchair & Oxygen Acceptance App available through PowerApps (Refer to Chapter 6.1.13.4).

For proper preparation, labelling and handling of the wheelchair or mobility aid, please refer to the form [EY624](#)/GRH Acceptance Guide for Wheelchairs and Mobility Aids available on the Etihad Airways SharePoint and ShareFile.

Airport team members shall ensure that the wheelchair/mobility aid is labelled to the guest's final destination, even if a request for gate delivery is made during transfer.

6.1.13.5.1 Gate Delivery

Confirm with the guest whether a wheelchair or mobility aid is required at the aircraft door at the transfer and arrival airports.

- If **Yes**: Attach a Gate Delivery Tag to the device, as outlined in Chapter 3.5.13 Gate Delivery.
- If **No**: Process the item as checked baggage and notify the guest that their device will be available at the baggage carousel or customs clearance area upon arrival at their final destination.

6.1.13.5.2 Assistance

Any necessary arrangements to assist the guest to/from the aircraft shall be made at the point of check in, including update of the applicable SSR code and comments in Altéa CM.

The required arrangements shall be made for the wheelchair or mobility aid to be delivered to the baggage make up area via the most practical means possible and in such a way that protects the device from damage.

6.1.13.5.3 Handling of Battery- Powered Wheelchairs

Tags	Attach an Electric Mobility Aid (EMA) tag to all battery-powered wheelchairs or mobility aids – refer to Chapter 3.5.23
Battery Safety	The guest shall demonstrate to the ground staff how the battery is immobilised or disconnected prior to acceptance.
Communication	Check-in agent must notify Load Control: • Weight of wheelchair/mobility aid • Number of batteries and whether they are attached or carried separately in the cargo hold • Number of spare batteries • Location where the wheelchair/mobility aid will be delivered for loading (OOG area/ boarding gate/aircraft side)

Airport team members shall refer to GOM Chapter 8.3.8 for complete acceptance and handling procedures for wheelchairs and mobility aids.

6.1.14 Sitting Medical Cases

6.1.14.1 Etihad Technical Responsibilities — Medical Oxygen Cylinders

- MEDA department shall send a request to Etihad Technical 48 hours prior to the intended flight, in accordance with Technical Procedures Manual (TPM).
- Upon receipt of the above request, Operations Maintenance Planning Control (OPMC) shall coordinate the request for oxygen cylinders with the Line Material Planner.
- Based on availability of ground time and spares, OMPC shall confirm the status of the request to MEDA.
- The Line Engineer shall install the oxygen cylinders on board the aircraft making all reasonable effort to put the equipment in the same cabin as the applicable passenger, where known.

For more detailed information on technical responsibilities, refer to TPM Chapter 3.26.

6.1.14.2 Ground Services Responsibilities

The MEDA team will have inserted the relevant SSR / OSI medical case information in the PNR alerting the origin station of the category of sitting medical case.

The following shall be undertaken at origin station:

- Ensure that a wheelchair is available

- Solicit the services of the Airport Clinic should a nurse be required
- Conclude check-in and documentation verification formalities
- Alert the crew of the guest's status prior to boarding
- Inform the NOC of the medical case category
- Conclude boarding formalities prior to the boarding of general guests
- Ensure that the guest is comfortable in every respect before leaving the aircraft
- Forward a SITA message to destination station once the aircraft is airborne

The following shall be undertaken at the destination station:

- Ensure that appropriate Airport Services Staff are available to meet and assist the guest during aircraft disembarkation
- Solicit the services of the Airport Clinic (if required)
- Assist the guest with border control clearance formalities (Immigration & Customs)
- Assist the guest with baggage retrieval
- Ensure that the guest is handed over to his / her 'meeters and greeters.'
- Airport Duty Supervisor / Delegate at arrival stations shall ensure that oxygen cylinders are returned to Etihad Technical in AUH once the guest's arrival formalities have been completed.

6.1.15 Stretcher Medical Cases

As with sitting medical cases, upon receipt of a reservations enquiry for the carriage of a stretcher case, the guest shall be furnished with an Etihad ***application for carriage of medical case guest form*** and requested to complete and return all the relevant documentation duly signed by the guest and his / her attending physician to the MEDA department - MEDA@etihad.ae .

The MEDA team responsibilities include:

- Verify the number of medical cases on the required flight prior to forwarding the case to the attending Etihad Medical Doctor
- Upon confirmation for carriage by the Etihad Medical Doctor, a medical certificate is granted to the guest which needs to be presented at the time of check-in. SSR remarks are updated on the PNR and a final report is sent to the HUB and Station.
- Should the carriage be declined, the reasons therefore shall be fully communicated to the guest
- Ensure that the appropriate seats are blocked off for stretcher and attendants
- Should oxygen be required, add another SSR item reflecting the flow rate. Quantity of Oxygen is stated in the final report sent.
- Inform the hospital / institution to ensure that the guest arrives at the Airport Clinic at least three hours prior to departure
- Inform the hospital / institution to obtain airport airside staff and vehicle passes from the Airport Clinic

6.1.15.1 Etihad Technical Responsibilities – Stretchers

- a. MEDA shall send a request to Etihad Technical 48 hours prior to the intended flight, in accordance with Technical Procedures Manual (TPM) Chapter 3.26.4.
- b. Upon receipt of the above request, Operations Maintenance Planning Control (OPMC) shall coordinate the request for oxygen cylinders with the Line Material Planner.
- c. Based on availability of ground time and spares, OPMC shall confirm the status of the request to MEDA.
- d. An instruction to Line/Light Maintenance for installation, removal and/or returning the stretcher kit to stores (as applicable) shall be raised.
- e. The stretcher shall be installed on board the aircraft in accordance with approved data.
- f. If the stretcher is to be fitted at a network airport, the following shall take place:
 1. An instruction to AUH Line Maintenance to load a stretcher kit in the cargo hold shall be raised by OPMC.
- g. An Engineer shall install the stretcher on board the aircraft at AUH or the network airport (as applicable) as per the above instruction.
- h. Upon aircraft arrival at a network airport where the stretcher is not required to be installed for the return sector, the receiving Engineer shall:
 1. Remove the stretcher.
 2. Stow and place the stretcher kit in the cargo hold.
 3. Normalise the cabin configuration.
- i. The departure airport shall notify MCC as to the location of the stretcher.
- j. Upon aircraft arrival at Abu Dhabi, the receiving Engineer shall:
 1. Remove the stretcher
 2. Stow in the applicable kit box
 3. Send the complete stretcher assembly to EAE technical stores
 4. Normalise the cabin configuration

For more detailed information on Technical responsibilities, refer to TPM Chapter 3.26.

6.1.15.2 Ground Services Responsibilities – Stretchers

The MEDA department will have informed the hospital / institute to ensure that the guest arrives at the Airport Clinic at least two hours prior to departure and ensure that the seats are blocked accordingly upon booking process.

- Flight Editing / Flight Control Admin team shall ensure the seats occupying the stretcher are blocked including the attendant's seat. In the event of seats have been released, the Flight Editing / Flight Control Admin team shall contact Guest Control.
- The Airport Duty Supervisor / Delegate establish from the Airport Clinic when the guest has arrived
- Advise the crew of the guest's status prior to boarding
- Ensure that check-in and documentation verification formalities are concluded

- Pre-board Stretcher guest and accompanying guests prior to the boarding of general guests
- Ensure that the guest is comfortable before leaving the aircraft

The following is to be undertaken at the destination station:

- Ensure that Airport Services Staff are available to meet and assist the guest during aircraft disembarkation
- Solicit the services of the Airport Clinic (if required)
- Assist the guest with border control formalities (Immigration and Customs)
- Assist the guest with baggage retrieval
- Ensure that the hospital / ambulance services are on hand for transfer of the guest from the airport to his / her destination
- Ensure the safe return of the stretcher kit and / or oxygen cylinders to Etihad Technical Stores in Abu Dhabi

6.1.15.3 Acceptance of STCR guests

Reservations

Extra seats shall be booked in advance for the guest. This shall ensure that sufficient seats are booked to accommodate the stretcher equipment.

Aircraft Type	Configuration	Stretcher Location 1	Stretcher Location 2
A320ceo	J8 Y150	27-30 DEF	27-30 ABC
	J16 Y120	Stretchers not permitted	
A320neo	J8 Y168	Stretchers not permitted

	J40 Y330		
	F8 J40 Y280	43-45AC	43-45HK

* Only one stretcher is permitted to be installed in the cabin. The primary location specified above shall be used wherever possible.

6.1.16 In-Flight Nurse

Guests with a medical condition can pre-book via the MEDA team an aviation in-flight nurse to escort them on Etihad operated flights.

Booking Procedure

The in-flight nurse shall be booked on a separate PNR from the guest and shall be travelling on a non-offloadable ticket in the same cabin as the guest. The in-flight nurse may be accompanying a stretcher case or a guest occupying a seat in the Economy, Business or First cabins. Seating arrangements shall be pre-arranged for the guest and in-flight nurse to be located near to each other at time of reservation. The in-flight nurse shall be checked into Altéa CM along with the patient they are escorting. On any sectors where the in-flight nurse is travelling alone, they shall travel as a duty travel employee.

Medical Clearance Team

The MEDA team will liaise directly with the Airport Manager and Duty Supervisor / Delegate of both the departure and arrival airport in advance with the list of items contained in the medical kit which will be carried on board. Upon receiving the item list, the Duty Supervisor / Delegate is responsible to ensure that clearance for the medical kit contents is obtained from the relevant airport authorities in advance.

Day of Departure

On the day of travel, the in-flight nurse will meet the guest at their home or medical facility and assist them to the airport. The in-flight nurse will carry a medical kit on-board with the equipment deemed necessary to care for the patient. Throughout the flight the in-flight nurse will be on hand to offer medical assistance until the guest has reached their destination.

6.1.17 Guest with Allergies

An allergy is an abnormal sensitivity to a particular substance such as dust, pollen, foods, or medications.

A person with an allergy must avoid the allergen to eliminate the risk of a reaction. It can be challenging to eliminate the allergen, but steps can be taken to reduce the risk of an allergic reaction

Airport Process

The following precautions shall be taken should a guest inform airport team members that they have an allergy:

- The guest shall be advised that neither an allergen-free environment nor provide nut-free meals onboard can be guaranteed.
- The guest shall carry a letter from the doctor or a medical certificate confirming the need to travel with an auto-injector device in their cabin baggage. The letter shall not be older than three months from the date of travel.
- If the letter or medical certificate is not available, the guest should not be denied boarding. Medical clearance is not required.
- The guest shall be permitted to pre-board the aircraft and personally clean their seat area to remove any potential allergens.
- An OSL comment shall be added to the guest details to advise that the guest has an allergy e.g. guest suffers from nut allergy, so that the cabin crew can see the remarks in the PIL.

Onboard Process

- Once boarded, the cabin crew shall confirm that the guest is carrying an auto-injector device (e.g., EpiPen) or a syringe in their cabin baggage and ensure that they or an escort can administer it.
- On request from the guest, and to assist in avoiding the risk of exposure to the allergen, cabin crew shall notify guests seated three rows forward and three rows behind (but not across the aisle) that a guest with allergy is present and inform them of the allergen.
- If any of the guests in this zone has any product with the allergen present, cabin crew may re-allocate their seats from the affected guest.
- Onboard PA shall not be made to inform guests of the allergen.

6.2 INFANTS AND UNACCOMPANIED CHILDREN

6.2.1 Infants

- An infant is a minor between 7 days and under 2 years of age, not having reached their 2nd birthday. Infants may not travel unaccompanied.
- A separate boarding pass shall be issued to each infant travelling by air
- Where possible such guests shall be seated at bulkheads positions. In the event of a request being received for a bassinet at the check-In counter every effort shall be made to seat such guests in bassinet positions.
- The adult accompanying the infant must be capable of providing adequate care and assistance.
- In order to comply with safety regulations, it is essential that the number of infants carried on any particular aircraft does not exceed the number of infant life jackets (on flights flying over

water) or the number of extra oxygen masks and infant seat belts available on board. The maximum number of infants that can be carried on EY aircraft are as follows:

Aircraft Type	Maximum Number of Infants
A320	14
A321 (Except LR)	20
A321 LR	15
A350	30
A380	40
B777 (2 class)	40
B777 (3 class)	30
B787	30

The number of infants on a flight may be increased up to 20% of aircraft seating capacity, provided that the equivalent number of infant seat belts and infant life jackets are made available for that flight.

Infants are considered children and shall be booked as a child fare and assigned a seat where, during the journey, once they reach the age of 2. If known at the time of travel that the infant would turn to a child on the return flight, tickets for outbound and inbound shall be booked separately.

When a separate seat is purchased for the carriage of an infant, the following shall apply:

- In Economy, the accompanying adult shall be seated adjacent to the purchased infant seat.
- In Business, the below seats shall be allocated to the accompanying adult and infant with own purchased seat:

Seating in First and Business with Infants		
Aircraft Type	Allocated seats in First	Allocated seats in Business
A320/A321*	N/A	A & C or D & F
A350	N/A	D & G
A380	N/A	E & F
B777/787	D & G	E & F

Seating in First and Business with Infants

Aircraft Type	Allocated seats in First	Allocated seats in Business
B787-9 (J32/Y271)	N/A	D & G

*Not applicable on A321LR

During taxi, take-off and landing and when the 'Fasten Seatbelt' sign is illuminated:

Infants using an approved CRD shall remain seated and secured in the CRD. Infants not using an approved CRD shall be seated on the accompanying adult's lap secured with an infant seat belt. Cabin crew shall brief the accompanying adult prior to departure.

When a separate seat is purchased for an infant not using a CRD, ground staff will add the comment, 'Infant travelling on own seat,' to the passenger's booking.

One adult is only permitted to accompany one infant on board. For any additional infant, the guardian shall arrange for an additional adult to accompany each infant.

NOTE

Baby bassinets shall not be used during take-off and landing, these shall be properly stowed.

6.2.1.1 Bassinet Requirements

Bassinets are carried in limited quantities on Etihad aircraft and can accommodate infants up to a maximum weight of 11kgs (24 lbs) on the day of travel. The infant must not exceed 11kg in weight and 75cm in height.

Guests in need of bassinets shall make arrangements with Etihad at the time of reservation.

6.2.1.2 Seating of Infants

Where possible, eligible infants shall be seated at bulkhead positions with a maximum of two adults. Mothers travelling with infants may not be seated at emergency exits. The row behind the bulkhead is an operational buffer zone available to airports to help manage the seating of families who may be split.

6.2.1.3 Boarding / Disembarkation Assistance

A mother travelling with an infant normally has extra carry-on baggage (a baby holder including bedding, napkins, feeding bottles and sufficient food for the journey). Such guests should be afforded assistance during boarding / deplaning formalities.

6.2.1.4 Reservation of Infants

There is restriction in Altéa CM that an infant name cannot exceed 56 characters.

In the event that an infant name is truncated, airport team members shall contact BSC to verify if the infant's full name is in the SSR docs section of the reservation. Once it's been verified, the guests can be accepted.

Where a guest is travelling to a country where the truncated name on the boarding pass is not accepted or if the boarding pass is rejected at origin station, airport team members shall contact

Etihad Contact Centre to re-issue the ticket free-of- charge, to ensure that the name are present on the boarding pass.

6.2.2 Unaccompanied Minors

6.2.2.1 Overview

This section of the manual focuses on the procedure applicable to the handling of Unaccompanied Minors (UM's) during ground operation formalities.

Unaccompanied Minor Forms are available online and guests have the option of printing out their own UM Forms in advance of travel or utilising the hardcopy version available at the departure airport.

- Only a single UMNR form shall be completed at check-in and follow the UMNR throughout the journey
- The SCCM as applicable, will submit a copy of the form (via photo) as an OCR using their onboard iPad
- On arrival at the final destination, the arrival airport shall file the completed form

6.2.2.2 Eligibility

- Unaccompanied Minors (UM's) are considered as children between the ages of 5 and 11 years inclusive and travelling alone on confirmed adult fare tickets. (Standby or Waitlisted Travel is not permitted). Refer to [6.2.2.4](#) for airport handling.
- UM's are permitted under Staff Travel for children of Etihad Staff travelling on confirmed ID50/Annual Leave Tickets only
- UM's are not accepted under the age of 5 years
- Children between the ages of 12 and 17 years are not permitted to escort UM's in the absence of a fellow guest accompanying who is 18 years or older
- Children between the ages of 12 and up but not including 18 years and travelling alone without parents / guardians are entitled to Unaccompanied Minor Service if specifically requested by the parent or guardian and the Unaccompanied Minor fee has been collected

NOTE

1. Legal parents below the age of 18 will be permitted to accompany infants or children.
2. On itineraries to or from Thailand, UM's are considered as children between the ages of **5 and 12 (prior to their 13th birthday)** minors within this age range shall only be accepted for travel if:
 - They have booked the UMNR service, or
 - They are accompanied by an adult passenger

6.2.2.3 Conditions of Acceptance

Etihad will only accept UM's for carriage provided that the following conditions are complied with:

1. Parent / Guardian shall present themselves for check-in at least two hours prior to departure and ensure the UM has sufficient funds (currency) for the length of the planned journey
2. The UM must be escorted to the airport by the parent / guardian, where they must remain at the airport until the flight has departed so that they are available to take care of the child in the event of delayed or cancelled flight
3. The UM is in possession of all the required travel documentation which may not only be limited to a valid passport document, visa and health certificates
4. The UM has attained the age of 5 years
5. The UM shall be seen off and met at arrival by the named parent / guardian
6. The UM classified as a PRM or medically unfit for travel holding a medical certificate from Etihad Medical Centre
7. The UM shall hold a firm reservation to final destination – no standby tickets shall be accepted
8. The maximum number of UM's per flight is 10
9. Unaccompanied Minors with special needs must be escorted inflight by a parent or guardian if the level of care required exceeds that which our crew is able to provide. Cabin crew are not permitted to assist minors or any guests in the lavatories, with the administration of medication, or with feeding.
10. Unaccompanied Minors travelling in premium cabins (First/Business) may not be able to utilize the lounge service in airports other than Abu Dhabi. If the lounge is not operated by Etihad Airways, we cannot guarantee supervision and the level of care and therefore we may require the parent/guardian to report back to the check-in area at a nominated time and be escorted directly to the boarding gate, without lounge access
11. For EU airports only: if a guest requests for UMRN service and the SSR has not been added the agent must confirm with the parent/guardian that they consent to the sharing of information within Etihad and our service providers to fulfill the request. Once the guest consents, record it in the UMRN Service additional details field.

6.2.2.4 Reservations

1. UM's may be carried in all travel zones on the services of Etihad
2. All guests are encouraged to book UMRN services in advance, via etihad.com. This will trigger the eServices team to review the booking, applicable fare and add the UMRN SSR code, confirming all eligibility conditions are met.
3. UMRN requests will be accepted by eServices until -4 hours from STD of the first flight on the itinerary
4. There is no requirement for airports to confirm that the UMRN has paid an adult fare
5. The maximum UM transit connecting time within AUH and outstations is 8 hours
6. UM's shall not be booked on flights with transfer connections involving an overnight stay
7. UM's shall not be seated within emergency exit seats
8. The UM age shall be recorded at the time of reservation: in the standard form UM+age (e.g. UM9)

6.2.2.5 Check-in and Boarding

Any guests with the UMNRR SSR code shall be considered as holding the correct ticket type for travel

- If a UMNRR presents at the airport without the UMNRR SSR code added to the PNR, then the airport UMNRR fee will apply and airports shall issue an EMD regardless of the ticket type/fare (ADT/CHD)
- Ensure the UMNRR form has been fully completed, includes contact details of the person responsible at both departure and arrival, signed and proof of identity of parent/guardian verified. Both the electronic version from etihad.com and the manual form are acceptable
- Verify that all travel documentation is in order and assist with the completion of embarkation / disembarkation forms if required
- Attach the appropriate UM baggage labels to all checked baggage
- Escort the UM to the designated holding area until commencement of boarding formalities
- UMNRRs must not be left unsupervised until handed over to the cabin crew
- Request parents / guardians not to leave the airport until the aircraft is airborne
- Whenever circumstances permit, female staff should escort UM's through all departure formalities and ensure that they are in possession of all documentation applicable to their journey
- UM's should at all times be boarded before other guests and handed over to the cabin crew
- UM's shall disembark last
- UM's shall not be offloaded unless exceptional circumstances prevail i.e. a serious medical condition
- Advise/release the responsible adult once the flight is airborne
- UM is to be seated in close proximity to a cabin crew station, seated in an aisle seat. The UM may be seated next to or across the aisle from an adult, where possible, a female adult.
- It is imperative that signatures are obtained from all personnel who have any dealings with the child, as this will enable the parent or guardian to have confidence in the airline representatives at each stage of the child's journey.
- Unaccompanied Minors connecting to/from other airlines will not be accepted without a parent/guardian nominated at any intermediate point
- UMs travelling from Abu Dhabi are not eligible to be checked in from off-site check-in locations

6.2.2.5.1 Unaccompanied Minors – AUH

For all UM (Unaccompanied Minors) travelling to AUH either transiting or terminating an e-mail shall be sent to tcccontroller@velora.ae providing:

- Name
- Age
- Gender
- Destination
- Language (if other than English)

The assigned staff in AUH is responsible for handling all Unaccompanied Minors and shall meet, assist the UM, collect any travel documents from the cabin crew and hand over the UM to the cabin crew of the connecting flight.

6.2.2.5.2 Transfer Station Procedure

- a. Meet, assist UMNR and collect any travel documents from the cabin crew.
- b. Hand over the UMNR to the cabin crew of the connecting flight.
- c. If flight is cancelled at transfer station, UMNR to be accompanied at all times

6.2.2.5.3 Arrival Station Procedure

- a. Meet, assist UMNR and collect any travel documents from the cabin crew.
- b. Complete the handling advice/declaration form for airline staff responsible.
- c. Where applicable, ensure baggage of UMNR is collected.
- d. Hand over the UMNR only to the designated adult noted on the handling advice after verifying the identity of this person and having received his signature for receipt of the UMNR.

6.2.2.5.4 UM Service Fee

The UM service fee is not required for a UMNR booked in advance, however the fee applies for a UMNR who presents for check-in without the SSR code irrespective of ticket type e.g. ADT/CHD.

Young Passengers (YPs) from the age of 12 prior to their **18th** birthday may travel alone without the Unaccompanied Minor (UM) service. However, they may avail the UM service subject to paying the applicable fee. Refer to Altéa CM for the applicable fee.

NOTE

1. Children of Etihad employees travelling on confirmed ID50 / Annual Leave tickets are exempt from the above fee.
2. The service fee is non-refundable.
3. An Unaccompanied Minor EMD shall be issued for the collection of the UM service fee.
4. Guests holding confirmed FOC tickets, e.g. Sponsorship, Prize Winner, etc. can avail this service by paying the applicable fee.

6.2.2.6 Down Line Delays

In the event of delays, an unscheduled overnight stop or a return to origin, UM's shall be catered for and escorted by a female staff member. **Under no circumstances may they be left in the care of other guests and the following actions MUST take place:**

1. Every effort shall be made to make contact with the responsible parent/guardian who left the UM at the airport, as well as the person due to collect the UM at the arrival airport.
2. If the aircraft lands at an Etihad airport then the crew shall hand over custody of the UM to the Etihad ground staff
3. In the event of the UM having to be accommodated overnight, appropriate arrangements shall be made to ensure safe custody of the child with an Etihad staff member.

These should be discussed and agreed with the parent/guardian. In the event of Etihad being unable to contact either parent/guardian, Etihad staff shall take whatever steps it considers necessary to secure the safekeeping of the child whilst under Etihad custody.

4. If the aircraft lands at a station where Etihad is not represented, the cabin crew shall retain custody of the UM until the flight re-departs and should endeavour to contact the parent/guardian as above, making appropriate arrangements for the safe custody of the child with an individual crew member.

6.2.2.7 Disembarkation at Destination Station

- Inbound flights should be monitored for UM's and the relevant information conveyed to all involved with their handling.
- On the day of the flight, contact the parent / guardian meeting the UM's to advise them of the ETA of the flight if it is delayed. Inform them to bring along some form of identification.
- The airport team member assigned to handle UM's should not be given any other conflicting duties.
- Once handed over to the Ground Staff against a signature, they should be escorted through the relevant border control formalities and assisted with baggage retrieval.
- Once they have exited the Customs Hall, establish beyond any doubt the identity of the parent / guardian
- Ground staff must indicate that the ID of the parent/guardian was checked by ticking the appropriate box on the UM form
- The parent/guardian must sign for receipt of the child and the Etihad staff member handing over the child must enter their staff number and details on the form.
- A copy of the signed declaration section and the child's personal details section must be retained by Etihad on station/flight file.

NOTE

Under no circumstances may any UM's be permitted unescorted past the Customs Hall. Additionally, even at the request of parents / guardians, never put them in any form of public transportation for collection elsewhere.

6.2.2.8 Accompanied Minors

Children travelling with parents / guardian within different cabins on Etihad Airways shall be classified as Accompanied Minors and treated as a UM on board the aircraft.

The minimum acceptance age for an accompanied minor is 5 years old.

Accompanied minors can avail of the unaccompanied minor service complimentary. There is no requirement to be travelling on an adult fare ticket or to issue an unaccompanied minor fee EMD.

Airport staff shall add an onboard service list comment under the accompanied minor in Altéa CM with the parent/ guardian's name and seat number e.g. *TRAVELLING WITH SMITH/JOHN SEATED 5A*. The 'UMNR' edit shall be added in the system.

In addition, gate staff must brief the SCCM of the number of accompanied minors on the flight.

No paperwork is required for an accompanied minor and the travel document shall remain with the parent/guardian.

NOTE

Accompanied minor service is not applicable to guests travelling on staff tickets. A parent/guardian shall accompany the child in the applicable cabin.

6.2.3 Young Passengers

Young Passengers (YPs) from the age of 12 prior to their 18th birthday may travel alone without the Unaccompanied Minor (UM) service. However, they may avail the UM service subject to paying the applicable fee. Refer to Altéa CM for the applicable fee.

Unaccompanied young guests shall have a Special Service Request (SSR) designated as “Young Passenger Travelling Alone” (YPTA) added to their booking.

When multiple guests travel on the same PNR between the ages of 12 and 17 years, the SSR shall be added for all guests.

Where the SSR has not been added to the booking before travel, airport team members shall identify the YPTA during check-in and verify the guest's age from the date of birth in the passport.

In the event of irregular operations/disruption, the following benefits will be automatically added to the booking:

- Higher acceptance PCV ranking to prevent denied boarding
- Priority accommodation on the first available flight

6.3 Expectant Mothers

A pregnant woman is allowed to fly, under the following guidelines:

SINGLE PREGNANCY			
	No Document Required	Medical Certificate Required	Not Permitted to Travel
0 - 28 weeks (End 28th week)	X		
29 - 36 weeks (Beginning 29th week / End 36th week)		X	
37 weeks onwards (Beginning 37th week)			X

MULTIPLE PREGNANCY

	No Document Required	Medical Certificate Required	Not Permitted to Travel
0 - 28 weeks (End 28th week)	X		
29 - 32 weeks (Beginning 29th week / End 32nd week)		X	
33 weeks onwards (Beginning 33rd week)			X

Medical Certificate

The medical certificate required for women travelling during pregnancy may be issued as a hardcopy or in electronic format. It shall satisfy the following guidelines:

- Written on an official letterhead if issued by a clinic/ hospital or on an Expectant Mother Medical Certificate available on the Etihad website
- Issued and signed by the passenger's medical doctor or midwife
- Has the doctor's or midwife's details OR stamp
- Valid within 21 days (3 weeks) from date of issue and may be used for passenger travel up to the end of the 36th week for single pregnancy and up to the end of 32nd week for multiple pregnancy
- State that the passenger is fit to fly
- State if the pregnancy is single or multiple
- State the number of weeks of pregnancy and the expected date of delivery (EDD)
- Be easily understood and written in English or Arabic. Other languages are accepted but must be verified by Etihad Airways representative who shall record the issue date in English and sign along with staff number
- The original medical certificate shall be accepted for the entire journey (originating, return and stopover flights), provided the above validity criteria is met for each sector
- If the medical certificate is missing any of the above information, staff may contact MedLink who may clear the passenger to fly based on further questioning.

NOTE

- The original certificate shall remain in the possession of the passenger
- It is recommended to appoint a female SCCM to discreetly request to view the certificate if a female passenger is observed to be pregnant

- If the passenger states she is less than 28 weeks pregnant, passenger shall be accepted without any further questions
- If the passenger states that she is more than 28 weeks pregnant and does not have a certificate, crew may contact MedLink who may clear the passenger to fly based on further questioning
- Passengers may download the Etihad pregnancy certificate template from the Etihad website and take it to their medical doctor or attending midwife for completion
- Where part of the guest's journey is operated by OAL, the guest shall be responsible for complying with any OAL specific requirements

6.4 Persons in Custody or Under Administrative Control

The definitions and instructions in this section are in accordance with the International Civil Aviation Organization (ICAO), UAE General Civil Aviation Authority (GCAA) and Etihad Aircraft Operator Security Program (AOSP).

6.4.1 General (Ref: GOM 10.2.4.1)

- a. Persons in custody or under administrative control include the following categories:
 1. Inadmissible (INAD)
 2. Escorted INAD (EINAD)
 3. Unaccompanied Deportee (DEPU)
 4. Accompanied Deportee (DEPA)
 5. Overstay Passenger
 6. Mentally disturbed person under escort (EMDP)
 7. Person in the custody of law enforcement personnel (PLE)
- b. Advance approval prior to the date of travel is required from the EY Threat Assessment Centre (TAC) for the transportation of any person in custody or under administrative control, with the exception of INAD (unescorted). The TAC however shall still be notified for any INAD (unescorted) carriage through the INRS system notification.
- c. Application for carriage for above categories (except INAD):
 1. Upon receipt of notification or request from a competent authority for the transport of a person in custody or under administrative control, the APM, DS or delegate at the applicable airport shall create a SeMS report in INTELEX and upload all relevant information regarding the passenger and flight booking, including but not limited to the following:
 - i. Identity of the passenger
 - ii. Reason for carriage, and
 - iii. Authority evaluation of any threat posed by the passenger (if any)
 - iv. Documentation as specified in Chapter 6.4.8
 2. Applications may be submitted on SeMS for processing as early as 15 days prior to booked/scheduled departure.
 3. Upon receipt of all relevant documents and other requirements via SeMS, TAC shall:

- i. For DEPA/DEPU, process the request via the applicable authorities 3 calendar days prior to the scheduled departure.
 - ii. For EINAD, process the request via the applicable authorities 1 calendar day prior to the scheduled departure
 - iii. Communicate the approval to applicable stakeholders via SeMS once the approval has been received from the applicable authorities.
4. If the required complete documents are not available at the intervals specified in (3) (i) or (3) (ii) above (as applicable), the application for conveyance shall be denied or cancelled, unless it is received from relevant authorities as a 'last minute request'.
 5. For guidance on the creation of SeMS reports, refer to GOM 10.7.4. or contact TAC.
 6. For INAD, refer to Chapter [6.4.2](#)
- d. In case of no TAC approval in SeMS, the carriage of any person in custody or under administrative control (except overstay passenger and INAD-unescorted) shall be refused and immediately reported to TAC.
 - e. The carriage of a person in custody or under administrative control shall be refused if they are likely to:
 1. Pose any risk to the safety of the flight.
 2. Pose any hazard or risk to themselves, other guests or crew members.
 3. Cause discomfort or make themselves objectionable to other guests.
 4. Require special assistance from Etihad staff.
 - f. Passenger Risk Assessment:
 1. When a person in custody or under administrative control demonstrates unruly/disruptive behaviour or interference at the airport, refer to Chapter [6.7](#).
 2. In such instances, the completed Passenger Risk Assessment form shall be uploaded into the SeMS Report (INRS report for INAD).
 - g. A completed Persons in Custody or Under Administrative Control Movement Application Form (form [EY036A/SEC](#)) shall be submitted and approved as per GOM Chapter 10 Appendix A for EINAD, DEPU, DEPA and EMDP.
 - h. Movements of persons in custody coordinated by Abu Dhabi Police are exempted from the above provisions.
 - i. For the following, as applicable to each category, refer to Chapter [6.4.8](#) :
 1. Maximum number permitted per flight.
 2. Seating requirements.
 3. Documentation required.
 4. Travel document custodians on ground and in flight.
 5. Required number of IFSS.
 - j. The final decision as to whether a person in custody or under administrative control can be accepted on a flight lies with the Commander.
 - k. EY is not obliged to accept persons in custody or under administrative control from another carrier unless approval is obtained from TAC at least 7 days before the EY flight.

- I. All local requirements shall be adhered to in accordance with applicable regulations.

6.4.2 Inadmissible (INAD) (GOM 10.2.4.2)

- a. An inadmissible passenger (INAD) is a person who is or will be refused admission to a country by its authorities.
- b. An INAD will not be allowed to enter the country under most circumstances. An exemption to enter the country may be provided by the host authorities in special cases related to other non-civil aviation conditions.
- c. The carriage of an INAD shall be covered by a removal or exclusion order from the authorities of the country where the passenger has been deemed inadmissible in accordance with ICAO Annex 9. Travel documentation for an INAD may include passport, visa or other document (e.g. 'laissez-passer' travel document) where applicable.
- d. EY is not obliged to accept an INAD unless they were carried to the applicable country by EY and subsequently refused entry. Such passengers are usually returned to their point of origin on the return flight.
- e. The station of embarkation shall be responsible for notifying the stations of transit/transfer and disembarkation, and for complying with all requirements for the movement of INAD.
- f. A report for the movement of the INAD shall be created by ground staff in INTELEX by selecting the Immigration Notification Reporting System (INRS) report option.
- g. The SSR code 'INAD' shall be used for inadmissible passengers.
- h. There is no limit as to the number of INAD (unescorted) to be carried on an EY flight, unless otherwise assessed by the Commander, in coordination with ground staff and NOC/TAC.

6.4.2.1 INRS - Immigration Notification Reporting System (GOM 10.2.4.2.1)

The following requirements are applicable to INAD (unescorted) only.

- a. Applications and transport of INAD shall be managed via the Immigration Notification Reporting System (INRS) on EY Intellex.
- b. The carriage of an INAD (unescorted) on an EY flight does not require the completion of a Persons in Custody or Under Administrative Control Movement Application Form.
- c. A report for the movement of the INAD shall be created by the APM, DS or delegate at the airport where the guest becomes inadmissible, using the INRS report option in INTELEX. INRS sends an automated email notification, which includes but is not limited to the following recipients:
 1. Guest Control
 2. Abu Dhabi Transfer Desk
 3. Document Verification Unit (DVU) Operations, AUH
 4. Terminal Control Centre (TCC), AUH
 5. Applicable network airports
 6. Threat Assessment Center (TAC)
- d. When Guest Control updates the INRS report with the ticket details, this generates an automated email to the Crew Briefing Office (CBO), who shall:

1. For departures from AUH, print two (2) copies of the INRS report – one each for the SCCM and Commander.
 2. For departures from network airports, notify the operating SCCM and Commander by forwarding the email notification.
- e. EY Airport staff may refer to the INRS User Guide on SharePoint for the specific type of INRS report to raise and further guidance. The Outbound flight details section in the INRS shall be promptly filled as per the new ticket details. Completing this step triggers an automated notification to NAIC-ICP. If there are any changes to the flight (such as a change in flight number, date, or if a guest refuses to travel), the INRS report shall be updated accordingly. Regulatory Compliance Unit (RCU) shall also be notified to ensure that these changes are recorded.

NOTE

Under no circumstances shall the flight be delayed to produce a system-generated INRS report. A copy of the email correspondence related to the INAD shall be handed over to the SCCM to avoid any delay.

6.4.2.2 Escorted Inadmissible (EINAD) (GOM 10.2.4.2.2)

- a. Escorted Inadmissible (EINAD) is a person refused admission into a State by its immigration authorities and is required to be returned to country of domicile (where passport is issued) on the next available flight with security escorts. Refusal of admission may be due to insufficient documents (no visa), blacklisted or unruly/disruptive behaviour on a previous flight.
- b. Immigration authority requests are made in relation to INAD passengers who require escorts due to the INAD having made a verbal statement indicating refusal to board the aircraft and/or having physically demonstrated an unwillingness to be returned to their country of passport issue. Other reasons for escorts being required may include:
 1. The inadmissible person having already been denied transportation by another carrier.
 2. Indications that the inadmissible person may endanger the safety of the flight, the crew or other passengers.
- c. In most cases, the immigration authorities in the EINAD's state of departure will provide ICAO defined in-flight security officers as escorts. An in-flight security officer is defined as:

"A person who is authorized by the government of the State of the Operator and the government of the State of Registration to be deployed on an aircraft with the purpose of protecting that aircraft and its occupants against acts of unlawful interference. This excludes persons employed to provide exclusive personal protection for one or more specific people travelling on the aircraft, such as personal bodyguards"
- d. In some instances, however, immigration authorities may request the aircraft operator to provide escorts to repatriate an inadmissible person pursuant to ICAO Annex 9.
- e. As per policy prescribed by the Aviation Security Post Holder in the AOSP, Etihad does not provide 'security escorts' for EINADs. Instead, Etihad provides an In Flight Security Staff (IFSS) member, who will represent the airline for EINAD repatriation purposes in response to point (d) above.

- f. The IFSS shall be an Etihad employee, of the same gender and nationality and who shall be able to speak the same language as the EINAD.
- g. In coordination with the APM, TAC shall facilitate the availability of an appropriate support person as designated or approved by the AVSEC Post Holder or delegate.
- h. TAC will be notified of EINAD movement through a SeMS report raised by the APM, DS or delegate.
- i. TAC shall be guided by AVSEC procedures for persons in custody or under administrative control. APM, DS or delegate shall complete a Passenger Risk Assessment form for an EINAD prior to acceptance at check in. The completed Passenger Risk Assessment form shall be uploaded into the SeMS report.
- j. When TAC approves the movement of this category of passenger, this generates an automated email to the Crew Briefing Office (CBO), who shall:
 - 1. For departures from AUH, print two (2) copies of the SeMS report – one each for the SCCM and Commander.
 - 2. For departures from network airports, notify the operating SCCM and Commander by forwarding the email notification.
- k. Appointments including handcuffs, straps and ties are not permitted to be carried by IFSS for EINAD.
- l. Refer to Chapter 6.4.8 for the following:
 - 1. Maximum permitted number of EINAD on a single flight.
 - 2. Required number of IFSS for an EINAD. At least one of the IFSS shall be of the same gender as the EINAD.
- m. Wherever possible, maximum transit time in AUH should not exceed 8 hours for EINAD.
- n. During transit at AUH, welfare of the EINAD and continuity of custody remains the responsibility of the IFSS, unless otherwise directed by National Guard.
- o. The SSR code 'INAD' shall be used for EINADs. Additionally, a comment and additional description shall be added stating 'ESCORTED INAD'.

6.4.2.3 Charges and Ticketing for INAD/EINAD (GOM 10.2.4.2.3)

In terms of the General Conditions of Carriage under which airlines carry guests, the carrier should not be responsible for the costs of removing a guest. Consequently, where a guest, either en-route or at destination arrives in a country and is found inadmissible by the relevant Authority and is served with a removal order, the costs of the journey to the point specified on the removal order should be collected from the guest unless they are in possession of tickets covering such a journey. However, where the guest holds no ticket and is not in a position to pay for their outbound journey, the procedures detailed below should be followed.

- a. It should be clearly understood that Etihad would only be involved when the Prohibition Notice is served on an Etihad flight. Where any other operator delivers the guest, the Prohibition Notice will be served on such other carrier, who will be responsible for the removal of the guest including costs.
- b. Where the inadmissible guest is brought into the United Arab Emirates by another carrier and Etihad participates in the outbound carriage repatriation of the guest, the cost of the

transportation will be apportioned to the account of the airline that carried the guest to the UAE.

- c. Guest Control shall reissue INVOL tickets FOC, where required, to repatriate the INAD from the airport where the guest is declared inadmissible to the airport of repatriation or to an airport in the Etihad network where the guest is admissible.
- d. INAD may also be accommodated on other airline (OAL) in case of lack of seat availability or time-sensitive repatriation requirements.
- e. Responsibility for repatriation to an inadmissible person shall be pursuant to ICAO Annex 9.

6.4.3 Deportee (GOM 10.2.4.3)

- a. A deportee is a person who had legally been admitted to a State by its authorities or who had entered a State illegally, and who later is formally ordered by the competent authorities to leave that State.
- b. A deportee is either an
 - 1. Accompanied Deportee (DEPA), i.e. is escorted by deporting authorities
 - 2. Unaccompanied Deportee (DEPU), i.e. not escorted.
- c. Where contacted for a deportee (DEPU or DEPA) reservation, Reservations personnel shall create a SeMS report in INTELEX at the time of booking to record the carriage of the DEPU or DEPA.

NOTE

All deportees transferring at AUH, including those that would normally be DEPU, shall be required to have a security escort, therefore **DEPA** requirements shall be applicable to them.

6.4.3.1 Deportee - Unaccompanied (DEPU) (GOM 10.2.4.3.1)

- a. When TAC approves the movement of this category of passenger, this generates an automated email to the Crew Briefing Office (CBO), who shall:
 - 1. For departures from AUH, print two (2) copies of the SeMS report – one each for the SCCM and Commander.
 - 2. For departures from network airports, notify the operating SCCM and Commander by forwarding the email notification.
- b. Refer to Chapter 6.4.8 for the maximum permitted number of DEPU on a single flight.
- c. The SSR code 'DEPU' shall be used for unaccompanied deportees.
- d. There is no limit as to the number of DEPU to be carried on an EY flight, unless otherwise assessed by the Commander, in coordination with ground staff and NOC/TAC.

6.4.3.2 Deportee - Accompanied (DEPA) (GOM 10.2.4.3.2)

- a. DEPA shall be accompanied or escorted by the deporting authority, e.g. Immigration Officers or other law enforcement officers, as approved by EY TAC.
 - 1. An exemption from the above requirement may be issued based on advanced risk assessment in coordination with TAC and Flight Operations.

- b. Coordination and processing of all INTERPOL movements from the UAE and from GCC countries to the UAE shall be categorised as DEPA.
- c. APM, DS or delegate shall complete a Passenger Risk Assessment form for a DEPA prior to acceptance at check in. The completed Passenger Risk Assessment form shall be uploaded into the SeMS Report.
- d. When TAC approves the movement of this category of passenger, this generates an automated email to the Crew Briefing Office (CBO), who shall:
 - 1. For departures from AUH, print two (2) copies of the SeMS report – one each for the SCCM and Commander.
 - 2. For departures from network airports, notify the operating SCCM and Commander by forwarding the email notification.
- e. Appointments including handcuffs, straps and ties are not permitted to be carried by escorts for DEPA.
- f. Refer to Chapter 6.4.8 for the following:
 - 1. Maximum permitted number of DEPA on a single flight.
 - 2. Required number of escorts for a DEPA. At least one of the escorts shall be of the same gender as the DEPA.
- g. Wherever possible, maximum transit time in AUH should not exceed 8 hours for DEPA.
- h. During transit at AUH, welfare of the DEPA and continuity of custody remains the responsibility of the escorts, unless otherwise directed by the National Guard.
- i. The SSR code 'DEPA' shall be used for accompanied deportees.

6.4.4 Overstay Passenger (GOM 10.2.4.4)

- a. An appropriate authority may elect to categorise a foreign citizen who is required to be repatriated within a prescribed period as an overstay passenger.
- b. EY defines an overstay passenger as a person under administrative control who agrees to be repatriated to their origin or home country (passport domicile) under a special national deportation arrangement by the host government. In these instances, the applicable commercial fare shall apply at the cost of the host government.
- c. Overstay passengers are not categorised as deportees and therefore do not require a deportation order.
- d. The carriage of an overstay passenger on an EY flight does not require the completion of a Persons in Custody or Under Administrative Control Movement Application Form, however reservations personnel (where contacted for an overstay passenger reservation) or ground personnel (at the time of check in) shall create a SeMS report in INTELEX to record the carriage of an overstay passenger.
- e. When TAC approves the movement of this category of passenger, this generates an automated email to the Crew Briefing Office (CBO), who shall:
 - 1. For departures from AUH, print two (2) copies of the SeMS report – one each for the SCCM and Commander.
 - 2. For departures from network airports, notify the operating SCCM and Commander by forwarding the email notification.

- f. A SSR code is not required for overstay passengers, however a comment shall be added stating 'OVERSTAY PAX'.
- g. There is no limit as to the number of overstay passengers to be carried on an EY flight, unless otherwise assessed by the Commander, in coordination with ground staff and NOC/TAC.

6.4.5 Escorted Mentally Disturbed Passenger (EMDP) (GOM 10.2.4.5)

- a. An Escorted Mentally Disturbed Passenger (EMDP) is a patient from an appropriate institution that needs to be escorted with consideration for the safety and security of the flight.
- b. Where contacted for an EMDP reservation, Reservations personnel shall create a SeMS report in INTELEX at the time of booking to record the carriage of an EMDP.
- c. An EY MEDIF form shall be completed and submitted to the contact centre, who shall in turn submit it to the EY MEDA team.
- d. An EY Fit to Fly approval is required from the EY MEDA team for the EMDP to be accepted on an EY flight.
- e. APM, DS or delegate shall complete a Passenger Risk Assessment form for an EMDP prior to acceptance at check in. The completed Passenger Risk Assessment form shall be uploaded into the SeMS Report.
- f. When TAC approves the movement of this category of passenger, this generates an automated email to the Crew Briefing Office (CBO), who shall:
 - 1. For departures from AUH, print two (2) copies of the SeMS report – one each for the SCCM and Commander.
 - 2. For departures from network airports, notify the operating SCCM and Commander by forwarding the email notification.
- g. Appointments including handcuffs, straps and ties are not permitted to be carried by escorts for EMDP.
- h. Refer to Chapter 6.4.8 for the following:
 - 1. Maximum permitted number of EMDP on a single flight.
 - 2. Required number of escorts for an EMDP. At least one of the escorts shall be of the same gender as the EMDP.
- i. Wherever possible, maximum transit time in AUH should not exceed 8 hours for EMDP.
- j. During transit at AUH, welfare of the EMDP and continuity of custody remains the responsibility of the escorts, unless otherwise directed by the National Guard.
- k. A SSR code is not required for Escorted Mentally Disturbed Passengers, however an OSI remark and an onboard service list comment shall be added stating 'ESCORTED MDP'

6.4.6 Person in the custody of law enforcement personnel (PLE) (GOM 10.2.4.6)

- a. A PLE is a passenger who is accompanied or escorted by law enforcement personnel other than a DEPA, EINAD or EMDP.
- b. Requirements for the carriage of PLE shall be the same as DEPA in Chapter 6.4.3.2

6.4.7 Boarding and Disembarkation Requirements (GOM 10.2.4.7)

The following requirements shall apply for the boarding and disembarking of persons in custody or under administrative control:

- a. For seating requirements applicable to each category, refer to Chapter 6.4.8
- b. Prior to boarding of any persons in custody and under administrative control, ground staff shall inform the SCCM as early as possible. The SCCM shall then inform the Commander.
- c. Persons in custody or under administrative control shall be boarded first and disembarked last. This does not apply to INAD or Overstay Passengers.
- d. Travel documents shall be carried in accordance with Chapter 6.4.8, according to the requirements for each category. For categories where the documents shall be held by ground staff and the SCCM, the transfer of the documents between these persons at the departure/transfer/arrival airports shall be direct, i.e. avoid handling by multiple persons wherever possible.
- e. If Security Escorts are carried:
 1. The escorts shall be responsible for the security and behaviour of the person they are escorting.
 2. The escorts shall not reseat the person they are escorting.

6.4.8 Reference Table - Persons in Custody or under Administrative Control (GOM 10.2.4.8)

Category	Max. Permitted per Flight	No. of Escorts Required	Seating	Travel Document Custodian (Ground & In Flight)	Documentation Required
INAD	No limit*	Nil	Not in seats that permit direct access to emergency exits	- Ground staff (origin/transfer) - Cabin crew - Ground staff (transfer/destination) Exception: Not applicable where the passenger is pre-cleared into the destination country at the origin/transfer airport (e.g. US pre-clearance at AUH)	- INRS Report - Removal order - Passport copy - Ticket or PNR copy
EINAD	No limit*	2**	- Rear-most seats in cabin - Not in seats that permit direct access to emergency exits	Security escorts	- SeMS Report - Persons in Custody or under Admin. Control Form - Removal order - Passport copy - Ticket or PNR copy

Category	Max. Permitted per Flight	No. of Escorts Required	Seating	Travel Document Custodian (Ground & In Flight)	Documentation Required
			Block the row immediately in front, where possible		- Each escort's passport copy - Each escort's ticket or PNR copy - EY Passenger Risk Assessment form
DEPU	No limit*	Nil***	Not in seats that permit direct access to emergency exits	- Ground staff (origin/transfer) - Cabin crew - Ground staff (transfer/destination)	- SeMS Report - Persons in Custody or under Admin. Control Form - Deportation order - Clearance from authorities at origin/transfer/destination - Passport copy - Ticket or PNR copy
DEPA	No limit*	2**	- Rear-most seats in cabin - Not in seats that permit direct access to emergency exits - Block the row immediately in front, where possible	Security escorts	- SeMS Report - Persons in Custody or under Admin. Control Form - Deportation order - Clearance from authorities at origin/transfer/destination - Passport copy - Ticket or PNR copy - Each escort's passport copy - Each escort's ticket or PNR copy - EY Passenger Risk Assessment form
Overstay	No limit*	Nil	No special requirements	- Ground staff (origin/transfer) - Cabin crew - Ground staff (transfer/destination)	- SeMS Report (TAC approval not required) - Passport copy - Ticket or PNR copy
EMDP	No limit*	2**	- Rear-most seats in cabin - Not in seats that permit direct	Security escorts	- SeMS Report - Persons in Custody or under Admin. Control Form

Category	Max. Permitted per Flight	No. of Escorts Required	Seating	Travel Document Custodian (Ground & In Flight)	Documentation Required
			- access to emergency exits - Block the row immediately in front, where possible		- EY MEDIF form (completed by authority) - EY Fit to Fly approval (from EY MEDA) - EY Passenger Risk Assessment form
PLE	No Limit*	2**	- Rear-most seats in cabin - Not in seats that permit direct access to emergency exits - Block the row immediately in front, where possible	Security escorts	- SeMS Report - Persons in Custody or under Admin. Control Form - Deportation order - Clearance from authorities at origin/ transfer/ destination - Passport copy - Ticket or PNR copy - Each escort's passport copy - Each escort's ticket or PNR copy - EY Passenger Risk Assessment form

* Limits may be decided and imposed by the Commander, or Post Holder Aviation Security or delegate, in coordination with ground staff and NOC/TAC based on risk assessment, number of requests and other applicable factors.

** Two (2) escorts are required per passenger unless TAC, in coordination with Flight Operations, imposes an increase or decrease (to no less than 1) to the number of required escorts based on risk assessment, number of requests and other applicable factors.

*** **All deportees** transferring at AUH, including those that would normally be DEPU, shall be required to have a security escort, therefore **DEPA** requirements shall be applicable to them.

NOTE

Passenger Risk Assessment is mandatory where any person in custody or under administrative control demonstrates unruly/disruptive behavior or interference at the airport, regardless of category. Refer to Chapter [6.6.2](#).

6.5 FIREARMS, OTHER WEAPONS AND AMMUNITION

The 'WEAP' SSR code will be auto confirmed when added at the time of reservation to the PNR. Airport staff shall be responsible for cross checking that a SeMS confirmation has been received from TAC, prior to accepting the item(s).

If the 'WEAP' SSR is missing from the PNR, it shall be added only after receiving confirmation from TAC that it is acceptable to do so.

If a guest is not travelling with firearm(s), ammunition and/or other weapon(s), then the airport staff shall remove the 'WEAP' SSR in Altéa CM.

For any involuntary re-accommodation, the guest is not required to submit a new application. An updated SeMS approval shall be sent to the impacted airports via email from TAC.

For acceptance of firearms, other weapons and ammunition as checked baggage refer to GOM Chapter 10.3.6.

For carriage of firearms, other weapons and ammunition in the cabin refer to GOM Chapter 10.2.17.

6.6 PASSENGER RISK ASSESSMENT (GOM 10.2.20)

6.6.1 Passenger Risk Assessment – General (GOM 10.2.20.1)

In case of any passenger who exhibits unruly behaviour or interference as described in Chapter 6.7, potentially exhibits such behaviour or interference, or where the police are called to an incident involving a passenger, a passenger risk assessment shall be carried out to ensure the safety of the aircraft, persons on the ground, persons on board an aircraft and their property.

The Passenger Risk Assessment Form shall be used to perform the assessment. This form is intended to support the subsequent decision to either offload and/or accept such guests.

6.6.2 Passenger Risk Assessment - Persons in Custody and under Administrative Control (GOM 10.2.20.2)

The departing authority, in coordination with TAC and Ground Services shall undertake a background check at least 3 calendar days prior to the booked travel date of departure for persons in custody and under administrative control. The background check includes relevant deportation information and must be carefully assessed by the Airport Manager and Commander in consideration of the safety and security of the flight.

An English copy of the TAC authorisation shall be provided to the Airport team via the Security Management System (SeMS) and an email authorisation shall be provided to the flight crew as part of the flight envelope. The authorisation via SeMS and via email includes an authorisation of the passenger and subsequent flight details only.

The aviation security 'Passenger Risk Assessment Form' shall be used by Airport teams when the DEPU, DEPA, INAD, EINAD, MDP is in possession of a valid boarding pass and displays behaviours/characteristics described in Chapter 6.7 or similar to the below:

- Unwilling to return
- Intoxicated
- Unruly/violent/disruptive
- Uncooperative/not heeding to safety instructions

- Hurting self or suicidal
- Under sedative drugs/tranquilizers
- Unfit to travel
- Mentally unstable

The Passenger Risk Assessment Form shall be completed in hardcopy by relevant staff as stated on the form.

This form is intended to support the subsequent decision to either offload and/or accept persons in custody and under administrative control who have demonstrated any behaviour or characteristics consistent with those described in Chapter 6.7 and/or the above list.

6.6.3 Passenger Risk Assessment Form (GOM 10.2.20.3)

| [Passenger Risk Assessment Form EY075.](#)

6.7 PASSENGER UNRULY/DISRUPTIVE BEHAVIOUR OR INTERFERENCE ON THE GROUND (GOM 10.6.1.3)

- a. In case of any passenger who exhibits unruly behaviour or interference, potentially exhibits such behaviour or interference, or where the police are called to an incident involving a passenger, staff shall report any such behaviour observed at check-in, in the lounge or at boarding areas to their supervisor and place the checked baggage of such guests on standby.
- b. To assist in the identification of unruly or disruptive behaviour that may require a passenger to be denied boarding or offloaded from the aircraft, refer to the following non-exhaustive list:
 1. Failure to respect the rules of conduct at an airport or on board an aircraft, or to follow the instructions of the airport staff or crew members, thereby disturbing the good order and discipline at an airport or on board the aircraft.
 2. Committing or threatening an act of:
 - i. Assault, intimidation, menace or willful recklessness that endangers good order or the safety of property or persons.
 - ii. Assault, intimidation, menace or interference with an airport team member or crew member in the performance of duties or which lessens the ability to perform duties.
 - iii. Wilful recklessness or damage to airline or airport infrastructure/equipment, an aircraft and/or its equipment such as to endanger good order and the safety of the infrastructure/equipment, aircraft or its occupants.
 - iv. Communication of information that is known to be false, thereby endangering good order and the safety of a facility, infrastructure/equipment, an aircraft or its occupants.
 - v. Disobedience of lawful commands or instructions for safe, orderly or efficient operations.
 3. Non-adherence to any laws or regulations in accordance with the requirements of applicable local authorities.
 4. Appearance by manner or physical indications to be intoxicated, e.g. under the influence of alcohol or drugs.

- c. When a passenger manifests any behaviour that is or could become disruptive or unruly, the passenger shall be interviewed and assessed by the APM or delegate.
- d. The interview shall be conducted in a cordial atmosphere and should focus on the reason for the passenger's behaviour.
- e. A passenger risk assessment shall be carried out in accordance with GOM Chapter 10.2.20 / Chapter 6.6 to ensure the safety of the aircraft, persons on the ground, persons on board an aircraft and their property.
- f. Only when it is resolved that a passenger's behaviour will not cause a problem in-flight that the passenger shall be considered for carriage.
- g. In dealing with disruptive passengers, staff should not allow themselves to be intimidated by a passenger's class of travel or status, by threats of complaints to senior management or by similar bullying tactics.
- h. Passengers using persistently threatening, seriously abusive or insulting language or behaving in a way that causes staff harassment, alarm or distress might be committing a criminal offence. Any offence is made more serious if racist or sexist abuse is involved. Staff faced by passengers behaving in this way should call for the support of a supervisor. In extreme or persistent cases, the police shall be called.
- i. Any member of ground staff who has cause to be concerned or uneasy about a passenger's irrational behaviour at any time prior to boarding should bring their concerns to the attention of a supervisor so that the situation can be assessed.
- j. If a staff member is assaulted by a passenger:
 - 1. The police shall be called immediately;
 - 2. The staff member concerned shall give the police a clear indication of whether he or she wants the offender prosecuted (this might involve making a written statement and giving evidence in court);
 - 3. Any injuries shall be examined by a doctor at the earliest opportunity;
 - 4. In such circumstances, witness statements are usually required.
- k. Any check-in agent who judges that a passenger reporting for check in is under the influence of alcoholic drink or drugs or is otherwise disruptive is to suspend the check in process and call for a supervisor to attend. If the decision is made to refuse carriage the passenger is to be:
 - 1. Informed why they have been denied carriage; and
 - 2. Directed to an Etihad ticket desk so that onward travel can be arranged for a later date when the passenger will be fit to travel.
- l. Should a passenger be disruptive at the boarding gate, the support of a supervisor should be requested. Airport team members are fully empowered by Etihad to offload guests who are intoxicated (e.g. under the influence of alcohol or drugs) and who could be disruptive in flight. This is applicable even if the offloading leads to a delayed departure. The responsibility for deciding whether or not to offload a guest at the gate lies entirely with the airport teams. The flight and cabin crew are not to be involved in the decision-making process but should be advised of the outcome.
- m. Action on Board the Aircraft. On occasions the behaviour of a passenger might deteriorate to a very unacceptable level between boarding and pushback. When this occurs, the decision on whether or not to carry the passenger rests with the aircraft Commander (PIC).

Passengers who are found to be drunk at this time may have committed a criminal offence and are always to be offloaded. The ground staff shall be requested to assist with facilitating the removal from the flight any passenger denied carriage at this point.

- n. Calling the police. As a general rule, the police should be called whenever a passenger's behaviour is beyond the control of airport teams or his actions are outside the law. Airport teams shall never attempt to arrest or physically detain any offender or suspect themselves. In general, the police should always be called when:
 1. An incident causes a breach of aviation security.
 2. An Etihad staff member has been assaulted.
 3. Criminal damage has been done to Etihad property.
 4. An intoxicated or disruptive passenger insists on trying to board an aircraft or, having boarded, refuses to leave or is otherwise causing trouble.
 5. A criminal offence such as theft has been committed.
- o. If the passenger is denied carriage:
 1. Offload the passenger and baggage in the check in system and coordinate the physical offload of all baggage associated with the passenger.
 2. Ensure the situation is documented with details of the passenger's condition and behaviour (e.g. intoxicated, generally abusive).
- p. If the passenger is accepted for travel:
 1. Inform the Commander and SCCM. The Commander shall be provided with a copy of the Passenger Risk Assessment.
 2. Ensure the situation is documented with details of the passenger's condition and behaviour.
- q. Report the incident to applicable departments/authorities and the onward airport.
- r. Complete and submit a SeMS report for whenever:
 1. A passenger has exhibited unruly behaviour or unlawful interference, potentially exhibits such behaviour, or
 2. The police have been called to an incident involving a passenger.
- s. In the event that the passenger is required to be transferred to a hospital, the passport and personal belongings shall be handed over to the hospital by the ambulance staff that escort the passenger.
- t. At AUH, in the event that the passenger continues the unruly/disruptive behaviour, they shall be taken into custody by NG and all documents/personal belongings shall remain in the custody of NG until the passenger is released.
- u. Applicability. To the extent possible, the general principles in this policy should be applied at all airports. However, the variations in law from country to country are acknowledged. Stations should therefore draw up their own local procedures based on the content of this chapter but adapted to take account of local circumstances.

7.1 OVERVIEW

Baggage Services refers to the overall management of mishandled baggage (MHB), and is classified as:

- Delayed, misconnected or loss baggage
- Damaged Baggage (including mobility aids) or partial loss of checked baggage
- Pilferage of baggage, or items from baggage
- Tagless Baggage
- Misrouted, unclaimed baggage, on hand baggage
- Taken in Error baggage (TIE)

7.1.1 Types of Mishandled Baggage

On-Hand Baggage (OHD)

On-hand baggage or unclaimed found baggage is baggage that has missed the flight upon which it was intended to travel or was found without a tag.

Missing baggage (AHL)

Delayed/missing baggage is checked baggage not available to passengers when they present the baggage identification tag at the point of stopover or destination. Tracing missing baggage is about matching reports of missing baggage against reports of on hand baggage.

Damaged or Pilfered Baggage (DPR)

A Damage Property Report (DPR) files are created for baggage that is reported to be damaged or has contents missing.

For all baggage irregularities a file shall be created in World Tracer.

Classification	World Tracer File
Delayed, misconnected or loss baggage	AHL file (Advice if Hold)
Damaged or partial loss of checked baggage	DPR file (Damage or Pilferage)
Pilferage of baggage, or items from baggage	DPR file (Damage or Pilferage)
Tag less baggage	OHD (OnHand file)
Misrouted, unclaimed baggage, on hand baggage	OHD (OnHand file)
Taken in Error baggage (TIE)	Courtesy AHL file (Advice if Hold)

Refer to Chapter 7.18 for details of all mandatory file elements.

7.1.2 Baggage Identified as Being Mishandled

In the event that baggage is identified as mishandled, the baggage handling agent shall perform the following steps to commence the recovery, repair or delivery process:

- When the passenger reports missing baggage, ensure all relevant information pertinent to the itinerary, baggage information, contact details, etc., are recorded.
- The IATA Baggage Identification Chart can be used to assist the passenger to provide detailed descriptions of the missing baggage.

Airport Baggage services team members can use the IATA Baggage Identification Chart to assist guests to provide detailed descriptions of the missing baggage.

This information is entered into a Property Irregularity Report (PIR).

Guests may complete a Property Irregularity Report (PIR) via the following channels:

- In person, at the airport with an Etihad baggage agent, either on paper form or directly into the Tracing system
- Via a self-service kiosk located in the arrivals hall (where applicable)
- Online through the Etihad website at [Etihad.com](https://www.etihad.com)
- Via the Etihad mobile application
- By telephone by contacting the Etihad baggage office

If baggage identified as mishandled, during baggage handling and processing, the agent shall create the applicable baggage report. Refer to [GSM 7.4.1..](#)

NOTE

Enter mishandled or unclaimed found baggage details into the tracing system as defined by the Etihad policy.

Legal time limits apply to the reporting of loss, delay, damage or pilferage of baggage, see the Etihad policies and applicable conventions and/or regulations.

7.2 LEGAL TIME LIMITS FOR REPORTING

Airport teams shall ensure that all reports for damage, delay or pilferage are accepted only when notified within the reporting time frame.

Report Type	Reporting Requirement
Delayed Baggage	Report immediately at the airport, or in writing within 21 days from the date of check-in
Damaged or Pilfered Baggage	Reported immediately at the airport, or in writing within 7 days of receiving the baggage

NOTE

- Reports made via Social Media channels are considered as valid 'in writing'
- Where local country regulations outline extended reporting periods, this shall supersede the airline requirement

7.2.1 Mishandled Mobility Aids

Damaged, delayed or missing mobility aids should be handled as priority:

1. Provide a suitable equivalent loaned item or replacement as needed and as per ETIHAD policy.
2. Arrange for the repair or replacement of the item if needed.

7.3 BAGGAGE TRACKING AND TRACING SYSTEM

To record, trace, resolve and report baggage irregularities, Etihad Airways uses the World Tracer system provided by SITA:

- World Tracer Desktop
- World Tracer Native

There are 2 access levels for World Tracer:

- Intermediate (for GHA)
- Expert (for EY staff/Supervisor/APM)

All Etihad stations and their sub-contracted parties (GHA's) shall enter all baggage irregularities into the World Tracer system.

Access to World Tracer will be granted after participating in the 2-day World Tracer Web training.

7.4 MISHANDLED BAGGAGE TRACING

There are three (3) periods for tracing a baggage irregularity:

Tracing timeline	Number of days after file creation	Responsible department
Initial tracing	1 – 7	Arrival Airport (GHA)
Secondary tracing	8 – 20	AUH Baggage Service (EY)
Claims	21 – file closure	Baggage Claims team (EY)

7.4.1 Airport Teams Responsibilities

The initial tracing period is defined from file creation (Day 1), until Day 7. The arrival airport is responsible for all initial tracing activities and guest contact until Day 8, when the file moves to Secondary Tracing.

The following table outlines responsibilities for airport teams with regards to Baggage Services:

Role/Function	Responsibilities
Airport Manager	• Delivery of the station KPI's • World Tracer file compliance – AHL compliance % – OHD compliance % – DPR compliance % • World Tracer AHL file closure within 7 days • World Tracer OHD file closure within 7 days • Initial tracing results • Baggage delivery invoices
Duty Supervisor / Flight Supervisor	• World Tracer reports (MSF/MSP/MIP) • Fault Station and Reason for Loss code compliance • Check file status and amend on day 7 • Forwarding unrecovered files to secondary tracing team
Ground handler (GHA)	• Update the World Tracer file accordingly with the correct FS or RL • Creation of World Tracer files (AHL/OHD/DPR) • Compliance with all mandatory file elements • Daily initial tracing • Daily file update • Daily guest update • Reflighting and forwarding of left behind bag • File closure and status update

7.4.2 General Tracing Tasks

During the complete tracing process of mishandled baggage, the following tasks shall be performed and will be measured/monitored.

Tracing Period	Who	Day	Responsibility
Initial Tracing	Ground Handler	1	• Create a file • Apology letter and PIR/DPR copy handover to the guest • Next steps explained to the guest • Checked World Tracer for a match • Check the loading • Contact the loading team to confirm no baggage is delivered to the wrong area • Update the file
		2	• Checked World Tracer for a match (initial tracing) • Contact the guest for an update and get more details if required • Update the World Tracer file
		3 – 6	• Checked World Tracer for a match (initial tracing) • Contact and update the guest • Update the World Tracer file
		7	• Checked World Tracer for a match (initial tracing) • Contact and update the guest about the next steps: – Secondary tracing will start performing tracing • Update the World Tracer file • Send the handover to tracing 7 days letter to the guest
	Supervisor	1–7	• Run respective report(s) / PowerBI for World Tracer compliance and file closure • Update and amend the files if needed (FS/RL codes) and file's status • Update the World Tracer file accordingly

7.4.3 Secondary Tracing Period, Tasks and Responsibilities

The secondary tracing period will start from Day 8, all open files will be automatically transferred from the initial tracing station to the HDQ. The baggage secondary tracing team will send the 'handover to secondary tracing' letter. The secondary tracing process will be performed up to day 21, if no match the secondary tracing team will send the 'handover to claims' letter providing the guest with the online claiming information.

Tracing Period	Who	Day	Responsibility
	HANDOVER		
Secondary Tracing	Central Baggage Tracing	8	• Checked World Tracer for a match (secondary tracing) • Send the Secondary tracing letter to the guest • Next steps explained to the guest • Check loading details • Investigate with the origin station • Update the World Tracer file
		9 -20	• Check World Tracer for a match (secondary tracing) • Investigate with all airports on the baggage routing • Request for CCTV check if required • Update the World Tracer file
		21	• Checked World Tracer for a match (secondary tracing) • Contact and update the guest about the next steps: – Baggage Claims will handle the case • Send the claim handover letter to the guest • Update the World Tracer file (FF & RK) and suspend the file
	HANDOVER		
Claims	Baggage Claims	21 – file closure/ final settlement	• Assess Online Claim Form submitted by guests • Check World Tracer for a match (final tracing)

Tracing Period	Who	Day	Responsibility
			- Settle claim with guest - Update AHL CS element of claimed files - After the settlement close the file
	Pro-rate	60 days after final settlement	- Handle all incoming pro-rate invoice - Prepare settles claims including other airline (OAL) - Send invoice to other airline (OAL)

7.5 REASON FOR LOSS CODES

To help identify the reason for baggage was mishandled and to ensure accurate coding at the time of file creation, the correct Reason for Loss (RL) code shall be reflected on all Forward (FWD) transactions. The reason for loss code (RL) is a mandatory element for all files. The FS (Fault station) is usually identified as well as the code. Refer to [GSM 7.6](#).

The table below summarizes the RL codes in use:

10	Origin station - check in	Area	GHA Accountability
11	Incorrect or no entries on the tag	Above Wing	GHA
12	Not checked to final destination	Above Wing	GHA
13	Checked to final destination – separate contracts	Above Wing	GHA
15	Wrong labelled i.e. tag switch	Above Wing	GHA
16	Baggage received late from check in	Above Wing	GHA
17	Old tag not removed	Above Wing	GHA
18	Bag(s) not authorised to load	Above Wing	GHA

20	Origin station - failed to load	Area	Accountability
21	Baggage left behind at station of origin / correctly labelled	Below Wing	GHA
23	Standby baggage left behind	Below Wing	GHA

20	Origin station - failed to load	Area	Accountability
25	Gate checked baggage left behind	Above & Below Wing	GHA
26	Offloaded due to space / weight restrictions	Below Wing	-
27	Local guest rerouted, baggage not rerouted	Above Wing	GHA

30	Any station - loading/offloading	Area	Accountability
31	Sorting or loading error / wrong aircraft	Below Wing	GHA
32	Offloaded by error	Above Wing	GHA
33	Not offloaded / overcarried	Below Wing	GHA
35	Sorting or loading error, wrong container/compartments/behind cargo	Below Wing	GHA
36	AUH HBSS X-ray Machine Issue	Below Wing	GHA
37	AUH US CBP X-Ray Machine Issue	Below Wing	GHA
38	AUH US CBP RAD	Below Wing	GHA

40	Arrival station	Area	Accountability
41	Delivered to the wrong area	Below Wing	GHA
42	Delayed delivery to the claim area	Below Wing	GHA
43	Delayed delivery of oversized/odd size baggage to the claim area	Below Wing	GHA
44	AUH US CBP Customs Late Processing	Below Wing	GHA

50	Transfer station	Area	Accountability
51	Guest rerouted, baggage not rerouted	Above Wing	GHA
52	Interline – MCT available baggage left behind	Above Wing	-

50	Transfer station	Area	Accountability
53	Interline – MCT not available, baggage misconnection	Above Wing	GHA
54	Interline baggage left behind at origin – Bag(s) not made available by inbound carrier as per local agreement	Above Wing	-
55	EY to EY MCT available	Above Wing	GHA
56	EY to EY MCT not available	Above Wing	GHA
59	Bag(s) not authorized to load	Above Wing	GHA

60	Airport – general	Area	Accountability
61	Industrial disputes i.e. strike	Above & Below Wing	-
62	Other reasons (i.e. meteorological) + Local law and regulation	Below Wing	-
63	Airport Security + Extra screening/X-ray issues	Below Wing	GHA
64	Unserviceable equipment (belt/sortation system, etc.)	below wing	GHA
65	Space/Weight restrictions due to meteorological conditions	Below Wing	-
66	Errors by non-aviation carrier i.e., ground transportation cruise	-	-
67	Congestion due to customs/police or immigration	Below Wing	-
68	IT Related Issues (WIFI Connectivity, BRS Related Issues)	Below Wing	GHA
69	BHS IT Equipment (BIWIS, ATR)	Below Wing	GHA

70	Miscellaneous	Area	Accountability
71	AUH BHS/HBSS Fallen Baggage Issue	Below Wing	GHA

70	Miscellaneous	Area	Accountability
72	Guest offloaded baggage not offloaded	Above Wing	GHA
73	Bag(s) not claimed by passenger where required	Above Wing	-
74	Baggage switch i.e. guest takes the wrong baggage	-	GHA
75	Security – not identified by guest at security checkpoint	-	-
76	Baggage found without a bag tag (tag-less baggage)	Above & Below Wing	GHA
77	Errors by other carrier, e.g. tagging, etc. for OAL fault	Above & Below Wing	-
78	Aircraft defect	Below Wing	-
79	Report created in error	Above Wing	GHA

80	Damage baggage	Area	Accountability
81	Broken locks or hinges	Below Wing	GHA
82	Handle strap or wheel broken or torn off	Below Wing	GHA
83	Baggage damage due to security inspection	Below Wing	-
84	Baggage dented	Below Wing	GHA
85	Baggage crushed	Below Wing	GHA
86	Baggage frame broken	Below Wing	GHA
87	Baggage torn/ripped	Below Wing	GHA
88	Wet due to rain or liquid spillage in the hold or damage contents	Below Wing	GHA
89	Superficial damage including minor scratches	Below Wing	GHA

90	Pilfered	Area	Accountability
91	Pilferage including damaged baggage	Below Wing	GHA
93	Pilferage due to security inspection	Below Wing	GHA
95	Pilferage from crew baggage	Below Wing	GHA
96	Pilferage from crew baggage including damaged baggage	Below Wing	GHA
98	Pilferage from security inspected crew baggage	Below Wing	GHA

7.6 FAULT STATION

For all files raised in World Tracer, the reporting station shall be responsible for ensuring that both a Reason for Loss (RL) and a Fault Station (FS) are assigned. In order to improve accuracy with World Tracer, the airport that creates the AHL file in World Tracer shall initially nominate itself as Fault Station. The Fault Station has been designed as a starting point for mishandled baggage investigation. It is not intended as a blame station.

NOTE

- RL 78 is removed and shall not be used when creating AHL
- When updating a file with code 79, the file shall be closed immediately
- Code RL55 and RL56 are only used when EY-EY misconnection

For all files raised in World Tracer, the reporting station i.e. the station that initiates/creates the file, is responsible for ensuring that both, a Reason for Loss (RL) and Fault Station (FS) are assigned. Note that this is mandatory and will help improve accuracy with World Tracer. Summary of steps to follow:

Step 1 – The airport that creates the AHL file in World Tracer shall initially nominate itself as “Fault Station” (FS).

Step 2 – Upon verifying that the bag has not been received at the arrival airport, the Fault Station shall subsequently be reassigned to the previous EY airport on the guests’ itinerary.

Step 3 – The newly assigned airport shall then initiate an investigation to locate the bag. If the bag has not been seen and loaded from that airport, the previous airport on the itinerary shall be reassigned as the Fault Station. If the bag has been mishandled at this station, then the appropriate RL code is to be advised.

Step 4 – The station who initiated the AHL can now close the file with the final RL and FS code updated.

Please note that this process varies slightly when dealing with OAL flights and non-EY stations. The below examples & notes will help clarify:

Example 1 (Route operated by EY flights only)

Bags not received in BOM on arrival. As per Fault Station allocation guideline, below action should be taken:

Step 1 – BOM station creates the AHL and assigns themselves (BOM) as Fault Station at the time creation.

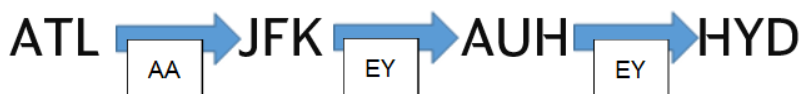

Step 2 – Upon verifying that the bags were not received in BOM station, Fault Station to be changed by BOM station to AUH (the previous EY airport).

Step 3 – AUH station to initiate an investigation to locate the bag and if the bag has not been seen for transfer, AUH will change the Fault Station to JFK.

Step 4 – JFK station to initiate investigation, identify error for future rectification and advice appropriate RL code.

Step 5 – BOM station to now close the file with the final RL and FS code.

Example 2 (Route operated by OAL and EY with non-EY station involved)

(ATL-JFK operated by AA and all others by EY)

Bags not received in HYD on arrival. As per Fault Station allocation guideline, below action should be taken:

Step 1 – HYD station creates the AHL and assigns themselves (HYD) as Fault Station at the time creation.

Step 2 – Upon verifying that the bags were not received in HYD station, Fault Station to be changed by HYD station to AUH (the previous EY airport).

Step 3 – AUH station to initiate an investigation to locate the bag and if the bag has not been seen for transfer, AUH will change the Fault Station to JFK.

Step 4 – JFK station to initiate investigation, identify error and advice appropriate RL code (Ref notes below) even if the mishandling took place in ATL. **DO NOT CHANGE** the Fault Station to ATL.

Step 5 – HYD station to now close the file with the final RL and FS code.

Example 3 (EY Network routing with OAL operated flight)

(AMS-AUH operated by KL and all others by EY)

Bags were not received in MAA on arrival. As per fault station allocation guidelines below action should be taken,

Step 1 – MAA station creates the AHL and assigns themselves (MAA) as Fault Station at the time creation.

Step 2 – Upon verifying that the bags were not received in MAA station, Fault Station to be changed by MAA station to AUH (the previous EY airport).

Step 3 – AUH station to initiate an investigation to locate the bag. Even if the bag was mishandled at AMS (by KL), the fault station will still remain as AUH as AMS-AUH is operated by KL. **DO NOT CHANGE** the Fault Station to AMS.

Step 4 – AUH station to identify and advice appropriate RL code (Ref notes below)

Step 5 – MAA station to now close the file with the final RL and FS code.

Example 4 (EY Network routing with OAL operated flight)

(AMS-AUH operated by KL and all others by EY - Original flight from AMS was on EY)

Bags were not received in AUH on arrival. As per fault station allocation guidelines below action should be taken,

Step 1 – AUH station creates the AHL and assigns themselves (AUH) as Fault Station at the time creation.

Step 2 – Upon verifying that the bags were not received in AUH station, Fault Station to be changed by AUH station to ATH (the previous EY airport).

Step 3 – ATH station initiate an investigation to locate the bag. if the bag was mishandled at AMS (by KL), the fault station will still remain as ATH as ATH-AUH is operated by EY.

However if the disruption originated by EY at AMS, AMSEY where the guest were rerouted on KL, the Fault Station Should be update to reflect AMS.

Step 4 – AMS station to identify and advice appropriate origin RL code (RL27)

Step 5 – AUH station to now close the file with the final RL and FS code.

NOTE

1. IMPORTANT!!! Fault Station **SHOULD NOT** be assigned outside the EY network of stations.
2. Where OAL error is involved in routes operated by OAL carriers, the origin station of the OAL route **SHOULD NOT** be assigned as fault station even if the station itself is within the EY network (as with AMS-AUH-MAA in the example 3), the RL should be updated to reflect correctly from Transfer Station e.g.: RL:54 (interline baggage not made available by inbound carrier as per local agreement) or Miscellaneous RL e.g.: RL:77 (Error by Other Carriers) – applicable with example 2 and 3 above.
3. Where the error originating at EY station and guest are rerouted from disruption EY station in a new rout operated by OAL(as with AMS-ATH-AUH in the example 4), Fault station should be updated to reflect EY disruption station; e.g.: FS AMS /RL 27 (local guest rerouted but baggage not rerouted).
4. When raising a DPR file the fault station shall be the PIR raising station unless proven otherwise.
5. If any FS attribution disputes, contact the BRC team at BRC@etihad.ae

7.6.1 Faded Baggage Tags – Fault Station

If mishandled baggage with faded tags is identified at AUH, the AUH Baggage Team shall:

- Document and record the faded or damaged tags utilising available evidence.
- Share this evidence with the Baggage Recovery Control (BRC) team for appropriate follow-up actions.

7.6.1.1 Notification and Fault Attribution

- The arrival station shall create the AHL.
- AUH re-flighting team will process the bag as a rush bag, which includes re-tagging (where required) and creating a FWD message with FS/RL advice.

In cases where the root cause is determined to be “bag not authorised to load due to unreadable/faded tag”, the responsibility shall be assigned to the origin station.

The BRC team is responsible for the following:

- Notify the destination airport about the mishandled baggage, including the number of items left behind and the reason for the mishandling in case of mass offloading.
- Ensure the compliance of Reason for Loss (RL) / Fault Station (FS) and assist in any investigations and disputes regarding the FS.

7.6.1.2 Corrective Actions for Fault Stations

Stations designated as FS, are required to implement the following corrective measures:

- Printer Maintenance: Preform regular maintenance and calibration of printers to prevent low-quality baggage tags.

- Staff Training: Deliver training for staff on proper baggage tagging procedures.
- Reporting and Follow-Up: Submit a monthly investigation report, including corrective actions, to the Regional Manager (RM).

7.6.1.3 OAL Origin station – Faded tags

For OAL faded tags, the FS should be assigned to the airport where the bag was left behind, marked with RL code 77 due to errors caused by other carriers, such as tagging errors.

While the EY origin station should not be designated as the FS for issues caused by OAL's tagging processes or equipment, the EY origin station is responsible for the following actions:

- Investigate the incident and ensure corrective actions are taken.
- Communicate directly with the OAL to address the issue, ensuring that their printers, ribbons, and tagging equipment are properly maintained.
- Coordinate with the Interline and Ground Handling teams to address recurrent issues and enforce compliance through agreements or performance audits.

7.6.1.4 Monitoring and Escalation

- The RM will monitor improvements and provide feedback to the AUH Team as required.
- Stations experiencing recurring issues will undergo additional audits and escalations to ensure compliance and enhance performance.

7.6.2 Courtesy AHL

The courtesy delayed report is a valuable reference for enhancing baggage service quality and preventing irregularities in baggage handling.

In general, a courtesy delayed baggage report (AHL) shall be created when a bag was initially not checked in on an EY flight. This applies when no baggage tag is recorded in Altéa CM or when the guest has not provided a baggage tag issued by another airline. In some cases, following investigation under different circumstances, the report may be handled as a standard AHL.

A courtesy file shall always be created in WorldTracer to facilitate the matching and tracing process. This file will be actively tracked for 7 days, during which the guest will receive updates. If no match is found after this period, the case shall be handed over to secondary tracing (AUH CBT team) for further investigation and eventual closure.

The Fault Station (FS) for a courtesy AHL shall always be the raising station.

Scenarios in which Courtesy AHL shall be created

- Where bags are left behind by (e.g.: by airport authorities due to security or customs issues), a Courtesy AHL shall be created to track the recovery and case closure.
- For standby travel cases, when a guest claims delayed baggage upon arrival and presents a baggage tag that was not checked on the flight they arrived on due to the bag not being loaded.

In such cases, a comment shall be added to the file to indicate that it was generated as a courtesy for tracing purposes. The AHL shall include complete flight details and baggage routing and it shall be regularly updated with all tracking actions.

Scenarios in which the Courtesy AHL will be treated as Standard AHL

When a match is found during the tracing process, such as with untagged bags, unclaimed bags (OHD), or through a forward message (FWD). The AHL shall be treated as Standard and the guest shall be eligible for the baggage delivery service.

Additionally, the following scenarios of Courtesy AHL may be treated as Standard AHL cases unless an investigation proves otherwise:

When a match is found during the tracing process, such as with untagged bags, unclaimed bags (OHD), or through a forward message (FWD). The AHL shall be treated as a Standard AHL, and the guest shall be eligible for the baggage delivery service.

Additionally, the following Courtesy AHL scenarios may be treated as Standard AHL cases unless an investigation proves otherwise:

- Another airline (OAL) is involved in the routing of the guest and/or baggage
- The baggage tag is cancelled / deleted in the system
- OAL errors exist, such as rerouting, short-tagging, through check-in on separate tickets or in the absence of an interline agreement on the inbound sector

7.7 BAGGAGE DISRUPTION**Disruption involving less than 9 bags**

Pre-departure baggage may be mishandled due to the following possible reasons:

- Security and screening
- System failures
- Human error
- Tag detaching
- Minimum Connection Time (MCT)

The mishandled/ left behind bag shall be reconciled at the Manual Encoding Station (MES) or delivered to the Baggage Services Office. An On-Hand Report (OHD) or FWD advice shall be created. Refer to GSM 7.7.5

NOTE

The BRC team BRC@etihad.ae shall always be informed with the Tag Number, class of travel and the reason.

Mass-Offload Disruption

In the event 10 or more bags are disrupted on the same flight, Baggage Services agents shall follow the process below.

#	Recovery Process	Responsibility
1	Inform the BRC (BRC@etihad.ae) and CLC (AUHhublcsic@etihad.ae) teams, providing mass offload details,	Departure Station

#	Recovery Process	Responsibility
	including flight number, date, reason, and number of left-behind bags.	
2	Initiate the “Left-behind Baggage Notification” email to BagOffload@etihad.ae and include the arrival station	Load Control (CLC)
3	Departure station to send impacted tag numbers, guest names, and PNRs, clearly indicating the destination, class of travel, and any additional information on the root cause of the offload. The departure station (including AUH TBF) shall ensure BMS is updated correctly to reflect accurate baggage loading information	Departure Station
4	a. Check loading positions of offloaded bags in BMS to confirm total number of LBB b. Verify offload reason and issue guest letters, with corresponding reason for delay, to the arrival station(s)	Baggage Recovery Control (BRC)
5	Note the impact on connecting EY flights and update baggage planning accordingly.	Load Control (CLC) & AUH TBF / AUH Baggage Allocator
5a	For connecting flights on EY: • LBB notification process to be followed by CLC when NSFT baggage, however BRC shall not duplicate guest notification • BRC to highlight to origin station(s), any bags shown as not-loaded from origin that are subsequently scanned in AUH on connecting flights. For connection on OAL via onward EY station: • The BRC team will send a request to transfer stations to facilitate the proposed rerouting of offloaded baggage along with the proposed airline(s) details.	CLC BRC
6	The rerouting request shall be acknowledge within 2 hours. The transfer station shall inform OAL to assess their capacity to accept rush baggage. Confirm acceptance of the rush baggage by the OAL, including the following details: • Amount of rush bags to be accepted • Flight details (number and date)	Transfer Station

#	Recovery Process	Responsibility
	Any specific airline requirements (e.g., short-tagging or through-tagging). Ensure smooth transfer of rerouted rush baggage at the destination airport. For AUH transfer bags BC shall endeavor to inform OAL of the NSFT impact to downline flights.	
7	Track the event through full recovery, delivery and closure of AHLs. Monitor the recovery of LBB bags events on each shift	Baggage Recovery Control (BRC)
8	- Create OHD for any tagless bags - Arrange for tagged LBB to be sent as RUSH on the first available flight (FAF) - Reflight the left behind baggage, using original tag numbers via BRS or Altéa CM and ensure the corresponding FWD advice is reflected in WorldTracer - Ensure correct reflighting of rush bags via EY & OAL as per their advice where applicable (e.g. through tag or short tag).	Departure Station
9	TBF to monitor manual rush bags and bags sent without BTM or FWD or short tagged to AUH. Through BRS reflight the bags to final destination <u>Notify BRC to record the shortfall in reflighting to ensure tracking of LBB recovery</u>	TBF
10	Arrange for guests to be met at the aircraft or in the arrivals hall, with a signboard or personal name page to the baggage services counter – for a proactive apology, guest letter, and finalize PIR. Where possible, create pre-PIR to expedite processing in the arrivals hall. Arrival stations may request Baggage Recovery Control (BRC) to assist with creation of pre-PIR's before arrival, however this process shall be initiated from a station level, to avoid any duplicate files being raised. On arrival, the receiving airport shall update all additional mandatory fields (including bag description) into the pre-AHL file to maintain file compliance.	Arrival Station
11	Provide daily updates to guests on the status of left-behind bags, and ensure timely delivery once received via RUSH.	Arrival Station

#	Recovery Process	Responsibility
12	Track recovery of LBB and where required, coordinate with departure station to accelerate baggage forwarding, or arrival station for delivery.	Baggage Recovery Control (BRC)

Baggage Recovery Control (BRC)

The Baggage Recovery Control (BRC) is located within the NOC and is available on a 24/7 basis to support stations in the event of mass baggage disruption.

BRC Team is the coordination center between all the involved station and HUB Teams, monitoring all - from single mishandled baggage cases till mass offload events. Responsible for

APLs, notifications, dead-lines, disruptions, system problems, questionable FS/RL codes, escalations, courtesy file, etc. – any issues station might face

BRC is available to assist stations with any baggage related question and request or redirect to a specific team.

Baggage Recovery Control (BRC) Contact Details	
Duty Mobile (Call/SMS/WhatsApp)	+971 56 422 2479
Operational Email	BRC@etihad.ae

Pre-AHL creation, mandatory WTR elements

Element	Sample
Station / Airline	MCTEY
Names	John Doe
Class of service (F/J/Y)	F
Number of guests	1
Home/mobile phone no.	123 (to be updated by the arrival station)
Permanent address	NA (to be completed by the arrival station)
Automated messages	Receive both SMS & email
PNR	NA (to be completed by the arrival station)
Ticket number	NA (to be completed by the arrival station)

Pre-AHL creation, mandatory WTR elements

Element	Sample
Guest routing (Flight number/date/origin/destination)	EY018 / 04Jan / EY 388/ 4Jan – LHR/AUH/MCT
Bag routing	EY018/04JAN/EY388/04JAN
Tracing station	LHR/AUH/MCT
Bags (tag number/brand/color/type/contents)	EY123456, Delsey, BK 22 XXX, cloths(to be completed by the arrival station)
Total Baggage weight	e.g. 1/23
Delivery weight	0/0 (to be completed by the arrival station)
Fault station	LHR
Reason for Loss	26

On arrival, the receiving airport shall update all additional mandatory fields into the pre-AHL file to maintain file compliance.

Communication and reflighting SLA

Flight time	Reflighting	Who
0 – 2 hours	45 minutes after departure	Departing station
2 – 4 hours	60 minutes after departure	Departing station
4 – 6 hours	90 minutes after departure	Departing station
6 – 8 hours	120 minutes after departure	Departing station
8 hours and above	180 minutes after departure	Departing station

7.7.1 Baggage Disruption Responsibilities

If an airport does not have a baggage reflighting system, a pre-notification email must be sent to the following addresses:

BaggageControlCentre@velora.ae
auhreflighting@velora.ae
AUHTBF@velora.ae
BRC@etihad.ae

The email shall contain the number of pieces, tag number (s) and routing details.

7.7.2 Reflighting Baggage via US CBP Pre-Cleared Flights

When reflighting baggage to the US, all Network airports shall identify the most direct route for the baggage to be sent. As the processing of rush bags via AUH to the US may take up to 48 hours, it is preferable, wherever possible, to forward any rush bag directly onto another airline to the US and not via AUH.

Rush bags destined for the US shall only be sent via AUH provided that the following criteria is met:

1. The guest has already been precleared through the US CBP Facility
2. The guest has reached their destination and has raised a WorldTracer File with contact details containing the name and address of the guest

Should this criteria be met the baggage shall be rushed to the final destination in US with its original tag number. Rush advice must have been created in WTR before sending the rush bag.

7.7.3 Umrah Labels

All baggage left behind that has been labeled as “UMRAH” shall have the Umrah label/sticker removed before the bag is forwarded under Rush tag. The forwarding station shall ensure this is completed.

7.7.4 Rush Bags

From AUH

To ensure that RUSH bags are transferred from AUH to onward flights correctly, the following requirements shall be met:

- a. Wherever possible, use the original bag tag number from the thermal baggage label, and:
 1. Use Mini-RUSH stickers or Rush tag and complete the new routing.
 2. The original thermal baggage label must be reflighted to the final destination in BRS.
 3. An FWD message shall be created for the original tag number and new flight/RL/FS are updated.
- b. When re-tagging the bag with a new RUSH tag, ensure that the old tag is rolled up and inserted under the new tag.
- c. Always tag the bag to the final destination. Enter the outbound flight/date in BRS or World Tracer to ensure a Baggage Source Message (BSM) is sent.
- d. Always issue an FWD message for the reflighted bag with the original tag number and new flight details and RL/FS.
- e. Altéa CM can be used for creating RUSH tags and FWD.

NOTE

If the RUSH bag has not been registered in BRS or World Tracer, a BSM will not be sent and the bag may not be connected to the onward flight.

From Network Airports

To ensure Rush bags are transferred smoothly and correctly to AUH/onward flights, and to efficiently manage re-flighted bags and prevent unauthorised baggage from being loaded upon arrival in Abu Dhabi, the following guidelines must be followed:

Thru Rush

A **Thru Rush** shall be created by the origin station via Altéa CM/BRS for baggage to arrive into AUH as **Rush** and continue to the onward final destination as **Rush**.

Example

The origin station-SYD, shall rush the baggage to MAD, using the same baggage tag number of the original baggage tag.

The rush tag shall be securely affixed to the baggage, and the original baggage tag shall be rolled and enclosed within the rush tag.

The following procedures shall apply to prevent discrepancies resulting from the issuance of new rush tags:

- The **original baggage tag number** shall always be used when issuing a Thru Rush tag, and a new tag number must not be created.
- A **FWD message** shall be created to ensure accurate tracking and monitoring of the bag throughout its journey.

Short tag

Short tag shall only be issued for inbound flights to AUH when the baggage does not arrive on the original booked flight and is received as **Rush**. The baggage will continue on the originally booked onward sector as a **live bag**, using the original baggage tag.

Example

The origin station-SYD, shall rush the baggage to AUH only, using a **new rush tag**.

The rush tag shall be affixed to one side of the original baggage tag.

The original baggage tag for the live flight sector (AUH–MAD) must be retained and remain visible to enable proper processing and scanning at AUH.

Example

For the onward flight departing AUH, only the original baggage tag number shall be scanned to load the bag.

Manual tag - Mini Rush sticker

Manual/Mini rush tags shall only be used when a bag arrives as a Rush into AUH and departs as a live bag.

Only the original tag number shall be scanned to load the bag on the onward flight from AUH.

The manual/mini rush tag shall:

- Not cover live flight details on the original tag
- Not cover the live barcode on the original tag
- Only be affixed to one side of the original tag

7.8 DELAYED BAGGAGE CLAIMS

Airport teams shall inform guests to keep all purchase receipts related to essential items purchased and submit a Delayed Baggage Claim online at <https://www.etihad.com/en-ae/about-us/contact-us> to obtain reimbursement. The form shall be completed after receiving the delayed bag.

Airport Managers who wish to authorise compensation in exceptional circumstances shall co-ordinate with the Guest Relations and Baggage Claims Manager by emailing GCRDutyManagers@etihad.ae.

7.9 DAMAGED AND PILFERAGE (DPR)

When a guest reports a DPR upon arrival or within 7 days the following rules and regulations apply:

Types of “Major” Damage that shall be accommodated:

- Large Dents
- Crack
- Retractable Handle
- Missing or Cracked Wheel
- Zipper damage

Types of Damage that shall not be considered:

- Locks
- Slider of Zipper
- Loose wheels
- Side Handle
- Minor Dents
- Minor Scratches

- Baggage that is labelled with a LRT (Limited Release Label)
- Baggage that is more than 5 years old

For all refused damage cases, it is mandatory for the arrival staff to request for the bag tag and create a DPR file. The agent shall put either on FF or SI a comment stating that the DPR has been refused and the reason for refusal, then close the DPR. BIS App (from PowerApps) shall be also used to store the bag damage image for claims reference. The guest has to be informed that the case has been denied. In case the guest insists on claiming, refer the guest to fill in the online baggage claim form.

If denied the following information is mandatory:

FF; describe what has been assessed: denied due to normal wear and tear (or other reason if applicable)

Example: denied due to side scratch, normal wear and tear

A copy of the denied DPR shall be shared with the guest.

Etihad does not provide replacement baggage or pay the guest cash compensation.

Airport teams shall not provide replacement baggage or make payments directly to a guest. All DPR files shall be handled as mentioned in this chapter.

For all approved DPR files, a DPR file shall be created and a DPR letter (Refer to Etihad Global Airports SharePoint) shall be handed over to the guest. It is mandatory to fill in the required information in the letter and World Tracer file to ensure appropriate compensation can be claimed and close the WT DPR file. It is mandatory to fill in the required information on the mentioned area on the letter:

- File Reference: DPR file number
- Brand of the damaged baggage
- Describe damage; write down in detail what is damaged (e.g. left side torn)
- Guest briefed on the DPR process
- You must update the DPR file with a comment on FF - guest informed; letter provided
- BIS app shall be updated and images of damages to be attached

Example:

File reference (DPR)	DPREY12345	
Brand	Samsonite	
Describe damage	Left side torn	
Guest briefed	Y	N
File updated	Y	N

To evaluate if the damage is repairable, the guest must take the baggage to a baggage repair company of choice for a full assessment.

After assessment there are 2 options:

1. If the baggage is assessed as repairable: the guest must upload the DPR letter, along with a receipt showing the cost of repair, to the baggage claim form online. The Baggage Claims team will assess the case and contact the guest.
2. If the baggage is assessed as non-repairable: the guest must upload the DPR letter along with the confirmation from the baggage repair company to the baggage claim form online. The Baggage Claims team will assess the case and contact the guest.

The guest can upload all mandatory documents on the Etihad website.

- In the absence of DPR, if Etihad's liability for the claim is confirmed, the Baggage Claims team will create a DPR, containing all the mandatory elements, under the arrival station
- Baggage Claims team must update CS element (Claim Amounts - Settlement Cost) and UC element with RQID on World Tracer Web and close the DPR file

The following procedures shall be adhered to ensure thorough documentation and support from the claims team.

Accurate Contact Information:

- Only use the approved templates provided by Etihad Airways for guest communication. Handwritten notes are strictly prohibited to maintain professionalism.
- Ensure that all communication given to guests contains accurate and operational contact details.

Weight Verification:

- Measure and record the delivery weight (DW element - the weight of the bag upon arrival) as part of the damage/pilferage report process.
- Document the total checked weight registered at the departure station. This step is crucial for assessing any discrepancies and substantiating the pilferage claim.

Missing Items Declaration:

- List Missing Items: During the reporting process, request the guest to carefully check their belongings and list any missing items in the WorldTracer DPR in the LP element.
- Detailed Documentation: Ensure that each missing item is documented accurately, including details such as its value, to support further assessment for settlement.

7.9.1 Limited Release (LRT)

For all damaged property reports, the baggage service agent shall check the tag for guest signature. If signed, you may refuse the case. It is mandatory that the Baggage Service staff still create a DPR and inform the guest accordingly. If not signed, assess the damage and create a file.

7.9.2 Guests Reporting Pilferage

The baggage service agent shall accompany the guest to customs who will inspect the bag(s) and verify the missing items. All missing items should be clearly itemized in the DPR file. The agent should weigh the pilfered bag to verify the difference between the check-in record and the current weight. The difference must be added to the DPR file.

NOTE

For all types of damage for guests travelling to/from the US, a DPR report should be accommodated in all cases (US DoT rule).

7.9.3 DPR Payments

DPR settlement shall not be paid at an airport. Guests who wish to make a claim for damaged baggage shall be directed to the online form at

<https://www.etihad.com/en-ae/help/delayed-baggage/baggage-claim-form/baggage-claim-pir>

Airport teams shall inform the guest to upload the following documents:

- Letter stating the damage (handed out to the guest when claiming for DPR)
- Baggage repair quotation
- Copy of the guest's passport
- Baggage Claim portion
- Picture of the damaged bag with its original baggage tag still attached

The guest must send the original DPR letter issued by the airport, along with the bag's original purchase receipt if available.

Guests may be referred to the Etihad website for all claims.

7.10 LOST AND FOUND PROCEDURE

Etihad Airways only takes responsibility for items which are found in:

- Etihad Aircrafts
- Etihad AUH Lounges

Any item lost in the terminal building, security x-ray machines, third party lounge etc., are the responsibility of the airport operator.

7.10.1 Guest Lost and Found Queries

All staff must be aware of how to handle a guest query relating to lost and found items.

Scenario	Refer guest to
Guest has lost item on board an EY aircraft or EY lounge in Abu Dhabi	Link

Scenario	Refer guest to
Guest has lost item within Zayed International Airport	ADA Phone: +971 (0) 2 505 3015 or +971 (0) 2 505 5555 or by email at policefound@adpolice.gov.ae Link
Guest has lost item at a Global Airport EY lounge or EY aircraft <u>from</u> AUH	Link
Guest has lost item within network airport terminal (Airport Authority)	Link

7.10.2 Repatriation of Lost and Found Items at Zayed International Airport

(EY arriving flights and EY lounge)

The guest can fill in the lost and found form which is published online on the Etihad website:

<https://www.etihad.com/en-ae/about-us/contact-us/>

If we find the item on an Etihad Aircraft or Etihad Lounge in Abu Dhabi, the guest will have 3 options for repatriation:

1. Pick up in Abu Dhabi, baggage services arrival desk
2. Pick up in transfer through Abu Dhabi - the guest needs to clear immigration and collect the item at the baggage services arrival desk.
(Guest needs a minimum of 2 hours and must comply with the UAE visa rules and regulations)
3. Repatriation via our delivery partner- DHL will ship the lost and found item to the guest.

The guest will pay the shipping fees and applicable taxes. Some restrictions apply

Please note - Hand of Crew (HOC) is not permitted for the transportation of lost property items (RFP).

For reasons of hygiene, food items can only be kept for 24 hours in AUH. Alcohol and cigarettes will be handed over to the UAE customs authorities after a 24 hour hold.

Cabin baggage left behind on Etihad aircraft or lounges cannot be sent to the guest as a rush bag. The only options available are listed above.

7.10.3 Lost and Found Items at Zayed International Airport Terminal

(left at security screening points, immigration, gates or lounges in Zayed International Airport)

The guest will have to contact ADA (Abu Dhabi Airports) for repatriation.

Etihad is not responsible for the repatriation of any item lost in the terminal building.

ADA contact details can be found on the Etihad website.

7.10.4 Repatriation of Lost and Found Items for Outbound Flights & Global Airports

If a guest has lost an item at a global airport or on a flight from Abu Dhabi, they will be directed through the Etihad website to contact us at the local airport contact details.

These include Etihad contacts as well as Airport lost property contacts where applicable.

Please ensure the contact details are correct by logging onto Etihad.com and following the links.

Repatriation of Lost property items from Global Airports should follow the same principle as Abu Dhabi.

Etihad is not responsible for the repatriation costs of lost property items.

Do not send any guest back to Abu Dhabi for more information, please handle the request(s) locally in accordance with local legislation.

7.10.5 Unclaimed Lost Property Items.

Please only keep local lost property items for the minimum time required by local law. (Abu Dhabi Items will be stored for 15 days).

If unclaimed, the lost property items need to be handed over to the local authorities in accordance with local legislation.

DO NOT SEND LOST PROPERTY ITEMS TO ABU DHABI FOR DISPOSAL

7.10.6 Hand of Crew

Hand of crew (HOC) is strictly not allowed to be used to send over lost and found items in any case.

If the guest has lost an item it can only be retrieved via the above-mentioned options. There are no exceptions allowed for this rule.

It is also not allowed to rush MHB in HOC in any case.

7.11 MISHANDLED CREW BAGGAGE

The departure station shall notify the Baggage Recovery Control team (BRC) at brc@etihad.ae about any left-behind crew baggage.

The departure station shall create a FWD message in World Tracer after flight departure, ensuring the **TN, FS, and RL** elements are updated. BRC will take the necessary actions to inform the CBC operation supervisor CBCOps@etihad.ae and ensure FWD details are shared.

The bags shall be tagged as "Rush" and are **not** loaded with operating crew baggage. Refer to GSM 7.7.4 on Rush Bags from Network Airports.

In case a crew bag is missing upon arrival an AHL shall be created and treated in the same way as an AHL for a guest. All mandatory fields shall be added in the AHL and the crew shall be contacted daily until the crew bag has been received by the crew. Any bag which has not been located within 21 days will be considered lost.

Any claim for compensation for delayed or lost baggage must be forwarded to the Baggage Claims team for review and action.

Notification & Recovery Process in Abu Dhabi

#	Notification Process	Responsible Party
1	Where it is been confirmed that the bag is mishandled, an AHL shall be initiated at CBC through the SITA self-kiosk at CBC. The AHL file reference shall be shared with CBC Ops on duty through the following email address: cbcops@etihad.ae	Crew member
2	CBC ops shall share the AHL reference file number to the HUB Baggage Services team for their follow-up. An email shall be sent to the following: SUBJECT: AHL FOLLOW-UP REQUEST - MISHANDLED CREW BAG EYXX/XXX-AUH/XXOCT (Flight number/Routing/Date) To: auhbaggageservices@velora.ae (Velora Hub Baggage Services team) Cc: hom@etihad.ae (Etihad Hub Operation Manager) godm@etihad.ae (Etihad Ground Operation Duty Manager) BRC@etihad.ae (BRC 24/7)	CBC Ops
3	The Hub Baggage Services team shall acknowledge the receipt in return.	Velora Baggage Services team
4	If the self-service kiosk is offline or not available, the CBC Ops on duty shall be made aware of the situation. The missing bag tag number shall be shared with the CBC Ops.	Crew member
5	The CBC ops on duty shall consolidate the following details that is mandatory for AHL elements: - Given and Family Name - Mobile Phone Number - Accommodation Address - Flight details - PNR and Ticket number - Missing bag tag number - Baggage details (Brand information, colour, description, contents)	CBC Ops

#	Notification Process	Responsible Party
	The above information shall be shared with the Velora Baggage Services team at the following email address, to request for AHL creation. Subject: AHL CREATION REQUEST - MISHANDLED CREW BAG EYXX/XXX-AUH/XXOCT (Flight number/Routing/Date) To: auhbaggageservices@velora.ae (Velora Hub Baggage Services team) Cc: hom@etihad.ae (Etihad Hub Operation Manager) godm@etihad.ae (Etihad Ground Operation Duty Manager) BRC@etihad.ae (BRC 24/7)	
6	The Velora Hub Baggage Services team shall acknowledge the receipt and create the file. Once the AHL file reference has been obtained, this shall be shared with CBC Ops who will share the reference with the crew member. The crew member shall also be advised that the status can be viewed at (Etihad website) or by calling +971 2 511 2170	Velora Hub Baggage Service teams and CBC Ops

#	Follow-up Process	Responsible Party
1	Follow-ups to network stations shall be made to locate the baggage. Any status updates shall be communicated accordingly to CBC Ops.	Velora Hub Baggage Services team
2	CBC Ops shall ensure that the crew member is kept updated on the status of their bag.	CBC Ops

#	Recovery Process	Responsible Party
1	Once the bag is successfully located, upon arrival in Abu Dhabi, the rush crew bag shall be sent through the arrivals belt and not to CBC with the operating crew bags.	Velora Ramp Baggage team
2	The Velora Hub Baggage Services team shall contact CBC Ops to provide an update on the bags arrival.	Velora Hub Baggage Services team
3	CBC Ops shall contact the crew and check their availability for delivery.	CBC Ops

#	Delivery Process	Responsible Party
1	Confirmation shall be established on the agreed delivery time and to be shared with the Velora HUB Baggage Services team. NOTE: The primary delivery address shall be the crew accommodation and CBC as the secondary address.	CBC Ops
2	Velora HUB Baggage Services team shall coordinate the handover of the bag and delivery details to the service provider.	Velora Hub Baggage Services team
3	Once the service provider has successfully delivered the bag, the EAS Baggage Services team shall inform CBC ops.	Velora Hub Baggage Services team
4	Where the crew failed to receive the bag despite multiple delivery attempts, the bag will be sent to CBC as per the secondary address in the record. It will be CBC Ops responsibility to safely keep the bag until crew collection.	CBC Ops

#	Held Bags by Customs	Responsible Party
1	If the bag is held by customs, Velora Baggage Services team shall inform CBC Ops who will communicate to the crew.	Velora Hub Baggage Services team/ CBC Ops
2	Crew shall report to the airport for baggage clearance and collection.	Crew member

7.11.1 Damaged Crew Baggage

Etihad Airways branded suitcases are available for Cabin Crew and Flight Crew use while on duty. It is mandatory for Cabin Crew to use the standard EY suitcase, but it is optional for the Flight Crew.

Cabin Crew and Flight Crew are required to submit company provided damaged baggage to the Etihad Airways Boutique store, located in Etihad Airways Plaza, for repair or replacement.

Etihad Airways Flight Crew who opted to use their personal suitcase while on duty, can claim for damage via the baggage claim from online. Procedure shall be followed as mentioned in chapter 7.9 DPR. Only standard suitcases are eligible for this rule.

In all other cases any claim against Etihad Airways will be denied.

7.12 BAGGAGE CLAIMS

All claims for delayed or damaged baggage are handled centrally via the Baggage Claims team in Cairo Teleperformance. Guests should use the online claim form available at [Etihad.com](https://www.etihad.com) to request any kind of claim related to baggage.

A postal option can also be used by the guest, addressed to:

Baggage Claims Department

Etihad Airways

PO Box 35566

Etihad Airways Center, Abu Dhabi, UAE

Guests should be advised to submit the following documents along with their online claim form:

Delay/Loss (AHL):

- Passport Copy
- Boarding pass or e-ticket copy
- Baggage tag copy
- Receipt for essential items
- Delayed baggage apology letter

Damage/Pilferage (DPR):

- Passport copy
- Boarding pass or e-ticket copy
- Photo of the damaged item with baggage tag attached
- Repair quotation/purchase receipt of pilfered items
- Damaged baggage apology letter

If no AHL was created upon arrival, the Claims team will request the final EY destination to raise an AHL once the written claim is received within 21 days after arrival.

Exceptions:

Airport Managers may handle baggage claims locally and authorise compensation for baggage related claims in exceptional cases e.g. VIP guests, guests evaluated as high risk of media publicity or escalation.

For any local exception approved, the Airport Manager must email Manager Baggage Claims providing details and justification as mentioned below:

Exceptional Claim Approval Process		
Contact person	Email address	Mandatory information
Manager Guest Relations	GCRDutymanagers@etihad.ae And cc kslater@etihad.ae	Justification for compensation Amount PIR number Relevant documentation (see above)
The Guest Relations Manager shall create a case in Pulse, collect the signed Release and Indemnity form and initiate the payment.		

7.13 CUSTOM REGULATIONS AND RESTRICTIONS

Each Airport shall comply with the local customs laws and regulations applicable to that station or country.

7.13.1 US Department of Transportation (DOT) Jurisdiction

In accordance with the US DOT regulations, Etihad Airways shall not restrict its liability for delayed, damaged or lost baggage for guests traveling on itineraries involving the United States (US), traveling to or from the United States.

Staff shall ensure the following when handling a baggage claim that is raised for flights to or from the United States:

- All baggage claims are duly considered in accordance with the Montreal Convention and US DOT regulations
- No baggage claims shall be automatically rejected
- In the event a claim is considered and rejected, the staff member shall advise the guest of the reason for rejection and further advise the guest of the right to appeal the decision
- If the airport teams have any doubt in relation to the baggage claim, the staff member should refer the case to the Baggage Claims Department in Abu Dhabi

Etihad Airways is unable to accept liability for certain baggage related losses, including:

- Losses from baggage accepted under the conditions of Limited Release (LRT)
- Losses from items confiscated by airport authorities or security personnel
- Loss of external locks, pull straps, security straps or zipper tabs
- Damage due to overpacking of baggage
- Damage to fragile or perishable items
- Damage due to ordinary wear and tear, unless such damage was caused due to Airline negligence

7.14 EMAIL ADDRESSES AND CONTACT INFORMATION

During all tracing phases of mishandled baggage there are multiple communications relating to individual files. When communicating or escalating baggage queries, it is important to use the correct email address according to the tracing period.

Escalation emails can be sent from the airport management to the below mentioned email addresses.

This escalation can be done in case of:

1. Urgent PCEO/Chief escalations.
2. High profile (CIP/VIP) cases from Guest Relations or Social Media.
3. High profile (CIP/VIP)/Highly Sensitive Social Media/Media complaints with potentially damaging PR implications.
4. Loss of an individual item of significance requiring prompt resolution out of standard process e.g. mobility/medical aid, musical instrument for travelling artist, sports equipment for competing athlete etc.

Tracing timeline	Number of days after file creation	Responsible department
Initial tracing	1 – 7	auhbaggageservices@velora.ae AUHTBF@velora.ae
		Escalation* BRC@etihad.ae AUHBBaggageServiceSupervisor@velora.ae yalmooosawi@velora.ae
Secondary tracing	8 – 21	CBTAUH@velora.ae
		Escalation* BRC@etihad.ae yalmooosawi@velora.ae AUHBBaggageServiceSupervisor@velora.ae
Claims	21 – file closure	TPBaggageClaims@etihad.ae
		Internalfeedback@etihad.ae
		Escalation* GCRDutymanagers@etihad.ae
Pro-rate	All pro-rate cases	Bagprorate@etihad.ae
		Escalation* HAISerkal@etihad.ae
BTW Baggage Departure/ Arrival related bags	All cases	AUHReflighting@velora.ae AUHTBF@velora.ae
		Escalation* DLBaggageDM@velora.ae

* Escalation shall only be allowed by the Airport Manager, Area Manager or Regional Manager

The below contacts and escalations are for the following scenarios:

- Central Baggage Tracing Baggage (CBT)
- On Hand Abu Dhabi (OHD)

- Tag less Baggage

Abu Dhabi Baggage Services	CBT/OHD or tag less	CBTAUH@velora.ae auhbaggageservices@velora.ae
		Escalation* AUHBAGGAGESERVICE@velora.ae yalmosawi@velora.ae

- * Escalation shall only be allowed by the Airport Manager, Area Manager or Regional Manager

NOTE

Any email sent to a personal address for escalation or enquiry, other than the addresses mentioned above, will not be handled. Escalation is only allowed by the Airport-, Area- or Regional Manager. All other escalations will not be answered/accepted. Please do not share the above escalation email addresses outside of Etihad.

7.15 GUEST LETTERS

During baggage mishandling, guests shall be provided with a letter to outline the actions being taken by Etihad and ensure the guest has contact details for the appropriate Etihad department.

Letter	When
Apology letter	To be handed out to the guest upon arrival when creating an AHL file
Handover to tracing 7 days	To be sent to the guest at the final day of initial tracing (day 7)
DPR letter	To be handed out to the guest in case of a damage or pilferage file
Secondary tracing	To be sent to the guest by the AUH secondary tracing team at the start of the secondary tracing period
Handover to claims 21 days	To be sent to the guest at the final day of secondary tracing (day 21)
Baggage disruption	To be handed out to the guest upon arrival after a baggage disruption

All Airport Managers must ensure that the airport information on the letter template is accurate.

7.16 ON HAND (OHD) PROCESS

On Hand (OHD) to Central Baggage Tracing (CBT) Process

Days 1– 3

All OHD Bags (with/without tag), shall be raised in the World Tracer System within two hours from flight arrival. The following information shall be entered into World Tracer in case there is a matching AHL (Advise if hold) file already in the system. The OHD shall contain the following information:

- Name
- Bag Color and type
- PNR
- Flight Details
- Contents
- Tag Number
- Baggage Brand
- Baggage Weight
- Baggage Routing
- Baggage Image

Once an OHD is created, LL staff shall attempt to contact the guest when contact details are available on the guest's baggage or in Altéa CM. within 2 days. Altéa CM shall be checked for contact details before loss of PNR history (within 3 days).

In case the PNR is purged, LL staff shall contact Business Solution center bussol@etihad.ae

Within 24 hours of On-Hand File, creation, the baggage images shall be uploaded to the file and baggage shall be opened, subject to Customs approval. The contents of the baggage shall be thoroughly documented and entered into World Tracer. During the search, efforts shall be made to find items in the baggage that may give the contact details of the owner (booking details, address books etc.)

Should contact details be available either in Altéa CM or in the guest's baggage, staff must attempt to contact the guest.

NOTE: When documenting the contents of baggage, generic terms such as “clothing” or “shoes” shall be avoided. It is essential that the documented record of contents contains distinguishing remarks; brand names on clothing, unusual items, book titles etc. A detailed description of the baggage exterior on WTR is mandatory for stations that are not permitted to open the bag due to customs restrictions e.g.

- Bag Color
- Hard Case / Soft Case
- With lock or without, Ribbon
- Brand Name

On Hand (OHD) to Central Baggage Tracing (CBT) Process

Days 4-7 EY staff shall meet with their GHA daily to ensure that there is an up-to-date record being kept off On Hand Files (OHDs) held at that station. If any contact details are available, staff must attempt to contact the guest. At any stage, should a match be made during the world tracer searching, an airport team member shall contact the guest and inform them that their bag has been found.

Once the guest has been informed and identified, arrangements shall be made for baggage handover, and the OHD shall be closed accordingly.

Day 8 After 7 days of searching, the baggage shall be forwarded to AUH for CBT and storage. The FLZ (**Forward Bag to Headquarters**) entry shall be selected in the file to forward OHD bags to AUH CBTEY.

When attaching the rush tag to return the bag to AUH, it is important that any original tags remain on the bag and must not be removed. Where possible, all perishable items shall be removed.

Upon receiving FLZ rush bag at AUH, the original OHD shall be reassigned to a CBTEY OHD file within 24 hours and close the OHD. Global stations must confirm the OHD is closed.

Contents inspection shall be conducted at the CBT and details updated in the CBT file. Actively trace for possible matching AHLs.

NOTE: DO NOT REMOVE THE ORIGINAL TAG

7.17 WORLD TRACER ELEMENTS

When creating a file at the arrival desk, the file shall be amended with guest, flight and baggage information. Additional information and tracing activities shall be recorded when commencing the initial tracing. Before file closure, all the below mandatory elements must be completed.

The airport's performance will be measured on compliance with these elements.

Mandatory elements; file creation at the arrival desk

AHL	OHD (tagged)	OHD (tag less)	DPR
NM	NM	FD	NM
EA	FD	RT	CP/PN
CP/PN	TN	CT	EA
FD	PR	BI	FD
TK	RT	CC	TK
PR	CT	BW	PR

Mandatory elements; file creation at the arrival desk

AHL	OHD (tagged)	OHD (tag less)	DPR
BR	BI		BR
TN	CC		TN
CT	BW		CT
BI			BI
CC			BD
BW			TD
DW			DW
FS			BW
RL			NW
AM			

It is the responsibility of the Etihad APM/delegate to ensure that all ground handling staff are compliant with the standards for raising, updating and closing files.

The DPR file created by the Baggage Claims team shall be updated with the required elements for settlement. If the file is scored as non-compliant, refer to the Baggage claims to amend RQID reference to the PIR.

PIR quality compliance is measured to ensure initial tracing is performed on a daily basis. For all global airports files, GHA is responsible for updating the file with the mandatory elements.

7.18 BAGGAGE PRORATE

Proration is a critical revenue function that involves sharing of baggage claim settlements on a pro-rata basis between interline/codeshare carriers and Etihad Airways.

There are two aspects to proration:

- Sharing between EY and OAL involved in the routing based on mileage percentage
- 100 percent (%) from EY to OAL (or vice-versa) if there is proof that the airline was responsible for the mishandling

7.18.1 Claim Settlement

After settlement of delayed, damage, lost, pilferage and Interim Relief claims involving an interline/codeshare partner, the amount paid shall be updated in WorldTracer (CS Element). The following documents shall be forwarded to the prorate team (bagprorate@etihad.ae) for investigation within a 7-day period.

- PIR reference number or manual copy
- Baggage Claim Form duly filled and signed by the guest
- Ticket number
- Baggage tags
- Proof of Payment - Release and Indemnity Form or cash advance Form filled and signed/ repair invoices if applicable

7.18.2 Forwarding Files for Proration

All files sent for proration shall be sent to bagprorate@etihad.ae

Files for pro-ration	Subject header (mandatory)
	Pro-rate – AUHEY12345-DPR
	Pro-rate – AUHEY12345-AHL

Files received with incomplete documents or after expiry of stipulated time shall be returned to the sender.

7.18.3 Transport/Delivery Invoices

When a bag is to be delivered to the guest, the reporting station shall create a Delivery Order (BDO). This BDO shall include details of the baggage to be delivered, delivery date, address, and the delivery company. Airport team members shall ensure the PIRs are updated with BDO for both of the following cases:

1. Delivery by a contracted vendor (one or more delivery companies can be configured per station).
2. Guest collection.

The delivery vendor shall ensure that a baggage delivery receipt is signed by the guest, acknowledging receipt and declaring the condition of the baggage. The signed receipt shall be handed over to EY representative at the airport.

All delivery invoices shall be uploaded, together with the corresponding PIRs or delivery receipts into the MHB App for direct settlement. If the baggage is confirmed as damaged or lost by the vendor, the case shall be handled by EY Baggage Claims team, and upon settlement the cost will be credited back to the vendor.

For any exceptions regarding delivery of OHD or Courtesy AHL, an approval/authorisation shall be provided by BRC Team (BRC@etihad.ae).

8.1 ETIHAD LOUNGE ACCESS

The following guests are eligible to access Etihad lounges when travelling on Etihad Airways operated flights:

- First guests
- Business guests travelling in Business Comfort/Deluxe fares
- Etihad Guests as part of their standard or custom benefits (refer to Chapter 8.11)
- Senior Management (refer to Chapter 8.1.1.2)

NOTE

- For other airline frequent flyers eligibility, refer to the FQTV Service Benefits table on EY Global Airports SharePoint and ShareFile
- For Third Party owned lounges, eligibility criteria may vary. Refer to Lounge folder available in Global Airport SharePoint.
- Additional ad-hoc documentation is available in the Lounge folder in SharePoint.

Lounges in Abu Dhabi are available 24/7, with the exception of the USCBP Lounge.

Lounge agents shall refer to the following documents for detailed procedures concerning system access and airport standards:

Lounge.

- Lounge Access System
- E-Hospitality

8.1.1 Lounge Access Policies

8.1.1.1 Lounge Access Approved by CEO, CCO, COGO or Director Airport and Ground Operations

1. Agent Familiarisation - Access granted to those booked in First & Business. Other guests shall obtain approval in advance
2. Prize Winners - Access granted only to those booked in First & Business. Other guests shall obtain approval in advance
3. Sponsorship - Access granted only to those booked in First & Business. Other guests shall obtain approval in advance
4. Business Development - Access granted only to those booked in First & Business. Other guests shall obtain approval in advance
5. Service Recovery - Guest Response or the Airport Manager may grant lounge access at their respective station ONLY as a service recovery measure and without requiring further approval. Under no circumstances shall Airport Managers authorise lounge access at AUH.
6. Staff/Former Staff/Duty Travel Tickets – Subject to the provisions of the Staff Travel policy

8.1.1.2 Lounge Access for Senior Management

The following Etihad employees and their dependents may access the First Lounge in Abu Dhabi and lounges across the Etihad network when travelling on Etihad operated flights, irrespective of the ticket type or class of travel:

- a. Chairman, Vice Chairman and The Board
- b. GCEO
- c. Chief Officers and General Counsel

Senior Vice Presidents and their dependents may access the Etihad-owned Business Lounges and lounges across the Etihad network when travelling on Etihad operated flights, irrespective of the ticket type or class of travel.

Vice Presidents, Directors and their dependents may access the Etihad-owned Business Lounges when travelling on Etihad operated flights, irrespective of the ticket type or class of travel.

Guests travelling on ID tickets are prohibited from accompanying Etihad Guest or other airlines' frequent flyers to gain entry to lounges.

8.1.1.3 Lounge Access for Diplomats

The following diplomats are eligible for complimentary lounge access at Abu Dhabi when holding Economy tickets issued under the Etihad Airways CVIP policy:

- Ambassador
- General Consul
- Second in Charge

When the diplomat is travelling with other members of the family in Economy, complimentary access to the lounge shall only be provided to the eligible guest. All family members may avail the applicable discounted rates when purchasing walk-in access to the lounge.

Guests holding Business and First tickets may access the lounge as per cabin eligibility.

8.1.1.4 Lounge Access on Duty Travel

Employees travelling on duty may access the Etihad Business Lounge in Abu Dhabi and London.

NOTE

Access is subject to space availability. The lounge supervisor reserves the right to refuse entry due to capacity issues.

8.1.1.5 Lounge Access for Media Public Relations / Journalists

The Senior Vice President and Vice President Corporate Affairs or Director of Customer Care may authorise lounge access for the following categories of Guests:

- Media
- Public Relations
- Journalists

NOTE

1. The above policy shall not apply to third party lounges.
2. Approvals shall be reflected in the guest's booking in Altéa CM.

8.1.1.6 Paid Access to Etihad Lounges

Etihad lounges are available for paid access purchased online or on a walk-in basis subject to availability and specific Terms and Conditions. Payment can be made by credit/debit card at the lounge using any of the following cards:

- VISA
- Mastercard
- American Express
- Diners
- Discovery
- UATP
- Japan Credit Bureau (JC)

Apple Pay and Samsung Pay are not supported.

Service Eligibility & Payment Terms:

- Walk in rates are applicable to all guests travelling on Etihad Airways operated flights.
- Guests travelling to the US may purchase Lounge Access on a walk-in basis. Access is subject to availability and can only be purchased at the lounge on the day of travel. An additional charge will apply if the guest wishes to access the Etihad U.S. Preclearance Lounge on a walk-in basis from the main lounge.
- First guests wishing to invite an additional guest into the lounge shall be offered the additional guest package.

NOTE

- Children below 2 shall be admitted free of charge and discounted rates shall be offered to children between 2 and 12
- Staff shall refer to the walk-in rate table on [EY SharePoint](#).

8.1.1.7 VVIP Pre-Purchased Lounge Access

Selected VVIP and CVIP guests may purchase lounge access in advance through VIP desk or Etihad Commercial. In such cases, agents shall refer to Lounge Access EMD for detailed information.

Where cross charging on a cost code is required after the guest has accessed the lounge, the Lounge Supervisor shall be responsible for forwarding all information to the ticketing desk at vauhptkt@velora.ae for cross charge.

8.1.1.8 Redemption of Etihad Guest Miles for Lounge Access

Etihad Guest and guests travelling on staff tickets may redeem their miles for lounge access in Abu Dhabi or London. Redemption of miles for lounge access is subject to availability and capacity. Lounge access cannot be pre-purchased using Etihad Guest Miles.

8.1.1.9 Paid Access to Etihad Lounges owned Lounges - Staff Travellers

Guests travelling on staff tickets may purchase Lounge Access on a walk-in basis.

Eligible staff guests include:

- Staff members, dependents and supplementary guests
- First Lounge access is available for guests travelling in First only
- Business Lounge, Arrivals Lounge, USCBP & network lounge access is available for all F/J/Y ID90/50 tickets
- Children under the age of 2 will be admitted free of charge
- Children between 2 and 12 years of age will be eligible for a 50% reduction on the adult rate, those aged over 12 will pay the adult rate
- Access is subject to availability and can only be purchased at the lounge, on the day of travel
- Staff eligibility and walk in rates can be viewed on the Staff Travel SharePoint page

8.2 LOUNGE ACCESS FOR UPGRADED/DOWNGRADED GUESTS

Guests who have been upgraded or downgraded may access the lounge in the following circumstances:

- a. Guests who voluntarily upgraded their ticket (i.e. by paying the fare difference by cash or by using Etihad Guest Miles.) may use the lounge as per their new class of travel
- b. Guests who have been involuntarily downgraded (due to over-booking, change of configuration / equipment, etc.) may access the lounge as per their original ticketed class
- c. Guests who voluntarily downgraded themselves at check-in should be offered lounge access as per their original ticketed class

NOTE

Lounge access shall not be offered to Economy guests who have been upgraded due to operational requirements.

8.3 LOUNGE ACCESS ETIHAD GUESTS TRAVELLING ON CODESHARE FLIGHTS

- First and Business guests travelling on Etihad operated flights are eligible to access the lounge irrespective of the marketing carrier
- Guests travelling on codeshare flights are not eligible for Etihad lounge access and should be directed to the lounge of the operating carrier, irrespective of whether they are booked on an Etihad or other airline flight number

8.4 LOUNGE ACCESS FOR SIEMENS EMPLOYEES IN AUH

All Siemens employees may access the Business Lounge in Abu Dhabi, provided the below requirements are met:

- Siemens employees are booked in Economy
- Siemens employees are travelling on an Etihad Airways marketed ticket
- The Siemens employee ID is presented upon arrival at the lounge

If another guest accompanies the Siemens employee, the accompanying guest shall be offered the appropriate walk-in package.

8.5 ETIHAD EMPLOYEES HOLDING ETIHAD GUEST CARDS

Etihad Guest holding tickets issued under the Staff Travel policy are not entitled to Etihad Guest benefits such as complimentary lounge access or excess baggage.

8.6 ABU DHABI FIRST LOUNGE

8.6.1 Eligibility

Guests traveling in First and The Residence may access the First Lounge when travelling on Etihad Airways operated flights.

NOTE

Guests who have been operationally upgraded to First are not eligible for complimentary access to the First Lounge.

8.6.2 Frequent Flyers & Staff Guests

Partner airlines' frequent flyers are eligible to access the First Lounge when travelling on Etihad Airways operated flights. For details on the eligibility criteria, refer to the latest Partner Airline FQTV Service Benefits document in SharePoint.

Eligible Etihad Airways Staff

1. Etihad Chairman and family, irrespective of class of travel, are eligible to access VVIP rooms whenever available
2. Etihad Board of Directors, and family, irrespective of class of travel, are eligible to access VVIP rooms whenever available
3. Group CEO & family, irrespective of class of travel, are eligible to access VVIP rooms whenever available
4. Etihad Airways Chiefs and family irrespective of class of travel

Access Authorisation

Requests for access to the First Lounge, VVIP rooms for non-eligible guests shall be granted based on prior approval from the GCEO and Director of Customer Care.

NOTE

Requests for SPA access shall be crossed charged to the relevant cost centre.

8.6.3 Lounge Access for Residence Guests

Guests departing in The Residence are eligible to access the VVIP rooms in First Lounge. Eligible guests may invite up to three additional friends or family members to join them in the VVIP room. Access to accompanying guests is restricted to those who are eligible to access the First Lounge.

Inbound Residence guests transiting Abu Dhabi shall be entitled to access the First Lounge when booked in First on the connecting flight. VVIP room access and any additional accompanying guests remain subject to the applicable ancillary fees.

8.7 LOUNGE ACCESS ADVANCE PURCHASE

Guests travelling on Etihad Airways operated flights will be able to purchase First or Business Lounge access in advance and up to 90 minutes before departure.

Children below two can access the lounge free of charge. Children aged 2 to 12 years old shall be entitled to a 50% discount on the standard rate. Advance bookings are not available for guests' holding tickets issued under the Staff Travel provisions.

Lounge access vouchers are available online at Etihad.com and through Manage My Booking.

Walk-in lounge access based on availability remains available for guests who did not purchase the voucher in advance and wish to enjoy the lounge facilities and guests who are not eligible for advance purchase.

8.7.1 Refunds - Lounge Access Advance Purchase

Advance lounge access EMDs are non-refundable and non-transferable, unless access is refused due to operational requirements. These include:

- The original Etihad Airways flight is cancelled, delayed or the guest has been involuntarily re-routed resulting in the inability to avail of lounge access
- Access to the lounge is refused due to capacity restrictions on the day of the flight

Lounge agents shall ensure a list of guests eligible for refunds is submitted to

Internalfeedback@etihad.ae and cc Duty Manager Guest Relations

GCRDutyManagers@etihad.ae at the end of each shift to facilitate refund procedures.

8.8 LOST PROPERTIES FOUND IN TERMINAL A LOUNGES

Any passenger items found by staff in EY lounges shall be handed over to the Lounge Supervisor or Team Leader who shall be responsible for completing the EY Found Property tag.

EY Found Property Tag (Sample):

 الممتلكات التي تم العثور عليها FOUND PROPERTY		FOUND PROPERTY EY No. Description of Article _____ Where found _____ Flight No. _____ A/c _____ Date _____ / _____ / _____ Sector _____ To _____ Seat No. _____ Found by: Title _____ Staff No. _____ Name (Block capitals) _____ Signature _____ Handled to: Title _____ Staff No. _____ Name (Block capitals) _____ Signature _____ Action taken: Signal Sent _____ Address _____ Reply Received _____ Owner's name (Block capitals) _____ Address _____ Signature _____ Date _____ Distribution: Original _____ First Copy _____ Label _____ • CBTO (Central Baggage Tracing Office - AUH) • Finder • Attach to Article	FOUND PROPERTY EY No. Description of Article _____ Where found _____ Flight No. _____ A/c _____ Date _____ / _____ / _____ Sector _____ To _____ Seat No. _____ Found by: Title _____ Staff No. _____ Name (Block capitals) _____ Signature _____ Handled to: Title _____ Staff No. _____ Name (Block capitals) _____ Signature _____ Action taken: Signal Sent _____ Address _____ Reply Received _____ Owner's name (Block capitals) _____ Address _____ Signature _____ Date _____ Distribution: Original _____ First Copy _____ Label _____ • CBTO (Central Baggage Tracing Office - AUH) • Finder • Attach to Article
	EY/CL/PC/0000/03/26	EY/CL/PC/0000/03/26	

- The Lounge Supervisor or Team Leader shall ensure the following for all items of lost property:
 - They are held at the baggage store within the lounge.
 - Approximately every twelve hours, they are transferred to the Excess Baggage Company desk in Terminal A departures (airside). This should be done at 0400 and 1600 local time.
- Excess Baggage Company personnel shall accept the items, categorise them and upload the details to their website.
- In case of passengers enquiring about items left in lounges after the items have been processed in accordance with the above, staff shall refer them to the Excess Baggage Company.
- For items found in EY lounges that urgently need to be returned to a passenger (e.g., travel documents, medication), lounge staff shall liaise with the applicable team(s) to coordinate delivery of the item(s) to the passenger.
- Copies of completed Found Property tag pages shall be retained in the lounge for a minimum of three months.

8.9 THIRD-PARTY LOUNGE ACCESS REPORTING

In airports where a third-party lounge is utilised, the lounge handling company shall provide a signed report after each flight to Etihad no later than two (2) hours from the actual departure time (nominated airport lounges may submit reports at the agreed frequency). The report can be submitted electronically via email to the Airport Operations mailbox, or in hard copy. Both electronic and hard copies must be retained for a period of three (3) months.

The report shall include the details of eligible guests who have accessed the Premium Lounge by PNR, cabin class, seat number and any other comments for special cases, where required.

Special comments shall include remarks regarding commercial waivers or approvals by the Etihad Airways, as an example.

Once the report is finalised and received by the Etihad representative, and assuming there are no anomalies with the information provided, the lounge access figure shall be entered into Flight Order.

8.10 LOUNGE DIRECT BOARDING FACILITY

8.10.1 Lounge Direct Boarding Facility – in AUH

Guests departing from MARS gates D43, C27 and C29 (aircraft stands 641, 642 and 643) are eligible to board directly from the lounge. The lounge direct boarding facility is located on Level 5 (lounge middle level).

Lounge agents shall ensure eligible guests are informed they will be boarding directly from the lounge and shall keep a record of the number of guests that will use the facility. Guests shall refer to the FIDS in the lounge for boarding information.

A list of guests who have accessed the lounge can be obtained from the Lounge Access System (LAS) and shall be shared with the gate agent upon request.

8.10.1.1 Pre-boarding Arrangements

Prior to starting boarding, the lounge gate agent shall:

- Contact the main gate room to ensure BDRM activation and confirm boarding time
- Set up the gate system and boarding area
- Ensure the lounge boarding door is open and the path to the PBB is clear
- Verify all FIDs reflect “Gate Open”
- Ensure a Ramp agent and PSU are available to collect all gate items such as baby strollers, hand baggage or wheelchairs
- Ensure the elevator can be accessed
- Where LAGs checks apply, ensure AVSEC setup is ready in the fixed link
- Request the LAS report from the lounge staff to identify all guests who have accessed the lounge

8.10.1.2 Communication

The lounge gate agents shall contact the main gate room to confirm:

- Expected boarding time agreed with the aircraft dispatcher
- Boarding clearance*
- Offloading details
- Drop of location of baby strollers, assistive devices and other items that require loading in the hold
- Communicate any medical emergency

*If boarding is delayed, the gate lead located in the main gate room shall inform the lounge gate agent to hold guests until the aircraft is ready.

All communication between the gate and the aircraft dispatcher remains the responsibility of the gate lead located in the main gate room.

8.10.1.3 Code F Boarding – A380

The group boarding process shall be followed for all A380 departures and all lounge eligible guests may avail the lounge direct boarding.

First and Business guests shall be directed left to the short escalator and shall board from the upper deck (UL1). The link to the upper deck is located at the bottom of the escalator.

Premium guests who wish to board through the main gate room shall be directed to boarding door B.

Guests travelling in Economy shall be directed to the main escalator (long) and shall access the departure level through the sliding door located on the right. Guests shall join the main queue and board through door 2.

8.10.1.4 Code E Boarding – B787, B777 & A350

Guests shall be directed to the main escalator (long) and access the departure level via the sliding door on the left. Guests shall board directly through door 1.

The established procedure for lounge boarding closure at D-20 shall remain in effect. At this time, lounge agents shall notify the aircraft dispatchers once the lounge boarding door is closed to facilitate the immediate removal of the Business bridge (PBB1).

If guests arrive after the lounge boarding closure, lounge agents may direct guests to the main gate.

NOTE

Lounge direct boarding for B787, B777 & A350 departures are not applicable on enhanced security flights requiring additional security and/or document verification:

- Canada (YYZ)
- United Kingdom (LHR/MAN)
- Australia (MEL/SYD)
- Israel (TLV)
- United States (JFK/IAD/ORD/BOS)

In the event the aerobridge cannot be attached to L1 door, the aircraft dispatcher shall promptly inform the main gate room. In such cases, lounge boarding shall not be activated. The main gate lead shall then notify the lounge, as well as the Ground Operations Duty Manager (GODM) or Hub Operations Manager (HOM), for any operational changes to the lounge boarding.

8.10.1.5 Lounge Boarding Closing Process

Lounge boarding closes 20 minutes prior to departure. At this time, the lounge gate agent shall contact the main gate room to:

- a. Confirm all guests have boarded successfully
- b. Pass any offloading details for missing guests
- c. Ensure all gate items are collected and loaded on the aircraft.

All offloads shall be performed at the main gate room and shall be communicated to the aircraft dispatcher by the gate lead.

8.10.1.6 System Outage

In the event of system outage, lounge gate agents shall refer to the manual boarding procedures available on [SharePoint](#).

Partial System Outage

In the event of a power outage in the lounge boarding gate area, agents shall continue boarding all guests manually. The following process shall apply for all guests who are manually boarded:

1. Print a copy of the manifest for reconciliation
2. Strikethrough the guest's name upon boarding
3. Coordinate with the main gate room to ensure the guest is boarded in Altéa CM

In the event of a complete system outage, all guests shall be re-directed to the main gate room for manual boarding. Lounge gate agents shall ensure no guest is manually boarded from the lounge and the lounge gate area shall be closed.

8.10.2 Lounge Direct Boarding Facility in – IAD

Guests who are eligible for lounge access may board their flight directly from the lounge. Lounge agents shall inform all Etihad guests of this direct boarding option and keep a record of the number of guests using the facility.

Lounge gate agents shall adhere to the established boarding procedures.

8.10.2.1 Pre-boarding Arrangements

15 minutes before boarding, the lounge gate agent shall:

- Set up the boarding area/System
- Ensure the lounge boarding door is open and the path to the gate is clear
- Ensure a Ramp agent and PSU are available to collect all gate items such as baby strollers, hand baggage or wheelchairs

8.10.2.2 Communication

The lounge gate agent positioned in the lounge boarding area is responsible for maintaining effective communication with the EY lead and lounge reception to ensure the timely exchange of the following information:

- Expected boarding time
- Boarding clearance
- Drop off location of baby strollers, assistive devices and other items that require loading in the hold
- Offloading details (when applicable)
- Notify if there are any medical emergencies
- In the event of a boarding delay, the EY lead shall notify the lounge gate agent to hold guests in the lounge until boarding is ready to proceed

8.10.2.3 Lounge boarding closing process

Lounge boarding will close 20 minutes before departure. At this time, the lounge gate agent shall contact the EY lead on duty and the lounge reception with the following:

- Confirm if any additional Etihad guests have accessed the lounge post gate opening
- Verify that all Etihad guests have boarded successfully
- When applicable, communicate any offload details for missing guests
- Ensure that all gate items have been collected and loaded on the aircraft
- All offloads shall be performed from the EY main gate
- Confirm with lounge management that the lounge gate is closed

8.11 LOUNGE ACCESS FOR ELIGIBLE ETIHAD GUEST

Exclusive, Emerald and Platinum Etihad Guest are entitled to the following standard (core) benefits:

EY GUEST	LOUNGE ENTITLEMENT		
	Abu Dhabi	Global Airports	
		Etihad Owned Lounge (LHR)	3rd Party Lounges
Exclusive	First Lounge + 2 Guests NOTE: Other lounge entitlement for Exclusive members Complimentary Spa Service (Self)- <i>Subject to availability – eligible if travelling on EY or any other airlines</i>	Premium lounge access + 2 Guests	Lounge access + 2 Guests
Emerald	First Lounge + 2 Guests NOTE: Other lounge entitlements for Emerald members: Complimentary Spa Service -<i>eligible if travelling in any class on EY flights, service to be provided over paid guests</i>	VIP Room + 2 Guests (Guests shall be informed that it is a shared space)	Lounge access + 2 Guests

EY GUEST	LOUNGE ENTITLEMENT		
	Abu Dhabi	Global Airports	
		Etihad Owned Lounge (LHR)	3rd Party Lounges
	VIP Lounge Room Access (Space available) (AUH Only)		
Platinum	Business Lounge + 1 Guest NOTE: Other lounge entitlement for Platinum members: Complimentary Spa Service- <i>Subject to availability – eligible if travelling in any class on EY flights</i>	Premium lounge access + 1 Guest	Lounge access + 1 Guest

Upon presentation of their cards, Etihad Guest Exclusive and Emerald and their two eligible companions travelling on other airlines can access the Etihad First lounge in Abu Dhabi. Lounge access also applies to third-party and Etihad-owned lounges at global airports.

Etihad Guest members who selected 'lounge access' as a custom benefit are entitled to the following:

EY GUEST	LOUNGE ENTITLEMENT		
	Abu Dhabi	Global Airports	
		Etihad Owned Lounge (LHR)	3rd Party Lounges
Platinum	First Lounge Self + 1 Guest	Premium lounge access +1 Guest	Lounge access +1 Guest
Gold	Business Lounge Self +1 Guest	Third party lounge access + 1 Guest	Lounge access +1 Guest
Silver	Business Lounge (Self Only)	No lounge access	No lounge access

8.11.1 Lounge Boarding Pass Indicators

Guests shall be accepted into the lounge by verifying the lounge eligibility indicators displayed on their boarding passes.

Indicator	Eligibility
LOUNGE PREM	First, FFP Exclusive, FFP Emerald & FFP Platinum with Customised benefits. Where applicable, access to a designated First area shall be prioritised to guests booked in First.
LOUNGE ACCESS	Business Deluxe and Comfort. As well as guests who have purchased lounge access, and the eligible FFP Guests booked in Business Value.
LOUNGE FFP	FFP Platinum, FFP Gold with Customised benefits, and Beyond benefits booked in Economy.

8.11.2 Eligible Companion

Eligible Etihad Guest who may provide guest access to the lounge to a companion must travel on the same flight. This applies to third-party and Etihad-owned lounges.

Companions will only be permitted access to Etihad Lounges in Abu Dhabi if they are travelling on the same flight, or on a flight within 2 hours of the primary guest's departure time.

8.12 LOUNGE CLOSURE AT NETWORK AIRPORTS

In the event of a temporary lounge closure in a network airport, eligible guests shall be offered a letter offering 3,000 Etihad Guest Miles as compensation.

Guests who are already a member of our Etihad Guest program will be automatically credited with the bonus miles after the flight, in line with standard processing timelines (up to 30 days).

Lounge eligible guests who are not Etihad Guest members should be encouraged to join the Etihad Guest program by scanning the dedicated QR code on the apology letter, after which the miles will be automatically credited to their account after their flight.

Details of guests who were provided with a compensation letter shall be completed daily via the [Lounge Service Compensation Request – Fill out form](#). The letter template is also available on Global Airport SharePoint – [Lounge](#).

In certain circumstances, alternative forms of compensation can be provided, which will be communicated to the station accordingly. A letter is not required for guests who will be offered alternative compensation such as a food & beverage voucher etc.

9.1 DISPATCH OF OUTSTATION MATERIAL FROM TERMINAL A

All material items sent via company mail for outstations shall be dispatched from Terminal A. The following process shall be adhered to when dispatching these items:

Role of Warehouse Staff and/or OCS Mail Staff

- Ensure that Comat per piece does not exceed 32kg and the package has at least one flat side
- Inform EY Security 24hrs in advance of all items destined to all US destinations at the following address AVSECHubTerOps@etihad.ae and CBPOps@etihad.ae
- For US destinations, the company mail needs to be presented to the CBP counters for inspection in the presence of a USCBP Facility Supervisor
- Proceed with all necessary material or mail items to the Out of Gauge (OOG) counter, informing the Team Leader on 050 8114655
- Dispatch the items via the OOG counter in the presence of a GSA
- Velora Baggage staff shall confirm acceptance in the presence of GSA
- After acceptance by Velora, the Warehouse and/or OOG mailroom staff shall send an email to the following addresses indicating that the items have been delivered:

Velora Airside Operations	RampDMOPS@velora.ae
OAL Load Control Office	lco_adas@velora.ae auhloadcontrol@velora.ae
EY Duty Operations Manager	EYHUBTeam@etihad.ae
EY Senior Duty Officer	AUHSDOfficers@etihad.ae
Baggage Services	auhbaggageservices@velora.ae
Terminal A Departure Baggage	adasbaggageT3Dep@adas.adac.ae
AUH Transfer Baggage Facility	AUHTBF@velora.ae
EY CLC	HDQKLEY@etihad.ae AUHhubLCsic@etihad.ae DispatchDM@etihad.ae
	adasbaggageT3@eas.co.ae

Role of Velora

- Ensure all items shall be stored next to the baggage sorting office
- Ensure all items are dispatched to the ramp under supervision
- Ensure to insert all relevant details in the SI field of the CPM
- Ensure CPM includes the following email addresses in order to confirm receipt and loading:
- ocsmail@etihad.ae and RHameed@etihad.ae

9.2 CORPORATE CREDIT CARD USAGE

A Corporate Credit Card has now been issued and shall be used for making payment of overstay visa charges. This card shall only be used for the above purpose if the guest has to stay additional days due to medical treatment.

This payment may also be extended to cover companions/family members travelling under the same Record Locator (PNR).

The Credit Card shall be under the custody of the Guest Services Desk Supervisor or deputizing staff in their absence. The HOM shall fully investigate and authorize payment by email after receiving the discharge notification from Guest Response.

Ticketing Agent shall proceed with the payment at the **Visa Issuance/Cancellation – Fines** office.

- Reservation & Ticketing Officer shall then respond to DOM's approval email advising of payment made and associated costs along with scanned copy of receipt
- The Reservation & Ticketing Officer shall keep a track of the payments and forward to Manager Reservation and Ticketing to reconcile same with the credit card statement

9.3 HOTEL AND TRANSPORT VOUCHERS

1. The AUH Transfer Desk Planner (TD Planner) shall be responsible for the coordination of available hotel inventory and update of room availability in Altéa CM for the purposes of Disruption Management.
2. TD Planner shall continue to contact the hotels prior to the morning and evening peaks and record the available inventory within Amadeus.
3. For normal operations where misconnected guests require hotel accommodation, the Transfer Desk (or dedicated service point) shall use the inventory from Altéa CM and provide the guest with an Altéa CM issued hotel voucher. The TD Planner shall monitor the use of this inventory and confirm the hotel booking numbers as required.
4. During times of declared disruption, TD Planner shall be the focal point between the Hub and hotels on all hotel availability/inventory requirements and request inventory updates on demand. TD Planner shall also be the core liaison point between the operation and for sourcing additional hotel rooms as required by the Hub and maintaining the inventory in Altéa CM. All queries from the operation regarding disruption hotels availability shall only be directed through Transfer Desk.
5. During normal operations, hotel vouchers shall be issued by the Transfer Desk or individual staff as directed by the Duty Manager. During disruption, there will be two possible methods of issuing guests with hotel vouchers:

- a. Staff shall liaise with each guest and allocate a room to the guest(s) PNR from the system inventory, print their hotel vouchers and issue a new onward boarding pass.
- b. In the event of mass rebooking completed by Guest Control in advance, Guest Control shall link up with a designated Service Counter (such as a particular gate) at the airport and print out en masse the rebooked guest boarding passes and hotel vouchers.

Upon receipt of their hotel vouchers, guests shall be advised to proceed to the limousine/arrivals counter and be assisted by staff to their transport as outlined in the SOP.

9.4 REINSTATING MISCONNECTED / INCORRECTLY OFFLOADED GUESTS

When connecting guests are offloaded in advance of their arrival into Abu Dhabi, whether due to delays at the origin station or extended holding over Abu Dhabi airspace, Guest Control may proactively re-accommodate them onto alternate flights. As this may occur without the guest's prior awareness, such guests may still proceed to the departure gate. In addition, guests may be involuntarily offloaded due to an operational error.

Where such guests arrive at the boarding gate while boarding is in progress, they may be considered for reinstatement, subject to the conditions outlined below.

Guests may be accepted up to 15 minutes prior to STD/ETD, subject to final approval from the Hub Operations Manager (HOM) or Ground Operations Duty Manager (GODM). The HOM/GODM retains the authority to deny reinstatement where On-Time Performance (OTP) may be adversely impacted.

Prior to submitting any reinstatement request to Guest Control, the Duty Supervisor Hub Operations (DSHO) or GODM shall conduct an operational assessment, which shall include the following:

Meal Availability

The DSHO/GODM shall coordinate with the Aircraft Dispatcher to cross-check with cabin crew regarding meal availability for the reinstated guest.

Commercial guests shall **not** be accepted without a confirmed meal. Where insufficient meals are available, the gate agent may, on an exception basis, seek a meal waiver from a standby traveller. Where a meal waiver is accepted, cabin crew and the affected staff member shall be notified.

Aircraft Dispatcher Approval

The Aircraft Dispatcher shall validate the feasibility of reinstatement, considering all operational constraints (e.g., fuel, weight & balance, payload, space constraints and OTP).

Guest Prioritisation

Determine which guests may be accepted first based on operational need or any disruption-management priorities (example YPTA, UMN, PRMs, VVIPs).

Baggage Connectivity

The gate agent shall coordinate with the Aircraft Dispatcher to confirm whether the guest's baggage can be connected and ensure the total number of bags is accurately reflected and reconciled in the system. In the event uplifting the guest's baggage would result in further delays, the baggage may be misconnected.

Where baggage is misconnected, DSHO/Delegate shall notify Baggage Recovery Control (BRC), ensuring that arrival station is informed and the apology letter is shared with the guest.

9.4.1 Flight Reinstatement

Once approval has been granted, gate agent shall contact Guest Control for reinstatement of guest(s). The guest(s) shall be checked in, baggage details updated, and boarding completed accordingly.

Guests with check-in baggage shall be advised that every effort will be made to connect their bags; however, delivery cannot be guaranteed.

9.4.2 Reporting

Upon flight closure, the Team Leader or gate agent shall notify the DSHO/GODM of:

1. all guests who were reinstated;
2. all guests for whom reinstatement was not possible; and
3. any baggage left behind due to time constraints.

The Aircraft Dispatcher shall validate the feasibility of reinstatement, considering all operational constraints (e.g., fuel, weight & balance, payload, space constraints and OTP).

9.5 OFFLOADING REPORT

When a guest is offloaded for any reason whilst in transit at AUH, the AUH offloading team shall create the SeMS report. For offloads due to fraud, DVS shall scan all the relevant passport and visa pages (including stamps) and other supporting documents which shall be added to the ONRS report on INTELEX.

For any reason that requires escalation through the DVS or Ground Operations Duty Manager, the following CID numbers must be contacted as below:

+971 50 7011737
+971 50 6626777
+971 2 5052117

9.6 CHAUFFEUR SERVICE

Etihad Chauffeur service is available for travel between Zayed International Airport and any location within the UAE. This service is included in The Residence, First, Business Comfort, and Business Deluxe tickets.

For global airports, Etihad Chauffeur service is included in The Residence and First Deluxe tickets, and on selected Business Deluxe bookings.

Eligible Etihad Guest members may also receive Etihad UAE Chauffeur service to and from Zayed International Airport, subject to their tier status and selected Custom Benefits.

NOTE

Guests travelling on Etihad operated flights but non EY ticket stock are not eligible for chauffeur service.

9.7 CANADIAN BORDER AGENCY - NO-BOARD MESSAGE PROCESS

The Canada Border Agency (CBSA) on rare occasions may recall automated IAPI 'Ok to Board' Message for guests who have already been checked-in and/or boarded.

An 'Unsolicited No-board' message will be sent no later than 30 minutes prior to the flight's scheduled time of departure. The following processes shall be followed to ensure guests with 'Unsolicited No-board' message are reported to the Document Verification Unit Supervisor for further evaluation.

The IAPI Status shall appear as – **DO NOT BOARD / DOCUMENT NOT ON FILE**.

In such cases, the Air Carrier Support Desk and/or CBSA Liaison Officer shall be contacted for further evaluation and offloading shall be initiated if necessary.

NOTE

Non-compliance can lead to severe fines and penalties imposed by the CBSA.

Important Contact Numbers

ACSC Help Desk contact number: +1-905-676-5171

The following information shall be provided to the ACSC Border Service Officer:

- | | |
|--|--|
| <ul style="list-style-type: none"> • Airline name and IATA or ICAO code • Flight number • Departure City Airport Code (IATA code) • Commercial air carrier contact name; employee identification number and telephone number | <ul style="list-style-type: none"> • Passenger information on the passport bio-data page • Passport/Travel Document identification number • Canadian visa document number (if applicable) • Board/no-board response message • What is the issue or problem? |
|--|--|

If the ACSC agent confirms the guest is holding valid travel documents to enter Canada, BSC shall be contacted to perform the override.

Agents shall ensure that the flight is closed as per the standard process and the 'Flight Closeout' message is transmitted to CBSA.

9.8 AUH HUB SERVICE RECOVERY MANAGEMENT

9.8.1 Service Recovery - Upgrades

Only the HOM shall authorise service recovery upgrades and shall call Guest Control Duty Manager with PNR details at least 60 minutes prior to departure. The HOM shall provide a brief verbal justification for the upgrade to GC at the time of the call.

The correct upgrade code shall be selected by GC who shall then action the upgrade.

HOMs should only consider authorising a service recovery upgrade after full consideration of all the scenario facts, and be confident that the upgrade is:

- In the best interest of the business
- Warranted due to guest mishandling
- Fully justifiable

- A live service failure (perceived previous mishandling shall be referred to Guest Relations)

Caveats:

- Any service recovery upgrade request received by GC from staff other than a HOM shall be declined
- HOM approved service recovery upgrade would take priority over staff upgrades
- Service recovery upgrades would not take priority over commercially pre-approved upgrades
- J-F service recovery upgrades shall not be considered unless the guest in question is a member of a ruling family, VIP or Diplomat
- ID staff and supplementary ticketed guests may not be considered for service recovery upgrade

Cost centre 30ZCORZ105, GL account code 60310990 shall be allocated to all HOM authorized service recovery upgrades

An email, containing full details of scenario and upgrade justification shall be sent by the requesting HOM prior to the end of the shift, copying:

GuestControlDutyManager@etihad.ae

HOMS@etihad.ae

GRReports@etihad.ae

GCRDutyManagers@etihad.ae

9.8.2 Service Recovery - Non-Monetary Welfare

Non-monetary welfare may be applicable to guests eligible for service recovery in scenarios falling outside the scope of flight disruptions. In such instances, guests may be entitled to the following:

- rebooking by Guest Control; and
- non-monetary welfare (refreshments, meals, or hotel accommodation) -in line with the eligibility table in [GSM 4.2.1](#).

The tables below outline applicable service recovery scenarios, categorised according to the requirement for prior approval.

All scenarios listed below are considered involuntary, and approval is not required for rebooking. Team members shall continue to provide notification to the relevant stakeholders as defined under the approval process.

9.8.2.1 Pre-Approved Scenarios

Guests falling under the following scenarios are automatically entitled to service recovery.

Prior approval is not required.

Reason	Description	Rebooking	Welfare
CBP	Held at Secondary Processing Area	✓	✓

Reason	Description	Rebooking	Welfare
	Inadmissible – CBP Immigration refusal	✓	✓
MEDA	Sick guests - Hospitalised	✓	✓
Agent Error	Passport lost or misplaced by the agent	✓	✓
	Incorrect gate information provided to the guest	✓	✓
	Check-in errors affecting guest acceptance	✓	✓
Check-in System Error	Delays caused by the check-in system failure resulting in late gate reporting	✓	✓
	Delays caused by the check-in system failure resulting in late reporting at U.S CBP Preclearance area	✓	✓
Gate Change	Last minute gate change, where guest still reported to old gate/holding old boarding pass	✓	✓
EY Coach	Late arrival of coach to the airport	✓	✓
Authorities	Guest held by authorities but cleared for travel	✓	✓
Documentation	Last minute update to travel/health documentation requirements where information was not	✓	✓

Reason	Description	Rebooking	Welfare
	made available via official channels before departure		
	Documents/visa assessment by agent resulting in guest being held or unable to travel, however documents are valid (as confirmed by RCU/DVU)	✓	✓

9.8.2.2 Exceptional Scenarios

The following scenarios shall require prior approval from the Etihad Hub Operations Manager (HOM) or Ground Operations Duty Manager (GODM) before welfare may be issued.

Reason	Description	Rebooking	Welfare
MEDA	Sick guests - Not hospitalised	✓	Entitled to meal/refreshment. Approval required for HOTAC.
Congestion at Airport Terminal	Involuntary delays due to terminal congestion or system outage	✓	Approval required
Security	Involuntary delays with airport security due to terminal congestion or system outage	✓	Approval required
Check-in Counters	Delays at check-in counters due to system outage or operational issues	✓	Approval required

9.8.2.3 Approval Process

Where approval is required for welfare as defined under 9.8.2.2, the following steps shall be followed. Meal, refreshment, or hotel vouchers shall not be issued without prior authorisation from the GODM or HOM.

Step	Process	Requirements
1	Approval Request	Agents shall submit a request to GODM and HOM for approval of the issuance of meal/refreshment/hotel vouchers. The email shall include the following information: - Reason for service recovery - Guest PNR - Type of request (e.g refreshment/hotel/ meals) - Sequence number from the boarding pass (for iCoupon activation) Email To: GODM@etihad.ae and HOM@etihad.ae Cc: GuestControl@etihad.ae and Guestresponse@etihad.ae
2	Meal and Refreshment Vouchers (iCoupon)	Once approval is received, Guest Control shall activate iCoupon for guests requiring refreshments or meals. Where iCoupon activation is not possible, agents shall refer to HSB 25-004 – Meal Voucher Issuance (iCoupon) 3.3 for further guidance.
3	Hotel Accommodation Vouchers	Once approval is received, and where the guest is eligible for hotel accommodation, agents shall issue the hotel voucher via Altéa CM, selecting the 'Service Recovery' option from the 'Compensation Reason' dropdown menu.

9.9 US FLIGHT - GUEST HANDLING IN ABU DHABI

9.9.1 USCBP Pre Clearance

The USCBP facility is located next to gate C34. Guests travelling on precleared US bound flights shall complete the following steps before boarding the aircraft.

USCBP flights can be expanded into 3 different modes:

Mode 1 – 3 gates operating: Gate C36, C38* and C40.

Mode 2 – 5 gates operating: Gate C36, C38*, C40, C42* and C41*.

Mode 3 – 6 gates operating: Gate C36, C38*, C40, C42*, C41* and C39.

*Code F

These gates shall be used for all other destinations when the USCBP preclearance facility is non-operational. In addition to the operational facilities, the area includes a food outlet, duty-free, smoking area, prayer rooms, and the U.S. Preclearance Lounge.

9.9.1.1 Guest Processing at Check-In

Check-in for US bound flights at Zayed International Airport, Terminal A, opens 6 hours prior to departure and guests shall check-in at the dedicated US check-in counters on Row C. Eligible guests may use the United States Mobile Passport Control (MPC) for expedited immigration clearance.

The USCBP facility closes 60 minutes before departure.

The below are not available for guests traveling on direct flights to the US:

- i. Self-Service Bag Drop (SSBD)

Check-in for local joining guests shall close as follows:

- Economy guests – 120 mins prior to STD
- Premium guests and standby staff travellers – 90 mins prior to STD

9.9.1.2 TSA Area

TSA operation shall commence 4 hours before STD for morning departures and 3 hours for evening departures.

Team members allocated at TSA shall complete the following:

- Verify if travelling on departing USCBP flight
- Face-to-passport match and boarding pass check
- Identify guests with 'SSSS' on the boarding pass
- Scan the boarding pass with the BIWIS Hand-Held Terminal (HHT)

Entry to the facility shall be prioritised by flight departure time.

9.9.1.3 Selectee Process

Team members shall validate the AQQ of all guests entering the USCBP facility. Where the 'SSSS' indicator is present on the boarding pass, the guest shall be handed over to the AVSEC team along with their boarding pass for enhanced security checks. If the status has changed to selectee upon checking the system, the boarding pass shall be reprinted. Guest with the new boarding pass shall be handed over to AVSEC team. At 60 minutes before departure time, the Selectee list shall be reprinted to identify any Selectee status change.

Non-selectee guests shall be directed to proceed to the normal queue.

In the event that guest's status changed to "Inhibited", the Threat Assessment Centre (TAC) shall be contacted for resolution.

9.9.1.4 BIWIS Hand-Held Terminal (HHT)

Team members must scan all boarding passes using HHT to verify whether the baggage has been imaged. Guests with imaged baggage shall be advised to proceed through to TSA checks and USCBP Immigration.

Team members should stamp the upper right corner of the boarding pass for guests with unimaged baggage and inform them that their baggage must still be imaged to comply with USCBP requirements. After TSA checks, guests shall be directed to the waiting area to confirm the status of their bags.

Team members shall follow the procedures from the BIWIS manual for guests with nil baggage or carrying gate-checked items such as strollers and wheelchairs.

BIWIS Kiosks are available in the TSA queue for guests to check the status of their baggage.

The stamp shall be safely kept for subsequent shift operations.

9.9.1.5 TSA Queue

Guest acceptance closes 60 minutes before ETD. Late arriving guests shall be informed of the USCBP process and directed to the transfer desk.

A priority queue will be available for premium guests and those requiring special assistance (PRM).

There is also a dedicated lane for selectee guests to undergo enhanced security checks.

9.9.1.6 BIWIS E-Gate and Waiting Area

After completing TSA processes, guests with imaged baggage shall be directed to USCBP Immigration.

Guests with stamped boarding passes shall be referred to the waiting area to monitor the status on the BIWIS display. Once the bags are imaged, the guests' name and status will be updated to "Good to Go" and will disappear once the guest clears the BIWIS E-Gate.

Guests whose baggage has not been imaged 45 minutes before departure shall be informed about the mishandled baggage procedure, with the approval of a CBP Officer. Team members shall also obtain the guests' consent to travel without their bags.

9.9.1.7 USCBP Immigration Area

Primary and Secondary Processing Area (PPA/SPA)

Guests who have cleared the BIWIS process shall be advised to proceed to Primary Processing Area (PPA)

In the PPA area, a designated queue will separate guests using the Mobile Passport Control (MPC) and Global Entry Kiosks.

Guests may be required to undergo secondary processing, according to USCBP's recommendation. A dedicated team member from PPA shall be assigned to guests entering the Secondary Processing Area (SPA).

- **30 minutes prior to departure:** Guest acceptance at the discretion of the Velora Team Leader.
- **20 minutes prior to departure:** All guests yet to clear SPA shall be offloaded as per the standard procedure.

Based on USCBP Officer's recommendation, if a guest is established ineligible to make their journey on the booked flight, they shall be either rerouted, rebooked to an alternate flight, or repatriated to the origin. Team members allocated at SPA shall wait until all guests have completed the secondary process.

Secondary Processing Area (SPA) – Boarding Pass Reprint

All guests referred to Secondary Processing Area (SPA) at the U.S. CBP Preclearance facility to carry a physical (printed) boarding pass, in line with direction from U.S. Customs and Border Protection (CBP). Guests referred to Secondary are not permitted to proceed with a digital or mobile boarding pass only. For such referrals, boarding pass reprinting shall be performed at the Etihad SPA podium located inside the CBP facility (adjacent to the CBP Supervisor).

Team members assigned to the SPA podium shall ensure that:

- All guests referred by CBP to SPA are issued a printed boarding pass if holding a digital or mobile boarding pass
- The printed boarding pass is provided to the guest before proceeding to Secondary
- The guest proceeds to SPA carrying both passport and printed boarding pass

Where the boarding pass is printed solely to meet CBP SPA requirements, document verification is not required at this point.

NOTE

All standard boarding pass reprint and document verification requirements across check-in, bag drop, gates, transfer desks, and other airport areas remain unchanged and continue to follow GSM Chapter [2.2.1](#).

9.9.1.8 Boarding

The standard boarding process shall apply.

Where a guest is missing at the boarding gate, team members shall coordinate with the team at SPA to determine if the guest is within the USCBP facility. The USCBP Officer shall confirm the guest's immigration status. Offloading procedures shall commence if additional processing time is required, and the departure is within 20 minutes.

The total onboard count and gate offload list are to be provided to the USCBP Team Leader upon completion of boarding.

Once the flight is cleared, gate agents shall contact Guest Response at (+9712 511 1111) for a Regulatory Close Out message.

Where a selectee guest is missed, guests shall be located and assisted to the security screening point, with the approval from the USCBP Officer.

If a guest's status changes to selectee before boarding, boarding will be inhibited. Once identified, gate staff shall contact the Team Leader and reprint the boarding pass, in coordination with the AVSEC/USCBP Officers for any additional security procedures. The guest shall be assisted by a team member from the boarding gate, USCBP, and TSA until the selectee process is completed.

9.9.1.8.1 Biometric Boarding

Where available, Biometric boarding at the USCBP facility shall be utilised.

	GUEST SERVICES MANUAL AUH HUB LOCAL OPERATING PROCEDURES	Chapter: 9 Page: 17 of 62 Rev: 37 Date: 25 May 2026
--	---	--

In the event of failed biometric boarding, manual reconciliation of the guest against their travel documents is mandatory and the USCBP Team Leader shall be advised accordingly.

NOTE
BGR boarding and Biometric boarding shall not be conducted simultaneously.

9.9.1.8.2 A380 (Code F) - Boarding

For all A380 departures, the group boarding and seat-type process will be followed as described below. Team members shall ensure that signages are placed accordingly.

USCBP A380 Gate Boarding
Door A Economy Seats F-K Door B Premium and Economy Seats A-E

First and Business guests shall be directed to the short escalator and board from the upper deck. The link to the upper deck is at the bottom of the escalator.

Guests travelling in Economy shall be directed to the main boarding bridge.

9.9.1.9 Passenger with Reduced Mobility (PRM)

Guests requiring wheelchair assistance shall be assisted regardless of whether an SSR is present. If assistance is required upon arrival, the SSR shall be updated at the boarding gate. PRM guests shall be assisted according to the SSR requirements and shall not be left behind under any circumstances.

Team members shall make every effort to assist PRM guests with selectee status in advance, due to enhanced security checks.

9.9.1.10 Medical Cases

Sick guests

If a sick guest has been identified post TSA and/or the USCBP immigration, and is deemed unfit to continue their journey based on USCBP/ADA paramedics and/or Medlink evaluation, the guest must be escorted out of the USCBP facility by a team member.

Standard offloading reports (ONRS) may also be created when required by local authorities or GRC for rebooking purposes.

Medlink shall be contacted to ensure that the guest is Fit-to-Fly prior to travel, and the reference number shall be added as an OSI comment in Altéa CM.

Stretcher

An ambulance carrying a patient on a stretcher, accompanied by an escorting team member, shall enter airside through the gantry gate and proceed to the designated parking area opposite bay 633. The USCBP officers, TSA and all stakeholders shall be informed prior the movement of guests arrival. The USCBP Officers will clear the guest using the portable scanning machine. Once clearance and immigration formalities have been completed, the ambulance shall proceed to the aircraft, after which the boarding formalities will be completed.

9.9.1.11 Disruption

In the event of a flight disruption, guests shall be offered refreshments based on the service recovery matrix.

Delayed flights

Where US Immigration has processed guests in Abu Dhabi and the flight is subsequently delayed or disrupted resulting in guests leaving the sterile gate area, the HOM/GODM shall ensure to notify the following but not limited to:

- SM AOCC
- USCBP
- TSA
- NOC
- TAC

Further advice by NOC in consultation with the USCBP Port Director, the delayed flight can be one of the following:

Precleared Delayed Flight: NOC shall seek approval from the Port Director to operate the delayed flight in the next available CBP bank.

Post Cleared Delayed Flight: Prior to departure, NOC shall seek approval for the affected flight to be post-cleared, by email, from the Port Director.

Information to include:

- a. New flight number
- b. Pax/crew load
- c. New ETD & ETA at destination

Arrangements also need to be made with AVSEC/National Guard (NG) if the flight is to be operated as post-cleared (TSA checks).

As per US policy and API procedures, Guest Control is required to create a new flight number and transfer all guests and their API across to the new flight.

Cancelled Flights

In an event that guests must clear the sterile area or disembark from the aircraft due to any reason, the necessary approvals must be obtained from SM AOCC, Velora OCM, GODM, and USCBP Team Leader.

Depending on the agreement, the guests may disembark into the departure or arrival level.

9.9.1.12 Diamond Lounge Process

Guests utilising the Diamond Lounge shall have a comment added in Altéa CM by the Diamond Lounge team member.

Team member allocated in the lounge shall:

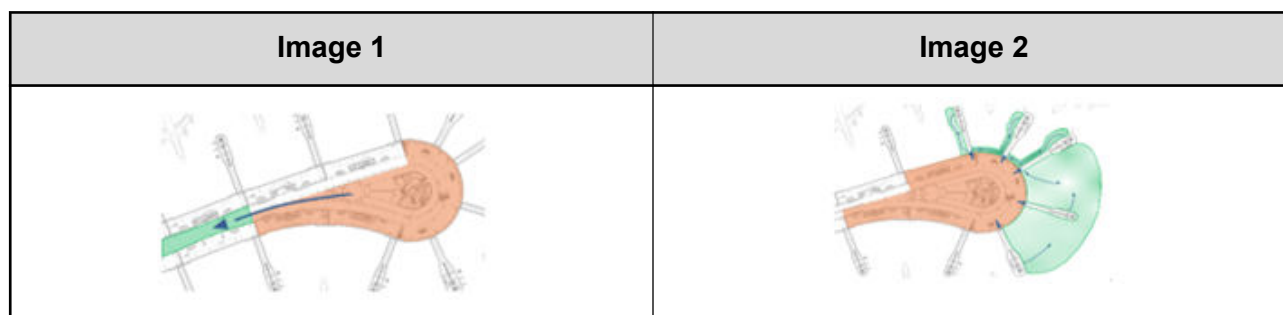

- Coordinate with TCC and baggage allocator to ensure bags are collected from the Diamond Lounge and transferred to USCBP facility for baggage imaging.
- Brief the VVIP guest and the Diamond Lounge team member on the applicable TSA closure time and USCBP checks.

The Diamond Lounge team member shall be informed that guests must be present at the USCBP facility to complete TSA and USCBP Immigration processes. Airside transfers shall not be used.

Evacuation and Recovery

In the event an evacuation is required from the USCBP facility due to unforeseen circumstances and/or as per USCBP directive, SM AOCC shall instruct all airport team members to inform all guests, to proceed back to the USCBP entrance near Gate 36 or Gate 37 (refer image 1).

Other gates may be utilised, and the mixing of guests is likely, therefore requiring the reprocessing of all USCBP guests. Apron mode of evacuation can be applied and requires the presence of trained fire marshals once activated by AOCC (refer image 2).

9.9.2 US Post Cleared Flights

Staff shall ensure that the following are resolved during the check-in process. Subsequent processing of the guest can only take place after verification that the passport (or substitute travel document) is valid, and/or the item in question has the required approvals and cleared by the local authorities.

- If guest documentation (Item 1, 2 and 3) is not resolved, the guest shall not be accepted for the flight. Where guest and document is referred to the SME/Supervisor for further examination and subsequently cleared to travel, guest shall be manually designated as Selectee (indicate 'SSSS' in the boarding pass) for Selectee screening at US flight boarding gate.
- If the unauthorised item (under Item 4) is not resolved, the item must not be accepted for transport on EY aircraft. The guest and item shall be handed over to EY AVSEC/local authorities for further handling. Where the guest is subsequently cleared to travel, guest shall be manually designated as Selectee (indicate 'SSSS' in the boarding pass) for Selectee screening at US flight boarding gate.

When guest is holding the necessary authorisation and clearances, it is not required to designate as manual Selectee.

Items to check	Recommended Actions to Resolve (non-inclusive)
1. Check if guest has either a forged, altered, or invalid passport.	Staff shall check the authenticity and validity of the passport
2. Check if there is a mismatch in Personal ID information in valid passport against the name on the ticket.	Staff shall check if the mismatch is due to: • The ticket contains minor typographical errors that can be readily clarified or resolved. • The ticket contains variant transliterations of foreign names. • The guest has recently undergone a legal name change and has not had the opportunity to update his/her passport. The guest must provide legal documentation of his/her legal name change.
	NOTE
	Guest can be accepted provided that it is compliant with Etihad Name Correction policy.
3. Check if guest is holding multiple passports or other substitute travel documents that contains conflicting data.	Staff shall resolve why the guest has multiple passports or other substitute travel documents and resolve each conflicting data.
4. Confirm if guest is transporting any unauthorised type of explosive, incendiary, weapon, ammunition, or other prohibited or dangerous item	Staff shall ask the guest if he/she is carrying any type of explosive, incendiary, weapon, ammunition, or other prohibited/dangerous items; and verify if guest has the required authorisation/approval of such item.

Furthermore, guests shall be asked and briefed of the following:

- Mandatory Baggage Questions
- Powder substances in Cabin baggage

Mandatory Baggage Questions

a. Is this your bag?

Mandatory Baggage Questions

- b. Did you pack it yourself? And are you aware of its contents?
- c. Has all your baggage remained in your possession from the time it was packed until you arrived at check-in?
- d. Are you carrying anything received from others?

A negative response to Items A, B and C, or a positive response to Item D, shall prompt the staff to designate the guest as Selectee (indicate 'SSSS' in the boarding pass).

Where the answer is not satisfactory, the guest shall not be accepted until resolved.

Powdered Substances

12 ounces (350 ml) or larger are generally prohibited as cabin baggage, except:

- i. Medically prescribed powder-like substances and baby formula in sealed or unsealed containers. (Note: These may be subjected to additional screening at the US boarding gate in AUH, if packaging/container is showing signs of alteration or tampering or having signs that the contents are inconsistent.)
- ii. Powder-like substances purchased at AUH duty free, will be delivered to the guest as they board the aircraft to US, and inside a properly sealed Secure Tamper Evident Bag (STEB).

Powdered substances of any quantity may be placed in and transported as checked baggage.

9.9.2.1 Guest handling at the boarding gate

Boarding gate shall be opened at -180 minutes in coordination with AVSEC.

Initiated At	Task
-180 minutes to STD	Gate is opened and AVSEC sweep conducted AVSEC to setup dedicated lanes for Selectee
-180 minutes to STD	Velora interviewer to ensure all guests with Selectee status on their boarding pass are referred to AVSEC team. Where guest has a status change to Selectee prior boarding, the Altéa CM system AQQ status will be changed to inhibit boarding. The boarding pass shall be reprinted and guest to be directed in Selectee lane by the boarding gate staff. At the boarding gate entrance, the Velora interviewer shall verify the status of the guest if exempted or not from the pre-screening interview requirement. If guest's boarding pass is showing 'SSSS', guest will be directed to selectee screening lane without any further questioning/interview.

Initiated At	Task
	If guest is displaying any of the positive signs, guest must only be interviewed for Critical Signs and Mandatory Baggage Questioning. If any critical sign or mandatory baggage question is not resolved, refer to SME/Supervisor and if later cleared, indicate 'SSSS' on guest boarding pass and direct guest to selectee screening lane. If guest is not exempted nor displaying any positive sign, the guest shall be interviewed and assessed for: • Critical Signs • Mandatory Baggage Questioning • Suspicious Signs – Appearance and Behavior • Suspicious Signs – Documentation If any of the above signs cannot be resolved, indicate 'SSSS' on guest boarding pass and direct guest to selectee screening lane. Per the TSA requirements, apart from SEL passengers, all Non-Selectee passengers shall be subjected to random continuous selection for PEDs & Powders screening.
Prior physical boarding	Any guests who have a status change to Selectee after pre- boarding shall go through to the Selectee screening process. To identify these guests, Velora agent shall: • filter in the system the processed Selectee guest without SSSS in the boarding pass • Reprint the boarding pass and locate the guest in the holding area • Once located, refer to AVSEC for Selectee screening process

NOTE

- Guests leaving the boarding gate shall carry his/her passport.
- Velora interviewer shall refer to the shared restricted document.

9.9.2.2 US Regulatory Message

US CBP Boarding Gate staff shall contact FCA team FlightControl@etihad.ae for **Regulatory Close – Out messages** on US Flights once all guests have been boarded and flight acceptance status has been finalised.

9.10 BAGGAGE DISRUPTION PROCEDURE

In order to effectively manage guests and their baggage during disruption, a dedicated team at the Hub has been developed.

The areas responsible for the new process are:

1. Guest Control
2. Transfer Control Team
3. Velora Baggage Reflighting Team

1. Guest Control duties

- Monitor movement messages and AIMS to proactively spot potential misconnections as soon as possible
- Analyse the misconnections and plan how to re-accommodate the guests, using the best tool for the situation e.g. IROPS REACCOMMODATION MANAGER (for mass re-accommodation), REVENUE REBOOK (for EY to EY connections), PNR REBOOK (mainly for OALS)
- Perform the re-bookings and reissue/exchange the e-tickets
- Assess misconnections, perform re-accommodation and ensure PNRs/E-tickets are updated correctly
- Send delay/connection summary to Transfer Control Team once all the above has been completed, and within the timings agreed

2. Velora TBF Baggage Reflighting Team duties

- As the bag details have been edited in advance, the sortation system shall direct the bags to the correct carousel for loading
- The baggage loading team shall scan the barcode on the bag tag with the Hand-held terminals (HHT). If the BSM has been sent in time, the bag will scan 'Green' (OK to load)
- If the bag is not to be loaded at once (e.g. departure in 3+ hours), the bag will automatically divert to the early baggage storage (EBS) until the flight opens. Once the flight opens, the bag will automatically divert to the correct carousel.
- If the routing has changed or BSM not received, the system will divert the bag to the "dump chute" for Reflighting team to investigate. The bag will scan 'RED' and the HHT will advise the baggage agent of the new flight details
- The bag shall then be entered back into the system for sortation and subsequent loading

9.11 NON DISRUPTION RE-ACCOMMODATION PROCESS

Rerouting and/or rebooking of guests due to reasons other than airline accountable disruptions shall be managed in line with the below matrix (exceptions may be managed on a case-by-case basis, approved by Guest Response):

Cause of Disruption	Rebook / Re-route With Cost Code	INVOL Rebook / Re-route at EY cost	Reservation and Ticketing costs to be collected and absorbed by the guest ie Noshow, Voluntary Date change and Class or	Welfare (Hotac, Meals & Transport)
Airport/Security/Terminal Congestion (TOM to authorize rebooking if during an Amber peak travel event)	x	x	✓	x
Check In Related Issues (EY)	✓	x	x	□

CBP - Refusal	x	x	✓	x

Descriptors	
✓	Yes
x	No
□	May be offered (Based on time elapsed before rebooked flight in line with misconnection meal/hotac offering)

9.12 VISA PROCESS FOR MEDICAL CASES

This document outlines the process and responsibility for Etihad to assist National Ambulance in obtaining visas for guests requiring further medical evaluation at a hospital.

There are two processes that Etihad staff must be aware of and follow in the event a visa is required for Etihad guests.

TIME CRITICAL / EMERGENCY CASES

- The National Ambulance Paramedic will decide if the patient requires immediate transfer to hospital via an ambulance.
- National Ambulance Paramedics shall contact the Terminal A Hub Operations Manager (HOM) to advise that they require transferring a critically ill patient to hospital.
- The HOM is to liaise with the ADA AOCC (050 811 8286) and ensure all requirements are in place to expedite the guest's departure from the airport. The HOM shall ensure the ADA Duty Manager is fully aware that a police escort will be required and that the ADA AOCC should commence the necessary arrangements.
- For any other airline issue, the HOM on duty should be the first point of contact and shall then forward the case.
- Etihad is to obtain two coloured copies of the patient's passport and boarding card. These must be collected immediately from the respective national ambulance assessment area:

- Terminal A: South or North Arrival areas
- The HOM must immediately assign a member of staff to perform this task. Completion of this task must be confirmed back to the HOM by phone.
- These should be brought to the Transfer Desk in the respective terminal to commence the visa application process once the guest is en route to the hospital. The aim is for guests to be transferred to the hospital at the earliest opportunity, prior to the issuance of a visa.
- National Ambulance Paramedics stationed at the terminal will ready the patient and arrange for an ambulance to be on standby or positioned at the ambulance bay near gate E in the remote arrivals area.

NON-TIME CRITICAL

- National Ambulance Paramedics shall contact the Terminal A Hub Operations Manager (HOM) on duty to advise that they require transferring a patient to hospital for further assessment.
- The HOM is to ensure Etihad obtain:
 - 2x colour copies of passport and boarding card
 - A copy of the off-load report
- These must be collected immediately from the respective national ambulance assessment area:
 - Terminal A: South or North Arrival areas
- The HOM should oversee the guest visa application process and liaise with the required Immigration and ADA AOCC (050 811 8286) to ensure the temporary visa is issued in the shortest time frame possible. This should not exceed the maximum time of 90 minutes
- For any other airline issue, the HOM on duty should be the first point of contact and will then forward the case.
- Continual liaison should take place between HOM and national ambulance re status of visa application in order that guests transfer to hospital can be expedited at the earliest opportunity.

7-day emergency visas issued for sick guests

- The Transfer Desk Team Leader shall arrange for the collection of the original clinic report, which shall be sent to the Visa Unit along with color copies of the passport and the list of guests.
- The Transfer Desk Team Leader shall send an email to the ADA AOCC in the format as mentioned in appendix A detailing the flight number, delay reason and number of visas required
- ADA AOCC shall prepare a letter to the immigration requesting issuance of visas as requested by Etihad Airways
- A copy of the letter will be sent back to the Transfer Desk Team Leader and the Visa Unit.
- The Visa Unit staff shall take the passport copies and the letter to the immigration office and collect the visas once issued to then be handed over to the transfer desk for distribution to the guests

- The guests will be asked to proceed to the arrival hall to clear immigration and to arrival desk to avail transportation to the hotel or hospital.
- STPC team shall complete a report (appendix C) and forward to the following email at the end of every shift (0430LT for night shift and 1630LT for day shift):

Visa on Arrival visaonarrival@etihad.ae

96–hours visas for transit guests

Guests in transit with an onward connection out of AUH can apply for a 96–hours and 14–day visa on submission of color copy of the passport and onward ticket details to the Visa Unit

- STPC shall scan the passport copy and the visa request form to the visa to process the visa
- The Visa Unit shall process the application and submit the request to the immigration
- The Visa Unit shall notify STPC/TD with the status of the visa application - issued/pending/rejected once they get an update from the immigration
- STPC team shall complete a report (appendix C) and forward to the following email at the end of every shift (0430LT for night shift and 1630LT for day shift):

Visa on Arrival visaonarrival@etihad.ae

9.13 VISA ISSUANCE FOR DELAYED/DISRUPTED GUESTS

The Visa Unit shall process visas for the following scenarios:

1. Delayed / Disrupted Guests

- Inbound flight delays caused by technical / weather / diversions / operational reasons, resulting in guests experiencing an involuntary delay of over 8 hours airside at AUH.
- Outbound flight delays caused by technical / weather / diversions / operational reasons, resulting in guests experiencing an involuntary delay of over 8 hours airside at AUH.
- Flight cancellations, resulting in guests experiencing an involuntary delay of over 8 hours airside at AUH.

2. Offload due to guest sickness
3. Requests from the authorities
4. Offload due to operational reasons

There are 3 types of visas applied for by the Visa Unit

1. 96–hour visas issued for delayed / disrupted guests who have been involuntarily delayed / disrupted and are facing a delay airside in AUH for over 8 hours.
2. 7–day emergency visas issued for sick guests
3. 96–hour visas issued for transit guests who have not been involuntarily delayed /disrupted

The Visa Unit shall be responsible for follow up with the authorities and update the Duty Operations Manager about the status of the application.

Application Process:

96–hour visa for delayed/disrupted guests

- The Duty Operations Manager shall request the Transfer Desk Planner to prepare the guest manifest, as per the format mentioned in appendix B. Whenever possible, this must be done at the earliest possible time, if the disruption is known/expected.
- The Transfer Desk Planner shall then send an email to the ADA Duty Manager and the Visa Unit, (copying in the AMC Coordinator), as per the format mentioned in appendix A1 (inbound flight delay) or appendix A2 (outbound flight delay). The email shall state the flight number, the exact reason for the delay / disruption and the number of visas required. Visas shall only be requested for guests who have been involuntarily delayed / disrupted and are subsequently facing a delay airside in Zayed International Airport of over 8 hours.
- The ADA DM shall prepare a letter to Immigration, clearly mentioning the exact reason for the delay and requesting the issuance of visas on behalf of Etihad Airways.
- A copy of the letter shall be sent back to the DOM and the Visa Unit within 15 minutes of the request. Once received, the Transfer Desk Planner shall print both the letter from ADA and the guest manifest, who shall then print out the paperwork.
- The Transfer Desk Planner shall contact the Visa Unit staff and advise them that the required paperwork is ready.
- Transfer desk team members shall direct guests to the visa waiting area at Immigration on arrival. Guests shall submit their passports directly to the Immigration Office to initiate the emergency visa process.
- The Immigration Officer shall process and approve the emergency visa within 30 minutes. The Visa Unit staff shall monitor the status of visa applications with the authorities, ensuring timely processing within the agreed timeframe.
- Once the visa has been approved and handed over to the guest, along with a hotel voucher, they will be directed to proceed to the arrival hall to clear immigration. From there, they can visit the arrival desk for transportation assistance to their hotel, if required.
- A Visa Unit team member shall assist guests who are either ineligible to submit a visa application or have not been granted a visa, by directing them to the Transfer Desk.
- Guests who have been refused a visa shall be assisted at the Transfer Desk and their hotel voucher shall be voided. Transfer Desk team shall strive to accommodate these guests in one of the terminal facilities, such as the airport hotel or lounges.
- The Transfer Desk Planner shall compile a disruption visa timestamp document. The timestamp document shall reflect the actual times that each stakeholder completes their process. The timestamps shall be annotated under predefined process categories, that have been set against agreed completion timeframes, (refer to the example below). Any part of the process that exceeds the agreed timeframe shall be highlighted in red on the timestamp document. Before the end of the shift the STPC Planner shall email the timestamp document to the following recipients:

auhtransferdesk@velora.ae

AAIhosani@etihad.ae

HMuhamad@velora.ae

OperationsDutyManagers@adac.ae

MahraA@etihad.ae

HAIJneibi@etihad.ae

IElsaadany@etihad.ae

HOM@etihad.ae

GODM@etihad.ae

Example of predefined process categories and agreed completion timeframes:

Process Category	Completion Timeframe
Transfer Desk Filter Process Finalised	Less than 30 mins
ADA Visa Letter Request Sent by Duty Operations Manager	Less than 30 mins
ADA Visa Letter Received Back from ADA DM	Less than 30 mins
Visa Application Docs Handed Over to Visa Unit Staff	Less than 30 mins
Visa Application Docs Handed Over to Immigration (by Visa Unit Staff)	Less than 30 mins
Immigration Staff Finished Uploading Details in System	Less than 30 mins
Visas Approval	Less than 60 mins

9.14 UK PRE-DEPARTURE CHECKS SCHEME

All flights from AUH to the United Kingdom (LHR and MAN) are now subject to the Pre-Departure Checks Scheme (PDCS), operated by the National Border Targeting Centre (NBTC).

(Non-Interactive Version)

- The PDCS comprises of two parts: **PDCS No Fly** and **PDCS Selectee**
- The NBTC coordinates directly with the Aviation Threat Assessment Centre (TAC), following API submissions to the NBTC
- The NBTC may instruct Etihad to offload Guests who are positively identified as **PDCS No Fly**. TAC shall coordinate with the AUH HUB Duty Manager to verify the guest's identity and validate a **PDCS No Fly** decision.
- The NBTC may instruct Etihad to apply **PDCS Selectee** screening to selectee guests. This is in addition to the random boarding gate screening currently in place for all UK bound flights. TAC shall coordinate with the AUH HUB Duty Manager to verify Guest's identity and validate a **PDCS Selectee** decision
- The AVSEC HUB team is responsible for coordinating the implementation of **PDCS Selectee** measures and shall confirm to TAC once complete.
- Guests who fail to comply with random and/or **PDCS Selectee** screening at the boarding gate shall be offloaded and TAC shall be notified
- Failure to comply with NBTC directions may result in civil penalty against Etihad and/or diversion away from UK airspace
- In the event that a guest is deemed as **PDCS No Fly**, TAC shall provide the Duty Manager a NBTC notice to provide to the Guest
- Threat Assessment Centre can be contacted on 02 511 1225/1227 or by email: (tac@etihad.ae)

9.15 LOST AND FOUND PROCEDURES

Items received by Velora will be stored at the Lost & Found office located in the arrivals area for up to 90 days, after which they will be disposed of.

Items	Storage
Valuable items	90 Days
Non-valuable items	
Travel documents	Handed over to the National Guard within 24 hours
Perishable Items	12 hours
Hazardous Material	Disposed of immediately

Guests may report lost items online at <https://lost-and-found.ae/> and collect them at the airport directly by approaching the Lost & Found office or have them delivered to their residential address.

NOTE

Any suspicious items found on board shall be handled in accordance with *GOM Chapter 10.6.2 Bomb/Suspicious Device/Item Found on Board (Aircraft on Ground) (Sierra 3)*.

9.16 CASH HANDLING SERVICE FEE

A service fee of AED 30 is applicable for all ancillary and ticket sales paid by cash at Abu Dhabi airport.

Guests booked within the same PNR paying for more than one ancillary shall be charged a total of AED 30 so long as the cash payment is presented jointly.

A standalone EMD (EMD-S) shall be issued in addition to the ticket and/or ancillary fee. Cash Handling Service Fee EMD is voidable or refundable in the event of an involuntary change or cancellation.

Staff shall void the EMD in Altéa CM on the same day it was issued and from the same station.

If voiding is not possible, the guest shall telephone the Contact Centre for a refund.

9.17 AIRCRAFT AIRBORNE RETURN

In the event an aircraft is making an emergency airborne return to AUH, or any other emergency return which does not result in activation of the Emergency Response Plan the below process must be followed.

The NOC DM shall advise the HOM/GODM and Network Control via telephone as soon as an aircraft return is known.

Irrespective of whether it has been confirmed by the NOC DM that the aircraft has a defect that has caused the Commander to declare a PAN or MAYDAY, the HOM/GODM shall ensure the following process is carried out.

The HOM/GODM shall contact the following individuals and explain the aircraft is returning to AUH:

- Director, Velora and Manager, Terminal Operations
- Lounge Manager / Lounge Supervisor
- Duty Operations Manager
- Transfer Desk Planner
- ADA Duty Manager
- Velora ROM

The HOM/GODM shall also call the Hub Coordinator and ask them to identify which staff on shift have been trained on an Emergency Response (SAT workshop) for AUH Immediate Care Team (ICT) service. The list of these staff shall be emailed to the GODM. If the event is classified as an Enhanced Assistance Airborne Return, these staff shall be deployed to provide extra care and attention to our guests.

The DOM shall liaise closely with Network Control in order to prepare a service recovery plan that pays attention to:

- the type of aircraft involved
- the nature/reason for the airborne aircraft
- the number of affected guests
- the number of affected F/J guests
- the number of affected UM/YP accommodated at F/J lounge
- the number of affected WCHR/WCHS/WCHC
- whether there are VVIPs/CIPs onboard
- the time of day that the airborne aircraft is returning

It may not be known whether the aircraft will be able to taxi directly to stand once it has landed. In this case, the DOM and Network Control shall create a plan that ensures that enough guests buses are pre-arranged to collect guests from the aircraft if it were to remain on the runway or taxi to a remote area.

The GODM shall contact the ADA DM in order to confirm the disembarkation point for the returning guests and confirm whether they will be brought into the terminal through an arriving contact or busing gate (as per already approved disruption processes).

Once the service recovery plan has been devised, the DOM shall communicate the details to the aforementioned team.

In all events of this nature, the DOM shall ensure (as a minimum) that the aircraft is met by:

- GODM (if available)
- 4 X GSAs
- 2 X Premium Team GSAs
- GSUs - as required for the number of PRMs onboard
- Velora - Hilift

When re-accommodation plan has not yet been initiated by Guest Control, guests shall be met at the aircraft and it shall be explained to guests that they will be escorted back to the terminal where

their onward travel arrangements and other service recovery elements will be communicated further.

The GODM shall remain in regular contact with the NOC DM and update on the welfare of the guests and status of service recovery.

The NOC DM shall ensure that the EY OPS 2-019 Post Abnormal Event Debriefing is carried out and that the outcome of the 7 questions below are communicated to the GODM so that they are completely aware of the nature of the airborne return and what guests have been subjected to during landing.

Questions

1. Was a Mayday or Pan declared?
2. Confirm whether emergency services were present during the incident?
3. Confirm if injuries occurred to guests and/or crew during the incident?
4. Current/Final assessment of general wellbeing of guests and crew.
5. Provide details of all guest PAs made by both cockpit and cabin crew associated with the incident.
6. Provide details of any abnormal cabin outcomes associated with the incident i.e. oxygen masks deployment, cabin panel damage.
7. Confirm if guests took the brace position on landing.

Depending on the outcome of the 7 questions, the GODM shall categorise the event into a standard airborne return event or enhanced airborne return event.

Standard Airborne Return Event

Where the outcome of the 'EY OPS 2-019 Post Abnormal Event Debriefing questions clearly show the guests were not subjected to excessive stress and anxiety on landing, the GODM shall clearly communicate this to all staff involved in the service recovery (this detail is for internal communication only and shall not be communicated to guests).

Once the aircraft has been met, guests shall be brought from the aircraft to the planned gate. Premium guests and top tier FQTV shall be escorted to the lounges in the respective terminals. It is important to advise the lounge before guests arrive.

Service recovery shall then be delivered in line with current hub/guest control service delivery processes and all details of the event shall be recorded on a hub service handling report.

Enhanced Assistance Airborne Return Event

Where the EY OPS 2-019 Post Abnormal Event Debriefing suggest that guests have been subjected to an emergency landing and therefore associated extra stress and anxiety surrounding the airborne return event, additional care and attention shall be delivered to guests.

The GODM shall clearly communicate this to all staff involved in the service recovery (this detail is for internal communication only and shall not be communicated to guests).

Staff who have been identified previously by the Hub Coordinators as being trained on Emergency Response (SAT) for the AUH Immediate Care Team, shall then be advised to assemble at the area where guests have been disembarked from the airborne return. They shall then assist with providing extra services surrounding this key role that may include general humanitarian support, refreshments, amenity and child care packs, information/apology letters, etc.

SAT trained staff shall then be required to be available at all times at:

- Gate room
- Airport restaurants
- Premium Lounges

The HUB SAT staff shall endeavor to assist the guests to the best of their ability and avoid unnecessary and avoidable escalations. Only when it is felt that dealing with the situation is beyond the capabilities of the HUB team, whereby they are faced with situations they could not be expected to deal with, only then shall the matter be escalated to the SAT team through the ERP department.

Guests who require medical assistance shall be referred to medical assistance teams at the airport or the airport paramedics. The HUB team should try where possible to identify between those requiring medical assistance and those that require humanitarian/emotional support to ensure that these guests are cared for by the team with the most appropriate expertise.

Where an emergency event has caused guests to become openly agitated and highly emotional, further support may be called upon by contacting the Etihad Special Assistance Team (SAT):

First Point of Escalation: Siphephile Ria Nzimande, Senior Manager Operations & Emergency Response Planning 0565948080

Monitoring of Guest Sentiment after Initial Response

Where the re-accommodation plan means that guests will be required to stay in Abu Dhabi for a long period of time, guests shall be offered HOTAC/ refreshments and other service recovery elements as per the airline welfare policy. Importantly, where large groups of affected guests are required to go to hotels / lounges etc., the DOM shall consider dispatching a SAT trained member of staff or a member of the Hub ICT (Immediate Care Team) to this location in order to ensure that ongoing guest questions, concerns or queries can be answered.

The DOM shall continually monitor the areas through SAT / ICT staff members where affected guests are being cared for in order to maintain oversight of the guest sentiment and level of response required, should this change as the event develops.

Guests must be monitored throughout the delay and re-accommodation plan as some guests may at first seem to appear fine and unaffected. However, after delayed shock or talking to fellow guests about the recent experience may result in situations escalating at a much later stage post the event.

9.18 DIAMOND LOUNGE

Diamond Lounge is available for VVIPs and commercial guests travelling on direct flights to or from Abu Dhabi. The facility is operated by Plaza Premium and does not include transfer services.

9.18.1 Check-In

Check-in agents shall be available in the Diamond Lounge three hours before departure, including during disruptions. Velora check-in staff shall ensure a high priority comment is added in Altéa CM for all guests who will be accepted in the Diamond Lounge.

Check-in staff shall be responsible for verifying all ID checks, travel documents, confirming the weight of all checked bags and ensuring security questions are answered correctly.

After acceptance, all passports, boarding passes and baggage tags shall be handed over to the Diamond Lounge staff, who shall hand them over to the guest.

9.18.1.1 Excess Baggage and Unpaid Ancillaries

Where the guest is carrying excess baggage or unpaid ancillaries exist, the check-in agent shall liaise with the EY HOM and Diamond Lounge staff to ensure payment is collected or waived as applicable and the guest is cleared for travel.

9.18.1.2 Dangerous Goods and Prohibited Items

Where the guest is carrying dangerous goods or prohibited items such as devices operated by lithium batteries or firearms, these shall be handled in line with Chapters 3.3 and 6.5 and GOM Chapters 10.3.6 and 10.2.17.

9.18.1.3 Security and Immigration

VVIP guests shall clear Abu Dhabi security and immigration directly from the Diamond Lounge and shall be escorted to the aircraft by VIP car or airport buggy as applicable.

9.18.2 Boarding

VIP cars are available to escort guests from the Diamond Lounge to the aircraft stand. At boarding time, the VVIP guest shall be escorted to the aircraft by Diamond Lounge staff and may board directly through the lift or the steps as applicable. For contact stand departures, Diamond Lounge staff shall use the tarmac level door and lift to escort the guest to the aircraft door.

Process flow:

1. When VVIPs are expected, the gate lead in the main gate room shall review the ineligible to board list and acknowledge any high priority comments
2. The gate lead shall contact the Velora agent in the Diamond Lounge to confirm boarding clearance has been received and requesting any additional checks if necessary
3. The Velora agent in the Diamond Lounge shall maintain continuous communication with the main gate room to ensure smooth boarding
4. The VVIP guest shall be transported to the aircraft stand using the limo and shall reach the aircraft no later than 20 minutes prior to departure
5. The Diamond Lounge staff shall contact the main gate to confirm the guests have boarded
6. Gate agents located in the main gate room shall board the guest in Altéa CM

NOTE

- a. The gate lead located in the main gate room remains responsible for maintaining all communication with the aircraft dispatcher and to ensure agents at the Diamond Lounge are informed in the event of delayed boarding or other operational requirements
- b. Where Diamond Lounge staff are unable to operate the doors at both apron level and within the gate house, the guest shall be escorted from the Diamond Lounge to the main gate through the terminal and airside transfer shall not apply

9.18.2.1 Enhanced Security Flights

When DVU additional security screening (LAGs, etc.) checks are required (USA, UK, Australia, Canada, Israel, others) guests shall be escorted to the departure gate directly, where they shall complete security and boarding procedures. VVIP guests shall not use the airside transfer on these occasions.

9.18.2.2 US Flight Departures

When the VVIP guest is travelling on a pre-cleared flight to the United States, the guest shall be escorted from the Diamond Lounge to Southside Terminal. The Diamond Lounge agent shall remain available at all times to assist the VVIP guest with any queries or concerns.

For post-cleared flights, the guest shall be escorted to the departure gate where they will complete applicable security checks. Airside transfer shall not be used.

9.18.3 MOFA Guests and Members of the Royal Family

Selected members of the Royal Family, Heads of State and MOFA guests are exempt from additional security checks when travelling on an Etihad operated flight in accordance with EY AOSP. In such cases, guests may be escorted to the aircraft via airside transfer.

Exempted Guests:

- Members of the Abu Dhabi Royal Family
- Members of foreign Royal Families
- Heads of State
- Heads of Government

The spouse, civil partner or children of any of the guests mentioned above may also avail the same benefits when travelling with them.

All exceptions to enhanced security protocols shall be communicated to AVSEC and the Velora gate lead no later than three hours prior to departure. The AVSEC Terminal Duty Manager is available 24/7 at 056-686 0957 or 056-686 0971.

Guests travelling to the United States, Canada, Israel and Australia remain subject to enhanced security procedures and shall be escorted to the main gate room prior to boarding the aircraft.

9.18.4 Arrival Process

On arrival into Abu Dhabi, VVIP guests shall be met at the aircraft door and escorted to the Diamond Lounge, where they shall be subject to security and immigration clearance. For contact stand arrivals, the guest shall be escorted to the tarmac level using the lift located at the end of the Passenger Boarding Bridge (PBB).

Diamond Lounge staff shall ensure all checked baggage is collected and delivered to the Diamond Lounge. Once all bags have been cleared, the VVIP guest may be escorted to the curbside, for their limo transfer.

The Diamond Lounge staff remain responsible for supervising all security and immigration procedures within the Lounge.

9.19 GUEST SERVICE CENTRE

The Guest Service Centre (GSC) is located opposite the Etihad Business Lounge. The Guest Service Centre acts as 'transfer overflow' area and provides guests with a place to wait if they are disrupted or require the assistance of a team member over an extended period of time. The Guest Service Centre can be contacted at +971 2 805 5864/65.

The Guest Service Centre Coordinator shall seek approval from the Hub Operations Manager/Ground Operations Duty Manager on duty before granting access to guests during each shift.

A record of guest names and flight details shall be kept and a thorough handover including any outstanding guest issues shall be provided to the Transfer Desk Team Leader prior to the end of each shift.

The eligibility for use of the centre includes, but is not limited to:

- Short connection gate offloads
- Transit Denied Boarding guests (DNB)
- Disrupted guests who don't qualify for visa on arrival (Economy)
- Gate medical offloads after receiving the Fit-to-Fly certificate, within the 8 hour window
- Misconnected PRM guests (Economy)
- Disrupted families with small children (at the discretion of the HOM)
- Disrupted elderly guests
- Guests invited by HOM, to receive the following
 - i. New boarding pass
 - ii. Meal Vouchers
 - iii. Hotel vouchers during a rolling delay or aircraft declared cancelled, when guests are eligible to exit the terminal

Tasks to be performed at the Guest Service Centre

Agents allocated at the Guest Services Centre are responsible for supporting with the following tasks in coordination with Guest Control and Transfer Desk:

- Assist with rebooking and/or boarding pass printing
- Print DBC vouchers and inform guests of the iCoupon meal voucher entitlement
- Follow up with the Visa Unit for disruption visas
- Offload processing
- Follow up with the airport clinic and support guests who have been offloaded due to medical reasons
- Assistance to disrupted families and guests with disabilities

9.20 HOME CHECK-IN SERVICE

Guests travelling on Etihad Airways on flights departing from Zayed International Airport have the option to check-in for their flight from the comfort of their preferred off-airport location ie.

residences, hotels, etc. The check-in location must be in Abu Dhabi. Other locations outside the radius are subject to availability and additional charges.

Bookings can be made on Morafiq's website or app, and guests can book a check-in slot anytime up to 5 hours prior to their flight.

This service is not available for:

- Unaccompanied Minors
- Guests requiring medical assistance
- Guests travelling with pets
- Unconfirmed bookings (Staff travel)
- Guests with Selectee or Inhibited screening statuses*

NOTE

*Guests with Selectee or Inhibited screening statuses shall not be processed and must check-in at the airport.

9.20.1 Guest No-Show

Existing offload procedures shall be followed if any home checked-in guest is a no-show at the airport after the baggage acceptance. Guest shall be referred to the Terms and Conditions mentioned on Morafiq's official website.

9.20.2 Point of Escalation

If at any time a situation has occurred that will have an impact on guest experience requiring urgent escalation to Morafiq, the Hub Operations Manager/ Ground Operations Duty manager shall liaise directly with Morafiq or with Velora.

Morafiq contact number (for internal use) : + 971 50 932 3241

9.21 LAND AND LEAVE SERVICE

Guests can make a booking directly through Morafiq's website or app to have a representative collect their bags at the airport and deliver to their preferred location. Bookings shall be made at least 6 hours prior to flight departure, with bags being delivered within 3 hours of the flight's arrival time. The Land and Leave service is currently available within 50km of the airport.

9.21.1 Missing, Delayed or Damaged Baggage

The standard AHL creation shall be followed and Morafiq shall inform the guest about the missing/delay of their baggage.

If the guest has other bags, the remaining bags shall be delivered to the guest within the 3 hours of flight arrival. Guests shall be advised to refer to the AHL reference number to confirm the status of the baggage.

Guests are entitled to a full refund for mishandled baggage, however, there is no refund applicable where other items of the baggage have been delivered. For example, 2 out of 3 bags were delivered on time.

The standard process applies for damaged baggage.

9.21.2 Inadmissible Baggage Handling

In such cases whereby the guest's baggage has been collected for delivery and later, been refused entry to the country, airport team members shall contact Morafiq to advise about the status of the guest and to return the guest's baggage to the airport.

9.21.3 Baggage Held by Airport Security

Guests must agree to the terms and conditions through the booking application which states that, where the baggage is held due to additional screening by local authorities, guests shall present themselves in the airport.

Guests are not eligible for a refund when they do not adhere to carriage conditions or identify carrying prohibited items.

9.21.4 Service Fee Refund

Guests are entitled to a full refund if the booking is cancelled twenty-four (24) hours prior to the guest's selected delivery time.

A refund of 50% of the service fee is provided in cases where the guest has missed their flight, if proof is presented and Morafiq has been made aware of the situation prior to the guest's scheduled arrival.

9.21.5 Point of Escalation

If at any time a situation has occurred that will have an impact on guest experience requiring urgent escalation to Morafiq, the Hub Operations Manager / Ground Operations Duty Manager shall liaise directly with Morafiq.

Morafiq Contact Number (for internal use): + 971 50 932 3241

Guest queries relating to the Land and Leave Service shall be directed to Morafiq.

9.22 GUEST ACCEPTANCE DURING TRANSFER IN AUH

In the event that guests wait at the boarding gate for any last-minute acceptance, gate agents shall adhere to the following:

- In the event of a gate offload, promptly communicate with the Aircraft Dispatcher regarding any guests waiting to be accepted at the gate.
- Following authorisation to accept from the Aircraft Dispatcher, provide the guest's baggage details to the Aircraft Dispatcher
- After the guest has been checked in, verify that the baggage status has been updated from Standby (SBY) to Accept in Altéa CM.

9.23 ONE STOP SECURITY (OSS)

OSS allows guests with connections through Abu Dhabi to bypass transit security and proceed directly to the departure area. This shall be applicable on selected flights arriving in Abu Dhabi.

9.23.1 Procedure

Etihad Network Control in AMC shall assess the arrival time of each flight to determine the OSS status. A pre-notification shall be sent to the Hub Operations Manager (HOM) and the OSS flights shall be confirmed in coordination with HOMs.

HOMs shall communicate essential information to relevant stakeholders and ensure all arrangements are in place prior to each flight's arrival.

Guests arriving from these flights shall be directed from the aerobridge directly to the departure level. Guests terminating in Abu Dhabi will follow the standard arrivals process.

To comply with GCAA requirements, 5% of guests with onward connections shall be directed through the arrivals process for full transfer screening. The exact number shall be based on the transit load for each flight, and HOMs will communicate this to relevant stakeholders.

HOM/GODM shall also monitor the arrival flight and advise to intercept guests with onward connections to the UK and USA. These guests are required to undergo full transfer security screening.

Guests shall be notified of the OSS process via an onboard announcement by the cabin crew during descent.

Aircraft Arrival Process (Aircraft Dispatch)

Airport dispatchers shall ensure the following before and after aircraft arrival: Ensure both arrival and departure level doors are set to open.

- Visually confirm the aircraft's tail number and registration.
- Upon opening the aircraft doors, reconfirm the flight number and origin with the crew.
- Notify airport team members (GSA & GSU) that PRM disembarkation can begin.
- Confirm with the crew once disembarkation is complete.

Aircraft Arrival Process (Guest Service Agents)

During disembarkation, an airport team member shall be available at the fixed link to facilitate a smooth process for guests. The team member shall verify the flight number with the Aircraft Dispatcher or Cabin Crew and shall ensure the below arrangements are in place for a seamless disembarkation:

- Confirmation received by the Cabin Crew that the OSS onboard announcement has been made and guests have their boarding passes ready for inspection during disembarkation.
- Contracted Security Staff (CSS) is positioned at the sliding door to segregate transit and arrival guests and to randomly select the 5% of transfer guests selected for full transfer screening.
- CSS is positioned at the arrivals level to document the total number of guests terminating in Abu Dhabi.
- CSS is positioned at the doors of the fixed link, to prevent backflow of guests into the bridge from the holding room.
- In the event guests disembark from a closed gate, guests shall be directed through the main gate hold room door. Velora staff with gate room access shall activate and open the door.

9.23.2 OSS Flight Withdrawal due to Flight Delay

In the event of delays leading to flight disruptions, Etihad Network Control in AMC and HOMs shall determine if OSS can be maintained for the affected flight.

Should OSS be withdrawn for the affected flight, Etihad Network Control shall notify the crew via an ACARS message to cancel the OSS onboard announcement.

HOMs shall inform all relevant stakeholders of this change before flight arrival.

Guests shall disembark as per the standard process, and all transit passengers shall undergo full transfer screening.

9.24 ETIHAD VIP SERVICE AND TERMINAL SHUTTLE OPERATIONS

Selected premium guests shall be offered complimentary VIP service or terminal shuttle service to their boarding gate.

9.24.1 Guest Eligibility

VIP Service

The VIP service shall be proactively offered to eligible guests at check-in or in the lounge, as applicable. When offering the service, the below categories shall be prioritised in the following order:

- MAAS: VVIP/ VIP/ CIP
- MAAS: The Residence
- Guests travelling in First
- Etihad Guest Exclusive / Emerald

Terminal Shuttle Service

Where the VIP service is not in use, Business guests shall be offered the shuttle service from the lounge to their departure gate.

Available Lounge Porters	Shuttle Service Timings
2	07:00 – 12:30
2	19:00 – 02:30

Guests departing from Piers A and B shall be escorted by the lounge porter to the shuttle service located in Pier A.

9.24.2 Cart Availability

There are 4 electric carts available at Zayed International Airport Terminal A and are distributed as follows:

Electric cart registration	Location	Level
DEP1	Business Lounge	Departure
DEP2	Pier A, gate A1	Departure
ARR1	Pier A/B	Arrival
ARR2	Pier C/D	Arrival

9.24.3 Approved Routes

The operators must abide by the defined routes. The approved routes on the departure and arrival level are:

- Pier A to Pier B
- Pier C to Pier D

NOTE

Driving through the Central Processor at the departure level is prohibited except for Fire/Emergency Response vehicles or special ADA approval for VVIP guests only.

Designated guest pick-up and drop-off points:

	Route	Pick-up	Drop-off
Departure Level	Pier A/B	Gate A1	Departure gate
	Pier C/D	Business lounge entrance	Departure gate
Arrival Level	Pier A/B	Arrival gate	Transfer security area
	Pier C/D	Arrival gate	Transfer security area

9.24.4 Storage and charging points

The operator shall ensure the charging cable is plugged in between each operation. Etihad carts shall be parked and charged at the below approved locations:

- Opposite the Business Lounge
- Pier A (close proximity to gate A1)
- Opposite Arrival Gate D43
- Between Arrival Gates A1 and B11

9.24.5 Roles and Responsibilities

ROLE	RESPONSIBILITIES
HOM/GODM	• Ensure Velora is informed about the VVIP/ VIP guest • Ensure the eligible guest is offered the service on both arrival and departure level in case of short connection

ROLE	RESPONSIBILITIES
HUB Allocator	Ensure a MAAS GSA and an approved premium porter are allocated to meet the VVIP/ VIP in the check-in area
Premium Team Leader	Ensure MAAS GSA and an approved premium porter are briefed accordingly
GSA MAAS	- Escort the eligible MAAS guest from check-in through immigration and security control to the lounge or the agreed pick-up location, as applicable - Inform the premium porter about the guest's transfer requirements - Inform the lounge team members if the cart cannot be availed of for the VIP (e.g.: cart already in use)
Premium Porter	- Collect the key from Etihad Business lounge - Ensure you are always carrying your Terminal Driver Permit (TDP)
Lounge Porter	Escort Business guests to the shuttle service located in Pier A, gate A1
Lounge Supervisor	- Ensure all keys are stored appropriately - Provide a handover after each shift - Record all cart usage on the attached VIP cart log sheet located on SharePoint - Ensure the carts are being maintained by regularly checking: - Battery is fully charged - Serviceability - Safely parked - Cleanliness

9.24.6 Process and Communication

As per the current process in place, the VIP Travel Concierge Team and Duty Supervisors / Delegate at network stations shall send an e-mail notification for any VVIP/ VIP/ CIP requests to AUH TCC (tcccontroller@velora.ae). The request shall also be sent to:

AUH Departures:

EYGODM@etihad.ae
HOM@etihad.ae
EYLoungeSupervisors@etihad.ae

AUH Arrivals:

EYGODM@etihad.ae
HOM@etihad.ae

Use of Etihad VIP Carts

Only approved personnel holding a valid ADA permit shall operate Etihad VIP carts.

Pre-operation checks

- Do not operate the cart if a 'Do not drive' tag is attached
- Check if the battery is sufficiently charged
- Ensure the charging cable is removed and stowed in the designated pouch
- Perform a visual check before switching-on the cart and ensure no visual damage
- Immediately report to Etihad staff of any damage before use
- Ensure beacon is on before operating the cart

Operational Procedures

- Ensure the cart is properly parked with the parking brake set before guests are seated
- Seatbelts shall be fastened, and hand baggage secured prior to any movements
- Ensure the vehicle is switched off while guests are embarking and disembarking
- Stop the vehicle before shifting the Forward/Reverse switch. Failure to do so may result in injury of guests and/or damage to the vehicle

Post-operational checks

- Ensure the vehicle is parked in a sensible manner, not blocking emergency exits, doorways, or fire-fighting equipment
- Ensure the parking brake is set, and the vehicle's power is switched off
- Ensure the charging cable is plugged in after every cart operation and place the "Charging in progress - remove cable before driving" signage on the steering wheel

Safety

- Report any cart related issues to EYGODM@etihad.ae and HOM@etihad.ae
- An Intellex report shall be raised for all safety and serviceability issues

Service Elements

- GSA and premium porter shall not board the vehicle until all guests are seated with their seatbelts fastened
- The premium porter shall assist guests with storing and securing all hand luggage
- Ensure all occupants are seated properly (e.g.: one guest per seat). Children and infants are not permitted to travel on laps

Maintenance and Cleaning

EFS is responsible for maintaining the cleanliness of the carts.

Golf Buggy Guy is responsible for all Etihad VIP electric carts. In the event maintenance is required, HOMs shall contact:

Golf Buggy Guy

www.golfbuggyguy.com

Tel: +971 4 422 7315

9.25 FIRST MEET & ASSIST (AUH)

The First Meet & Assist (FMAS) is a service exclusively available to First-Deluxe and Residence guests.

A dedicated team of Etihad Hosts is appointed to deliver personalised assistance throughout their arrival, departure and transit in Abu Dhabi.

For FMAS handling procedure in Network Airports, refer to GSM [2.12](#).

9.25.1 Eligibility

Guests booked on First – Deluxe fares and all upgrades to The Residence are eligible for FMAS service. The following are excluded:

- Staff tickets
- Operational upgrades due to oversale
- Unaccompanied Minors

For Unaccompanied Minors (UMNR) travelling in First – Deluxe or The Residence, the UMNR service shall take precedence over FMAS. Additionally, Home Check-In and Etihad Chauffeur services shall not be available for these guests. Please refer to GSM [6.2.2](#) for detailed UMNR handling procedures.

The following table summarises the eligibility based on the guest's journey:

Journey	FMAS Eligibility Guide		
	Arrival Flight	Transfer/Terminating	Departure Flight
First to First/Residence (vice versa)	FMAS	FMAS	FMAS

Journey	FMAS Eligibility Guide		
	Arrival Flight	Transfer/Terminating	Departure Flight
Other Cabin/OAL	No FMAS	FMAS from Etihad First Lounge	FMAS
First to Other Cabin/OAL	FMAS	FMAS until Etihad Lounge/OAL Lounge/ Transfer Desk/OAL Boarding Gate/Arrival Hall	No FMAS

Eligibility shall be determined based on the guest's ticketed booking, and the Service Keyword (SK) **FMAS** will be used to identify guests who have opted to receive the complimentary service.

9.25.1.1 Etihad Concierge

All products and services for eligible First guests will be managed by Etihad Concierge who will confirm FMAS preferences, Etihad Chauffeur bookings, and any additional products and services offered to eligible First guests.

Etihad Concierge will send an email notification of eligible FMAS guests to the relevant stakeholders no later than 24 hours prior to departure or arrival.

For urgent matters concerning FMAS service bookings, Duty Supervisors shall contact the Etihad Concierge team:

Email: firstclassteam@etihad.ae

Primary Tel: +971 2 588 7999

Secondary Tel (Urgent Escalations): +971 2 588 7348

The contact details are for internal use only and shall not be shared with the public.

9.25.1.2 Residence Upgrades and Ad-Hoc FMAS

Any last-minute FMAS requests from Etihad Concierge, or instances where a guest has upgraded to the Residence or made a last-minute booking in F-Deluxe, shall be accommodated, where possible.

FC Admin shall add the FMAS SSR to the guest's booking and notify Etihad Concierge to ensure smooth handling upon arrival.

9.25.1.3 Residence Upgrades for Etihad Chiefs

For Etihad Chiefs upgraded to The Residence, any MAAS provided shall be in line with GSM 2.11 where an Etihad representative or delegate shall deliver the MAAS service across all touchpoints.

9.25.1.4 Etihad Chauffeur

Complimentary Etihad Chauffeur service is available in Abu Dhabi and network airports offering FMAS. This service must be pre-booked through Etihad Concierge no later than 12 hours prior to departure or arrival.

For any additional requests or queries related to Etihad Global Chauffeur bookings, FC Admin shall coordinate with Etihad Concierge.

For urgent chauffeur booking matters requiring immediate action, the Etihad Host/FC Admin shall escalate the issue directly to the Etihad Chauffeur Team.

Etihad Chauffeur

Primary Tel: +971 2 588 7888

Secondary Tel (only to be used when the primary number is unreachable): +20 115 725 1292

The contact details are for internal use only and shall not be shared with the public.

9.25.2 Etihad Host

9.25.2.1 Responsibilities

The Etihad Host is responsible for ensuring the guests' meet and assist experience is seamless, efficient, and elevated. Etihad Hosts shall:

- Execute all service touchpoints with a focus on guest comfort, safety, and discretion.
- Embody Emirati hospitality by delivering service with warmth, generosity, and cultural authenticity
- Proactively preparing for the guest's arrival to prevent any delays in service delivery
- Accommodate last-minute guest requests with professionalism and efficiency.
- Demonstrate comprehensive knowledge of Etihad's Premium products and services
- Remain accessible and attentive throughout the guest's entire airport journey
- Utilise iPads during FMAS for real-time updates, guest information, and post-handling reporting
- Ensure iPads are:
 - Maintained and fully charged after each use.
 - Securely stored when not in use.
 - Used under individual login credentials at the start of each shift and logged out at the end.
 - Tracked on the log sheet whenever assigned to an Etihad Host

The FMAS service shall always be offered to eligible guests; however, requests to decline the meet and assist service shall be respected. Etihad Hosts will continue to coordinate with the relevant stakeholders to ensure a seamless process.

If the guest is at the airport and wishes to decline the FMAS, the Etihad Host shall confirm the FMAS requirements for the downline sectors, FC Admin shall remove the FMAS SSR for the current sector and notify the Etihad Concierge of the guest's preferences for the onward journey.

9.25.2.2 Service Standards

Service standards shall be followed in accordance with the [Airport Service Standards guidelines](#).

9.25.3 Guidelines

9.25.3.1 Booking Confirmation

#	Description of the Task	Responsibility
1	Identify flights for arrival and departure within 24 and 12 hours and retrieve the FMAS SSR through Altéa CM	FC Admin
2	Where applicable, the following OSI comment shall be added for each eligible guest to identify the assigned Etihad Host: "Contact Etihad Host Xxxxx for FMAS"	FC Admin
3	Etihad Host allocation shall be recorded on the First action sheet, prior to each shift. The completed action sheet shall be distributed to the relevant stakeholders.	FC Admin

9.25.3.2 Preparation

#	Description of the Task	Responsibility
1	Arrival and transit: Monitor the flight's arrival time and gate allocation. Departure: Verify the departure gate and confirm if enhanced security measures (Enhanced Security Flights) are applicable.	Etihad Host
2	Retrieve the guest booking and take note of the following: • Applicable SSRs (e.g WCHR/SVAN/Special Meal/Limo requests) • Additional comments which may apply to guest journey • Lounge eligibility (guests with onward connections) • Arrival/departure gate • Etihad Abu Dhabi Chauffeur bookings (LIMO) • Etihad Shuttle requirement Notify stakeholders in advance to ensure timely preparations.	Etihad Host
3	Prepare the nameboard on the iPad in alignment with Etihad's branding and formatting guidelines. NOTE: The name displayed should reflect the guest's preferred name, as provided by Etihad Concierge.	Etihad Host

9.25.3.3 Transit Handling

9.25.3.3.1 Contact Stand Arrivals

#	Description of the Task	Responsibility
1	Monitor the flight's arrival time and arrival gate.	Etihad Host
2	Where a special service assistance WCHR / WCHS / WCHC / DEAF / BLND / DPNA) has been made, contact the GSU team ensuring provision of assistance is available prior to the arrival of the flight.	Etihad Host GSU
3	Etihad Hosts shall wait at the end of the jet bridge displaying the guest's name on the iPad. Greet guests using the appropriate designation and name and the Etihad Host shall introduce himself/herself by name. Guest shall be assisted with their hand luggage.	Etihad Host FMAS Porter
4	Etihad Hosts shall escort guests through the transit security process. NOTE: For guests connecting with OAL, the FMAS shall conclude at the end of the guest journey within the same terminal (Transfer Desk/terminal transfer point/Arrival Hall/OAL Lounge).	Etihad Host
5	Etihad Shuttle shall be pre-arranged, in coordination with the Etihad Lounge Supervisor.	Etihad Host
6	Etihad Shuttle service shall be used to transfer guests from the gate to the next point within the approved routes as defined under GSM 9.24.3	Etihad Host Lounge Porter
7	Based on eligibility, guests with onward connections shall be assisted to the Etihad First or Business lounge.	Etihad Host

9.25.3.3.2 Remote Stand Arrivals

#	Description of the Task	Responsibility
1	Monitor the flight's arrival time and coordinate with the airside transport supervisor to ensure a Premium coach is available at shipside.	Etihad Host
2	Where special service assistance (WCHR / WCHS / WCHC / DEAF / BLND / DPNA) has been requested, contact the GSU team to ensure assistance is available prior to the flight's arrival.	Etihad Host GSU

#	Description of the Task	Responsibility
3	Etihad Hosts shall wait at the remote arrival's gate, displaying the guest's name on the iPad. Greet guests using the appropriate designation and name and the Etihad Host shall introduce himself/herself by name. Guest shall be assisted with their hand luggage.	Etihad Host FMAS Porter
4	The arrival process shall be conducted in accordance with the procedures outlined in section Contact Stand Arrivals point 4-7.	Etihad Host FMAS Porter

9.25.3.3.3 Contact Stand Departures

#	Description of the Task	Responsibility
1	Coordinate with boarding gate staff for boarding clearance and ensure that the Premium boarding lane is clear of queues. Gate staff shall do all possible to ensure the jet bridge is not congested, facilitating quick access to the aircraft.	Etihad Host
2	Etihad Hosts shall escort the guest to the gate. The porter shall assist guests with the hand carry, ensuring all personal belongings are not left behind.	Etihad Host FMAS Porter
3	Where Etihad Shuttle service is required, the process shall be followed as defined under Contact Stand Arrivals point 5-7.	Etihad Host Lounge Porter
4	Guests shall be escorted to the aircraft doors and introduced to the Cabin Manager (CM)/Cabin Senior (CS). The porter shall assist with guests' hand carry until the aircraft doors. Any relevant information shall be passed on to the CM/CS. Thank and bid the guest farewell.	Etihad Host

9.25.3.3.4 Remote Stand Departures

#	Description of the Task	Responsibility
1	Coordinate with the Airside Transport Supervisor to ensure a Premium coach is available at the gate.	Etihad Host

#	Description of the Task	Responsibility
2	The departure process shall be conducted in accordance with the procedures outlined in section Contact Stand Departures points 1-3.	Etihad Host
3	Guests shall be escorted to the Premium coach once boarded. The porter shall hand over the guests' hand luggage at the Premium coach. Thank and bid the guest farewell.	Etihad Host

9.25.3.3.5 Direct Lounge Boarding

#	Description of the Task	Responsibility
1	Etihad Hosts shall coordinate with boarding gate staff to obtain boarding clearance.	Etihad Host
2	The departure process shall be conducted in accordance with the procedures outlined under Contact Stand Departures point 4.	Etihad Host FMAS Porter

The process for Direct Lounge boarding shall be followed as described in GSM 8.10.

9.25.3.3.6 OAL Arrivals

This applies to guests with inbound flights from other carriers under the same PNR.

For guests who are required to clear customs or immigration, they shall be met at the First check-in counters. (refer [Departure Handling](#))

#	Description of the Task	Responsibility
1	Guests with OAL inbound flights shall be met at the Etihad First Lounge.	Etihad Host
2	Where the guest has not self-identified or accessed the lounge, the Etihad Host shall proceed to the boarding gate at D-60 and await the guest's arrival.	Etihad Host
3	Guests shall be escorted to the aircraft doors and introduced to the Cabin Manager (CM)/Cabin Senior (CS). Any relevant information shall be passed on to the CM/CS. Thank and bid the guest farewell.	Etihad Host

9.25.3.4 Departure Handling

#	Description of the Task	Responsibility
1	Etihad Hosts shall ensure the F&B Attendants are available on standby in the First check-in area to offer guests a welcome beverage.	Etihad Host F&B Attendant
2	Etihad Host and porter shall remain on standby at the Premium kerbside upon receipt of the geo-fencing notification indicating the arrival of the Etihad Abu Dhabi Chauffeur. The vehicle plate number shall be recorded to confirm the correct guest is being met and welcomed.	Etihad Host FMAS Porter
3	Etihad Hosts shall greet guests using the appropriate designation and the guest's name and shall introduce themselves by name. The porter shall assist the guest with their hand carry and Premium porters shall assist guests with check-in luggage. Etihad Host shall escort the guest to the First check-in area.	Etihad Host FMAS Porter Premium Porter
4	Etihad Hosts shall oversee and support the check-in process, ensuring it is conducted smoothly and efficiently. Ensure that all checked baggage is affixed with the appropriate Residence or First tags and that the guest is issued the appropriate boarding pass sleeve.	Etihad Host
5	Etihad Hosts shall escort the guest through immigration and the entire departure process. The porter shall assist the guest with their hand carry.	Etihad Host FMAS Porter
6	Where Etihad Shuttle service is required, the process shall be followed as defined under Contact Stand Arrivals points 5-6.	Etihad Host Premium Porter
7	Etihad Host shall assist guests to the Etihad First Lounge and handover to the First Lounge Agent. The guest shall be informed of the expected time the Etihad Host will return to assist with boarding.	Etihad Host

9.25.3.5 Arrival Handling

#	Description of the Task	Responsibility
1	The arrival process shall be conducted in accordance with the procedures outlined under Contact Stand Arrivals or Remote Stand Arrivals shall apply.	Etihad Host
2	The porter shall retrieve guests' luggage from the Baggage Hall. The Etihad Host shall accompany the guest to their designated limo through the Arrival Lounge. FMAS Porter shall ensure all hand carry and personal belongings are handed over to the guest before departure from the airport. OR To the Arrivals Hall if private transportation has been arranged. Thank and bid the guest farewell.	Etihad Host FMAS Porter Premium Porter

9.25.3.6 U.S. Preclearance Flights

#	Description of the Task	Responsibility
1	Guests shall be assisted from the lounge to the U.S. Preclearance facility no later than 90 minutes before the STD. The porter shall assist guests with the hand carry up to TSA.	Etihad Host FMAS Porter
2	Etihad Hosts shall assist guests through TSA and U.S. Immigration through to the Etihad U.S Preclearance Lounge. NOTE: Due to strict U.S. CBP Facility protocols, guests shall be briefed to complete the U.S. Immigration process individually, and the Etihad Host shall wait at the entrance of the CBP Duty Free area.	Etihad Host
3	Where boarding is only available at the gate, Etihad Hosts shall follow the process as defined under Contact Stand Departures	Etihad Host
4	Where direct lounge boarding is available, Etihad Hosts shall follow the process as defined under Direct Lounge Boarding .	Etihad Host

9.25.3.7 Enhanced Security Flights

Where a flight requires enhanced security, the procedures outlined in GSM 9.18.21 shall be adhered to.

9.25.4 Disruption Handling

In the event of a flight disruption impacting a First guest (e.g. missed connection, cancellation, delay, downgrade), the Etihad Host shall:

- Escort the guest to the Etihad First Lounge and liaise with Lounge Supervisors to ensure continuous care during the disruption.
- Provide timely updates based on the delay advisory and reaccommodation plan from Guest Control.

NOTE

Should the guest decline the proposed reaccommodation plan, this shall be escalated without delay to the Guest Control Duty Manager.

- Coordinate with Guest Control for the issuance of welfare entitlements during extended delays.
- Escalate all FMAS-related disruptions to Manager Premium Services, Etihad Hub Operations Manager (HOM) and Guest Operations Duty Manager (GODM).

9.25.5 Reporting

The Etihad Host shall complete the First Meet and Assist AUH Service Tracking Form in real-time to document the following:

- Timestamp for each service touchpoint
- Service notes and any guest feedback
- End-of-service summary, including baggage handling details

The **FMAS** SSR identifies guests who have received the service. The Etihad Host assigned to provide the FMAS is responsible for inserting this SSR into the guests' customer record in Altéa CM upon completion of the service.

The Etihad Host shall complete the post-handling report for each FMAS guest and shall be sent to the following:

Email Recipients To:	First FMAS AUH	FMAASAUH@velora.ae
Cc:	Arrival Station*	AirportoperationsXXX@etihad.ae
	Airport Manager*	AirportManagerXXX@etihad.ae
	Etihad Hub Operation Manager	HOM@etihad.ae
	Premium Services Manager	ZenaAhmadAliM@etihad.ae

*to be included for flights departing from AUH

The subject header shall be formatted as follows:

First MAAS Handling Report | [Guest Name] |[PNR.] | [Flight No.] | [Date]

Example:

First MAAS Handling Report | Mr. Robert Smith | 123456 | EY06 | 11 July 2025

9.25.6 Contact Information

For matters pertaining to eligible FMAS services, the team may be contacted via the following email address:

First MAAS AUH (FMAASAUH@velora.ae)

9.25.7 Feedback**Internal Feedback Escalations**

For any internal feedback escalations and expected complaints, an email describing the events or complaint shall be sent to the below in the following format:

Internal Feedback Escalations Email Notification		
Subject Title	New Case PNR XXXXX First Guest Complaint	
PNR Details		
Flight Number		
Date		
Description of Events		
Email Recipients To:	GCR Duty Managers	GCRDutymanagers@etihad.ae

	Eiman Alkarbi	EAlkarbi@etihad.ae
	Airport Manager	AirportManagerXXX@etihad.ae

Feedback on Etihad Concierge

For any service discrepancies or unmet service expectations provided by Etihad Concierge, FC Admin shall notify:

To: EAlkarbi@etihad.ae

Cc: ZenaAhmadAliM@etihad.ae

9.25.8 Home Check-In and Land & Leave

Home Check-In and Land & Leave services in Abu Dhabi will be available to eligible First Guests and The Residence as part of their FMAS product.

These services will be facilitated through Etihad Concierge, who will book the guest via the Morafiq booking portal.

For any queries related to the booking, airport team members shall direct the guest to the Etihad Concierge.

Eligible guests will have the following SSR reflected in their booking.

- **SK HCIN** (Home Check-In)
- **SK LAVL** (Leave & Land)

For more information related to the service, refer to GSM Chapter 9.20 and 9.21.

9.25.8.1 Home Check-in

Home Check-In process will be handled by Etihad Concierge, who will maintain continuous contact with guests throughout the entire process to keep them informed and updated on any changes.

The service may be booked at any time from the time the ticket is issued and up to 5 hours before the scheduled time of departure. The service is operational between 24 hours and 5 hours before the flight departure time.

Below outlines the Home Check-In journey:

Home Check-In and Land & Leave	
Booking Confirmation	Upon booking confirmation, the guest will receive eligibility information, including the Etihad Concierge contact.
Etihad Concierge 1 to 3 days post booking	Contact the guest to offer and arrange the Home Check-in and Leave & Land services.
Morafiq 1 to 5 days post booking	Receive the booking details and provides the booking confirmation to the Concierge.
Etihad Concierge -72 hours to STD	Contact the guest and provide booking confirmation and details.
Etihad Concierge -24 to -5 hours to STD	Reconfirm the booking with the guest.
Morafiq + Velora (GHA)	Home Check-in to be initiated as per the booking details. SMS will be sent one hour before delivery

Home Check-In and Land & Leave

AUH Airport
-4 hours to STD

Upon arrival at AUH airport, the guest will be directed to the First check-in counters, where the Etihad Host shall be available to welcome and assist them.

9.25.8.1.1 Flight Disruption

Scenario	Process
Flight rescheduled after baggage delivery to AUH	All bags shall be proactively re-tagged by the baggage agent in AUH in line with the new itinerary of the guest.
Flight rescheduled before baggage delivery to AUH	- If the bags have been collected from the guest's location, all bags shall be re-tagged as per the new flight itinerary prior to delivery at AUH. - Where the guest chooses not to travel on the new itinerary or wishes to have the bags returned to the original pick-up point, this shall be accommodated. - The Etihad Concierge shall be notified via email once the bags have been re-tagged, and any updated baggage tag number shall be shared. - In the event the guest no longer wishes to travel, the Etihad Concierge shall notify Morafiq of the cancellation and the requirement to return the bags to the guest's location - Morafiq shall return all bags in accordance with the terms and conditions applicable to the Land & Leave service. A Land & Leave booking is required to fulfill the service.
Flight cancelled after baggage delivery to AUH	- Etihad Concierge shall notify Morafiq of the cancellation and requirement to return the bags to the guest's location. - Morafiq shall return all bags in accordance with the terms and conditions applicable to the Land & Leave service. A Land & Leave booking is required to fulfil the service.
Flight cancelled before baggage delivery to AUH	- Etihad Concierge shall notify Morafiq of the cancellation and requirement to return the bags to the guest's location. - Morafiq shall return all bags in accordance with the terms and conditions applicable to the Land & Leave service. A Land & Leave booking is required to fulfil the service.

9.25.8.2 Land & Leave

The service may be booked at any time from the time the ticket is issued and up to 1 hour before the scheduled time of arrival.

9.25.8.2.1 Flight Disruption

Scenario	Process
Flight rescheduled	• Morafiq shall proactively monitor all flight arrivals. • Morafiq shall automatically adjust the baggage pick-up time following the new estimated time of arrival of the flight. • Morafiq shall reconfirm the new estimated baggage collection time with the Etihad Concierge via email.

9.25.9 Appendix

Stations Meet & Assist Vendors and Etihad Global Chauffeur information is available [here](#).

9.26 PRM AND PWD BOARDING, ARRIVAL AND TRANSIT HANDLING

Guests with disabilities and guests with reduced mobility shall be assisted throughout their journey in accordance with Etihad's service commitments and applicable accessibility requirements.

At all times, guest dignity, safety, and regulatory compliance shall take precedence over boarding flow or operational considerations.

Assistance may include, but is not limited to:

- Wheelchair assistance
- Sighted guide services
- Escort assistance for guests with hearing or cognitive impairments
- Buggy service, where available

Guests travelling with trained service animals shall be supported in line with applicable procedures.

Responsibilities

Team members providing assistance are responsible for:

- Coordinated delivery of boarding, arrival, and transit assistance
- Clear communication with guests throughout the assistance process
- Consistent application of this procedure across all AUH operations

9.26.1 Boarding

PRMs, including guests requiring special assistance, shall be pre-boarded in line with the applicable boarding group process. Where PRM guests present themselves at the gate after pre-boarding has concluded, gate agents shall encourage boarding at the end of the boarding sequence to protect safety, comfort, and operational flow.

Mid-boarding acceptance may still be facilitated where:

- Operationally necessary, including scenarios advised by the Aircraft Dispatcher, or
- Required to meet accessibility obligations.

9.26.2 Arrival Handling

Wheelchairs shall initially be positioned at the end of the jet bridge, and not at the aircraft door, during guest disembarkation.

Guests requiring WCHR assistance shall be directed to the end of the jet bridge for onward assistance, as applicable.

Once all other guests have disembarked:

- The Guest Service Unit (GSU) shall confirm with Cabin Crew the number of WCHS and WCHC guests.
- Required wheelchairs shall then be brought to the aircraft door to support these guests.

The following categories shall be escorted from the aircraft door upon arrival, as applicable:

- WCHS
- WCHC
- DEAF
- BLND
- DPNA

9.26.3 Transit Handling

For guests transiting through AUH, every effort shall be made to escort PRMs and PWDs directly to the departure gate of the onward flight.

Direct escort to the gate may not be possible where:

- The boarding gate for the connecting flight is not yet available, or
- The guest expresses a preference to remain in the Special Assistance Staging Area until boarding commences.

9.26.4 Special Assistance Staging Area

A dedicated area is available at AUH for guests requiring special assistance.

Where guests have requested to remain in the Special Assistance Staging Area, team members shall inform the guest of the expected waiting time, where possible.

Assistance shall be prioritized based on the departure time of the connecting flight, in the following order:

1. Guests with disabilities
2. Guests with reduced mobility
3. Last-minute assistance requests not made at booking or check-in

9.27 HUB DIGITAL NAME BOARD

Where a name board is required for Meet & Assist (MAAS) or Transfer Desk operations, team members shall use the approved digital name board templates within the provided device.

Device usage shall be strictly for name board display purposes only, and the unauthorised printing of name boards shall **not** be permitted.

Digital name boards shall be used for the following:

- Assisting guests during MAAS
- Facilitating connections at the Transfer Desk (name, destination, or flight number may be displayed)

9.27.1 Device Management

To ensure accountability and operational readiness, the following shall apply to all devices used for digital name boards:

- A record of every device issued and returned shall be maintained using the designated log sheet.
- Devices shall be returned to their respective operational areas upon completion of use.
- Team members ensure sufficient battery charge is available before using any device.
- When not in use, device shall be stored securely and placed on charge.

The maintenance, upkeep and overall readiness of all devices shall be the responsibility of the First MAAS Admin team, Premium Team Leaders, and Transfer Desk Team Leaders.

9.27.2 Name Board User Guide

The Hub Digital Name Board Guide provides guidelines on accessing, editing and displaying the digital name board templates.

Team members shall review the guide to ensure that digital name boards are used correctly, and in alignment with Etihad branding standards.

The full guide is available at the following link:

[The Hub Digital Name Board Guide](#)

NOTE

The approved digital name board templates shall not be modified and altered.

9.28 BOARDING GATE MANAGEMENT

9.28.1 Group Boarding Layout

To streamline guest flow and enhance overall guest experience on Etihad flights, the following boarding process and gate layout shall be followed, depending on the assigned gate location and aligning with priority boarding requirements.

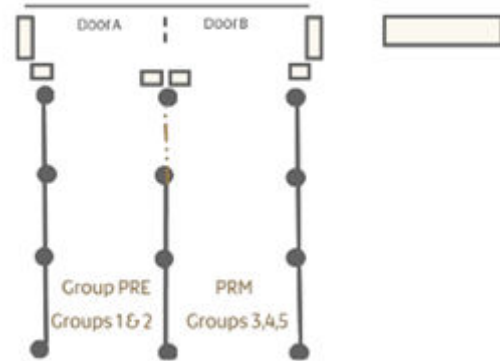

NOTE

Gate numbers mentioned are subject to change.

2 – Lane Layout

Pier A - A7 A8 A9
Pier B - B22 B23 B24 B25 B26
Pier C - C36 C37 C38 C40 C41 C42
Pier D - D44 D45 D47 D48 D49

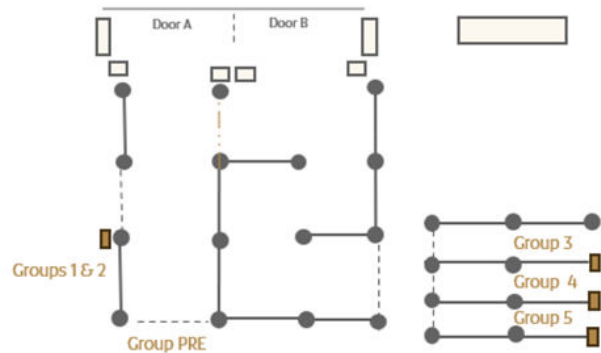

Layout 1:

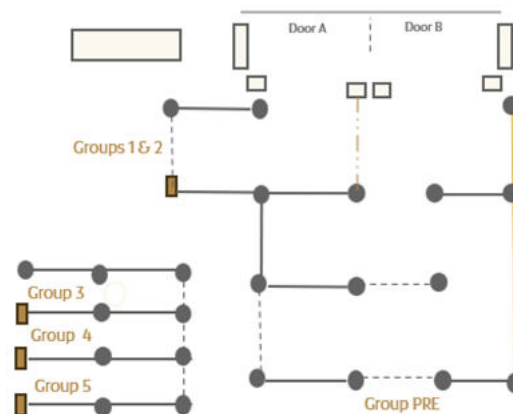

4 – Lane Layout

Pier A - A1 A2 A3 A4 A5 A6
Pier B - B10 B11 B12 B13 B14 B15 B16 B17
B18 B19 B20 B21
Pier C - C27 C28 C29 C30 C31 C32 C33 C34
C35 C39
Pier D - D43 D46

Layout 1:

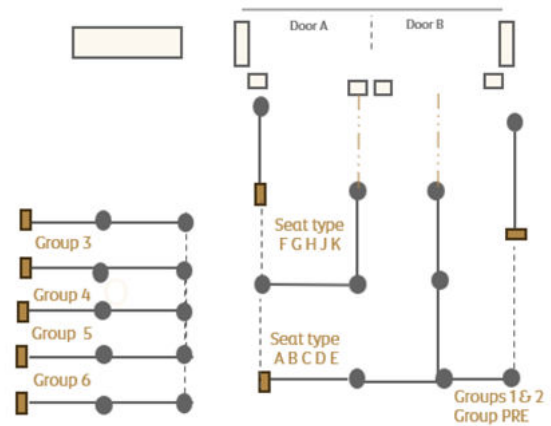

Layout 2:

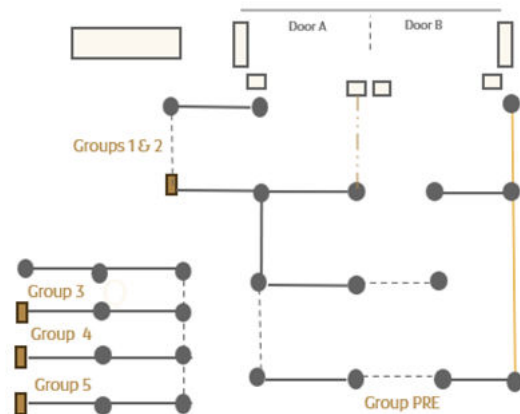

A380 Operations:

Gate setup is combination of group lanes with seat-type allocation.

Layout 3: Code F – A380 Operations

Layout 2: Code F - Operating aircraft is not an A380, however operations are set up at an A380 gate

9.28.2 Crew Boarding Pass Checks

Cabin Crew will no longer be required to verify guests' boarding passes for flight number and date prior to entry into the aircraft.

This applies to the following:

Direct lounge boarding

- Enhanced security flights
- Flights requiring DVU checks
- Flights to the U.S.

NOTE

Wet Lease operations are excluded from this process.

Aircraft Type	Requirements
Wide-body	Cabin Crew shall conduct seat checks only to direct guests to the correct aisle.
Narrow-body	Boarding pass checks will not be conducted. However, guests may be reminded to keep their boarding pass readily available to locate their assigned seats.

In ad hoc situations where this procedure cannot be applied, Cabin Crew shall be advised directly by the Aircraft Dispatcher.

9.28.2.1 Gate Readiness and Boarding Requirements

- Gate staff shall review and clear the 'Ineligible to Board' list and high priority comments in Altéa CM before boarding commences.
- All BGR warning messages shall be reviewed to prevent unmanifested guests from boarding; discrepancies shall be resolved before gate closure.
- Boarding pass verification and passport-to-face validation shall continue to be performed without exception, including confirmation of the flight number, date, and destination.
- The gate area shall remain secure at all times to prevent unauthorised guests from accessing the aircraft.
- For U.S.-bound flights, gate staff shall ensure the biometric exit system is fully operational and utilised for boarding.

9.28.2.2 Diamond Lounge – Boarding Coordination

For VVIPs assisted by the Diamond Lounge, gate agents shall follow the standard process outlined under Chapter 9.18.

The gate lead in the main gate room remains responsible for all communication with the Aircraft Dispatcher and the Diamond Lounge agents to ensure timely boarding. Lounge staff shall maintain continuous liaison with the main gate and confirm once the guest has boarded the aircraft.

9.28.2.3 Post-Boarding Disembarkation

In cases of technical offloads, disembarkations to the departure gate, or gate changes:

- The HOM/GODM shall coordinate with the Dispatch Duty Manager (DDM) to determine whether reduced checks shall continue.
- The dispatcher shall then advise the Cabin Crew accordingly prior to re-boarding.

INTENTIONALLY LEFT BLANK
